

Women... can't help it

'Saluric' can in premenstrual tension with oedema

Women suffering from premenstrual tension with oedema cannot avoid the tiresome and inevitable signs and symptoms of this common condition, which may last for 7 to 10 days every month, prior to the menses. Because many of the distressing symptoms may be directly related to fluid retention, effective diuresis usually brings prompt relief.

'Saluric' can relieve swelling of the ankles, breast engorgement, and fullness of the abdomen. It may well help to alleviate the concomitant irritability and nervousness. 'Saluric' has been proved by 10 years of clinical experience to be a dependable diuretic which can be used month after month to control premenstrual tension with oedema.

Each tablet of 'Saluric' contains 500 mg chlorothiazide BP. Detailed information is available to physicians on request.

David F. Horrobin, St. Mary's Hospital, London, Fellow of Magdalen College, Oxford
488 pages with 455 line drawings

Boards £6 6s. net
Paper 65s. net

Medical students studying physiology require two sorts of facts, those that lead to principles and those that, while not yet leading to a principle, are nevertheless important for clinical medicine. It is on these facts that the author has laid emphasis and other material has been kept down to a minimum.

HANDBOOK FOR OBSTETRIC HOUSE OFFICERS

A. C. Fraser, Consultant Obstetrician and Gynaecologist, St. Mary's Hospital, London and Mary M. Anderson, late Senior Registrar, St. Mary's Hospital, London.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1,2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3,4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

VARICOSITY ?

She'll willingly take your advice if it means wearing fashionable Burson Lightweights

A woman's psychological need for fashion often makes her reluctant to accept your advice to wear elastic stockings. Burson Lightweights have been specially created to provide the answer.

Undetectable in wear, they are truly acceptable to the most **fashion-conscious woman**—yet are **completely effective in relieving the pain and discomfort of a mild varicose condition** and are approved by the N.H.S.

Made of alternating strands of strong, supple elastic with strands of sheer nylon, Burson Lightweights combine strength and resilience with stretch in **both** directions. Horizontal stretch eases the pressure of distended veins; vertical stretch aids the natural flow of blood

back to the heart. Available under N.H.S. (on the EC 10 form) in six normal stocking sizes scientifically adjusted to fit all leg shapes, they come in a pleasing shade.

Thus, in specifying Burson Lightweights when prescribing for mild varicosity, you will ensure your patient's relief from discomfort—whilst preserving her confidence and femininity.

Does it exist? Do you ever come across it except in the journals? Is it a genuine cause for concern or merely a fashion fad of little consequence? Many are sceptical! Since the organism is so difficult to identify early on and is recognised in such a small proportion of patients—why even consider it? On the other hand the increasing amount of published evidence now associating Mycoplasma with various infections, pneumonia,^{1,2} bronchitis,³ even non specific urethritis,⁴ makes one aware that at least some consideration must be given to the question.

Broad enough to cope with both the 'ordinary' and the 'extraordinary' infections, ranging from pneumococcus to Mycoplasma.

Simple in dosage to facilitate patient's adherence to dosage schedule

RONICOL*TIMESPAN*

gives day-long relief
from symptoms due to 'poor peripheral circulation'

Microphotograph of the bulbar conjunctiva in a man aged 65 with peripheral vascular disease.

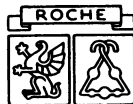

The same area two hours after a single Ronicol Timespan tablet, showing marked vasodilation.

Ronicol Timespan presents a powerful vasodilator (β -pyridyl carbinol) in a long-acting tablet form which rapidly produces sustained vasodilation. Because the action is prolonged, peripheral vascular diseases can be treated with a convenient, twice-daily dosage schedule.

Ronicol Timespan is indicated for:

- peripheral vascular diseases giving rise to 'poor peripheral circulation'
- intermittent claudication
- cramps, including night cramps
- vasospasms such as Raynaud's phenomenon, acrocyanosis and other ischaemic conditions of the limbs.

*Ronicol is the registered trade mark applied to pharmaceutical preparations containing β -pyridyl carbinol, the alcohol corresponding to nicotinic acid. Timespan is the registered trade mark applied to long-acting dosage forms.

More pain-free days

In angina pectoris, Inderal protects the heart from the oxygen-wasting effects of emotion and effort.

The unique action of 'Inderal' represents a revolutionary new concept of long-term relief of angina, rather than just the treatment of the condition as and when it arises.

