# New

# (clonidine hydrochloride)

The non-ergotamine anti-migraine tablet

# Dixarit...

... is the only specific migraine prophylactic not derived from ergot alkaloids

... diminishes the response of peripheral blood vessels to constrictor and dilator stimuli

... has a simple dosage regimen

Dixarit is the only specific preparation for migraine prophylaxis which is not derived from the ergot alkaloids. Therefore patients do not experience ergot-like side effects. In particular it does not compromise the peripheral blood supply. On the contrary, Dixarit, a pharmacologically simple preparation, is ideal for the prophylactic management of the migrainous patient, exerting its effect by diminishing the responsiveness of the peripheral blood vessels to constrictor and dilator stimuli.<sup>1</sup>

Convenient morning and evening dosage means the patient is unlikely to forget his dose which is often the difference between therapeutic success or failure.

There is conclusive evidence from controlled clinical trials that Dixarit is effective in lessening the severity and frequency of migraine attacks.<sup>2,3,4</sup>

#### Chemistry

Dixarit is 2–(2, 6–dichlorophenylamino)–2-imidazoline hydrochloride. (Approved name clonidine HCl).

#### Pharmacological Action

Dixarit diminishes the responsiveness of peripheral vessels to constrictor or dilator stimuli.

#### Indications

Dixarit is indicated for the prophylactic management of migraine or recurrent vascular headaches in adult patients.

#### Contra-indications

There are no absolute contra-indications to the use of Dixarit.

#### Precautions

Dixarit is unsuitable for patients suffering from migraine who have co-existing or previous history of depressive illness, since further depressive episodes have been attributed to it.

As with any drug, during the first trimester of pregnancy normal precautions must be observed. Animal tests have shown no foetal abnormality.

Using higher doses than those recommended for migraine, clonidine is an effective anti-hypertensive agent. It is available for this indication as Catapres tablets and ampoules.

Caution must be used in patients where anti-hypertensive agents are being used. Provided the dosage regimen below is followed, no difficulty should arise during the routine management of such patients. Where Catapres is already being used Dixarit therapy is obviously illogical.

Accidental overdosage could give rise to hypotension and bradycardia; these effects may be counteracted by  $\infty$ -adrenergic blocking drugs such as phentolamine.

#### Side effects

In general these occur only during the initial period of treatment. Sedation and dry mouth occur in some patients. Dizziness, nausea and nocturnal unrest have been reported. Occasional rashes have been attributed to Dixarit.

A single case of toxic hepatitis has been reported during the use of clonidine for the treatment of hypertension at doses considerably higher than those recommended for migraine. However at these higher dosages monitoring of haematological, renal and hepatic status in large numbers of patients has revealed no drug-related adverse effects.

#### Dosage

Adults only: a simple twice daily dosage, morning and evening.

1 tablet twice daily. If after 2 weeks there has been no remission, increase to 2 tablets twice daily. In turn this may be increased to a maximum of 3 tablets twice daily.

Duration of treatment depends upon frequency and severity of attacks.

#### Presentation and Identification

Tablets, each containing 0.025 mg Dixarit in containers of 100. Blue, biconvex, sugar-coated tablets with Company symbol on one side.

**Note:** Compressed tablets each containing 0.1 mg clonidine hydrochloride are available as Catapres for the treatment of hypertension.

# Boehringer Ingelheim

# The salesman was irritable in private

1 The salesman was irritable with his family, but inhibited with his clients and colleagues.

3 Treatment was unsuccessful until Limbitrol was prescribed. His irritability began to disappear immediately, with the consequent improvement in family relationships.

2 This situation followed the appointment of a new regional manager and, over three years, had seriously affected both his work performance and his family relationships.

4 His work rapidly improved and he started to get on better with his regional manager. He is now working well and happily: his family is as pleased as he is.

#### LIMBITROL

treats anxiety in a matter of hours and depression in a matter of days

Anxiety symptoms are often relieved in 1 to 2 hours, and depressive symptoms usually respond within 7 to 14 days. Limbitrol is the trade mark for pharmaceutical preparations containing chlordiazepoxide and amitriptyline. Full information is available on request from Roche Products Limited, 15 Manchester Square, London W1M 6AP.

