Intal doesn't relieve asthmatic attacks

It prevents them

Steroids, bronchodilators and antihistamines, whether in aerosol or tablet form, are only symptomatic treatments. Whereas INTAL actually *protects* the patient from asthmatic attacks—day in, day out.

By preventing the release of spasmogens INTAL affords daily prophylaxis for as long as any challenge exists. More than 150 clinical trials have proved its effectiveness, safety and ease of administration.

But only an asthmatic can really appreciate the difference it makes.

In infected eczema,
it's the eczema you worry about.

Betnovate-N
stops the scratching that starts the
infection that results in infected eczema.

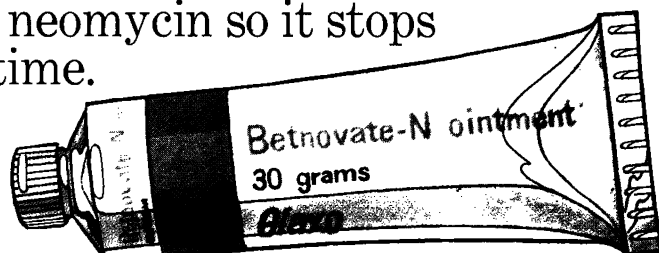

And does it quicker than other preparations designed

Doctors in the Australian Army get the best of all worlds

A new life in Australia. With first class passage paid for you and your family. A job waiting—and all the advantages of a service practice.

With extraneous administration taken off your hands, you can really do your job properly. You could be in an R.M.O. unit, field ambulance station or military hospital and there are opportunities for updating medical knowledge and techniques. Then there's the sports and social side, too.

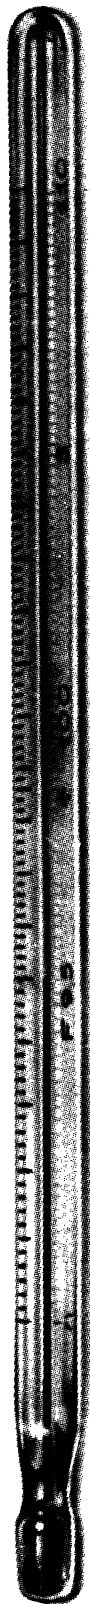

The sort of man we're looking for is preferably under 40—with medical qualifications registerable in the Commonwealth of Australia. He's medically fit—prepared to serve anywhere and is a British subject eligible for permanent residence in Australia. If this sounds like you, this is what we'll do for you.

You'll be appointed to a Short Service Commission for 4 years in the Medical Corps of the Australian Army in the minimum rank of Captain, where your salary would amount to £4,773 per annum after the equivalent of 5 years service. (Your professional experience in England serves to ante-date your period of service). Tax and a refunded retirement benefit will be deducted from this—though your clothing and marriage allowances of £51 and £345 per annum are not taxed. You also receive a bounty of about £1,540.

If this sounds like your sort of life, contact: Brig. C. F. Flint, O.B.E., Australian Army Representative, Australia House, Strand, London WC2. Telephone: 01-836 2435 Extn. 356.

Do you have MARTINDALE at your elbow?

Martindale Martindale
The Extra Pharmacopoeia
Twenty-sixth edition

Martindale, says *The Practitioner*, "puts every other textbook of treatment in the English language in the shade, so far as the practising clinician is concerned." And it goes on to say: "The general practitioner who does not have a copy of this 'opus magnum' permanently at his elbow is not only depriving himself of a 'must', he is asking for unnecessary trouble." Martindale is the world's most comprehensive guide to drugs and medicines. The 26th edition, published recently, is a book of 2,346 pages containing about two million words. Martindale now includes over 2,800 drug monographs with information (where appropriate) about pharmacological action; toxic effects and their treatment; precautions to be observed on administration; interactions with other drugs; absorption, metabolism,

and fate in the body; actions, uses and dosage; proprietary drug preparations. Both proprietary and non-proprietary names are included in the 34,000-entry main index. The information is supported by abstracts and references selected from more than 30,000 specially prepared for this edition. The formulas are given of over 1,700 medicines that can be bought by the public without prescription, information often essential in compiling a clinical history. For rational prescribing, Martindale is an essential tool. Ask your pharmacist to show you his copy—but don't expect him to let you borrow it! You can get your own copy from any medical bookseller, or post free from The Pharmaceutical Press.