Through adrenergic beta-receptor blockade, 'Inderal' protects the heart from the action of adrenaline. There is a slowing of the heart-rate and

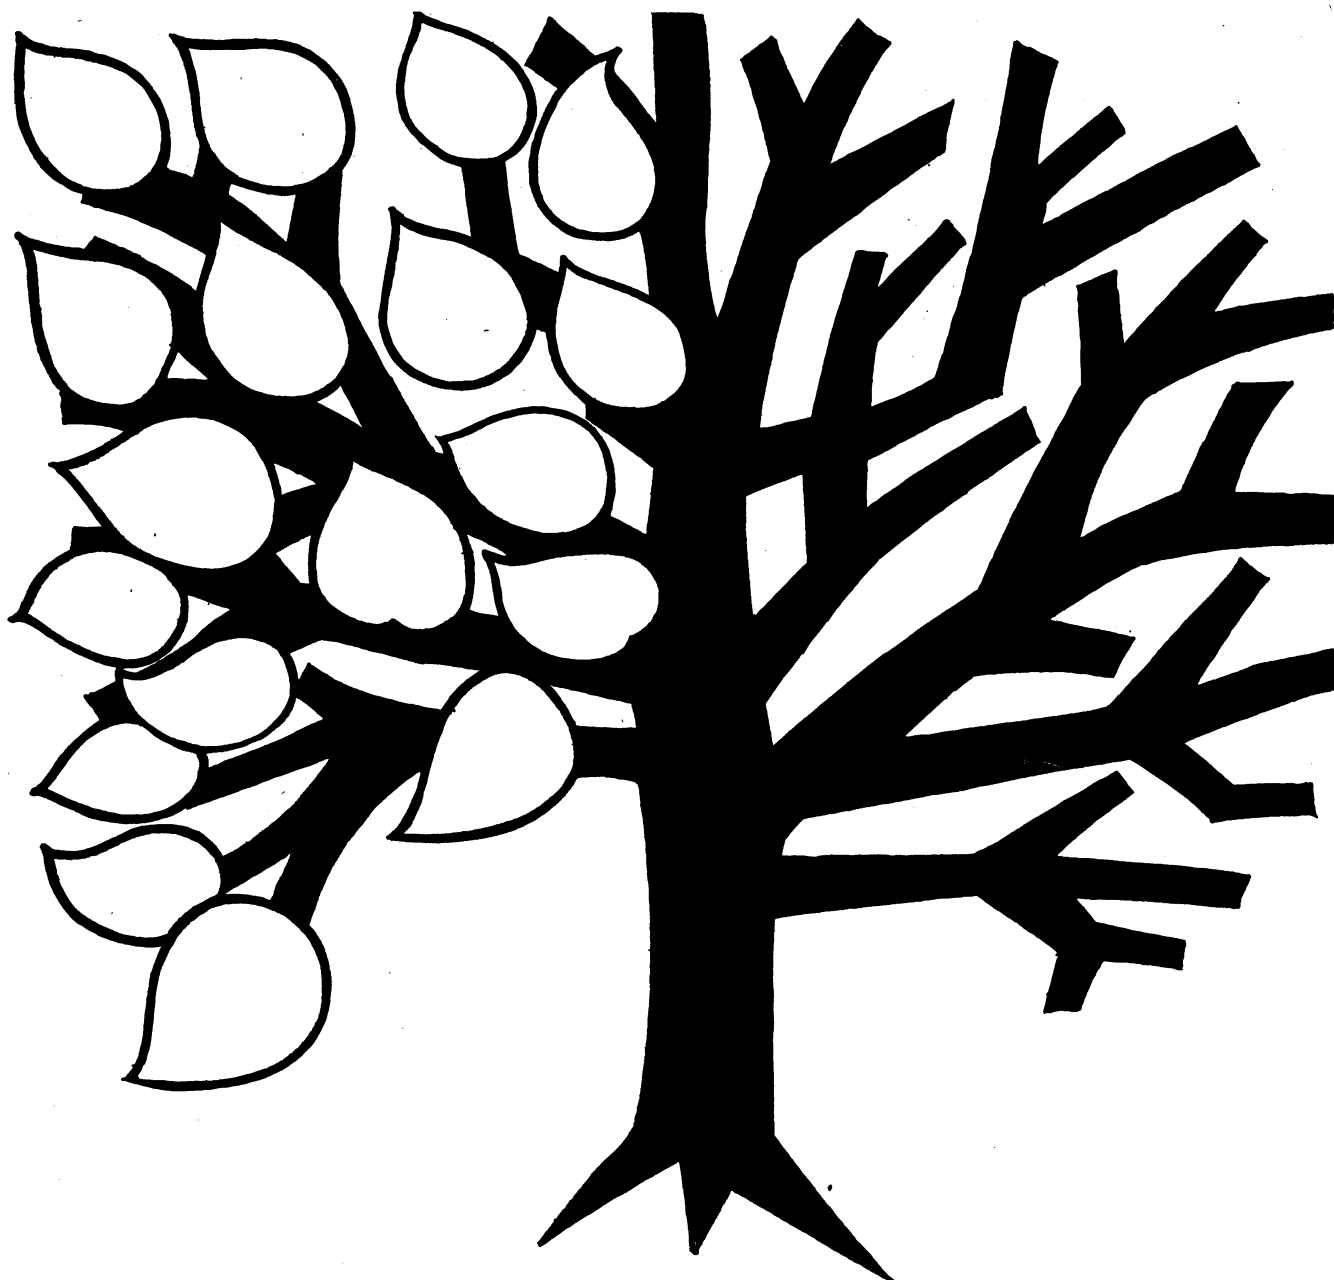

B

reduction in the oxygen needs of the myocardium.

