# three faces of Valium\* Roche

## 1 Valium Roche in simple anxiety

Anxiety may be a physical, as well as an emotional state. Often, it presents as a rather bizarre pattern of largely physical symptoms, things like headache, 'dyspepsia', insomnia, muscular pains and disturbances of appetite.

Hundreds of clinical trials, involving tens of thousands of patients in almost every country in the world have shown that Valium Roche affords remarkable symptomatic relief in such cases, 'curing' a long list of apparently intractable physical symptoms.

## 2 Valium Roche in psychosomatic illness

Sometimes, anxiety disturbs physiological or bio-chemical function to the point of producing functional or structural disorders. Such conditions take on a life of their own and demand – in addition to the relief of anxiety – active, specific treatment.

In such cases Valium Roche curbs anxiety and – coupled with specific treatment – helps to ease or eradicate a long list of conditions involving the skin, gastro-intestinal tract, the heart and circulation, the muscles and the organs of reproduction and excretion.

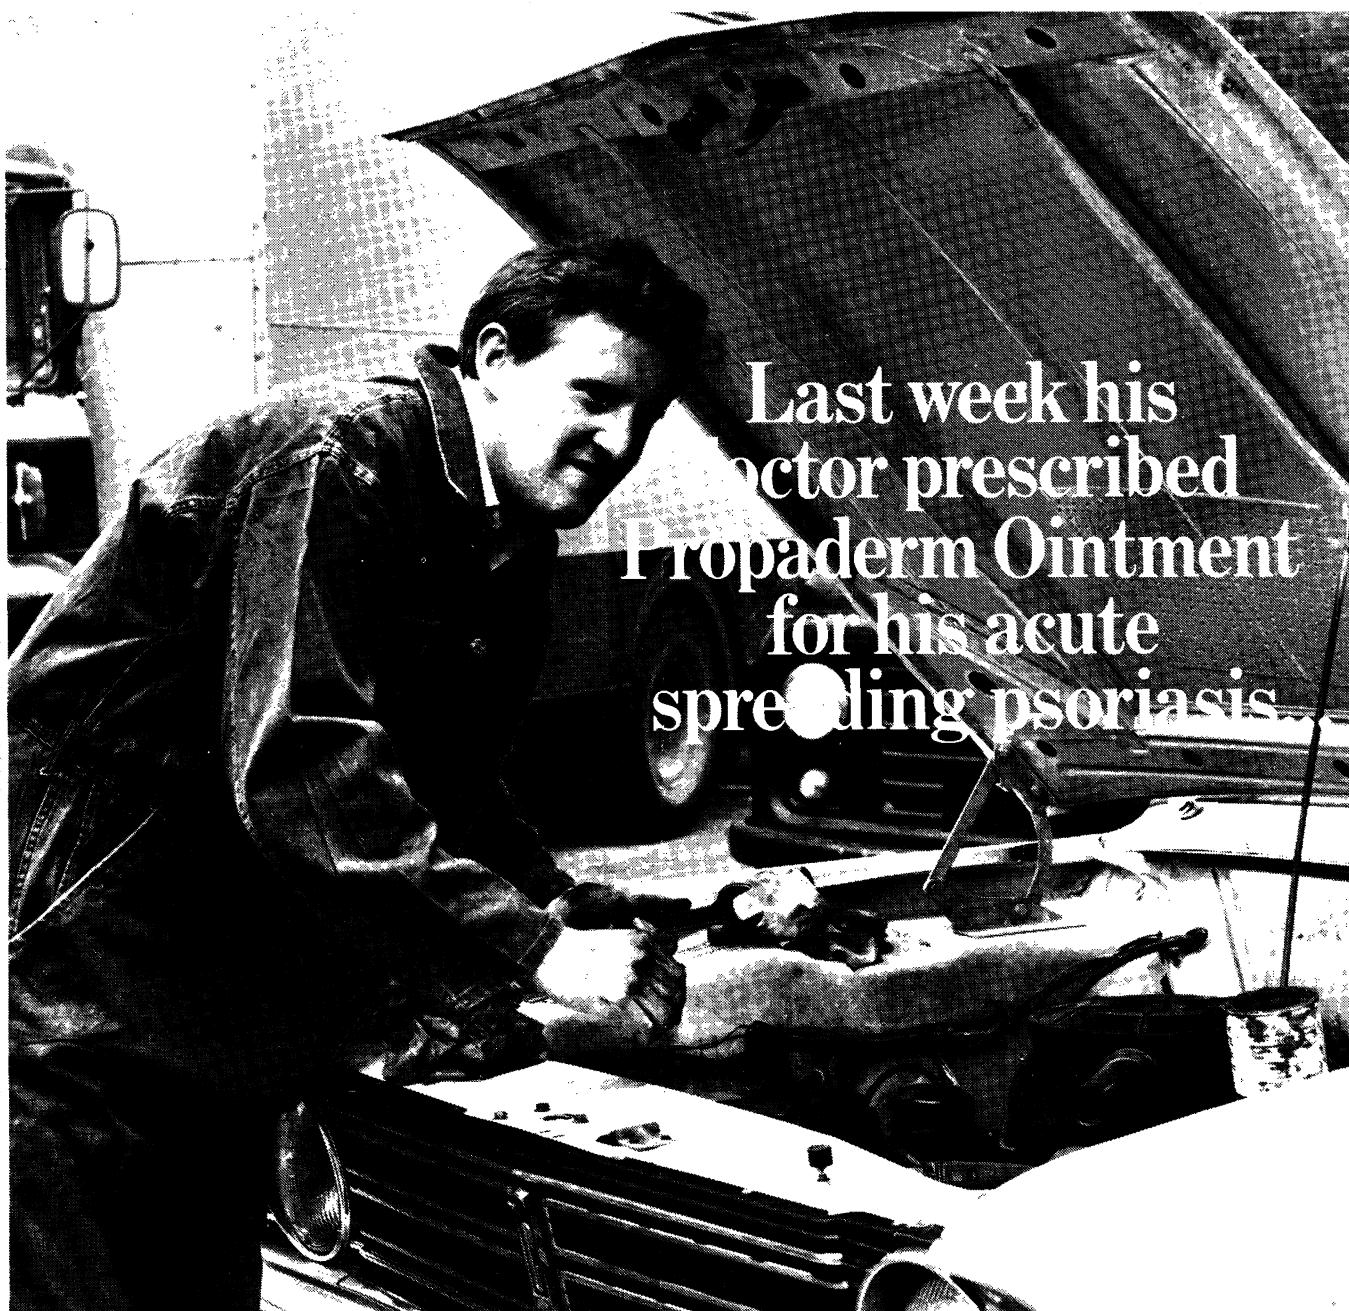