The Future General Practitioner

Learning and Teaching

General or family practice is a special subject. This book is written by six experienced teachers selected by the Council of the Royal College of General Practitioners. It is intended chiefly for teachers, but it will also be valuable to those who are learning and to all who are concerned about the place of family practice within a country's medical services.

A syllabus is developed in five main parts:

Health and Diseases
Human Development
Human Behaviour
Medicine and Society
The Practice

Throughout the book the authors have tried to indicate ways in which the teacher may approach the task of passing on what he had learned by his own experience. The theme is the search for objectives which will satisfy the needs of learner and teacher. The belief is that this search will benefit the future family practitioner and through him the community of his patients.

1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour.

Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated.

New Deteclo Syrup

For patients you can't keep tabs on

There are some patients who need the triple tetracycline of Deteclo, but who find their medicine hard to swallow. Maybe it's because they're young. Or old. Or simply hate taking tablets. New Deteclo Syrup solves their problems in a raspberry-flavoured syrup. It tastes so nice, you won't have any trouble persuading them to take the treatment they need. And it's so effective, because the combination of tetracycline with demethylchlortetracycline and chlortetracycline produces such wide antibacterial activity. So when you can't be sure if they'll take the tablets or not, they can still get the good value of Deteclo and like it.

Valium* Roche

The effects of anxiety sometimes harden into conditions which take on a physical life of their own, demanding active, specific treatment as well as relief from the underlying anxiety. The value of Valium Roche in these psychosomatic conditions is outstanding. In a group of 12 trials[‡] involving 1338 such cases a satisfactory response was reported in 1083 (80.9%) of the group. In many cases even well established functional and structural symptoms were eased.

She needed something to help her sleep

SURMONTIL relieves insomnia while treating its cause

But what?

A hypnotic will certainly give her a good nights' sleep, but if she is one of those patients – and there are many of them – whose insomnia originates from anxiety/depression, sleep is all she'll get. The root cause of the condition will always remain untreated with the patient becoming more and more dependent on the medication. Moreover, the degree of this dependence is further heightened by the fact that, because they distort normal sleep patterns, all major hypnotics (and many antidepressants as well) can give rise to unpleasant symptoms upon withdrawal. Patients, therefore, feel most disinclined to discontinue a treatment which, although giving symptomatic relief, is not removing the cause of their condition. These people, in fact, need more than just "something" to help them sleep – they need 'Surmontil'.

- immediately restores sound natural sleep
- relieves daytime anxiety/depression
- avoids long-term hypnotic therapy by treating the underlying condition
- removes the risk of withdrawal problems due to REM suppression/rebound, and possible dependence encountered with both hypnotics and other major tricyclic antidepressants
- unlike a number of other antidepressants does not increase intra-sleep restlessness, thus its sleep-restoring properties are enhanced

A good friend in

Amoxil is an excellent antibiotic for the treatment of bronchitis. Its broad spectrum of activity covers the respiratory pathogens commonly encountered in general practice, *H. influenzae*, pneumococci and other streptococci.

Amoxil's outstanding oral absorption¹ – not greatly affected by food – ensures that high bactericidal serum levels are rapidly obtained. Clinical results² have demonstrated that bactericidal levels can also be achieved in the bronchial secretions, recognised as a frequent source of re-infection in exacerbations of chronic bronchitis.

This action contrasts with that of many commonly used antibiotics which cannot effectively penetrate these secretions to eradicate the infection.