# Betnovate is better. So is she.

# Infected infantile eczema: all the better for Betnovate-N

Eczema patients respond better to Betnovate than to other topical steroids. Two clinical trials, involving 916 patients and comparing Betnovate with five other leading topical steroids, proved this conclusively.

Their findings included:

... whenever preferences were expressed, there were always more for betamethasone 17-valerate than for the other corticosteroids."

Betamethasone 17-valerate was statistically superior to the other topical corticosteroids in fourteen of the twenty separate subdivisions of the trial; in no instance was it inferior."1

"A better response is more likely with betamethasone 17-valerate than with any of the other corticosteroids tested."1

"... response in psoriasis is a more stringent test

of the efficacy of a corticosteroid than response in eczema. The superiority of betamethasone 17-valerate in this context is noteworthy."2

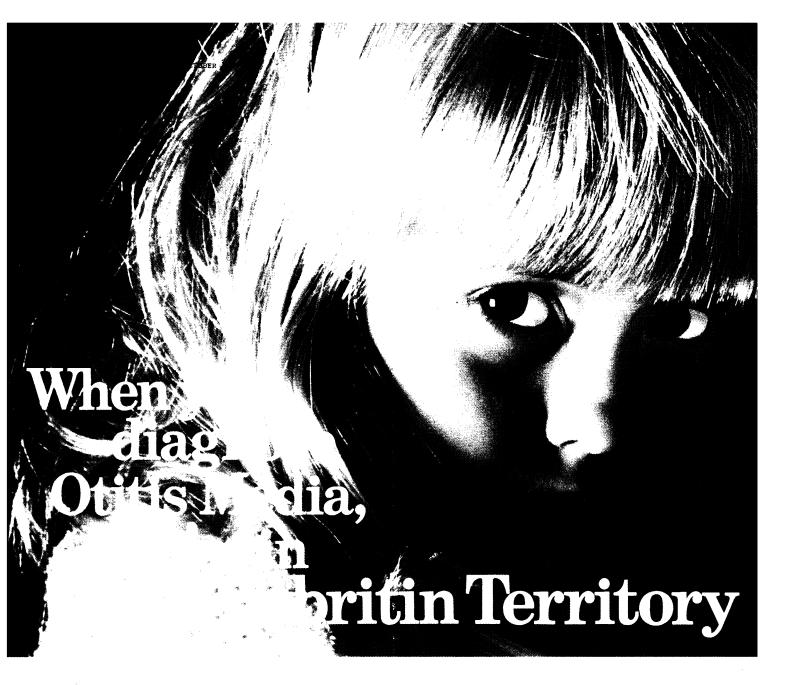

When you add the broad-spectrum antibiotic neomycin to the most effective steroid you can prescribe, the result is Betnovate-N. In infected infantile eczema it gives rapid relief from itching and inflammation and thus achieves the best response. The one thing to remember is Betnovate. Add an N to fight the infection.

# The right-first-time antibiotic for infections in children

Penbritin is right because it is active against the causative organisms in Otitis Media. Its broad spectrum includes H. influenzae which commonly causes this infection in the under fives. This pathogen is insensitive to oral Penicillin V and G and only partially sensitive to the erythromycins. Penbritin destroys it.

Penbritin is right because its safety is well proven. This contrasts with recent publicity drawing attention to the problems of tooth staining and bone deposition which may follow tetracycline therapy.

Two palatable syrups, capsules, tablets and the new paediatric suspension enable you to prescribe Penbritin in the right form for any patient. Injectable Penbritin is also available if required. Following the recent price reduction the average daily cost of treating Otitis Media with Penbritin is just 8½p.

Penbritin is right because it is well proven. Published references involving more than 600 patients with Otitis Media show an overall success rate of 84%. This figure confirms Penbritin as the right-first-time antibiotic.

Dosage:

Children under 10 years — 125 mg q.i.d.  $\frac{1}{2}$  — 1 hour a.c. Older children and adults — 250 mg q.i.d.  $\frac{1}{2}$  — 1 hour a.c. In severe infections these dosages may be increased.

