

people who catch colds-need not suffer from them

In the patient suffering from the common cold, **Eskornade** swiftly dries up excess secretion, shrinks engorged mucosa and controls allergic reactions such as rhinorrhoea, lacrimation, itching eyes and sneezing.

ESKORNADE

means colds clear and dry-all day

Each 'Eskornade Spansule' Sustained-release Capsule contains isopropamide as the iodide 2.5 mg., phenylpropanolamine hydrochloride 50 mg., and diphenylpyraline hydrochloride ('Histryl') 5 mg. 'Eskornade' Syrup is also available. Literature containing prescribing information is obtainable on request

Smith Kline & French Laboratories Ltd Welwyn Garden City, Hertfordshire

'Eskornade', 'Histryl' and 'Spansule' (brand of sustained-release capsules) are trade marks.

SED: PA 18 col.

BACTRIM ROCHE

Bactrim Roche brings a new potency to the treatment of infections. Its unique dual, bactericidal action destroys bacteria/by blocking two successive stages in bacterial metabolism.

Bactrim Roche produces its highly potent bactericidal activity from the potentiating action of its two components - trimethoprim and sulphamethoxazole. A leading article in the British Medical Journal on 18 May 1968 drew attention to the important therapeutic potential of this bactericidal synergy.

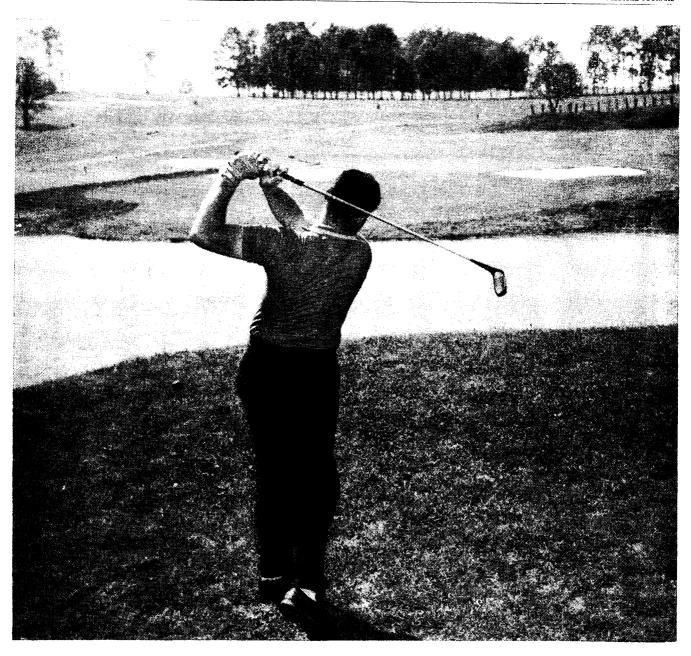

Bactrim Roche also improves the picture on side-effects. Gastrointestinal reactions are few. Superinfection, fungal overgrowth and tooth staining have not beën reported.

Bactrim Roche: Brings to chronic bronchitis and other infections a new potency, a new simplicity, a new success.

†Bactrim is the trade mark for preparations containing trimethoprim and sulphamethoxazole.

Hazard Ahead...

but with care, one that is readily overcome.

The 'Hazards' facing you and your family are not so easily tackled, but with the same care you can provide for your self and your dependants with the right type of insurance.

Understandably, you may not know where to start, but the Medical Insurance Agency, with its knowledge of the insurance market and of the needs of the medical and dental professions, will help you to find the policy that is exactly right for you.

BACTRIM'ROCH]

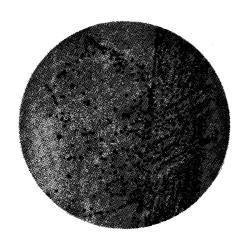

BRITISH MEDICAL JOURNAL

In a trial Bactrim Roche* was given to 50 In all 50 cases five to seven days of treatchronic bronchitics whose clinical condition, and purulent sputum, showed that they were suffering from an infective exacerbation. In all cases treatment with one or more antibiotics had already failed.

ment with Bactrim Roche produced a rapid clearance of purulence and marked clinical improvement.