1. Brit. med. J. (1972), 3, 13
2. Brit. J. Dis. Chest. (1972), 66, 185

Add to this the convenience of a three times daily dosage regime, the degree of safety associated with penicillin therapy, treatment costing as little as 16p a day and a wide range of highly acceptable oral presentations and it's easy to see why Amoxil is a good friend in bronchitis.

Further information on Amoxil (amoxycillin) is available from: Bencard, Freepost, Great West Road, Brentford, Middx.

Flatulent dyspepsia. And not for the first time.

Or even the second or third. For this patient it is a recurring problem, and one which a wide variety of ant-acids and other medications have so far failed to control.

Maxolon offers a real break in this all too familiar routine. It treats the disturbed motility which is often the underlying cause of flatulent dyspepsia. Maxolon prevents symptoms arising in four out of five patients. In a month, normal motility may be re-established.

Prescribe a month's course of Maxolon for your next regular patient. She'll get *effective* relief, probably for the first time.

Prove Maxolon for yourself. Use Maxolon on your regular flatulent dyspepsia patients. For a 7 day starter pack write to Beecham Research, Freepost, Brentford, Middlesex—post-free in the United Kingdom. *Full information is available on request.*

UNIVERSITY OF EXETER Postgraduate Medical Institute

A full-time postgraduate course lasting 10 weeks will begin on 10th January, 1973. These courses are held 3 times a year starting in October, January and April. Each course includes instruction in general medicine, paediatrics, preventative medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training, but these are normally reserved for students sponsored by some official body.

It is sometimes possible to accept general practitioners for 1 or 2 weeks of a course, and attendance for this period is recognized under Section 63 of the Health Services and Public Health Act 1968. These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least 5 years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom).

Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire. (16967) 4

WESTERN REGIONAL COMMITTEE FOR POSTGRADUATE MEDICAL EDUCATION**MANAGEMENT APPRECIATION FOR THE CLINICIAN**

The Department of Epidemiology and Preventive Medicine of the University of Glasgow will run one-week courses of the above topic on the following dates:

29th January to 2nd February, 1973; 2nd April to 6th April, 1973; 11th June to 15th June, 1973.

The Courses are primarily designed for (but are not limited to) doctors of Senior Registrar and Consultant status and introduce the clinician to aspects of Health Service administration and management that are pertinent to clinical practice. These include an introduction to the theory of management, discussion of the role of operational research and the use of record data and the problems of complex organizations and their administration. Topics of this kind are presented in the context of current Health Service practice and syndicate exercises dealing with management problems relevant to clinical practice are a feature of the Course.

Residential accommodation of a high standard is available and residence during the Courses is recommended. Each Course is limited to 24 participants.

The Course fee is at present £40 exclusive of accommodation.

Enquiries should be addressed to Dr. F. A. Boddy, Department of Epidemiology and Preventive Medicine, Ruchill Hospital, Glasgow, N.W. (18316) 4

EPIDEMIOLOGY

MEDICAL RESEARCH COUNCIL Statistical Research and Services Unit

The Medical Research Council wish to appoint an experienced

SENIOR EPIDEMIOLOGIST to their Statistical Research and Services Unit. The Unit includes in its research programme studies of the epidemiology and aetiology of a number of diseases, and of the benefits and hazards of various prophylactic, therapeutic and investigatory procedures. The Unit also advises Council staff and other scientific workers on research projects of a similar character and provides assistance to many of the Council's scientific advisory committees. The person appointed will be expected to take a share in all these aspects of the work of the Unit. Previous statistical experience would be an advantage.

The Unit is attached to University College Hospital Medical School, and it may be possible to arrange sessions at the hospital in an appropriate specialty. EASTERN REGIONAL HOSPITAL BOARD (Scotland) Dundee Teaching Hospitals

DIAGNOSTIC RADIOLOGIST (Consultant)

with special interest in Neuroradiology.
DIAGNOSTIC RADIOLOGIST
(Consultant)

Applications are invited for the post of Diagnostic Radiologist (Consultant) with special interest in Neuroradiology, Dundee Teaching Hospitals (Dundee Royal Infirmary — 359 beds and Maryfield Hospital — 359 beds).