Contra-indication: Penicillin hypersensitivity.

**Side-effects:** as with other penicillins.

Further information is available on request.

# Penbritin

Penbritin\* (ampicillin B.P.) is a product of British research at **Beecham Research Laboratories** Brentford, England **originators of the new penicillins**\*regd.

BRITISH MEDICAL JOURNAL 16 OCTOBER 1971 ADVERTISEMENT

ON ANNAPURNA the members of the British Nepalese Army Expedition chose Transvasin to relieve muscular pain. Three British climbers used it:

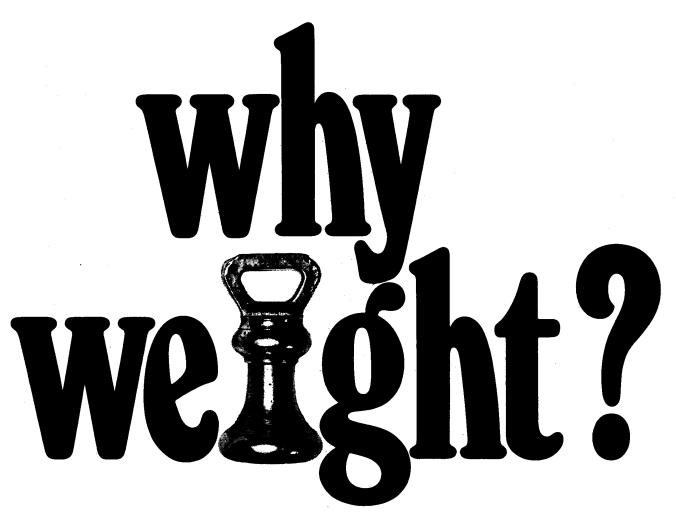

"One suffered badly strained back and chest muscles following involvement in an avalanche. The second developed severe intercostal fibrositis, and the third had badly bruised himself after falling 30 feet and jamming in a crevasse. Transvasin gave considerable relief to all three climbers."

Personal communication. 3rd September 1970.

Transvasin was also used with great success by many other members of the party who complained of various other aches and pains. IN GENERAL PRACTICE too, Transvasin provides effective relief from muscular and rheumatic pains. It contains esters of nicotinic and salicylic acids which ensure a rapid hyperaemic and analgesic effect.

Available in 30 g tubes.
Basic NHS price 12½p, plus P.T.
Full information is available on request.

FULL ANTISPASMODIC EFFECT FROM FRACTIONAL DOSE OF EPHEDRINE-PLEASANTLY FLAVOURED

TESTS show that 2-Diethylaminoethyl - α - phenylbutyrate Citrate has a more pronounced bronchodilatory effect than ephedrine. Three parts of 2-Diethylaminoethyl -  $\alpha$  - phenylbutyrate Citrate producing the same effect as 5 parts of ephedrine. It acts more rapidly than ephedrine, reaches maximum

effect somewhat later and falls away at a slightly slower rate. With a mixture of the substances the curve of bronchial dilation showed that the effect produced was considerably greater than when double the quantity of each substance was administered separately.

> 4 mg. OF THE MIXED SUBSTANCES (CONTAINING 2 mg. OF EPHEDRINE) HAS THE BRONCHODILATORY EFFECT OF 8 mg. EPHEDRINE

Whilst a full bronchodilatory effect is produced with this mixture, side-effects, such as nausea, restlessness, sweating, etc., due to overdosage or idiosyncrasy to ephedrine are avoided.

# For the Treatment of Psychiatric Illnesses

This Private Registered Nursing Home at York of 275 beds, established in 1792, is managed by members of the Religious Society of Friends (Quakers)

(Quakers).

It combines psychological and physical investigations and modern forms of treatment for patients suffering from psychiatric illnesses, including drug dependence, and has a separate unit for the assessment and treatment of psycho-geriatric conditions. There are also facilities for languistry patients

and treatment of psycho-geriatric conditions. There are also facilities for long-stay patients.