The results: more pain-free days; increased effort tolerance. Inderal is the only treatment to have been proved consistently in double-blind clinical trials. Tests also show it to be effective in very severe cases of angina (unlike other forms of angina therapy).

FOLIC ACID DEFICIENCY and ANAEMIA OF PREGNANCY

FOLEX-350

CONTAINING FOLIC ACID 350 MICROGRAMS IN EACH TABLET

EC&E

ONE TABLET DAILY THROUGHOUT PREGNANCY

It is now known beyond doubt that megaloblastic anaemia of pregnancy is caused by deficiency of folic acid.

From the very excellent results obtained over the years by the prophylactic use of folic acid and iron given orally from the beginning of pregnancy it is becoming more and more generally accepted that anaemia of pregnancy can be prevented. The question of the optimum dose of folic acid has not been easy to establish but recent work* suggests that not less than 300 mcg. and not more than 400 mcg. daily can be considered adequate.

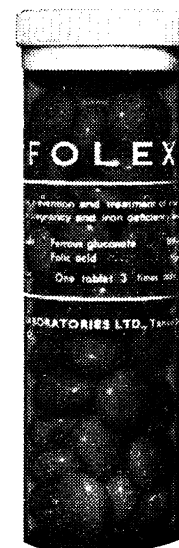

In the light of this knowledge Folex-350 containing 350 mcg. of folic acid and 300 mg. of ferrous gluconate has been introduced.

Private treatment today

In this space BUPA reports from time to time on matters which may be of interest to those concerned with private treatment in this country. BUPA's own interest is clear and declared; we believe a strong private sector in medicine to be an essential corollary to a successful public sector. Alone among the provident associations, we are sponsoring (through Nuffield Nursing Homes Trust) the creation of new and expanded facilities for private treatment.

The BUPA Medical Centre

Britain's first health screening and diagnostic centre is to be set up in Central London at a cost of £100,000 following an agreement between The British United Provident Association and the Institute of Directors.

The BUPA Medical Centre will be run in conjunction with the Institute of Directors' Medical Centre which has pioneered executive health checks in Britain. Sir John Richardson, Consultant Physician to St. Thomas's Hospital, the Metropolitan Police and London Transport, will be President of the new Medical Centre. Sir John is already Chief Medical Adviser to both BUPA and the Institute of Directors' Medical Centre.

Dr. H. Beric-Wright, Director of the Institute of Directors' Medical Centre, will combine this role with direction of the new Centre.

The Centre will be available to BUPA subscribers referred to it by their own doctors, to patients referred for screening or diagnosis by any doctor, and to users of the Institute of Directors' Medical Centre. Using automation techniques, linked with computerised record keeping, the new Centre will provide cheaper and quicker medical diagnosis. Screening will take about an hour and will include detailed body measurements, X-rays, cardiograph, blood count and chemistry, and tests for breast and womb cancer. Each division will be supervised by a consultant. The cost to the user of the screening service is expected to be less than £20.

It is hoped to run an evening shift so that people can be screened on their way home from work, with the results available within about two hours.

Nuffield Nursing Homes Trust—Tunbridge Wells

The Trust's fourteenth Home, in Kingswood Road, Tunbridge Wells, which was recently opened, is under the care of the newly appointed Matron, Miss M. D. French, who joined the Trust from the National Heart Hospital.

This modern £192,000 Home opened with twenty beds, but the Home is so designed as to allow further extension of accommodation as local needs increase.

Nuffield Nursing Homes Trust—Slough

The new Nuffield Nursing Homes Trust 'mini hospital', the £200,000 Slough Nuffield Nursing Home, is nearing the end of its first year with a full complement of 30 single-bedded rooms in use. This modern, two-storey building in Wexham Street embodies the high standards of equipment and accommodation of the Trust in setting up surgical nursing homes for local communities.

Every room is equipped with individual 'call nurse' facilities, bedside phone and, if desired, television. In addition to the fully equipped modern operating theatre suite there is a diagnostic X-ray department, the Home being intended primarily for the treatment of short-stay acutely ill medical and surgical cases—although long-term patients may be admitted at the discretion of the Matron. Enquiries should be addressed to the Matron, Miss Kathleen Rolfe.

effectiveness matters most -but Haelan offers more

Haelan certainly is effective—it contains flurandrenolone, one of the most powerful steroids for topical use. Haelan has the right concentration of flurandrenolone (0.0125%) to resolve most steroid-responsive skin conditions without undue risk of systemic side effects. But there's more to Haelan than that.