The ratio of Neuro/General Radiology will be variable depending upon circumstances, but it seems likely that Neuroradiology will require five to six sessions per week. It is expected that the University of Dundee will grant an honorary teaching appointment in association with the post. The appointment will be on a whole-time or maximum part-time basis at the option of the successful candidate.

Arrangements might be made to provide further training to candidates who wish to undertake Neuroradiology but who have no previous training in the field. Alternatively, the Board may be prepared to make a proleptic appointment.

Applications are invited for the post of Diagnostic Radiologist (Consultant) in the Dundee Teaching Hospitals. The duties will be primarily in Maryfield Hospital and Dundee Royal Infirmary with the proportion of time to be spent in each to be agreed with the successful applicant. There may be occasional duties in other hospitals in the area and these will be a commitment to undergraduate teaching under an honorary University appointment.

The appointment will be on a whole-time or maximum part-time basis at the option of the successful candidate. Salary and conditions of service in accordance with the National Agreement.

Depending upon the interests of the successful candidates, a commitment to work in the fields of radioisotopes and ultrasonics may be associated with these posts.

Forms of application and further particulars from the Secretary to the Board, Vennoholme, Riverside Drive, Dundee, with whom applications should be lodged not later than 23rd December, 1972. (H9190) 85-1

ADMINISTRATIVE

(See also p.xliv)

**CHIEF ADMINISTRATIVE
MEDICAL OFFICER**

Four Boards have been appointed to
undertake from October, 1973, the
administration of integrated health and
personal social services in Northern Ireland.

Each Board is appointing a Chief
Administrative Medical Officer who will be
responsible for the professional management
of administrative medical services and for the
overall planning and co-ordination of medical
and paramedical services in the Board's area,
in addition to sharing with other chief officers
the corporate management of health and
personal social services as a whole. The post
thus offers an opportunity unique in the
United Kingdom of developing integrated
health services in partnership with personal
social services.

Applications are invited for this post under
the Western Health and Social Services Board,
with its headquarters in Londonderry and
serving a population of 235,200. The
provisional salary scale, to be reviewed
following determination of salaries for the
reorganized National Health Service in Great
Britain is: £6,504-£7,665.

Applicants must have had wide experience
in the field of medical administration in one or
more of the existing branches of the health
services. The appointments will take effect
from October, 1973, but arrangements could
be made for successful candidates to take up
post earlier on an interim basis, and to
participate in the implementation of the new
structure being evolved with the help of
management consultants.

Further particulars and application forms
can be obtained from the Director, Staffs
Council for the Health and Welfare Services,
The Beeches, 23 Hampton Park, Belfast BT7
3JN, with whom applications should be lodged
by 22nd December, 1972. (H9402) 111

ADMINISTRATIVE

SOUTH-EASTERN
REGIONAL HOSPITAL BOARD
*Scotland***PRINCIPAL ASSISTANT
SENIOR MEDICAL OFFICER**
Medical Information Services*Re-Advertisement*

The South-Eastern Regional Hospital Board wish to appoint to their Headquarters staff a medical officer in information services in the grade of Principal Assistant Senior Medical Officer. The overall responsibility of the person appointed will relate to a wide spectrum of medical information services and will, in particular, involve responsibility for the study of medical care information in Livingston New Town.

It is anticipated that candidates for this appointment will be experienced in epidemiological techniques and will be interested in medical records, in general, and informed on computer handling of such records.

The successful candidates will be expected to contribute to the work of a multi-disciplinary team which will advise on the use of data currently collected in the hospital service in the evaluation of services provided and in its epidemiological significance, and will consider, in the light of the impending reorganization of the National Health Service, the integration of existing and development of new information systems.

It is likely that a suitable candidate will be offered an attachment to the Department of Social Medicine of the University of Edinburgh.

