treatment**

# en

**Floxapen, the new antibiotic from Beecham, simplifies treatment in several ways that are important in clinical practice.**

It is effective against pneumococci, streptococci and staphylococci, irrespective of their sensitivity to other antibiotics. It is also particularly effective against resistant staphylococci, an increasing problem in general practice.<sup>1, 2.</sup>

Floxapen has the penicillin advantages of low toxicity, bactericidal action, high blood levels and good tissue penetration.

Floxapen is simple to prescribe ; 250 mg. four times a day.

It is equally effective orally or by injection. Oral administration achieves blood levels equivalent to intramuscular injection.

The simple dosage of Floxapen, combined with its antibacterial activity and other advantages, makes it an ideal antibiotic, especially when treating debilitated patients or patients with a history of treatment failure.

**Indications :** Infections due to Gram-positive organisms : cellulitis, abscesses, boils and carbuncles, furunculosis, infected wounds and burns, infected ulcers and other skin infections, pharyngitis, tonsillitis, otitis media, sinusitis, pneumonia (especially post-influenzal), empyema, osteomyelitis.

**Contra-indications :** Penicillin allergy. Not suitable for subconjunctival injection.

**Side-effects :** Rare and mild, as with other penicillins.

**Dosage :** Oral and intramuscular :

Adults 250 mg. q.i.d.

Children 2-10 years –  $\frac{1}{2}$  adult dose.

Under 2 years –  $\frac{1}{4}$  adult dose.

Oral doses should be taken one hour before meals.

In severe infections, dosages may be safely increased.

**Availability :** Capsules (black/caramel) and Vials each containing 250 mg. flucloxacillin.

# Saluric<sup>®</sup>

**Discovered by MSD  
— the first  
and now standard  
thiazide  
diuretic**

Introduced in 1958, 'Saluric' (chlorothiazide MSD) was the first of the thiazides, and still today is unsurpassed in effectiveness and safety by the thiazides which have followed.

'Saluric' is often used as a standard reference drug by which other oral diuretics are measured. The documentation of course is vast.

'Saluric' is indicated in all types of oedema, including that which accompanies the premenstrual syndrome. In addition, 'Saluric' has an antihypertensive action and also potentiates the effect of other antihypertensive agents.

Each tablet of 'Saluric' contains 500 mg chlorothiazide MSD. Detailed information is available to physicians on request.

# Obesity

*Is diet and suppressing appetite the answer?*

There are many lean people who overeat and there are many obese patients who are not gluttons. The often heard plea - 'I eat very little but get very fat' - is frequently true. This has been proved by some patients who have failed to lose weight even on total fasting.

When patients do not lose weight on diet recourse is often made to appetite depressant drugs. However it does not appear logical to expect such drugs to produce weight loss if the patient is still taking the same calorie intake.

An answer would be to give the obese patient the metabolism of the lean subject. Fortunately such a treatment is now available in glycoliptic therapy. Already many refractory obese patients have, without diet, lost substantial amounts of weight with glycoliptic therapy. Have you thought of the benefits of glycoliptic therapy for your refractory and other obese patients?

FENFLURAMINE

## The Glycoliptic Properties

*"The present results therefore suggest that as far as muscle glucose uptake is concerned fenfluramine has effects similar to mild exercise, diverting ingested carbohydrate away from adipose tissue. In this way fenfluramine does in fact mimic the metabolic pattern seen in lean subjects who have greater muscle glucose uptake than fat persons"*

See *Lancet* (1968), **i**, 109

**also**

*"Obesity is associated with a decreased peripheral glucose and oxygen uptake, both of which are inversely correlated with skinfold thickness. Weight reduction results in an improvement of the uptake of both. Fenfluramine induces weight loss not directly related to changes in blood flow, and increases the glucose uptake,*

## THE LANCET

*"Fenfluramine induced a significant increase in free glycerol, free fatty acids, and 'ketone' levels in the plasma and produced a decrease in triglyceride levels. Total cholesterol levels were unaffected. It is concluded that fenfluramine produced a fat-mobilising-effect at these dose levels in the volunteers investigated."*

*Second International Symposium on the Clinical and Metabolic Aspects of Laevulose, June, 1970, Royal Society of Medicine. 'Carbohydrate Metabolism in Obesity.'*