## 3 Valium Roche in organic disease

Even patients whose clinical condition is clearly organic can become excessively anxious. When they do, the anxiety and its physical effects may hinder recovery or – in conditions like myocardial infarction – amount to a major complication.

Valium Roche has been used in many such cases. Invariably, it produces a sharp improvement in the patient's emotional outlook and attitude. Where anxiety has produced an increase in sensations of pain or discomfort Valium Roche can afford dramatic relief from organic symptoms.

# NEW CONCEPT

## physical suppression of gastric reflux

**Unique demulcent gel occludes cardiac sphincter for at least 1 hour**

'Gaviscon' has a unique physical mode of action which is specific and efficient in the treatment of gastric reflux. Taken after meals and at bedtime, 'Gaviscon' produces a viscous demulcent gel which floats on top of the stomach contents and so occludes the cardiac sphincter for at least 1 hour.

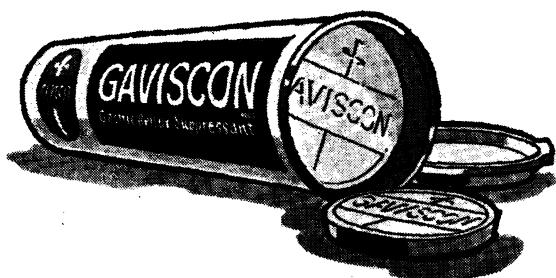

**Protects oesophageal mucosa from acid attack**

As intra-abdominal pressure increases, so the demulcent 'Gaviscon' gel moves up into the oesophagus, soothing and protecting the mucosa. By adhering to the oesophageal mucosa 'Gaviscon' protects against acid attack and prevents auto-digestion. The pain of heartburn is thus effectively relieved allowing the inflamed oesophageal mucosa to heal.