Salary £4,836 x 279(6) — £6,510.

Applications, giving the names of three referees, by 23rd December, 1972 to the Secretary, South-Eastern Regional Hospital Board, Scotland, 11, Drumsheugh Gardens, Edinburgh EH3 7QQ, from whom further particulars may be obtained. 111

PATHOLOGIST

Pathologist required for the regional Laboratory at Saint John, New Brunswick, Canada.

Main responsibility in morbid anatomy, but scope for supervision of some clinical pathology as well. This position has become available as a result of the former Lancaster D.V.A. Hospital having been transferred to the Provincial Government. Since 15th November, 1972, it has been operated at the West Saint John Community Hospital, for which laboratory services are being provided by the Saint John Regional Laboratory.

This is a large modern laboratory, fully affiliated with the Pathology Department of Dalhousie University through which it participates extensively in an approved training programme for residents and interns. Suitable applicants will be eligible for university appointments at appropriate rank.

The present position includes the director, three anatomical pathologists, a biochemist, a haematologist and a microbiologist. This laboratory serves approximately 1,050 acute beds and 1,000 custodial beds, in addition to substantial out-patient work, and functions as a reference centre for the entire province.

This position offers a competitive salary, presently being re-negotiated.

Saint John, has a temperate climate and scenic location, with excellent educational facilities, attractive residential areas and a wide range of outdoor sports.

Few appointments in Canada can match this combination of salary, academic prestige, quiet, relaxed living, and congenial colleagues. Recent experience has shown that offers will be quickly filled, so if interested, please apply at once to: Dr. J. S. Mackay, Director, Regional Laboratory Saint John, New Brunswick. (H9192) 118

Medical Appointment Pfizer Asia, Hong Kong

This position will be of prime interest to outstanding members of the medical profession who are seeking an international career with excellent advancement prospects.

Pfizer International is a worldwide organization which is prominent in the pharmaceutical, agricultural, veterinary, fine chemical, consumer and cosmetic industries. In Asia, Pfizer operations extend from Japan through Australia and New Zealand to India and Pakistan, and are administered from a management centre in Hong Kong.

Following further recent promotions, this management centre again must seek from external sources an Assistant Medical Director who will report to the Medical Director for Pfizer Asia.

The appointee will be involved in all medical activities, but a major responsibility will be the coordination and evaluation of clinical trials programmes in Pfizer locations in Asia. In most cases the working relationship will be through Country Medical Directors. Pfizer medical staff work closely with the marketing groups and considerable job interest is gained through medical service activities. This position requires travel both within Asia and on occasions to Europe and the U.S.

Applicants should be medically qualified and possess an appropriate postgraduate degree. Initial preference will be shown towards those with experience in clinical research, drug trial methodology or teaching. Final selection will place considerable emphasis on the applicant's managerial potential and ability to assimilate into a commercial enterprise.

Conditions: Compensation components provide a high net income level after housing and tax costs are applied. Company car supplied. Additional attractive benefits include a U.S. based retirement plan, annual home leave and reimbursement of major education costs.

Applications will be received in the strictest confidence. They should include personal details such as family status, age and nationality, educational record and work experience and current compensation. We would also like to know your availability and details of exposure to internal medicine, clinical research, psychiatry, tropical medicine or teaching.

Please note that applications received after 30th December, 1972 cannot be considered.

Airmail letters to:—

BULLI DISTRICT HOSPITAL BULLI, NEW SOUTH WALES Australia

Applications are invited from Registered Medical Practitioners for the post of

Resident Medical Officer

(up to and including 3rd Year), initially for a period of six months, subject to reappointment.

In addition to the opportunities of studying a wide variety of routines of value to general practice, there is particular scope for gaining surgical experience at a high level.