## The Hypotensive Effect

*"The implication of these observations for treatment of mildly or moderately hypertensive obese patients is that maximum weight reduction should be attempted before institution of antihypertensive therapy, and that fenfluramine may be well worth trying in this situation."*

See *Lancet* (1969), **ii**, 1392

## The Anti-Anxiety Effect

*"It is of particular interest that fenfluramine was shown to assist obese psychiatric out-patients to lose a significant amount of weight, as this group of obese patients is probably more resistant to simple dietary*

## The Safety and Effectiveness

*"The results of these studies confirm that fenfluramine is an effective and safe preparation for the treatment of polyphagic obesity. It is suitable for prolonged administration and provides an effective alternative to the stimulant anorexigenic drugs which, because of their addictive effects, should no longer be prescribed for obesity."*

# As a doctor, you'd be better off abroad. Or would you?

Obviously, the decision's a difficult one. Especially if you're only just about to register.

So may we suggest something?

Rather than taking up a normal practice here or leaving the country, try the Royal Army Medical Corps. And you'll get the chance to do both.

Because, for some of the time, in the RAMC you're likely to see something of the world: in Germany, Cyprus, or maybe on exercises in countries from Canada to the Far East.

You can join for 3 or 5 years. And in that time you'll not only travel, you'll also gain valuable medical experience.

You'll hold the rank of Captain. And at say 24 years of age you earn around £3249 gross p.a. On top of that, there are all sorts of allowances.

Your surgery is well equipped by the Army. And you won't just be dealing with soldiers. There are wives and children to care for, too.

What's more, you get 6 weeks' paid leave every year.

After 5 years, if you like, you can apply to stay on for a Regular Commission. And have the opportunity of specialising. In fact, around 70% of all Regular Officers do take up post-graduate studies.

Alternatively, you can leave at the end of your Short Service Commission.

All the better for the experience and for a tax-free gratuity. You get £1500 after 3 years. £3000 after 5.

So think about it. And before you decide on anything, find out more about the RAMC.

If you want full details, or want to meet an RAMC Officer, write to **Colonel T. S. Hart, MB, DPH, DTM & H, RAMC, Ministry of Defence (AMD2), Dept. 706 Lansdowne House, Berkeley Square, London, W1X 6AA.**

## ADULTS ANTISPASMODIC MIXTURE

FULL ANTISPASMODIC EFFECT FROM FRACTIONAL  
DOSE OF EPHEDRINE — PLEASANTLY FLAVOURED

### FOR asthma and bronchitis

TESTS show that 2-Diethylaminoethyl- $\alpha$ -phenylbutyrate Citrate has a more pronounced bronchodilatory effect than ephedrine. Three parts of 2-Diethylaminoethyl- $\alpha$ -phenylbutyrate Citrate producing the same effect as 5 parts of ephedrine. It acts more rapidly than ephedrine, reaches maximum effect somewhat later and falls away at a slightly slower rate. With a mixture of the substances the curve of bronchial dilation showed that the effect produced was considerably greater than when double the quantity of each substance was administered separately.

4 mg. OF THE MIXED SUBSTANCES  
(CONTAINING 2 mg. OF EPHEDRINE)  
HAS THE BRONCHODILATORY EFFECT  
OF 8 mg. EPHEDRINE

Whilst a full bronchodilatory effect is produced with this mixture, side-effects, such as nausea, restlessness, sweating, etc., due to overdosage or idiosyncrasy to ephedrine are avoided.

# 50 years ago

Fifty years ago Markus Guggenheim – working in the Roche Research Laboratories in Grenzach – first isolated and described a simplified means of producing L-Dopa, the substance now widely regarded as the most significant single breakthrough in treatment in the whole history of Parkinson's Disease.

Today, Roche Products Limited are happy to announce that Larodopa, the Roche brand of L-Dopa, is now generally available both to hospitals and to general practice.

# October 1970: Larodopa

---

## is now available to General Practitioners

Larodopa\* (L-Dopa) is, by common consent, an advance of unquestioned value and significance in the treatment of Parkinson's Disease: a major breakthrough.

Along with the pleasure of announcing such a step forward Roche feel a responsibility for providing Doctors with full and current information on Larodopa, as and when it becomes available.

How they propose to meet that responsibility will be announced shortly. For the moment, the briefest possible summary of the salient facts about Larodopa is given below.