Because flurandrenolone is so active, Haelan provides an ample quantity of base for easy application, and the big 60G (2 oz) tube is large enough to treat the average patient without the need for repeat prescriptions. Last, but by no means least, Haelan, at less than 2½d per gramme is clearly economical.

Sustanon makes a man a man again

in body and in mind

When gonadal activity is inadequate the young or middle-aged male may demonstrate diminished genital structure, and response, to the point of impotence. Understandably the repercussions reach far beyond the purely physical – often playing havoc with the patient's psyche, marriage and career.

Every physician knows how complex is diagnosis of the condition, with the patient frequently hiding the facts not only from his doctor but *from himself*. Even when the diagnosis is established, therapy is not straightforward and many factors must be considered. Nevertheless with Sustanon a clear, early and sustained response may occur at all levels, physical, mental, and emotional.

Sustanon is preferable to testosterone propionate as of course no single testosterone ester provides both lengthy activity and rapid onset of action. This Sustanon does. Its prolonged activity is such that only an occasional injection is needed to maintain the required therapeutic level.

Sustanon '100'

2 weeks' activity – contains 100mg testosterone per ml:

Testosterone Propionate B.P. 20mg
Testosterone Phenylpropionate B.P. 40mg
Testosterone Isocaproate 40mg

Sustanon '250'

4 weeks' activity – contains 250mg testosterone per ml:

Testosterone Propionate B.P. 30mg
Testosterone Phenylpropionate B.P. 60mg
Testosterone Isocaproate 60mg
Testosterone Decanoate 100mg

Packs: Boxes of 3 ampoules of 1 ml in either strength.

Coughs and colds thrive on togetherness

Rx
Rinurel Linctus

**one prescription to separate cough and cold
sufferers from all their symptoms**

Where other 'cold remedies' limit themselves to relieving upper respiratory distress, or cough, or aches and pains, Rinurel Linctus copes with all these symptoms together. It contains an analgesic/antipyretic, an anti-tussive, a decongestant and an antihistamine. It is a pleasantly-flavoured liquid, suitable for adults and children alike.

Rinurel Linctus is supplied in bottles of 4 fl. oz., each 10 ml. containing Paracetamol B.P. 300 mg., Pholcodine B.P. 10 mg., phenylpropanolamine hydrochloride 25 mg. and phenyltoloxamine citrate 22 mg. Full information is available on request. William R. Warner & Co. Ltd. Eastleigh Hants.

before you're
certain of
the sensitivity

'Because of its wide antibacterial action and relative freedom from toxic manifestations, nitrofurantoin ["Furadantin"] should be considered for the treatment of patients with urinary infections when treatment is begun before the sensitivity of the infecting organism is known'*.

We can add 4 more reasons! Broad-spectrum action essentially confined to the urinary tract — no clinical problem of acquired drug-resistance in over a decade of widespread use — no risk of cross-sensitization to prejudice future therapy — and no disturbance of intestinal flora.

Whoever heard of a Burton Doctor Suit?

Nobody.

But we have a suit that will suit him to perfection. The Burton Director Suit.

Now although this suit started out without a name it started *with* a director.

With our managing director, no less.

His idea: a ready-to-wear suit tailored to the highest bespoke standards. The kind of suit which he himself would be happy to wear at his most important meetings. (Incidentally, he's very particular about his clothes.)

So in due course, the Burton Director Suit was born. And named. And

applauded by doctors, architects, barristers, bankers . . . hundreds upon hundreds of professional men.

Indeed, people who know a lot about clothes reckon there's nothing to touch the Burton Director Suit at anywhere near the price.

(Two-piece from 22 guineas. Three-piece from 26 guineas.)

For the record: each suit is cut by hand from Pure New Wool cloth; then put together, piece by piece, so that it looks, feels and behaves like a costly bespoke suit. And it comes in an infinite number of fittings. Now because so much individual attention goes into these suits, supplies are limited to selected Burton branches. For a check-list see your nearest branch.