The Hospital is situated on the coast, approximately 40 miles south of Sydney, in a select residential area of the City of Wollongong, adjacent to modern transport and surfing beaches. Total population in the area serviced by the Hospital is 60,000. There are 83 general and 21 obstetric beds; approximately 4,000 in-patients and 25,000 out-patients are treated each year. Major operations average 80 per month, and minor procedures 130.

Accommodation is available for either a single or a married applicant. There are no other Resident Medical Staff.

Conditions of employment are in accordance with the Public Hospitals N.S.W. (Resident Medical Officers) Award. Salary range £3,100-£3,600 (\$A6,200—\$A7,200) according to years of service.

Applications in duplicate, accompanied by three current references, should be forwarded to the undersigned before 15th December, 1972.

Medical Officer

This appointment, with Roan Consolidated Mines in Zambia, should appeal to doctors with at least two years' post-qualification experience in hospital and a general practice. The nature of the work is varied and will involve out-patient clinics and a certain amount of in-patient responsibility. The man appointed will be based at Kalulushi on the Copperbelt, where the company provides a comprehensive health service for the employees and dependants of its Chibuluma division. The curative medical services have an establishment of four doctors and consist of a well-equipped hospital and four clinics in the area. The hospital has nearly 100 beds and is run by qualified nursing and para-medical staff. For those interested we can show a half-hour film about our medical facilities in Zambia.

Employment will be on a renewable contract basis—FOR TWO OR THREE YEAR PERIODS. A competitive salary will be negotiated, depending on experience and qualifications.

Additional benefits include ■ paid return passages and leave passages (after 2 years' service) for applicants and families ■ baggage allowance ■ furnished accommodation at low rental ■ free life assurance ■ children's education allowances ■ paid leave which accrues at the rate of 55 days p.a. ■ car provided. Excellent facilities exist for practically all sport and leisure activities on the Copperbelt which enjoys a healthy temperate climate with sunshine all year round.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Please write giving concise details of qualifications and experience, quoting reference AM.482, to:

Medical Officer

General duties & obstetrics

In Zambia, Roan Consolidated Mines provides a comprehensive medical service for its employees. Based at Mufulira, the doctor appointed will undertake general duties involving hospital out-patient sessions and domiciliary and clinic visits. He will also have medical and obstetrical in-patient responsibilities and will share hospital obstetrical call duties on a rota basis, with the principal obstetrician and one other medical officer. Experience in hospitals and general practice is called for which must include obstetrics. This is a post for a doctor holding the DRCOG rather than MRCOG.

Curative medical services are centred on two well-equipped hospitals totalling 460 beds. There are a total of 13 medical officers, including those with higher qualifications working in their specialised fields. The services are provided for employees and their dependants which comprises about 55,000 local and 2500 expatriate personnel.

A competitive salary will be negotiated, depending on experience and qualifications. Employment will be on a two or four year contract by agreement. Benefits include ■ children's education allowances ■ return passages ■ low rental housing ■ paid leave which accrues at the rate of 55 days per annum.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Bronchitis is at work again

But Ceporex can put paid to it. Ceporex is cephalexin from Glaxo, the well tolerated, broad spectrum antibiotic with proven clinical success rates of 94% in acute bronchitis and 87% in chronic bronchitis*.

Ceporex beats bronchitis

Glaxo

Ceporex is available as tablets, capsules and syrups in 250mg and 500mg strengths.
*Proceedings of the Vllth International Congress of Chemotherapy, Prague, August 1971 (In Press)
Literature on Ceporex (trade mark) is available from Glaxo Laboratories Ltd, Greenford, Middlesex

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

Full information is available on request.
Magnapen* (250mg ampicillin with 250mg flucloxacillin)

Hazard Ahead...

but with care, one that is readily overcome.

The 'Hazards' facing you and your family are not so easily tackled, but with the same care you can provide for yourself and your dependants with the right type of insurance.

Understandably, you may not know where to start, but the Medical Insurance Agency, with its knowledge of the insurance market and of the needs of the medical and dental professions, will help you to find the policy that is exactly right for you.