- Prevents pain caused by acid reflux.
- Breaks the vicious circle of acid reflux – sphincter irritation and incompetence – acid reflux.
- Simplifies the diagnosis of reflux oesophagitis.
- Often postpones the need for surgery.
- Ideal for long-term prophylaxis.

# As a doctor, you'd be better off abroad. Or would you?

Obviously, the decision's a difficult one. Especially if you're only just about to register.

So may we suggest something?

Rather than taking up a normal practice here or leaving the country, try the Royal Army Medical Corps. And you'll get the chance to do both.

Because, for some of the time, in the RAMC you're likely to see something of the world: in Germany, Cyprus, or maybe on exercises in countries from Canada to the Far East.

You can join for 3 or 5 years. And in that time you'll not only travel, you'll also gain valuable medical experience.

You'll hold the rank of Captain. And at say 24 years of age you earn around £3395 gross p.a. On top of that, there are all sorts of allowances.

Your surgery is well equipped by the Army. And you won't just be dealing with soldiers. There are wives and children to care for, too.

What's more, you get 6 weeks' paid leave every year.

At any time during your service, you can apply to stay on for a Regular Commission. And have the opportunity of specialising. In fact, around 70% of all Regular Officers do take up post-graduate studies.

Alternatively, you can leave at the end of your Short Service Commission. All the better for the experience and for a tax-free gratuity. You get £1500 after 3 years. £3000 after 5.

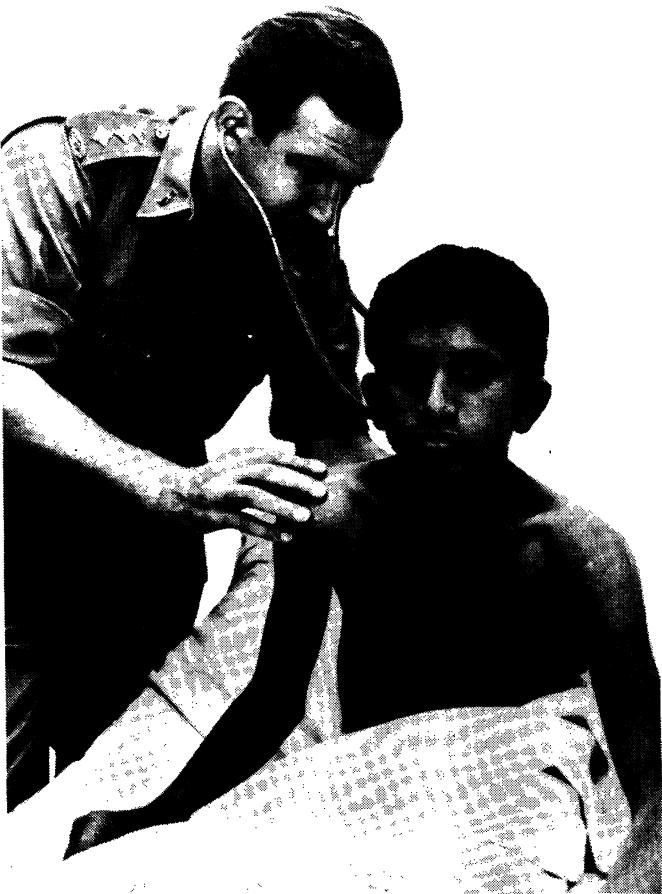

So think about it. And before you

decide on anything, find out more about the RAMC.

Why not visit one of our military medical establishments and see for yourself how you'd get on?

If you want full details of the career, or would like to pay us a visit and meet an RAMC Officer, telephone 01-499 8040 extension 332 or write to:

## Doctors in the Australian Army get the best of all worlds

A new life in Australia. With first class passage paid for you and your family. A job waiting—and all the advantages of a service practice.

With extraneous administration taken off your hands, you can really do your job properly. You could be in an R.M.O. unit, field ambulance station or military hospital and there are opportunities for updating medical knowledge and techniques. Then there's the sports and social side, too.