Full prescribing information is being despatched.

### **Larodopa: the benefits**

The first treatment – medical or surgical – to ease the paralysis (akinesia) of Parkinson's Disease as well as the rigidity and tremor.

Two thirds or more Parkinsonian patients derive significant, often dramatic, improvements in mobility.

### **Larodopa: procedure**

Diagnosis is important: there is little evidence of worthwhile benefit in conditions other than Parkinson's Disease.

Dosage starts at a low level and is increased gradually to match individual needs and response.

### **Larodopa: cautions**

Side effects – which are both dose-dependent and reversible – occur in a large percentage of cases. They can be mitigated to some extent by adjustments in dosage.

Long term safety and efficacy have yet to be established.

Over 80% of the primary urinary tract infections in general medical practice are sulphonamide-sensitive, but treatment is often inadequate because many patients stop taking their tablets after two or three days

## Clear reasons for using Septrin

Abstracted from a Leading Article in the *British Medical Journal*<sup>2</sup>.

- Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- All Gram-negative bacilli occurring in the urine, except *Pseudomonas aeruginosa*, are usually highly sensitive to it.
- Its minimum inhibitory concentration is extremely low.
- Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

# from asthmatic attack

British Medical Journal, 17 October, 1970

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes - thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports<sup>1,22</sup> confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced - even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school,

exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator - SPINHALER.

# natural movement at night denied to the arthritic

“To get through the day is a hard enough fight for the patient with crippling osteoarthritis or severe rheumatoid arthritis, but when nights have been sleepless and pain-wracked, the next day is started with physical and psychological stores depleted and the patient already exhausted at the starting-post.”

*Lancet*, 1970, i, 881 (25 Apr)

For many patients afflicted by arthritis, ‘Indocid’ Suppositories can bring about a noticeable improvement during the night. Many will enjoy a better night’s sleep, less interrupted by pain and stiffness, and find it easier to get started in the morning. The addition of ‘Indocid’ Capsules will help to keep them mobile during the afternoon and evening.

## **The ideal tranquilliser in severe anxiety or agitation**

For the patient suffering from severe tension and anxiety, especially when agitation is also present, Fentazin can often help, quickly relieving distressing symptoms and smoothing the path to recovery. Fentazin (perphenazine BP) has been proved over many years of use in general practice and in hospitals to be an efficient tranquilliser. It is remarkably free from sedative side effects and does not dull mental acuity.

This is clearly demonstrated in a recent report of a comparative trial† involving three antihypertensive agents. ESBATAL accomplished a standing diastolic pressure of 100 mm Hg in 75 per cent of cases. A lower incidence of side-effects, than with

guanethidine or methyldopa was recorded—and moreover, ESBATAL was preferred by more patients than were the other two agents.

Freedom  
is a big  
word...

which  
sometimes  
means  
a simple  
thing

To an arthritic patient, freedom can simply mean being able to do a few things for oneself, like tying a shoelace or making a cup of tea – the little things that become a big problem when joints are stiff and painful. Brufen relieves the pain and stiffness of arthritis, and provides the progressive improvement in joint flexion necessary to extend the patient's range of activity. Both to the arthritic patient and to the doctor, freedom also means effective therapy without the limitations imposed by frequent side-effects. Brufen is not only a highly effective antirheumatic agent, it is also extremely well tolerated by the majority of arthritic patients. Brufen is available as tablets, each of which contains 200 mg. ibuprofen.

'Keflex' offers a combination of effectiveness and safety which is unsurpassed by any other antibiotic.

No reports of teeth staining or renal damage, a very low incidence of rash and gastrointestinal disturbance make it particularly suitable for the treatment of bacterial infections in children. Add broad-spectrum, bactericidal action and resistance to penicillinase and it's easy to see why so many children recover so quickly with so few complications after 'Keflex' therapy.

'Keflex' Suspension is supplied in 100 ml bottles containing 125 mg cephalixin (as the monohydrate) per 5 ml. 'Keflex' is also available for older children and adults as capsules each containing 250 mg cephalixin (as the monohydrate).

Flashing lights and visual disturbances, classically early warnings of migraine, are signals for arresting all manifestations of an attack—at onset.

MIGRIL\* acts in the minutes between initial warning and the otherwise inevitable full-blown attack.