Clearly, the successful treatment with Bactrim Roche was due to its dual, bactericidal action against a broad range of bacteria. Of particular interest in treating acute exacerbations of chronic bronchitis is the activity of Bactrim Roche against Haemophilus influenzae: an organism commonly involved in these episodes and often unresponsive to antibiotics.

1. Proc. V int. Congr.Chemother., 1967, I, 293. *The formulation used in this trial was different from that which was subsequently found to produce the best results and which has now been adopted.

Bactrim Roche: More effective in chronic bronchitis with a unique bactericidal action, especially active against laemophilus influenzae.

† Bactrim is the trade mark for preparations containing trimethoprim and sulphamethoxazole.

Trichomoniasis?

With 'Flagyl' a pessary is unnecessary

"... oral metronidazole (Flagyl) is effective with no local freatment ..."

Practitioner, 198, 12, 1967.

'Flagyl'* is supplied as Metronidazole Tablets B.P. 200 mg. in prescriber units of 21 tablets.

MAY & BAKER LTD Dagennam Essex RM10 7XS

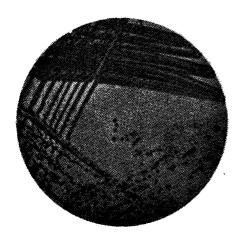

BACTRIM[†]**ROCHE**

Throughout a wide range of infective conditions, the unique bactericidal action of Bactrim Roche gives it a new and important role. In addition to H. influenzae, for example, Bactrim Roche is particularly effective against Proteus species, problem pathogens in urinary tract infections.

The unique dual action of Bactrim Roche gives it an ultra-wide antibacterial spectrum and the emergence of resistant strains of bacteria is likely to be delayed.

In infections responsive to Bactrim Roche, its unique mode of action, wide range of activity, reduced side-effects and simple dosage offer a new potency, a new simplicity and a new success in treatment.

Bactrim Roche: Effective in many other conditions, just as it is in chronic bronchitis, because of its unique bactericidal action against many organisms.

† Bactrim is the trade mark for preparations containing trimethoprim and sulphamethoxazole.

I feel just can't cope anymore

The over-anxious patient needs your sympathy... and the calming effect of BENVIL

Your reassurance, understanding and encouragement play an absolutely vital part in the treatment of any patient you feel is emotionally distraught. To help you *keep* your patients relaxed, calm and attuned to the realities of life you may wish to prescribe Benvil.

In cases of acute anxiety and tension, Benvil relaxes, calms, and restores a feeling of well-being. And it does this without over-sedation, which means that patients can successfully go about their daily work – an important aid to readjustment.

Moreover, reports on Benvil suggest that it is free from dependence.

Benvil is available as a new, smaller blue capsule containing 250 mg. tybamate in an original pack of 50.

Dosage: One capsule 3 or 4 times a day. For elderly patients it is recommended that therapy be started on the lower dosage. The dosage can be increased if necessary to a maximum of eight capsules in 24 hours to suit the individual concerned.

Precautions: Side effects are mild and infrequent at the normal dosage. In the aged, hypotensive effects are possible at higher doses. If drowsiness or mild dizziness occur, the patient should avoid activities requiring optimal alertness. If symptoms of hypersensitivity occur, treatment should be stopped and appropriate symptomatic therapy given.

Consumption of alcohol or concurrent administration of other psychotropic agents (e.g. phenothiazines, monoamine oxidase inhibitors) may have an additive effect. The customary precautions should be taken in administering Benvil to patients with a history of drug

allergies, blood dyscrasias, hepatic or renal disease. There has been no evidence to suggest development of tolerance or dependence with Benvil: in common with other psychotropic agents however, it is advisable to give Benvil cautiously to addiction-prone subjects and to withdraw therapy slowly after prolonged use. Although animal tests suggest freedom from teratogenic effects, Benvil cannot at present be recommended during the early weeks of pregnancy.