The sort of man we're looking for is preferably under 40—with medical qualifications registerable in the Commonwealth of Australia. He's medically fit—prepared to serve anywhere and is a British subject eligible for permanent residence in Australia. If this sounds like you, this is what we'll do for you.

You'll be appointed to a Short Service Commission for 4 years in the Medical Corps of the Australian Army in the minimum rank of Captain, where your pay would amount to £11.78 a day after the equivalent of 5 years service. (Your professional experience in England serves to ante-date your period of service). Tax and a refunded retirement benefit will be deducted from this—though your clothing and marriage allowances of £0.13 and £0.91 a day are not taxed. You also receive a bounty of about £1,540.

If this sounds like your sort of life, contact: Brigadier L. I. Hopton, MBE, Australian Army Representative, Australia House, Strand, London WC2, Telephone: 01-836 2435, Extn. 356.

It is almost totally absorbed<sup>1</sup> – 80% in one hour.<sup>2</sup> It has unusual capacity to penetrate tissue<sup>3</sup> giving it a distinct clinical advantage in stubborn infections such as otitis media, sinusitis and bronchitis. It has a range of activity exceeding that of ampicillin, erythromycin, cephalexin, and the new antibacterial/sulphonamide mixtures. # Broxil Syrup, compared

Broxil is specifically indicated for common infections in general practice – E.N.T., respiratory and skin and soft tissue. It provides blood levels twice those of penicillin V and four times those of oral penicillin G. Clinically, Broxil compares well in the treatment of routine infections. In practice, patients do seem to get better quicker with Broxil.

And now, with the latest price reduction for Broxil Syrup, it compares economically, too.

The average daily cost of treatment with Broxil Syrup (8p) is only a little more than ordinary penicillin and oxytetracycline syrups and well below erythromycin (11p), benzathine penicillin (14p) and lincomycin (23p).

Tablets and capsules also available.

Myambutol® and isoniazid.  
Effective and reliable. Proved and accepted.  
And now **combined.**

**Mynah\***  
ETHAMBUTOL-ISONIAZID

For many years isoniazid has been accepted as the leading standard drug in the chemotherapy of tuberculosis<sup>1,2</sup>.

And more recently Myambutol (ethambutol) has become a firmly established drug in cases of toxicity or resistance to PAS and streptomycin<sup>3</sup>.

Now these two leading drugs have been combined in one product — Mynah.

**RANGE OF STRENGTHS** Dosage of Mynah is established according to the patient's bodyweight; therefore Mynah is presented in four different strengths — to cover weights and dosages in both initial and subsequent periods of treatment. It is the included quantity of Myambutol that varies; the amount of isoniazid in each tablet remains standard at 100 mg.

**CONVENIENT FOR THE DOCTOR** The dosage of Myambutol and isoniazid when used together has therefore been made far more convenient; the physician need prescribe only one product to ensure the maximum benefit from both drugs.

**CONVENIENT FOR PATIENTS** Only one medicine to take, so the daily dose is less likely to be forgotten or ignored—and Mynah need be taken only once a day.

**SAFETY** Isoniazid and Myambutol are among the safest of all antituberculous drugs. Myambutol has a different mode of metabolism from that of isoniazid — with obvious advantages in terms of safety — whereas several other drugs used against tuberculosis involve the same metabolic process as isoniazid.

**DIMINISHED RESISTANCE** Although resistance to both Myambutol and isoniazid may develop if these drugs are used separately and alone, it has been shown that combination treatment with them greatly diminishes the risk of resistance developing<sup>4,5</sup>. There have been no reports of cross-resistance between the two drugs.

Mynah has been developed in Britain for the purpose of easier management of tuberculosis. For full information on this important advance in chemotherapy — plus a dosage calculator — please apply to the Medical Department of Lederle Laboratories or ask your Lederle representative.

A 40 year old civil servant, following a severe domestic upset, took a total of 90mg (18 tablets) of Mogadon between midnight and noon.