As well as containing an effective dose of ergotamine (2mg in each tablet), enhanced by caffeine, MIGRIL contains the anti-emetic, cyclizine. Nausea and vomiting, due to migraine itself or to ergotamine, are very effectively relieved.

MIGRIL, taken at the first warning of an attack, provides a specific treatment that the patient will learn to rely on. Full information is available on request.

# Why disrupt the flu virus?

## So it won't disrupt your patient.

WELLCOME\* Flu Vaccine is prepared by a special 'split virus' technique in which the killed virus is disrupted by chemical action to dissolve the outer coating of the virus and release the active immunizing principles as sub-unit particles. The splitting of the virus by this treatment produces a vaccine which is less reactogenic than the older, conventional vaccines but which retains its immunizing properties in full.

WELLCOME Flu Vaccine provides effective protection against the current strains of influenza virus—A2/Hong-Kong/68 and the current B strains. For your

vaccination programme, WELLCOME Flu Vaccine means worthwhile protection with fewer reactions.

At a glance. The doctor knows how much the patient has used: the patient is freed from attack —triggering anxiety about how much is left. Instantly visible contents, in a shatter-proof container, P.I.B.® provides immediate and sustained relief from bronchospasm, from precisely metered puffs. Isoprenaline content is low because P.I.B. fully utilises the pronounced enhancement of effect of this agent when it is used in combination with atropine methonitrate.

This enhancement was clearly shown in a trial<sup>1</sup> which compared this mixture with both drugs when used alone. The authors stated: "The combined inhalation of isoprenaline and atropine methonitrate showed substantial advantages over the other drugs."

P.I.B. Plus® may be prescribed when a higher isoprenaline content is required.

## The Retreat, York

For the Treatment of Psychiatric Illnesses

This Private Registered Nursing Home at York of 275 beds, established in 1792, is managed by members of the Religious Society of Friends (Quakers).

It combines psychological and physical investigations and modern forms of treatment for patients suffering from psychiatric illnesses, including drug dependence, and has a separate unit for the assessment and treatment of psycho-geriatric conditions. There are also facilities for long-stay patients.

The Hospital is surrounded by 42 acres of its own grounds and is within easy walking distance of the City centre. In recent years, the Hospital has been modernised throughout. A new spacious occupational therapy centre provides a wide range of creative activities.

British United Provident Association and Private Patients Plan assist their members who become patients at The Retreat within the range of their published benefits.

For terms and further particulars, apply to The Medical Director, The Retreat, York, YO1 5BN. Telephone: York 54551 (STD 0904).

### ROYAL COLLEGE OF PHYSICIANS OF LONDON M.R.C.P. (U.K.) EXAMINATION

The Diploma M.R.C.P. (U.K.) may now be registered with the General Medical Council.

The next Examination for Parts II and III of the Examination will start on FRIDAY, DECEMBER 11, 1970.

Candidates are notified of two changes in the Examination:—

1. Candidates may opt to undertake the clinical examination ONLY of Part II in either (a) general medicine or (b) paediatrics
2. As from April 1970 Part III of the Examination was discontinued, but candidates who have already been admitted to Part III will be allowed to complete any outstanding attempts.

Candidates holding the diploma of M.R.A.C.P. have hitherto been allowed exemption from Parts I and II on application to the Censors' Board but have been required to take Part III. They may now apply to the Censors' Board for exemption from Part I and the written papers of Part II, but will be required to take the oral and clinical examinations of Part II.

Candidates must apply to the College for entry forms. The completed forms must reach the College (together with the necessary fee and supporting documentation) not later than first post on FRIDAY, NOVEMBER 13, 1970. The fee for entry to Part II after success in Part I is £35. The fee for a second or third attempt at Part II is £30. The fee for Part III is £18.

NATIONAL HEALTH SERVICE  
GLAMORGAN EXECUTIVE COUNCIL  
VACANT PRACTICE AT TONDU  
NR. BRIDGEND, GLAM.