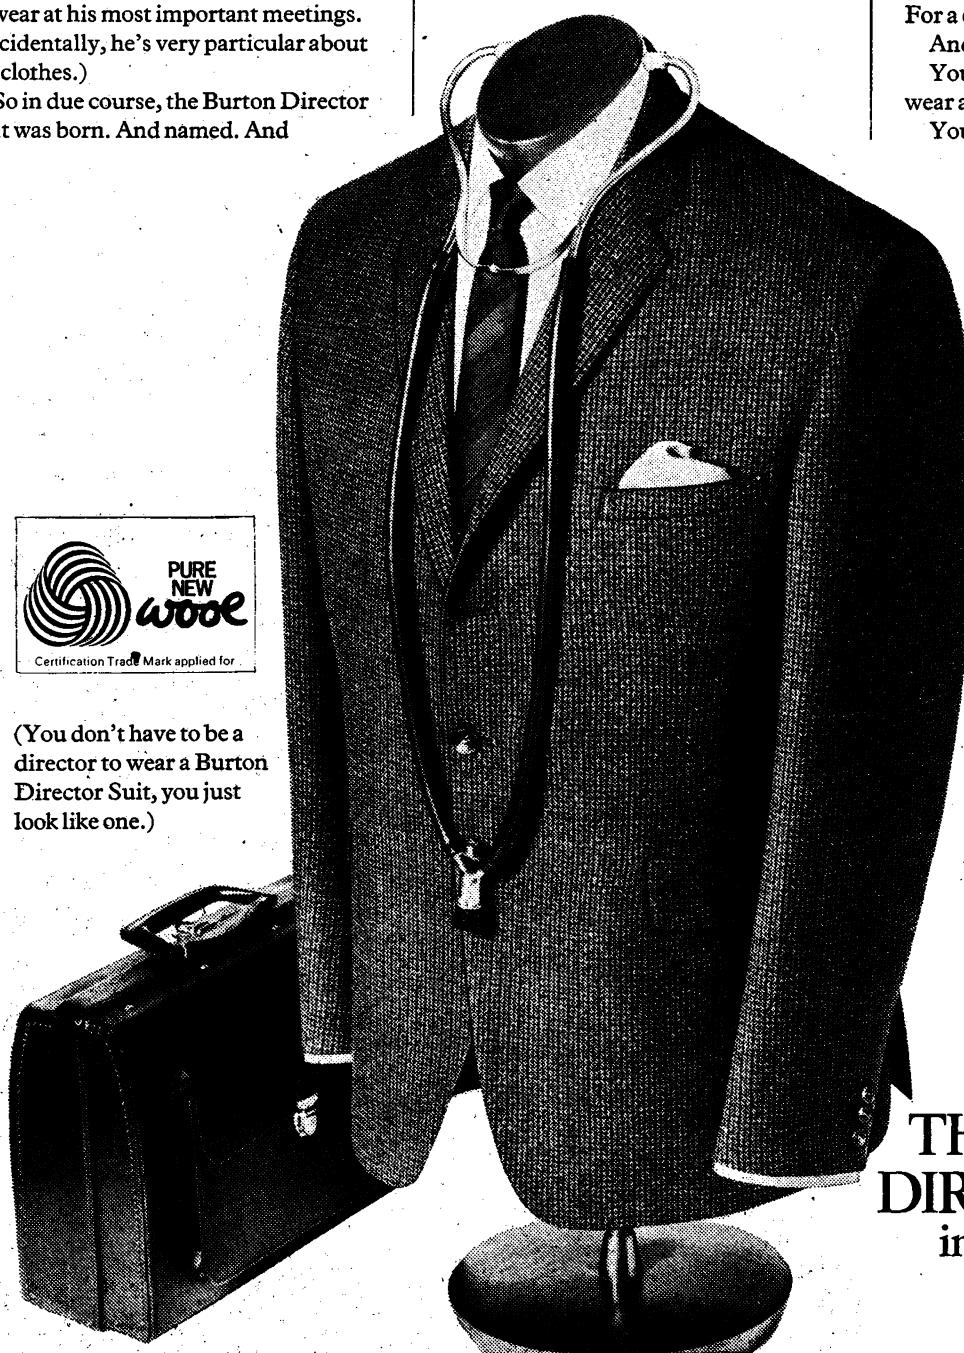

And remember.

You don't have to be a director to wear a Burton Director Suit.

You just look like one.

Neo-Mercazole™

the treatment of thyrotoxicosis

"We suggest that all patients with Grave's disease, irrespective of age or sex, should be treated with antithyroid drugs for six months." (In a few, surgery or ¹³¹I may be necessary before six months has elapsed) ... the decision for or against continuing drug therapy can then be made on the basis of thyroidal suppressibility by triiodothyronine."¹

INDOCID[®]

INDOMETHACIN

a sign of improvement

a more active life for many arthritic patients...

patients, for example, in whom the ability to perform simple, everyday tasks is limited by disorders such as rheumatoid arthritis, osteoarthritis, ankylosing spondylitis, and bursitis. In such cases, 'Indocid' can reduce pain, inflammation and stiffness, and bring a progressive improvement in mobility.

"It is clear from reported clinical experience that indomethacin is a powerful compound, capable of giving relief of symptoms and reduction of inflammatory signs in several rheumatic disorders."

Brit.med.J., 1966, 1, 80 (8 Jan)

"There is general agreement that indomethacin is an effective non-corticosteroid drug with anti-inflammatory, antipyretic and pain-relieving properties."