"In the following eight hours he consumed half a bottle of whisky and some sherry; when seen some two hours later, it was obvious that he had been drinking but he was quite conscious and capable of discussing his domestic troubles and to relate the story of what had happened throughout the previous night."<sup>1</sup>

## Now you can sleep easy

Against a background of increasing concern about the danger of barbiturate poisoning (as few as 20 or 30 tablets may prove fatal), the advent of Mogadon must be of considerable importance. Indeed, Mogadon ".....appears to be as nearly as safe as a drug can be."<sup>2</sup> Even as many as 80 tablets have produced no untoward effects. ## Actifed and Space age Medicine

The astronaut above is about to be subjected to G-forces in a massive centrifuge. In these situations it was thought that G-forces might restrict astronauts from performing vital tasks. To overcome this, an ingenious device which bounces light into the eye, can be made to actuate a switch or system, whenever the pupil crosses the path of the beam. This sight switch has already been adapted to help paraplegics to help themselves.

In the space programme, medical benefit has been a two-way exchange. Of the medicines taken on Apollo flights, ACTIFED\* has been repeatedly chosen as the decongestant. ACTIFED TABLETS and SYRUP contain the decongestant pseudoephedrine and the established antihistamine triprolidine. ACTIFED COMPOUND LINCTUS contains, in addition, codeine. # Road Accidents and the Family Doctor

Road accidents are now acknowledged to be one of the major epidemics of our time. It has been estimated that many accident deaths could be saved by skilled treatment at the site of the accident, and recently doctors in Britain and abroad have been playing an increasingly active part in this. This booklet, which reprints a series of articles which appeared in the *B.M.J.*, contains contributions on organization and medical equipment, the management of soft-tissue injuries, resuscitation, fractures of the spine, and extrication of persons trapped in a vehicle. The introduction is written by Mr. Norman Capener, Chairman of the Medical Commission on Accident Prevention.

## 1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour. Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated.

## Beecham Research Laboratories

# Clinical Pharmacology Research

We are seeking a physician with experience in investigative medicine or scientific research who is interested in joining a team working in the field of human pharmacology. The post will be located within our Clinical Pharmacology Department at Brockham Park Research Centre near Dorking, where facilities exist for both laboratory and clinical investigation. It will also involve collaborative work at a new purpose built clinical pharmacology unit currently under construction at a London hospital.

The work involves practical, clinical investigation into the problems of absorption, distribution, metabolism, excretion and mode of action of new and existing drugs. These investigations are made on volunteer subjects at the early stages of Human Pharmacology prior to clinical trials which are the responsibility of a separate department. There are well defined areas of responsibility with ample scope for initiative and original thought.

The successful applicant will be an experienced physician with a higher medical qualification who has already attained Registrar or Senior Registrar status in clinical medicine and is capable of liaising with senior scientists in other disciplines within the research establishment. Knowledge and experience of an appropriate specialty or previous training in clinical pharmacology would be advantageous.

Beecham Research Laboratories is part of Beecham Group and is situated in a pleasant area of Surrey within easy reach of London. The successful applicant will qualify for the Group's bonus, non-contributory pension and life assurance schemes. Please apply briefly, stating age, qualifications and experience to:

# Clinical Pharmacology Research

## Senior Medical Registrar/Registrar

A new six-bed unit is being built here to provide research facilities for studies into drug metabolism to be conducted under controlled conditions. The wide range of projects both in time-scale and types of compound, will be backed by sophisticated laboratory facilities, the use of isotope techniques and total body counting.

Essentially the Senior Registrar/Registrar must have a scientific approach to medicine and the ability to carry out projects with minimal supervision. He will take full-time responsibility under

the supervision of the Physician for the clinical care of the unit's six patients and some out-patient duties. There will be opportunity to develop personal research interests, and of course any necessary training in research methods will be given.

Applicants with M.R.C.P. should write, giving age, qualifications, previous experience, and naming two referees to the Hospital Secretary, West Middlesex Hospital, Isleworth, Middlesex. Tel: 01-560 2121, Ext. 517. (23531)

### SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months, £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

**SENIOR HOUSE OFFICER:** £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

**REGISTRAR:** £2,328 per annum x £144(3) x £126(1) — £2,886.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**SENIOR REGISTRAR:** £2,760 per annum x £126(1) x £174(1) x £177(1) x £174(1) x £177(1) — £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

**MEDICAL ASSISTANT:** £2,520 per annum x £144(1) x £156(3) x £144(10) — £4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