Applications invited from Medical Practitioners for vacancy. Number on list at July 1, 1970 was 2,476—all prescribing. House and surgery for sale. Further particulars and form of application which must be submitted not later than November 2, 1970, may be obtained from the undersigned—P. D. White, Clerk of the Glamorgan Executive Council, 6th Floor, Churchill House, Churchill Way, Cardiff, CF1 4TW. (H6192)

THE EXECUTIVE COUNCIL FOR  
THE COUNTY OF DURHAM  
GENERAL MEDICAL SERVICES  
YARM/EAGLESCIFFE

Applications are invited from suitably experienced practitioners for a new single-handed practice vacancy with no list of patients in the Yarm/Eaglescliffe area. Yarm and Eaglescliffe are situated on the border between the Counties of Durham and Yorkshire. North Riding approximately four miles south-west of Easingfield. The present population of Eaglescliffe is approximately 4,500 persons and this is expected to increase to a total number of 15,000 persons by 1981. The population of Yarm is approximately 2,750 persons and is expected to increase to 5,250 persons by 1981.

The combined area of Yarm/Eaglescliffe has been classified as "Designated" by the Medical Practices Committee since June 25, 1970, and it is expected that the allowance for practising in a "Designated" area will become payable on July 1, 1973. Although initially the successful practitioner will have no list of patients, a Type "A" or "B" Initial Practice Allowance (to be chosen by the practitioner) will be payable in accordance with E.C.N.s 601 and 752.

The area is at present served by two doctors in partnership who employ a part-time assistant and the combined number of patients on their lists are in excess of the permitted maximum. These doctors have main surgery premises in Yarm and branch surgery premises in Eaglescliffe. It is expected that a Health Centre will be built in Eaglescliffe during 1973 which will have two surgery suites, one of which will be available to the newly appointed practitioner.

Residential and surgery accommodation will not be available but the Executive Council is prepared to help the successful practitioner in this matter.

Interested practitioners should read E.C.N.s 601 and 752 and these can be obtained from the Executive Council, together with the application form, Form E.C.16A.

Applications should be received by the Clerk of the Durham County Executive Council, Green Lane, Old Elvet, Durham City (Telephone 62326) not later than October 30, 1970. Mutual arrangements will be made in respect of the date upon which the successful applicant will commence practising. (H6191)

## COMMERCIAL APPOINTMENTS

# MEDICAL DIRECTOR

Pharmacia (Great Britain) Ltd., is the British subsidiary of the Pharmacia Organisation of Sweden. We are a young and fast-growing company with an enviable reputation in the medical profession. As a result of its extensive research programme the company has made a number of major contributions to world medicine.

The candidate appointed as head of the Medical Department will be directly responsible to the Managing Director of the company. Included in his responsibilities will be the initiation and supervision of clinical trials of established and new products, the provision of medical advice within the company, personal contact with members of the Medical Profession and departments concerned with medical legislation. He should be able to provide an impeccable standard of medical expertise to the company's sales staff. Very close liaison with the medical and research teams of the parent company will give him unusual opportunities of applying his knowledge, experience and initiative in the evaluation of new products and new product fields. Necessarily the maintenance of this close working contact will entail periodic visits to the Headquarters in Sweden.

This is a senior appointment for which only medically qualified doctors with wide experience and understanding of the pharmaceutical industry can be considered. Salary will be by personal negotiation. The conditions of work are excellent. A company car is provided. Pension, life and accident schemes operate. Applications (including a comprehensive *curriculum vitae*) should be addressed to the Managing Director. They will, of course, be treated with the strictest confidence.

Pharmacia (Great Britain) Ltd.,  
Paramount House,  
75 Uxbridge Road,  
Ealing, W.5.

**SALARY SCALES OF HOSPITAL MEDICAL STAFF**

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £165 per annum in respect of lodging only for voluntary residence.

**SENIOR HOUSE OFFICER:** £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £195 per annum in respect of lodging only for voluntary residence.

**REGISTRAR:** £2,328 per annum × £144(3) × £126(1)—£2,886.

Deductions of £195 per annum for those with remuneration at the first point on the scale, and £225 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**SENIOR REGISTRAR:** £2,760 per annum × £126(1) × £174(1) × £177(1) × £174(1) × £177(1)—£3,588.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

**MEDICAL ASSISTANT:** £2,520 per annum × £144(1) × £156(3) × £144(10)—£4,572.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

**CONSULTANT:** £4,512 per annum × £201(8) × £210(1)—£6,330.

Deductions of £390 per annum in respect of lodging only for voluntary residence.