PRACTICES

(Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

BIRMINGHAM—BRANDWOOD MUNICIPAL WARD (HALL GREEN PARLIAMENTARY DIVISION)

Applications are invited for a vacancy in medical practice due to resignation on January 31, 1969. Urban area classified as "designated" since July 1, 1965. List 3,300 approximately.

Surgery accommodation will be available. Application forms (E.C.16A) and further details may be obtained from the undersigned. The closing date for the receipt of completed applications is November 30, 1968.

—K. F. G. Day, Clerk, Birmingham Executive Council, Sutton New Road, Edingington, Birmingham 23. (Telephone: 021-373 2651). (H.5833)

BOLTON-ON-DEARNE

Applications are invited for vacancy at Bolton-on-Deane due to resignation on January 22, 1969. Area "designated" since March 29, 1966. List at present 2,799. Residential and surgery accommodation available for purchase. Local health authority staff attachments available to the practice. Successful applicant required to take over January 23, 1969.

Applications on Form E.C.16(A) obtainable from the undersigned, should be submitted to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than November 22, 1968. (H.5743)

BOROUGH OF BRIDGWATER

Applications invited for vacancy arising January 1, 1969, due to resignation in the above borough. Area "Open." List approximately 2,200.

Residence not available. Surgery premises may be available. Closing date November 26, 1968. Application forms E.C.16A with further details from: The Clerk, Somerset Executive Council, 21 Montpelier, Weston-super-Mare, Somerset. (H.5880)

STOKE PRIOR—WORCESTERSHIRE

Applications are invited from general medical practitioners who may be interested in reducing their work-load, but who do not wish to give up general practice entirely, and who would like to practise in semi-rural area which is not too far from centres of population.

The successful applicant would succeed immediately to a list of approximately 850 patients, but a resident doctor would probably attract further patients. The incoming doctor would have to provide his own accommodation, but it is thought that a doctor contemplating early retirement to such an area would prefer to do this. Further details may be obtained from the Clerk, Worcestershire Executive Council, 99 High Street, Worcester, telephone Worcester 2581. (H.5832)

CLAYTON WEST, NEAR HUDDERSFIELD (DENBY DALE U.D.)

Applications are invited for vacancy at Clayton West due to resignation on January 31, 1969. "Open" area. List 3,690. Residential accommodation available for purchase. Surgery accommodation available on rental at local health authority clinic. Successful applicant required to take over February 1, 1969. Applications on Form E.C.16(A) available from the undersigned should be submitted to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than November 22, 1968. (H.5789)

RE-ADVERTISEMENT GREATER LONDON BOROUGH OF HAVERING HORNCHURCH (RAINHAM), ESSEX

Applications are invited for a medical practice vacancy in above urban area (classified as "Designated"—additional allowance payable) arising from retirement of practitioner with effect from March 31, 1969.

Total number on list—3,300 approximately. Residential and surgery accommodation available for purchase.

Forms E.C.16A and further details obtainable from the Clerk, North-East London Executive Council, Ilford Lane Chambers, Ilford Lane, Ilford, Essex.

Applications to be received not later than November 28, 1968. (H.5882)

GREATER LONDON BOROUGH OF NEWHAM WEST HAM

Applications are invited for a medical practice vacancy in the above urban area (classified as "Open") arising from retirement of practitioner.

Total number on list—3,600 approximately. Form E.C.16A and further details obtainable from the Clerk, North-East London Executive Council, Ilford Lane Chambers, Ilford Lane, Ilford, Essex.

Surgery premises available for purchase. Applications to be received not later than November 28, 1968. (H.5881)

RE-ADVERTISEMENT HARTLEPOOL EXECUTIVE COUNCIL

Applications are invited for a single-handed practice vacancy in the county borough of Hartlepool due to resignation on December 31, 1968. List at present approximately 2,170. Residence/surgery available.

Applications, on Form E.C.16A, to reach the Clerk, Hartlepool Executive Council, 10 Grange Road, Hartlepool, by first post on Friday, November 22, 1968. (H.5785)

WEST RIDING OF YORKSHIRE EXECUTIVE COUNCIL KIRK SANDALL, NEAR DONCASTER

Applications are invited from doctors interested in starting an entirely new practice at Kirk Sandall, which is a "designated" area located in the Doncaster Rural District. Residential and surgery accommodation may be available on rental. Initial practice allowance payable to doctor new to area, for a period of four years commencing at £1,800 for the first year and at a reducing rate during following three years, subject to successful applicant having been in general practice for a total period of not less than two years or having been fully registered for not less than four years. Applications, on Form E.C.16A (obtainable from the undersigned), should be submitted to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than Friday, November 29, 1968. (H.5816)

M.Sc. SOCIAL MEDICINE

An Academic Course leading to the degree of Master of Science in Social Medicine in the Faculty of Medicine of the University of London will start on September 29, 1969 and extend over two calendar years. The Course is designed to provide professional training for doctors wishing to specialize in social medicine and to follow careers in either:

MEDICAL ADMINISTRATION AND COMMUNITY MEDICINE

or

TEACHING AND RESEARCH IN SOCIAL MEDICINE

The training has been designed to enable the graduate to participate in the administration of medical services in any branch of the present National Health Service or in the new structure now being considered. Application has been made to the General Medical Council for approval of the course for the purposes of registration under Section 48 of the Medical Act, 1956.