**CONSULTANT:** £4,512 per annum x £201(8) x £210(1) — £6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

**COMPULSORY RESIDENCE:** The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association. November 1970

**OPHTHALMOLOGY**

**SOUTH-EAST METROPOLITAN**  
REGIONAL HOSPITAL BOARD

Applications are invited for the appointment  
of two Consultant Ophthalmologists,  
whole-time or maximum part-time, to Clinical  
Area No. 7, consequent upon the retirement  
of the two existing practitioners. For the next  
of two years the out-patient services and beds  
will be based in the hospitals of the Bromley  
Hospital Management Committee. At the end  
of that time the in-patient services for the  
unit will be concentrated into a 50-bedded  
unit at the new District General Hospital at  
Queen Mary's Sidcup, which will deal with all  
branches of ophthalmic surgery. Consultants  
from the existing area will also be using these  
beds. The establishment of a new service with  
this degree of concentration within a period  
of some three years should present an  
interesting challenge and opportunity further  
to develop a special interest for the two  
people appointed. Possession of F.R.C.S. and  
wide experience of ophthalmology is  
essential. Bromley, Beckenham and  
Farnborough Hospitals may be visited by  
arrangement with the respective Hospital  
Secretaries. It is not felt at present that a visit  
to Sidcup would be of material advantage as  
the unit has only recently started but an  
application for leave from the Secretary,  
Advisory Appointments Committee,  
South-East Metropolitan Regional Hospital  
Board, Randolph House, Wellesley Road,  
Croydon, Surrey, to be returned by 5th  
November. (23704) 36-9

**LEWISHAM GROUP**  
HOSPITAL MANAGEMENT COMMITTEE

Applications are invited for a post as

**CLINICAL ASSISTANT**

**IN OPHTHALMOLOGY**

at Lewisham Hospital. For three sessions on  
Thursdays (one in the mornings and two in  
the afternoons) available from 4th November,  
1971.

Applications together with copy  
testimonials or names of two referees to  
Group Secretary, Lewisham Hospital  
London, S.E.13. (23568) 37-4

**WEST OF ENGLAND**  
EYE INFIRMARY  
Exeter

**CLINICAL ASSISTANT**  
required for one session, Friday mornings, in  
the Out-patient Department. Payment will be  
at the rate of £360 per annum per weekly  
three and half hour session. The appointment  
will be held for two years and will be subject  
to review at the end of the first year.

Applications stating age, qualifications and  
experience, together with the names of two  
referees, to Hospital Secretary. (23838) 37-4

**NORTH EAST METROPOLITAN**  
REGIONAL HOSPITAL BOARD  
North Middlesex Hospital, London N18 1QX

# Consultant Pathologist

A challenging and interesting vacancy has occurred with Nchanga Consolidated Copper Mines Limited, Zambia's major mining organization. The Company is responsible for providing full medical care to its employees and families.

The successful candidate will have a higher degree in pathology and will be primarily a Morbid Anatomist, preferably with experience in cytology. In addition to providing a histopathology and cytology service he will supervise the sections of Bacteriology, Parasitology, Haematology, Blood Transfusion and Biochemistry.

At the present time there are four relatively small laboratories apart from a centralized Histology and Cytology service. The other pathological services are carried out in all four laboratories functioning independently. These are situated at the various mining sites.

## Location

The successful candidate will initially work at the largest of the four, the central medical laboratory at Kitwe, and would be required to develop and eventually run the Centralized Group Pathological service, based on a suitably staffed and equipped laboratory for which capital has already been approved. This laboratory will offer Pathological services, as at present, to the other mining group in Zambia, Government health services, and the private sector.

At present the qualified technical staff is entirely expatriate. However, in co-operation with the group training department and the Evelyn Hone College of Further Education (in Lusaka) the Central Medical laboratory takes part in a scheme of technician training for Zambians. The training officer/laboratory supervisor has already been appointed to supervise the student technicians in the practical part of their course. The Pathologist will be required to take particular interest in this training.

A research programme has been supported for the last three years in addition to a Haemoglobinopathy project, a blood group survey of the local population has been carried out and Pseudocholinesterase levels in Kwashiorkor have been studied. Further research will be encouraged.

## Duration

The appointment will be for a minimum of two years on a contract basis at a salary which will be competitive and subject to negotiation.