**COMPULSORY RESIDENCE:** The Terms and Conditions of Service of

Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance

with the Terms and Conditions of Service of Hospital Medical Staff.

tenable in the Salford Group of Hospitals, mainly at Hope Hospital, Salford.

Applications are invited from doctors holding the D.P.M. for a post providing exceptional opportunities for experience and training in community aspects of psychiatry. The appointee will be attached to a comprehensive community psychiatric service. This includes an active general hospital unit, close to Central Manchester, with inpatient, outpatient and day hospital facilities. The unit has beds in a nearby psychiatric hospital, and there is a close association with aspects of the local authority mental health service. Experience is also available within the service in child psychiatry and mental subnormality. The service has a postgraduate association with the University of Salford, and excellent opportunities exist for undertaking higher degrees at either Salford or Manchester Universities. The appointee will be required to rotate to another psychiatric unit in the Manchester area at a later date to broaden his experience and continue his training.

Application forms from the Senior Administrative Medical Officer to the Board, Gateway House, Piccadilly South, Manchester, M60 7LP, to be returned by November 2, 1970. (12389) 44-5

## LONDON BOROUGH OF CAMDEN

**SENIOR MEDICAL OFFICER  
(Occupational Medicine)**

A Senior Medical Officer is required to run the Borough's Staff Health Service under the general direction of the Medical Officer of Health. The service is designed to protect and promote the health of 5,500 persons employed by the Borough Council.

The doctor appointed will also be expected to advise the Medical Officer of Health on problems in the field of occupational medicine occurring anywhere in the Borough. This post offers good opportunities for research in the field of occupational medicine, because of the wide range of occupations that are covered by the service, and also because the Health Department has close links with a nearby teaching hospital and medical schools. The holder will also be given an opportunity to participate in other activities of the Department.

Possession of the D.P.H. and/or D.I.H. is desirable, but the main consideration in making the appointment will be interest, enthusiasm and some experience.

Salary scale £2,990—£3,565 plus £90 London weighting allowance—the starting point being dependent on experience. Essential User Car Allowance is payable.

Postcard for application form, quoting title and reference 3/42(H)/BM, to Town Clerk, Town Hall, Euston Road, N.W.1. Tel. 01-278 4444, ext. 213. Closing date October 30. (12347) 56

Medical Officer of Health:  
R. L. Lindon, M.R.C.S., L.R.C.P., D.P.H., D.C.H.

**APPOINTMENT OF DEPARTMENTAL MEDICAL  
OFFICER**

A vacancy exists for a full-time medical officer in the Departmental Medical Officer Grade. Duties will be mainly concerned with child development clinics, the school health service and maternity services, although other general public health duties may be allocated by the Medical Officer of Health.

Facilities exist for in-service clinical training in the assessment of handicapped children. The Borough has a purpose-built Hearing Clinic (Audiology Unit) and a medical unit for the assessment and treatment of cerebral palsied and other physically handicapped children. Medical surveillance is provided by the Department for handicapped children for four-day special schools in the Borough for (i) deaf, with associated classes for partially hearing pupils in normal schools, (ii) physically handicapped, (iii) delicate/maladjusted and (iv) educationally subnormal pupils. The Department also runs two junior training schools, two special care units and two adult training centres. Additionally, various training facilities are provided for medical students and postgraduate D.C.H. students. For some years the Department has routinely accepted medical students from London Teaching Hospitals for visits to the various units and services comprising the Health Department.

Successful applicants will be placed on an appropriate point within the scale of £2,250–£2,985 a year. A lump sum car allowance is payable. A full-time assisted D.P.H. course scheme is in operation in the Borough. The appointment is permanent, pensionable and subject to medical assessment. Whitley Council Conditions apply. Preference will be given to candidates possessing either D.P.H. or D.C.H.

Application forms available from the Medical Officer of Health, 92 Bath Road, Hounslow, Middlesex, returnable by October 24, 1970. (12353) 56

Please quote reference MA1998/AM when asking for application forms (returnable by November 2, 1970) and details from the County Medical Officer, The Castle, Winchester. (12358) 56

# Why

brand of methacycline

\*Trade Mark

## should not be confused with tetracycline in chronic bronchitis

It is distinctly more active than tetracycline against the organisms commonly associated with respiratory infections<sup>1</sup> and its spectrum of activity is broader than that of the penicillins, including ampicillin.