A morning's surgery brings a lot of Crystapen G patients

How many patients needing antibiotics do you see in a morning? Whatever the number, there is a strong case for using penicillin. It is still the drug of choice in so many infections. An established penicillin in a modern form is Crystapen G (penicillin G)—one you can rely on in the treatment of strep. throats for example.¹ And Crystapen G is as effective clinically as penicillin V.²

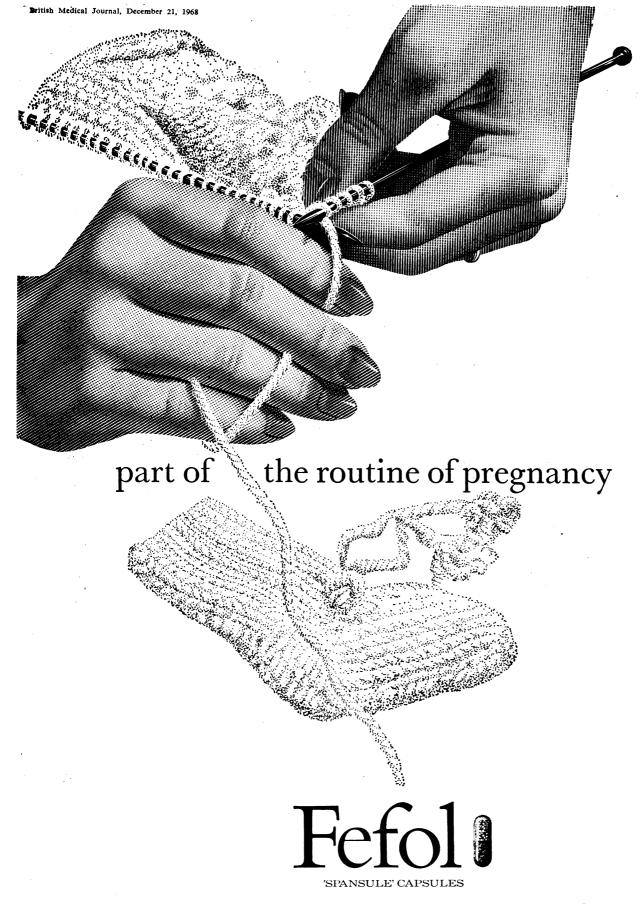

When your patients need oral penicillin, you can rely on Crystapen G.

CARLO ERBA

3 injections

that is all that is required for a hay fever free summer. D-VAC Pollens is a 'depot' desensitising vaccine for the treatment of hay fever and pollen asthma. This short course of injections alleviates the symptoms by building up the patient's resistance to airborne grass pollens which circulate between May and July. The doses are easy to administer and are prepacked in special disposable syringes. Using the procedure outlined opposite will ensure that D-VAC Pollens is given at the best possible time.

Highly effective

D-VAC Pollens has been used in clinical practice for five years following three years of extensive trials. Reported success rates have been as high as 80% of patients treated ^{1-6.} Patient acceptability has been high and the treatment is generally well tolerated ^{1.5.6.} For maximum long term benefit, D-VAC Pollens should be given for three successive years.

Prescribe now:

D-VAC Pollens injections are made to order only. Each prescription should be for the whole course—either Primary or Advanced*—and should state when the first injection is to be given (10th February—8th March). The three injections will be automatically despatched at four-week intervals to arrive a few days before they are required.

Prescriptions should be completed before 31st December.

Because of its wide antibacterial action and relative freedom from toxic manifestations, nitrofurantoin ["Furadantin"] should be considered for the treatment of patients with urinary infections when treatment is begun before the sensitivity of the infecting organism is known'*. We can add 4 more reasons! Broad-spectrum action essentially confined to the urinary tract—no clinical problem of acquired drugresistance in over a decade of widespread use—no risk of cross-sensitization to prejudice future therapy—and no disturbance of intestinal flora.