A Company house is provided free of charge and a furniture allowance is payable. Holidays at the rate of 66 days per annum. Children receiving education overseas are granted up to £500 per child towards school fees and are given two return passages per year to visit their parents during holidays. Income Tax is lower than in the UK, and Exchange Regulations allow for up to 50% of gross income to be remitted home.

## ST. ANDREW'S HOSPITAL Northampton

Medical Director: James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the small county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds which is equipped for the investigation and treatment of all forms of psychiatric illness. In addition, there is accommodation mainly in private rooms, both in the main hospital and in various villas, for longer-stay patients and geriatric patients.

The hospital's amenities include Gloucester House, which comprises an Occupational Therapy Department, a swimming pool, a squash-court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.

Fee ranges from £11.50 per week, and subscribers to private medical insurance schemes such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges.

Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel: Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London, W.1.

# Day after day of freedom from asthmatic attack

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes - thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced - even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school, exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator - SPINHALER.

# Diseases of the Urinary Tract

One of the most rapidly growing specialties over the last few years has been that of urology. Many doctors now in practice could not have been taught much of the present-day management of many urinary tract diseases. Last year the *B.M.J.* published a series of "Current Practice" articles on diseases in the urinary tract, and these have now been collected together in a booklet. Beside articles on the newer aspects of the specialty, the booklet contains articles on established methods of managing renal disorders. Any doctor who wishes to bring himself up to date on modern practice in this field will find this a readable account of the important aspects of the specialty.

# Sheer Panache- or the most surprising cars in their class?

*The first—sheer panache—  
you can see at a glance.*

*The second  
comes only  
from a  
more  
intimate  
knowledge  
of cars.*

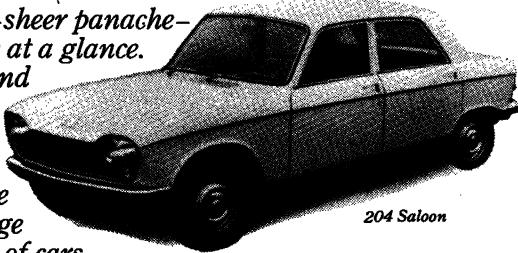

*Motoring critics have been generous in  
their praise. Some have been surprised, for  
example, that the 204 has an engine capacity  
of an 1100 when its performance implies  
that of a 1500.*

*It has also been said that the 304 really  
belongs in the 1600-1800 class. One motoring  
journalist\* even went so far as to  
describe the 504 injection as the best  
two-litre car in the world.*

*But it doesn't stop there.*

*Peugeot reckons your comfort is very  
important—especially on long journeys. So  
there are the kind of seats that take you  
there and back in armchair luxury.*

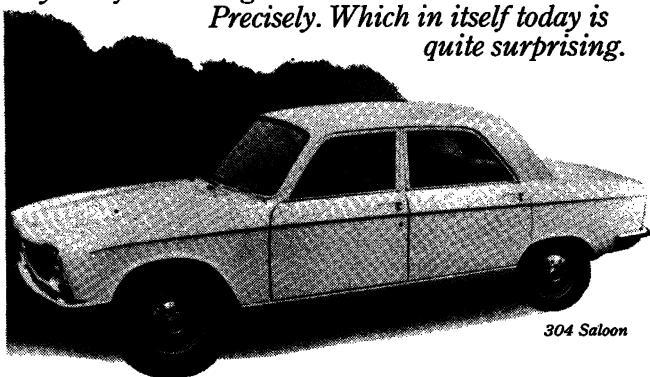

*There's a really generous boot for luggage  
enthusiasts. Childproof rear doors for child  
minders. An electric clock for time watchers.  
And—surprisingly as standard features  
on all models—heated rear windows and  
front seat safety belts.*

204 Saloon

*In an age of noise and aggravation,  
another welcome surprise is the  
Peugeot quiet. Which comes from  
meticulous damping of the all-round  
independent suspension (again a feature on  
all models). And from the fact that we  
have cut down vibration to an absolute  
minimum.*

*If you like to check your needs we think  
you'll find a Peugeot saloon to match them.  
Precisely. Which in itself today is  
quite surprising.*