The Hospital is surrounded by 42 acres of its own grounds and is within easy walking distance of the City centre. In recent years, the Hospital has been modernised throughout. A new spacious occupational therapy centre provides a wide range of creative activities.

British United Provident Association and Private Patients Plan assist their members who become patients at The Retreat within the range of their published benefits.

For terms and further particulars, apply to The Medical Director, The Retreat, York, YO1 5BN. Telephone: York 54551 (STD 0904).

## 1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour.

Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated.

# Atlases

#### Zülch, K. J.: Atlas of the Histology of Brain Tumors

Title and text in six languages (English, German, French, Spanish, Russian and Japanese)

100 fig. XVI, 261 pages. 1971 Cloth DM 78,-; ca. US \$ 22.60

Distribution rights for Japan: Nankodo Co. Ltd., Tokyo

This atlas shows the growth pattern of the intracranial tumors, their frequent variations and the typical changes occurring as a result of regressive changes. Therefore, it guides one in the art of making a correct classification. There is also a discussion concerning the prognosis based on "genuine growth" in which KERNO-HAN'S grading system is further developed and adapted for daily use. It is hoped that this atlas forms a solid basis for the morphological diagnosis of brain tumors.

#### Gershon-Cohen, J.: Atlas of Mammography

300 fig. VI, 264 pages. 1970 Cloth DM 96,—; ca. US \$ 27.30

This Atlas of Mammography acquaints the reader with roentgenography of all phases of breast development, from normalcy to the many phases of disease. It is illustrated with some 300 roentgenograms gleaned meticulously from some 50 000 collected by the author during 30 years of mammographic study.

# Watanabe, M., S. Takeda, and H. Ikeuchi: Atlas of Arthroscopy

Entirely revised 2nd edition 134 fig. in color IX, 176 pages. 1970 Cloth DM 96,—; ca. US \$ 27.80

Published by Igaku Shoin Ltd., Tokyo Sole distribution rights for the USA, Canada and Europe (including the United Kingdom): Springer-Verlag

#### Nomura, T.: Atlas of Cerebral Angiography

24 fig., 1 color plate, 212 plates, 6 angiograms XI, 322 pages. 1970 Cloth DM 90,—; ca. US \$ 23.60

Published by Igaku Shoin Ltd., Tokyo Sole distribution rights in all countries exept the Far East: Springer-Verlag

Cerebral angiography is the best method of investigating the internal structure of the brain, yet its potential is not well understood. This book is intended to help the reader to understand the normal three-dimensional angiogram.

#### Wackenheim, A., and J. P. Braun: Angiography of the Mesencephalon

# New product

# Lentizol a significant improvement in antidepressant therapy

Amitriptyline is one of the most widely-prescribed of all psychotropic agents. But like any drug, it works properly only when taken as prescribed. And published work¹ clearly shows that as many as 48% of outpatients default in taking tranquillisers and antidepressants. Even among inpatients, some 19% default in this way². A recent study reported in the Practitioner³, indicates that a once-daily dosage regimen is less likely to be abused.

#### Lentizol:

#### simplifying dosage to reduce patient default

Lentizol is a sustained-release form of amitriptyline designed to be taken once daily, at bedtime. Thus Lentizol offers a new simplicity of dosage to reduce patient default. Instead of having the trouble – and possible embarrassment – of taking three doses during each day, the patient simply takes one dose at bedtime.

# Often lessens the incidence of daytime drowsiness

Lentizol has a sedative effect within a short time after the daily dose is taken. This can be very helpful to those depressed patients who have difficulty in getting off to sleep. Its sleep-enhancing effect is spread over the early

hours of the morning, too, so that Lentizol also benefits patients whose condition causes early-morning waking. By daytime, Lentizol will continue to provide symptom relief until the next daily dose is taken, with less risk of drowsiness.

#### No increase in treatment cost

One Lentizol 50 mg. capsule at bedtime will replace treatment by one 25 mg. amitriptyline tablet t.d.s. This means that the daily cost of Lentizol is equivalent to the daily cost of standard amitriptyline.