*"Price's Textbook of the Practice of Medicine", 10th Ed. (1966), p.22.

prescribe broad-spectrum FURADANTIN

For each of them the problem is pain

For all of them the answer is Paynocil

Lumbago or low back pain, fibrositis, muscular rheumatism—however you describe these rheumatic disorders, they mean the same thing to the patient. Pain. And the text-book therapy is the same, too—aspirin.

Then why prescribe Paynocil?

First, because Paynocil *is* aspirin. So it stops pain and relieves inflammation. Second, because Paynocil is aspirin with all these additional benefits:

Well tolerated: Paynocil also contains 300 mg. of glycine, which helps to distribute the aspirin rapidly into the stomach in the finest particles, thus minimising the risk of gastric irritation. Patients with rheumatic disorders who experience nausea, heartburn or epigastric pain after plain aspirin have found Paynocil acceptable.

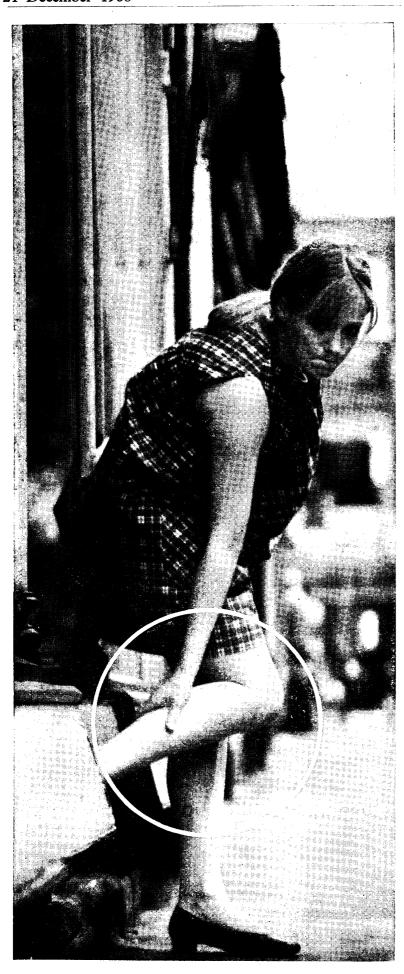

Quick acting: Paynocil, at 600 mg. aspirin per tablet, has twice the strength of aspirin tablets B.P., and in equivalent dosage, is twice as rapidly absorbed. A property which could be of particular value—in combating the rheumatic's morning stiffness for example.

Convenient: Paynocil can be taken without water, for glycine masks the unpleasant taste of aspirin and allows the tablet to disperse instantly on the tongue in a burst of lemon flavour. The tablets come in protective foil strips which slip easily into handbag or pocket. All of which makes Paynocil a most practical form of aspirin for active people.

Junior Paynocil is available, for children, at 150 mg. aspirin per tablet.

Full information is available on request.

BAD LEGS? Tired heavy aching legs

Before 'bad legs' become an ugly problem— PAROVEN®

All the early symptoms of venous insufficiency—tired, heavy, aching legs, skin disorders, and night cramps—respond to PAROVEN therapy. [1-3]

PAROVEN, containing trihydroxyethylrutoside, reduces the increased capillary permeability which "is at the bottom of the majority of the complications of varicose disorders". [4]

Indications

Conditions associated with lower limb venous insufficiency.

Tired, heavy, aching legs. Night cramps. Skin disorders.

Superficial thrombophlebitis.

Varicose states.

Dosage

1 tablet 3 or 4 times a day.

Maintenance dosage [as little as one tablet a day] may be adjusted to patients' needs.

Packages

Tablets of 250 mg. hydroxyethylrutosides [not less than 45% troxerutin]. Tins of 20-100 tablets.