It clears purulent sputum quickly – even sputum which has remained stubbornly infected in the face of tetracycline therapy.<sup>2</sup>

It has been shown to shorten exacerbations far more decisively than either tetracycline or ampicillin.<sup>3</sup>

High, sustained blood levels ensure therapeutic activity for up to 24 hours after the final dose.<sup>1</sup> This is a distinct advantage over tetracycline and the penicillins.

The problem of the antibiotic being destroyed by penicillinase-producing organisms does not arise.

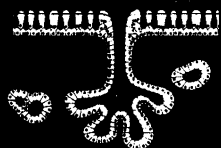

**It all adds up to shorter exacerbations, less damage to lung tissue and a better prognosis for the patient.**

## SPUTUM VISCOSITY LOWERED<sup>1,4,5</sup>

"This double-blind controlled clinical trial shows clearly that in a dose of 16 mg. thrice daily bromhexine [Bisolvon] in bronchitic patients increases sputum volume and reduces its viscosity and yield values."<sup>1</sup>

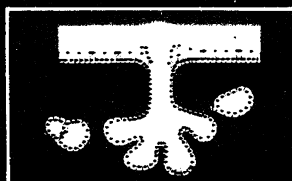

## EXPECTORATION EASED<sup>1,3,5</sup>

"As a result of this trial and our subsequent clinical experience with this drug in a wide variety of patients with respiratory disease, where retention of bronchial secretion was a problem, we think it is a valuable therapeutic advance in the difficult problem of aiding expectoration in the respiratory patient."<sup>1</sup>

## PULMONARY FUNCTION IMPROVED<sup>2</sup>

"This showed that a significantly larger proportion of patients experienced improvement in vital capacity during treatment with bromhexine [Bisolvon]."<sup>2</sup>

## ALL-ROUND IMPROVEMENT<sup>2,3,4,5</sup>

"The results from this double-blind crossover study of bromhexine [Bisolvon] show that in comparison with a placebo the drug exerts a beneficial effect on pulmonary function, or clinical state, or both, in a substantial majority of patients."<sup>2</sup>

# What happens if CMC is added to ACTH?

## CROOKES ACTH/CMC

ACTH/CMC is ACTH with a difference. The difference is convenience. ACTH/CMC is a clear, mobile liquid, even under storage conditions. It is highly purified, has a prolonged storage life and is virtually painless on injection.

Which all adds up to easier therapy in bronchial asthma, Bell's palsy and rheumatoid arthritis. Even with long courses there are no dangers of withdrawal symptoms. ACTH/CMC stimulates natural corticosteroid production. And so it removes the risk of adrenal atrophy so common with synthetic corticosteroid treatment.

**WAIKATO HOSPITAL BOARD**  
Hamilton, New Zealand

Applications are invited from suitably qualified medical officers registrable in New Zealand for the following positions. Appointees will be required to obtain New Zealand registration before taking up their positions.

**WAIKATO HOSPITAL, HAMILTON**

**1. PLASTIC SURGEON**  
This is a specialist position and applicants will be required to have had substantial experience in plastic surgery and be of specialist status, i.e. have been qualified for a minimum period of eight years have had five years plastic surgery experience and possess an appropriate higher qualification. However, applicants who have been qualified for a minimum period of six years including four years practical experience in plastic surgery, plus a higher qualification will also be considered. The salary will be in the scale \$6,740 to \$9,101 per annum. The commencing rate will be determined by the Director General of Health having regard to the appointee's previous experience and qualifications.

**2. WHOLE TIME ANAESTHETIST**  
This also is a specialist position and applicants will be required to have had substantial experience in anaesthesia and be of specialist status. The salary will be in the scale \$6,740 to \$9,101 per annum. The commencing rate will be determined by the Director General of Health having regard to the appointee's previous experience and qualifications. A substantial Clinical Services Block is being opened next year which will entail further anaesthetic services over and above those required at the main theatres.

Waikato Hospital is an 800 bed base hospital situated in the city of Hamilton. The city has excellent public and private schools, a university centre and a teachers training college. It is the centre of a rapidly expanding agricultural and farming area with ready access to hunting and fishing grounds and other recreational areas.