#### Clinical assessment in progress

Clinical appraisals of Lentizol are being carried out by a number of investigators throughout the United Kingdom. Early results<sup>4</sup> indicate that Lentizol produces an improvement in patients who would be expected to respond to amitriptyline. Lentizol is widely preferred because of the simple, convenient dosage regimen. Also some workers have found it possible to discontinue night-time sedatives.

Lentizol is supplied as capsules of 50 mg. and 25 mg. amitriptyline in a sustained release formulation, each strength in packs of 50 and 250. Further information is available on request.

I British Medical Journal, 1965, 2:790. 2 British Journal of Psychiatry, 1967, 113: 1435. 3 General Practitioner Clinical Trial (1970), Practitioner, 204:719. 4 Reports on file, Clinical Investigation Department, William R. Warner.

# When amitriptyline works-you will find that Lentizol works better

# PROGNOSIS IN ELEVATED BLOOD PRESSURE

# Implications of insurance statistics

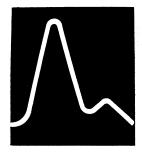

The charts on the opposite page are based on the accumulated experience of 26 insurance companies in America covering nearly 4,000,000 people who were accepted for life insurance. The statistics reveal that even modest elevations of blood pressure are associated with definite decreases in life expectancy.

For example, a male of 45 years with a blood pressure 150/100 mm Hg has his average life expectancy reduced from 32 to 20½ years—a loss of 11½ years.

Fortunately, substantial evidence has accumulated to show that effective treatment with modern antihypertensive drugs can considerably improve the depressing prognosis indicated by the insurance companies' statistics.

This information is made available by Merck Sharp & Dohme Limited, the discoverers of

#### **Prognosis in Elevated Blood Pressure**

#### Reduction in Life Expectancy

MEN

Life Expectancy in Elevated Blood Pressure Compared with Normal Expectancy

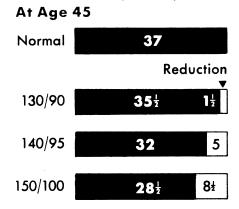

Reductions in expectation of life associated with elevated blood pressure are **not** proportionate to the degree of excess mortality. This holds even for very high blood pressures.

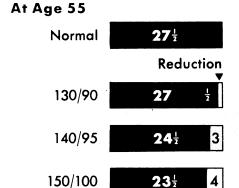

The magnitude of the reduction in life expectancy increases with elevation in blood pressure, but decreases with age.

The figures illustrate approximate reductions in life expectancy associated with indicated elevations in blood pressure.

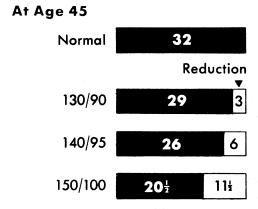

#### WOMEN

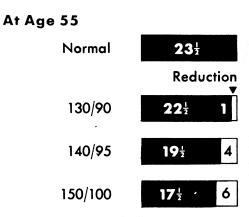

Life Expectancy (Years)

# "less likely to cause general reactions than that containing whole virus"

"In regard to the choice of vaccine, there are now available the ordinary whole virus vaccines, which cause both local and general reactions in a low percentage of inoculated persons, and an inactivated deoxycholate-treated 'split' vaccine. The latter, which is marketed by Burroughs Wellcome, is less likely to cause general reactions than that containing whole virus."

† Practitioner (1970) 205, 835

WELLCOME, leaders in the field of immunology, are now supplying FLENZAVAX\* Influenza Virus Vaccine (Inactivated Extract Antigen) Trivalent. FLENZAVAX protects against the A2/Hong Kong/68 strain and all current B strains of influenza virus.

# your next arthritic patient... BRUFEN

offers these outstanding benefits...

High response rate	In a long-term study* of nearly 1000 arthritic patients, 7 out of 10 were reported as 'better' or 'much better' after treatment with Brufen.
Equally good response in Osteo- and Rheumatoid Arthritis	In terms of relief of pain and improved functional activity, osteo-arthritic patients and rheumatoid arthritic patients responded equally well to Brufen.
Highly effective in Arthritis of recent onset	77% of those in the study who had suffered from arthritis for one year or less showed a significant improvement during treatment with Brufen.
Good Response in extremely chronic Arthritis	Even among the patients who had suffered from an arthritic condition for 20 years or more, over 50% responded well to Brufen therapy.