The following appointment as Appointed Factory Doctor is vacant: Stromness, in the County of Orkney. Applications, which should be received by January 4, 1969, should be sent to H.M. Chief Inspector of Factories, Baynards House, Chepstow Place, Westbourne Grove, London W.2. (14234)

UNIVERSITY OF DUNDEE POSTGRADUATE MEDICAL EDUCATION Courses and Attachments for General Practitioners 1969

These courses and the residential attachments in obstetrics have been recognized by the Scottish Home and Health Department as approved postgraduate medical training for general practitioners, whose fees and expenses will be met by the Department on certain conditions. Approval on a similar basis for attachments in specialties other than obstetrics is given by the Department after consultation with the University.

1. Course in Geriatric Medicine, March 24-28, 1969
The course will be held in the Department of Geriatrics, Maryfield Hospital, Dundee. It is intended primarily for General Practioners, but will also be suitable for doctors about to enter the field of Geriatric Medicine, for Medical Officers of Health and for senior nursing and medical ancillary staff.

Accommodation at moderate cost available in University hall of residence.

Course fee £10.

2. Refresher Course in General Medicine and Surgery, June 16-27, 1969

The course will be held in Dundee Royal Infirmary and other hospitals in the Dundee area. Instruction will be given by means of lecture-demonstrations and clinical rounds, with emphasis on recent advances in diagnosis and treatment.

Accommodation at moderate cost available in University hall of

Attachments: Residential attachments in obstetrics at Dundee Royal Infirmary will be available for general practitioners from June to September, 1969.

Attachments in other clinical specialties are also available.

Further particulars for the above courses and attachments may be obtained from the Director of Postgraduate Medical Education, Faculty of Medicine Office, The University, Dundee, DD1 4HN.

COMMERCIAL APPOINTMENTS

medical adviser

Due to a further expansion of research and development programmes, a vacancy has been created for a young registered medical practitioner.

The successful candidate will be involved, primarily, in the field of clinical research, but will also participate in other medical activities of the Company's operations. The work will entail travel within the British Isles and Europe. The work will be both interesting and challenging, and calls for a man with enthusiasm and energy.

Applications are invited from registered medical practitioners, aged under 35, who have reached Registrar status in hospital practice or have an equivalent experience in practical medicine.

Salary will be by negotiation. A Company car will be provided and the Company operates a contributory superannuation scheme.

Requests for an application form should be made to:

Technical Director's Office, Brocades (Great Britain) Limit Trend House, Pyrford Rd., West Byfleet, Surrey.

Parke, Davis and Company are extending their Department of Clinical Investigation. A varied and challenging career in clinical research is offered to a registered medical practitioner aged 30-35. His duties would consist chiefly of designing, initiating, and progressing clinical trials of experimental drugs, assembling the results and assisting in their analysis. Statistical advice is available within the organisation which also provides a good library service, access to computer facilities, pleasant working conditions, opportunities for travel within and outside the United Kingdom, continuous contact with leaders in all fields of medical science and remuneration appropriate to the individual's qualifications and experience.

The successful candidate will have wide medical interests, a welldeveloped critical faculty, good knowledge of modern therapeutics and an ability to express himself concisely on paper. Preference will be given to individuals with a higher qualification, previous research experience or knowledge of European languages, though none of these attributes is essential.

The Company, now located at Hounslow, Middlesex, will be moving in about two years to Monmouthshire and the successful applicant would be expected to move. A Company car is provided and a contributory pension scheme is in operation.

Applicants should send a complete curriculum vitae to:-Personnel Director.

INDUSTRIAL APPOINTMENTS—see also p. xxv

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

Flight Medical Officer

The Air Corporation's Joint Medical Service provides a comprehensive occupa-tional Health Service for BEA and BOAC and includes groups dealing with Aviation Medicine, Industrial Medicine and the care of Overseas Staff.