**ROTORUA HOSPITAL, ROTORUA**

**1. WHOLE TIME SPECIALIST SURGEON**  
This is a position of specialist status and applicants should have been qualified for a minimum period of five years and possess an appropriate higher qualification. However, applicants who have been qualified for a minimum of 6 years including 4 years practical experience in the specialty plus a higher qualification will also be considered. Salary and conditions will be in accordance with the Hospital Employment Medical Officers' Regulations in the scale \$6,740-\$9,101, the commencing rate being determined according to appointee's qualifications and experience. For this position an applicant with some experience in or inclination towards vascular surgery would be preferred but this would not be essential. There is good prospect for private surgery and a good private hospital functioning in Rotorua. The successful applicant, although engaged initially full-time could negotiate when suitable for a part-time appointment.

Rotorua is the Board's second largest General Hospital, having in excess of 300 beds (including maternity) and covers the usual specialties. Rotorua is situated in the centre of New Zealand's thermal area and is a popular tourist resort being handy to hunting, farming, mountaineering and surfing facilities. Assistance in travelling expenses may be provided.

**2. VISITING ORTHOPAEDIC SURGEON**  
This is a specialist position and applicants will be required to be of specialist status. The appointment will be on a 7/10ths basis, i.e. over 76 but not over 30 hours weekly. Salary will be in the nominal whole time scale \$6,740-\$9,101 per annum. The commencing rate being determined by the Director General of Health, having regard to the appointee's previous experience and qualifications.

**3. WHOLE TIME ANAESTHETIST**  
This is a specialist position and applicants will be required to have substantial experience in anaesthesia and be of specialist status. Salary will be in the scale \$6,740-\$9,101 per annum, the commencing rate being determined by the Director General of Health having regard to the appointee's previous experience and qualifications.

**4. VISITING PSYCHIATRIST**  
This is a specialist position and applicants will require to have had substantial experience in psychiatry and be of specialist status. The actual sessional basis at Rotorua Hospital will be mutually arranged as there are excellent prospects for private practice. The salary will be in the nominal whole time scale \$6,740-\$9,101 per annum. The commencing rate to be determined by the Director General of Health according to the appointee's qualifications and experience.

Enquiries regarding the above positions should be directed to the Medical Superintendent, Rotorua Hospital, Private Bag, Rotorua, New Zealand. Conditions of Appointment and application forms may be obtained from the Secretary, Waikato Hospital Board, P.O. Box 934, Hamilton, New Zealand, with whom applications apart from those for the visiting Psychiatrist close on December 9, 1970.

**TOKOROA HOSPITAL, TOKOROA**

1. Part time Surgeon
  2. Whole time Physician
  3. Part time Psychiatrist
  4. Part time Paediatrician—4/10th basis
  5. Two Senior House Officers.
- Applications for positions 1 to 4 should preferably have been qualified for more than 8 years have had 5 years experience in their specialty and hold an appropriate higher qualification. However, consideration will be given to applicants not fully meeting these qualifications. Salary for these posi-

tions will be in one of the following scales:—

\$4,819-\$8,202 or \$6,740-\$9,101  
The position of part time Surgeon would desirably be on a 5/10ths basis but this could be subject to negotiation.  
The positions of part time physician and part time Paediatrician could be combined in one whole time position or a part time position, sessions to be negotiated.

Salaries of the two Senior House Officers will be \$4,654 to \$4,863.  
Tokoroa is a 60 bed General Hospital, so planned as to be capable of ready expansion to 120 beds when required, that has been open since August 1969. There is also an Obstetric Annex of 22 beds.

Enquiries regarding these positions should be directed to the Superintendent-in-Chief, Waikato Hospital, Private Bag, Hamilton. Conditions of Appointment and official application form may be obtained from the Secretary, Waikato Hospital, P.O. Box 934, Hamilton, New Zealand, with whom applications close on December 9, 1970. # 'The Anxious Heart'

Valium\* Roche was used in addition to the standard treatment in 58 patients with cardiovascular conditions<sup>1</sup>. There was marked improvement in 10 of 12 cases of heart failure, 73 per cent of the patients with angina pectoris responded well and 18 of 22 hypertensive patients also experienced excellent improvement. With reduction of emotional tension and aggressiveness, sleep improved and a fall in the average arterial pressure, from 190/110 mm Hg to 150/85 mm Hg occurred.