New freedom for the arthritic patient

Practitioner, 1971, 207, 343)
Brufen is ibuprofen, available as tablets of 200mg.

# Serenid Forte

She's spent her lunch break doing the shopping. Tonight she'll collect the children, hurry them through tea, bath and into bed – and then cook an evening meal for her husband before starting the housework. Small wonder that daily worries can so easily get out of proportion for women under this kind of pressure. SERENID\* FORTE effectively calms the tense and agitated patient without dulling alertness or impairing perception. It allows the working mother to cope with the stresses of job and home life, while cutting her worries down to size.

really potent anti-anxiety activity for patients who must stay awake, alert and active

# mew Hiprex

# can end the frustration of treatment failure in persistent urinary infection

She was in the surgery last winter . . . and in June . . . and again a few weeks ago

Yet another flare-up of urinary tract infection. Frequency, scalding and stress incontinence. Examination shows a small cystocele.

The treatment: *Hiprex*. For maintained anti-bacterial action to eradicate resistant organisms. For prolonged, effective treatment in the knowledge that no serious adverse reactions have been reported following extensive use. For continued treatment at simple dosage and low cost – as little as 4p a day.

"It's the difficulty and pain", he says.

Prostatic hypertrophy, with occasional episodes of urinary retention requiring catheterisation. Symptoms: urinary urgency, hesitancy and burning. O/E bladder palpable well above the pubis, and tender. The treatment: *Hiprex*. To clear up resistant infection. To prevent the recurrence which is virtually certain because of urinary stasis. To make life simpler and happier for him.

"Those other tablets upset me, doctor."

Symptoms: urinary frequency and scalding. Known pyelonephritis with associated hypertension. Allergic to sulphonamide and reports sideeffects from nitrofurantoin. The treatment: *Hiprex*. For at least as good a prospect of eliminating the current bout of infection. For the likelihood of better patient acceptance and co-operation over the prolonged course of treatment envisaged. For assurance that no serious adverse reactions have been reported in long-term treatment.

# **Hiprex**

Hiprex: registered trade mark

can be given confidently for weeks or even months to eradicate persistent infection

# **Hiprex**

overcomes even highly resistant organisms in the patient most at risk

# **Hiprex**

breaks the cycle of continuous reinfection of the kidneys by infected urine

Composition Each tablet contains hexamine hippurate 1 g. Indications The treatment of urinary tract infections, such as pyellits, cystitis and urethritis, but excluding acute pyelonephritis. The treatment of chronic pyelonephritis, and as maintenance therapy after successful antibiotic treatment of acute pyelonephritis. The treatment of asymptomatic bacteriuria, including that occurring during pregnancy. Prophylaxis before and after urological surgery. Dosage Adults: 1 tablet twice daily. Children: 6-12 years: } tablet twice daily. In refractory cases, the dosage may be increased to: 1 tablet three or four times daily in adults. } tablet three or four times daily in children aged 6-12 years. Doses in excess of those recommended may cause severe bladder irritation, haematuria, abbuminuria or painful micturition. Alkalinuria Some patients may have an alkaline urine as a result of a predominantly vegetarian diet or occasionally due to Proteus or Pseudomonas infection. In these cases, additional acidification may have an to lower the urinary pH to the level required to degrade the hexamine moiety. Administration of ascorbic acid 1 g. four times daily is recommended in these cases. Side-effects are reversible on withdrawal of the drug. Treatment of side-effects Patients experiencing painful micturition or bladder irritation should be instructed to discontinuing the medication. Prompt relief of these symptoms can be obtained by the consumption of copious quantities of water and 2-3 teaspoonfuls of bicarbonate of soda. Contraindications Renal insufficiency, hepatic insufficiency or severe dehydration. Hiprex is also contra-indicated as the principal therapeutic agent in acute parenchymal infections of the kidney. Basic N.H.S. prices 100 tablets £2-00 plus Purchase Tax. RIKER LABORATORIES 311

#### SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,328 per annum x £144(3) x £126(1) — £2.886.

or subsequent years.
Deductions of £210 per annum in respect of lodging only for voluntary residence.