The content of the course will include the study of statistics and epidemiology, social and behavioural sciences and the principles of management and medical administration. It will aim to integrate the biological, social, and practical aspects of major issues in hygiene, preventive medicine and medical care. During the second year each student will be attached to an academic or service unit in order to gain experience in applying the relevant range of skills from epidemiology, operational research and behavioural science to policy, planning, management and evaluation of health services.

The Course will initially be limited to 12 students, who must be medically qualified and have had at least two years' clinical experience.

A number of bursaries, of value equivalent to senior registrars' emoluments, are available to suitable candidates for the two years of the course.

Further details and application forms may be obtained from the Registrar, London School of Hygiene and Tropical Medicine, Keppel Street (Gower Street), London W.C.1, to whom applications for admission should be addressed before March 1, 1969. (13518)

UNIVERSITY OF EXETER
Postgraduate Medical Institute

A full-time postgraduate course lasting 10 weeks will begin on January 15, 1969. These courses are held three times a year starting in October, January and April. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training.

It is sometimes possible to accept general practitioners for one or two weeks of a course, and attendance for this period is recognized under Section 48 of the N.H.S. Act (1946). These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least five years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom). Further particulars and application forms for those courses are obtainable from the Director, The Post-Graduate Medical Institute, The University, Exeter, Devonshire.

Department of
Experimental Therapeutics

Basle and London

The Department of Experimental Therapeutics is concerned with specific scientific questions relating to human and clinical pharmacology. Complex problems of therapeutic evaluation not amenable to formal controlled clinical trials are dealt with by this Department on an experimental basis.

In Basle a vacancy exists in the Department for a British medical graduate who will advise the Head of Department and assist in the co-ordination of research activities, mainly in Great Britain but also in some other European countries.

In London the position involves the planning, organisation and administration of particular studies of drug assessment.

Members of the Department carry substantial responsibility and enjoy an appropriate measure of independence. The duties call for a wide knowledge of both experimental and clinical medicine.

Applicants should possess sound clinical experience, preferably a higher medical qualification and, in addition, experience in a basic science—for example, physiology, pharmacology, biochemistry, immunology etc. Some training in clinical pharmacology would be an advantage but is not essential.

Applications are invited for these positions in the Department of Experimental Therapeutics in the Sandoz parent organisation in Basle, Switzerland and in London.

in Diabetes

ICI Limited, Pharmaceuticals Division, requires a research scientist to work on diabetes with special reference to the discovery of a drug for the control of "insulin-resistant" diabetes. The successful candidate may or may not be medically qualified, but will have a sound knowledge of biochemistry, although orientated towards biological work. Evidence of ability to do research is essential.

The work will be done at the Division's research laboratories at Alderley Park, Cheshire, where research is already proceeding in related fields. Facilities and environment (aesthetic and scientific) provided by the laboratories are excellent.

The attractive conditions of service would be discussed at interview. The successful candidate, if married, may receive a reasonable refund of removal and travel expenses and, if necessary, assistance in house purchase.

Applications, giving brief details of age, qualifications and experience should be addressed to:

J. Leak, Assistant Personnel Manager,
Imperial Chemical Industries Limited,
Pharmaceuticals Division,
Mereside, Alderley Park,
Macclesfield, Cheshire.

ARMED FORCES MEDICAL OFFICERS NEW ZEALAND

Vacancies exist in the three New Zealand Armed Services for Medical Officers. To encourage medical practitioners to participate in the defence of our country without professional handicap several alternative schemes have been approved.

Special Medical Engagement in Service of Choice

- (a) A three year engagement with a terminal grant of NZ\$6,800 (Stg. £3,173) of which only 5% is accessible for taxation.
- (b) A four and a half year engagement which includes 18 months' overseas postgraduate training. Salaries for both of these schemes range from NZ\$4,217 (Stg. £1,968) to NZ\$4,503 (Stg. £2,101) single and NZ\$4,297 (Stg. £2,005) to NZ\$4,583 (Stg. £2,139) married.

Short Service Commission in Service of Choice

Normally four years but can be varied. Officers may attend Otago University to obtain a Diploma of Public Health or alternatively qualify for 30 days annual Clinical Leave.

There are opportunities for sea-going appointments, whilst other positions for older practitioners are also available. Salaries range from NZ\$4,940 (Stg. £2,305) to NZ\$5,970 (Stg. £2,786) single and NZ\$5,020 (Stg. £2,343) to NZ\$6,050 (Stg. £2,823) married.