A vacancy will shortly exist for one Flight Medical Officer who will be based at Heathrow Airport. This appointment is suitable for a young man who is seeking a whole-time career in Aviation medicine with a particular interest in the care of flying staff. In addition, there will be opportunities to take part in aviation medical research projects as they occur from time to time. Previous experience in aviation medicine in the Royal Air Force or Royal Navy would be an advantage but is not essential. The preferred age range is up to 35 years.

Candidates must be medically registered in the United Kingdom. Salary will be within the B.M.A. Medical Officer scale, and the starting point will be fixed according to age, qualifications and experience. There is an excellent contributory pension scheme and opportunities exist for overseas holiday air

Write, giving details of age, experience and qualifications to:

Manager, Selection Services, BOAC, PO Box 10, Heathrow Airport-London, Hounslow, Middlesex.

Applications, which should be accompanied by a detailed curriculum vitae and the names of three referees, should be in the hands of the Manager, South Brisbane Hospitals Board, Ipswich Road, Woolloongabba 4102, no later than January 31, 1969.

(H.6279)

Anaesthetist £4,390+

The RST Group of Companies requires an anaesthetist for its company hospitals at Mufulira on the Copperbelt of Zambia.

The successful applicant, who should have had a good grounding and experience in modern anaesthetics, will be required to undertake the bulk of the routine anaesthetics at two hospitals (total 460 beds) where there are normally seven routine operation lists a week. Emergency anaesthetic calls after hours are shared with other medical officers experienced in anaesthetics. In addition, he will be required to undertake a small amount of general medical work but, as general duty night and weekend calls are shared on a roster basis, these are not onerous.

Mufulira has a team of eleven medical officers and maintains two modern well-equipped hospitals with excellent laboratory, radiographic, surgical and other facilities.

Employment will be on a contract basis initially for a period of either three or five years. Starting salary, which will be paid in Zambian currency, will be dependent on qualifications and experience but, total emoluments will not be less than 7,524 Kwacha per annum. (Zambia operates a decimal currency system with the major unit, a Kwacha, equivalent to approximately 11/8d.) Paid leave will accrue at 55 days per annum and a car is provided for professional use.

Additional Benefits

- Paid return passages for applicant and family
- Generous baggage allowance
- Furnished house at sub-economical rental
- Free life assurance scheme
- Children's education allowance up to 900 Kwacha p.a. per child plus travel expenses

At 4,000 ft. A.S.L., the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

Applications will be treated in strictest confidence. Application forms may be obtained from:

DISPENSERS, SECRETARIES

AEROMEDICAL SECRETARY

An Aeromedical Centre is being set up in the Middle East and a vacancy exists for a suitably experienced man to act as Secretary/Receptionist. An essential qualification is the ability to type well and take shorthand, and to set up and run an Office.

The successful candidate, aged 30-40 approximately, will work with a small professional team and be required to deal with basic medical and aeromedical queries, routine correspondence and medical documentation. Because of the location he must be able to liaise with medical staff of different nationalities. An ideal background for this appointment would be experience in a medical organisation concerned with aviation.

A realistic salary will be paid, accommodation and messing are free, and there is a liberal leave entitlement with free air passages.

Bisolvon

EFFECTIVE, because Nulacin achieves continuous neutralisation of hyperacidity. As peptic ulcers arise and recur only in the presence of free acid, Nulacin not only relieves symptoms but is the ideal long-term medical

SIMPLE, because Nulacin is specially designed to dissolve slowly in the mouth and produce a continuous intragastric milk-alkali drip in the ambulant patient. One tablet provides up to 30 minutes' relief from excess acid.

SAFE, because clinical experience has shown that Nulacin produces no electrolyte disturbances and can be used in all patients with peptic ulcers.

NULACIN is a unique combination of whole milk protein and fats with dextrins, maltose and suitable antacids and provides economical, long-term medical treatment for peptic ulcer.