\*\*REGISTRAR: £2,328 per annum x £144(3) x £126(1) — £2,886. Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

\*\*SENIOR REGISTRAR: £2,760 per annum x £126(1) x £174(1) x £177(1) x £174(1) x £177(1) £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

\*\*MEDICAL ASSISTANT: £2,520 per annum x £144(1) x £156(3) x £144(10) £4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

\*\*CONSULTANT: £4,512 per annum x £201(8) x £210(1) £6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

\*\*COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apaartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

## Trends in Clinical Pathology

### Essays in Honour of Gordon Signy

This book is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war – research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

## **Specialists** Papua New Guinea

#### SENIOR SPECIALIST - RADIOTHERAPY

This Specialist will be in charge of the Radiotherapy centre at Lae, providing consultant services to doctors in all major centres of Papua New Guinea. He must have a wide experience in all forms of cancer treatment and preferably a diploma in medical radiotherapy or equivalent. Pay \$A14,574.

#### **SURGEON**

A specialist with an F.R.C.S. or equivalent degree is required for surgery duty at several centres, and for lecturing medical students of the University at Port Moresby.

Applicants must have a diploma of anaesthetics or fellowship of the Faculty of Anaesthetics, R.C.S. The appointee will be responsible for all major anaesthetics at base hospitals, and for training medical staff.

EAR, NOSE & THROAT SPECIALIST
This specialist must have postgraduate qualifications in oto-rhino-laryngology. His services are required at all major centres in Papua New Guinea, and he will be expected to take part in a training scheme involving medical staff.

#### **OBSTETRICIANS AND GYNAECOLOGISTS**

There are vacancies at four major hospitals in Papua New Guinea. Besides treating patients, these specialists will help train resident medical officers, registrars and nurses, and will act as consultants to other district hospitals. They must be members of an approved college of obstetrics and gynaecology, and have wide postgraduate experience in these fields.

#### PAEDIATRICIAN

This doctor will be based at one of Papua New Guinea's major centres. As well as performing his usual duties he will make regular inspection tours of field hospitals, prepare periodicals and help in nursing training. He must have membership of an approved college of physicians and hold a diploma of child health or equivalent.

#### **MENTAL HEALTH SPECIALIST**

Applicants must have either postgraduate qualification in psychological medicine or relevant postgraduate experience in a teaching hospital. The appointee will supervise the establishment of mental health services in a district surrounding one of Papua New Guinea's main towns.

PAY for all specialist positions in this list will be within the range \$A11,111-\$13,801, depending on experience.

#### **MEDICAL OFFICERS**

Graduates of medicine and surgery are also needed for general hospital duties. Applicants with special training or experience may be posted to research centres or training institutions. Pay, depending on experience, within the range \$A7,861-\$A10,777

#### Conditions of Service

- ★ 4 year contract engagement
- \* fares paid to Papua New Guinea, and to the U.K. on completion of contract
- 3 months' leave after each 21 months' service generous allowances for leave fares
- leave fares to Sydney, accommodation, children and their secondary education
- income tax in Papua New Guinea is currently less than half that in the United Kingdom

Application forms and further information are available from the Recruitment Officer, Public Service Board, Canberra House, 10-16 Maltravers Street, Strand, London WC2R 3EH. Telephone 01-836 2435.

COMPETITION NO. 71:1208.

## **Overseas Development**

### **MEDICAL OFFICERS** £2.620 Falkland Islands

The Government of the Falkland Islands urgently require two Medical Officers between 27-50 years of age.

Post A: Duties of general practitioner and to be in sole charge of the country district of East Falklands. The Officer will be under the general supervision of the Senior Medical Officer in Stanley with whom communication will be by telephone or radio-telephone. Travel between patients either by land-rover, plane or ship. Probable posting Darwin, East Falklands.

Post B: Duties of general practitioner, but will be required to

serve at the General Hospital, Stanley and to attend district calls. May also be required to spend part of tour in the country district.