Long Service Commissions in Service of Choice

Similar conditions as for Short Service Commissions are available for career appointments.

Fares to New Zealand for successful applicants and their families will be provided, and in most cases priority housing is available at low rental. For full details write to the Director of Medical Services in the Service of your choice.

MINISTRY OF OVERSEAS DEVELOPMENT

The Need

GENERAL DUTY MEDICAL OFFICERS

For duty both in large new hospitals and in the outlying districts of the Developing Countries overseas, for contract appointments of 2 to 3 years.

The Opportunity Overseas service offers a unique chance for world travel, an opportunity to widen professional experience, and to acquire a broader understanding of the world and its people.

The Advantages Doctors' skill and knowledge will be used to the full on people who have a crying need for their service. Salaries reflect the local cost of living and are normally higher than one would expect to receive in the United Kingdom. There are generous gratuities on satisfactory completion of contract, education allowances for children, free family passages. Accommodation provided usually at a low rent. In most cases superannuation rights can be preserved or maintained.

Salaries Vary widely from country to country with the local cost of living. However, with certain exceptions they range from approximately £1650 to £2900 per annum.

Training Scheme for Recently Qualified Doctors

In return for an undertaking to serve for at least two years in the developing countries overseas the Ministry offers a course of training to recently qualified doctors which is designed to fit them for service overseas and which will be attractive professionally and financially. During the period of training of 12 to 15 months the doctor will receive a retaining fee of £200 per annum in addition to his hospital salary. Write now for full details of the scheme.

GENERAL PRACTITIONER REQUIRES assistant or associate for busy general practice with hospital facilities in Northern Alberta. Salary open. Please give full particulars in first letter.—Reply Box 158, Ft. Vermilion, Alberta, Canada.

GOLDEN BAY, NEW ZEALAND

GENERAL PRACTITIONER
A modern four-bedroom house with new surgery separate from the house but on the same double section is offered for renting to a doctor prepared to set up full-time practice in Takaka. A local doctor is available for relieving duties as required.

As Golden Bay is an approved area a doctor taking the appointment would qualify for an assisted passage, and the Golden Bay County Council would give all the assistance it is able.

Takaka is situated in the north of the South Island. It enjoys a warm sunny climate (some 2,000 hours of bright sunshine each year) and has many fine sandy beaches from which, in part, the sandy gets its name. It is close to the Abel Tasman National Park, good fishing and other outdoor recreations. The district also has several active cultural groups.

For further information on the district and the prospects for establishing a practice, please write to the County Clerk, Golden Bay County Council, P.O. Box 74, Takaka, Nelson, New Zealand.

ST. ANDREW'S HOSPITAL NORTHAMPTON

Medical Director:
James Harper, M.D., F.R.C.P. (Edin.), D.P.M.

St. Andrew's Hospital is a private psy-
chiatric hospital situated in 130 acres of
parkland in the county town of Northamp-
ton. In general, patients are admitted to
Wantage House, a reception unit in the
grounds, which is equipped for the investi-
gation and treatment of all forms of mental
and nervous illness. In addition, there is
accommodation mainly in private rooms,
both in the main hospital and in various
villas, for longer stay patients and geriatric
patients.

The hospital's amenities include Gloucester
House, which comprises an occupational
therapy department, a swimming pool, a
squash court and library, while in the
grounds there are tennis courts, a nine hole
golf course, etc.

Fees range from 25 guineas per week, and
charges for treatment at St. Andrew's Hos-
pital are allowable for benefit to British
United Provident Association and Private
Patients Plan subscribers.

Further particulars can be obtained from
the Medical Director, St. Andrew's Hospital,
Northampton (Tel.: Northampton 34354),
who can be seen in consultation by appoint-
ment, either at the hospital or at 55 Harley
Street, London W.1.

BACTRIM[†] ROCHE

*a major discovery
in the control of infection*

Bactrim Roche: is highly effective
 in acute exacerbations
of chronic bronchitis.
It has an ultra-wide
spectrum of activity
and its dual action gives it great
bactericidal potency, especially
against *Haemophilus influenzae*
the most important pathogen in
chronic bronchitis.

Bactrim Roche produces its highly potent bactericidal activity from the potentiating action of its two components – sulphamethoxazole and trimethoprim. A leading article in the British Medical Journal on 18 May 1968 drew attention to the important therapeutic potential of this bactericidal synergy.

In a trial¹ Bactrim Roche* rapidly cleared purulent sputum and produced marked clinical improvement in every one of a group of 50 chronic bronchitics, where treatment with one or more antibiotics had already failed.

1. Proc. V int. Congr. Chemother., 1967 *I*, 293. *The formulation used in this trial was slightly different from that which was subsequently found to produce the best results and which has now been adopted.

[†] Bactrim is the trade mark for preparations containing sulphamethoxazole and trimethoprim.