Terms of service include furnished quarters, free family passages, paid leave, educational grants and a terminal gratuity of 20% of salary. Private practice is not permitted. On contract to the overseas Government for a 2 year tour but shorter tour can be considered.

### **REGISTRARS (PSYCHIATRY)** £2,834 - 3,420 Barbados

For duties in the Observation Ward at the Mental Hospital or at the in-patient unit at the Queen Elizabeth Hospital under the supervision of a Consultant Psychiatrist. To assist in the rehabilitation of patients and the teaching of student nurses and medical students. Candidates must be under 57 years with at least one year post-registration experience in Psychiatry. Terms of service include free family passages, paid leave, education grant, subsidised accommodation and a terminal Gratuity of 20% of salary. On contract to the government of Barbados for 2 years

### **MEDICAL OFFICER** £3,654-4,374 Cayman Islands (Salary under review)

For general duties including clinics in hospital and country districts. Probable posting on arrival to Government Hospital, George Town, Grand Cayman, but may be posted for short periods to the Cayman Brac. He should be 27-50, have experience in Public Health and possess the D.P.H. or equivalent. Terms of service include an allowance of £500 pa in lieu of private practice, free family passages, paid leave, education grants, subsidised accommodation and a terminal gratuity of 25% of gross salary. On contract to the overseas Government for 2 years. No local income tax.

#### ALL POSTS:

Candidates should normally be citizens of, and permanently resident in the United Kingdom. They must possess full medical qualifications and be fully registered with the General Medical Council in the United Kingdom.

ERITISH MEDICAL JOURNAL 16 OCTOBER 1971 ADVERTISEMENT

## Hazard Ahead...

but with care, one that is readily overcome.

The 'Hazards' facing you and your family are not so easily tackled, but with the same care you can provide for yourself and your dependants with the right type of insurance.

Understandably, you may not know where to start, but the Medical Insurance Agency, with its knowledge of the insurance market and of the needs of the medical and dental professions, will help you to find the policy that is exactly right for you.

## MEDICAL INSURANCE AGENCY LIMITED

BRITISH MEDICAL ASSOCIATION HOUSE, TAVISTOCK SQ., LONDON, WCIH 9JD Telephone: 01-387 6031/9 Teleprone: MEDINAGE, LONDON, WCIH 9JD

## therapeutic efficacy

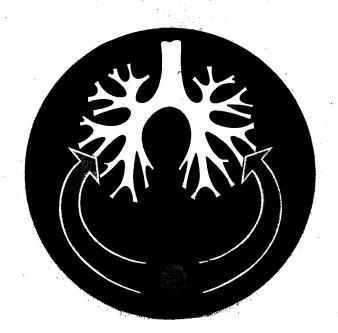

An increasing weight of clinical evidence confirms that Theograd is one of the most effective bronchodilators available.

### sustained action

achieved by the unique Gradumet vehicle provides continuous bronchodilation with minimal side effects.

### patient convenience

The simple b.d. dosage provided by the Gradumet is convenient and easy for both you and your patient.

# Theograd®

## bronchodilation night and day

Recommended dosage: 2 tablets initially, followed by 1 b.d. As with all theophylline preparations, some patients may experience gastrointestinal side effects; the Gradumet® presentation reduces these to a minimum. No clear contraindications; relatively non-toxic.

CHURCHILL LIVINGSTONE 15 - 17 Teviot Place, Edinburgh

## ANAFRANL

## THE INTERNATIONAL ANTIDEPRESSANT

## New, potent, tricyclic antidepressant

- rapidly relieves depressed mood and induces a sense of well-being
  - effective in up to 80% of patients suffering from endogenous, reactive or neurotic depression
    - no dietary restrictions
    - may be combined with most other commonly used drugs (except monoamine oxidase inhibitors)
  - well tolerated, side-effects being usually mild and transient

Anafranil, 3-chloro-5-(3-dimethylaminopropyl)-10, 11-dihydro 5H dibenz [b,f] azepine (Clomipramine) hydrochloride, is available as capsules of 25 mg, syrup containing 25 mg/5ml and ampoules containing 25 mg/2 ml.
