

When chest infections clamp down Magnapen relieves the pressure.

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

for greater certainty in serious chest infections

In the Nobrium general practice survey 228 British GPs studied 691 patients with anxiety, most of whom kept a subjective record of their progress. Both the GPs and the patients recorded a substantial remission of symptoms with Nobrium (a total pretherapy symptom score of 9167 was reduced to 3888). A detailed analysis of these results is now being circulated to all general practitioners under the title of the Nobrium general practice survey: Results in 691 patients

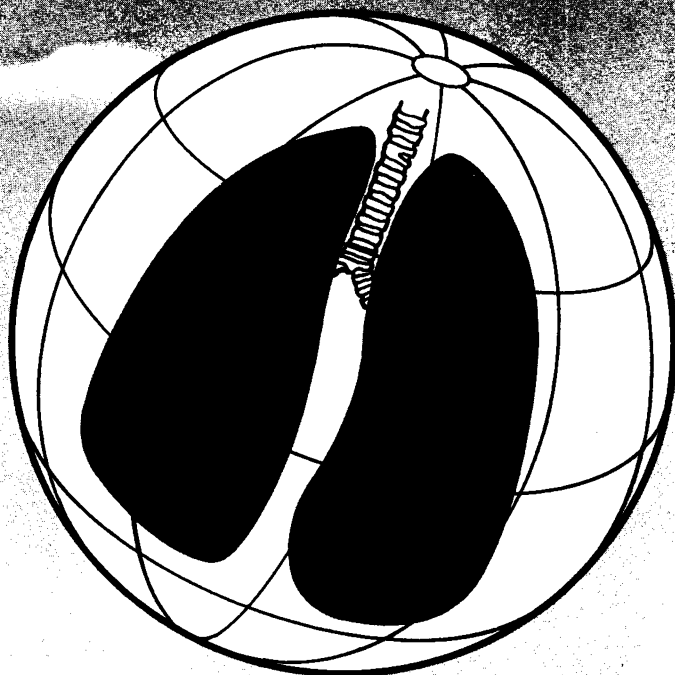

"Salbutamol (Ventolin) produced something approaching the maximal reversal of airway obstruction."

(Brit. J. Dis. Chest, 1967, 63, 148)

Pain is but a symptom, best
treated with the lowest effective
dose of any medicament

Low dosage, low cost in the control of pain

Clinical experience shows that, in fibrositis, dysmenorrhoea, sinusitis, and other commonly encountered conditions of persistent pain, just one tablet of Paramol-118 every four hours provides relief.

By fortifying 500 mg paracetamol with a low dose (10 mg) of dihydrocodeine it is possible to control pain with a minimum daily intake of both drugs: in such low dosage the possibility of side effects is remote.

Needless to say, if necessary, this dosage can be increased to two tablets every four hours—and, even at this higher dosage level, risk of any really undesirable side effect is insignificant.

Costs, too, are kept low: with one tablet every four hours the basic NHS cost of a day's therapy is only about 2p.

Formula Each tablet contains:
Paracetamol BP 500 mg
Dihydrocodeine tartrate BP 10 mg

The Army asks a lot of a doctor. Here's what we give him in return.

Any young Doctor is bound to find his work demanding. And we won't pretend that the Army offers you a cushy life. What it does offer you, is opportunity and experience that you'd be hard put to surpass in civilian life.

You'll have ample opportunity to travel, anywhere in the world where the British Army is on exercises or operations.

You'll also gain considerable medical experience, with the chance of specialist post-graduate studies if you opt for a permanent commission.

Initially you can join for 3 or 5 years with the opportunity to convert to a regular commission.

You'll hold the rank of Captain and at the age of 24 you could be earning £3942 a year with 6 week's paid leave, plus allowances for educating your children, uniform etc.

Your surgery is equipped and staffed by the Army.

Your practice covers not only soldiers, but their wives and children as well. And if you want to set yourself up in civilian practice, you'll appreciate the tax-free gratuity that comes with all the valuable experience you've picked up in your short

service commission. The gratuity works out at £1500 after three years and £3000 after five.

If you're interested, we can arrange for you to visit one of our medical establishments and talk with serving RAMC Officers before you make your final decision.

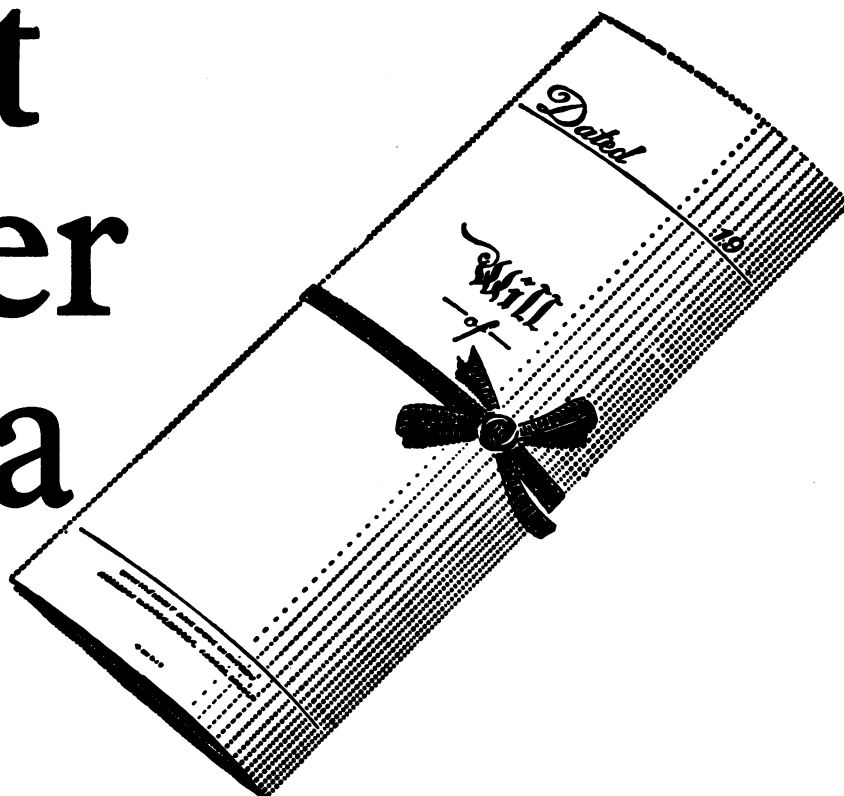

For further details, phone 01-499 8040 ext. 322 or write to:

Brain-damaged children: a cure?

Next Monday on the ITV network, Thames Television presents a one-hour film about Bunny Cvitanovich, a little boy who was born with severe brain damage and given up by British doctors as a hopeless case.

The film tells how Bunny's parents took him to the Institute for the Achievement of Human Potential in Philadelphia USA, where new treatments for brain-damaged children are being pioneered.

In Bunny's case the therapy appears to have been successful. But the validity of the Institute's methods is much questioned by medical experts on both sides of the Atlantic.

The film will be discussed in next Thursday's edition of *Something to Say* by the Institute's Director, Glen Doman: David Krech, Professor of Psychology at the University of California, Berkeley; James Loring, Director of the Spastics Society of Great Britain, and an eminent paediatric neurologist.

What some doctors may forget

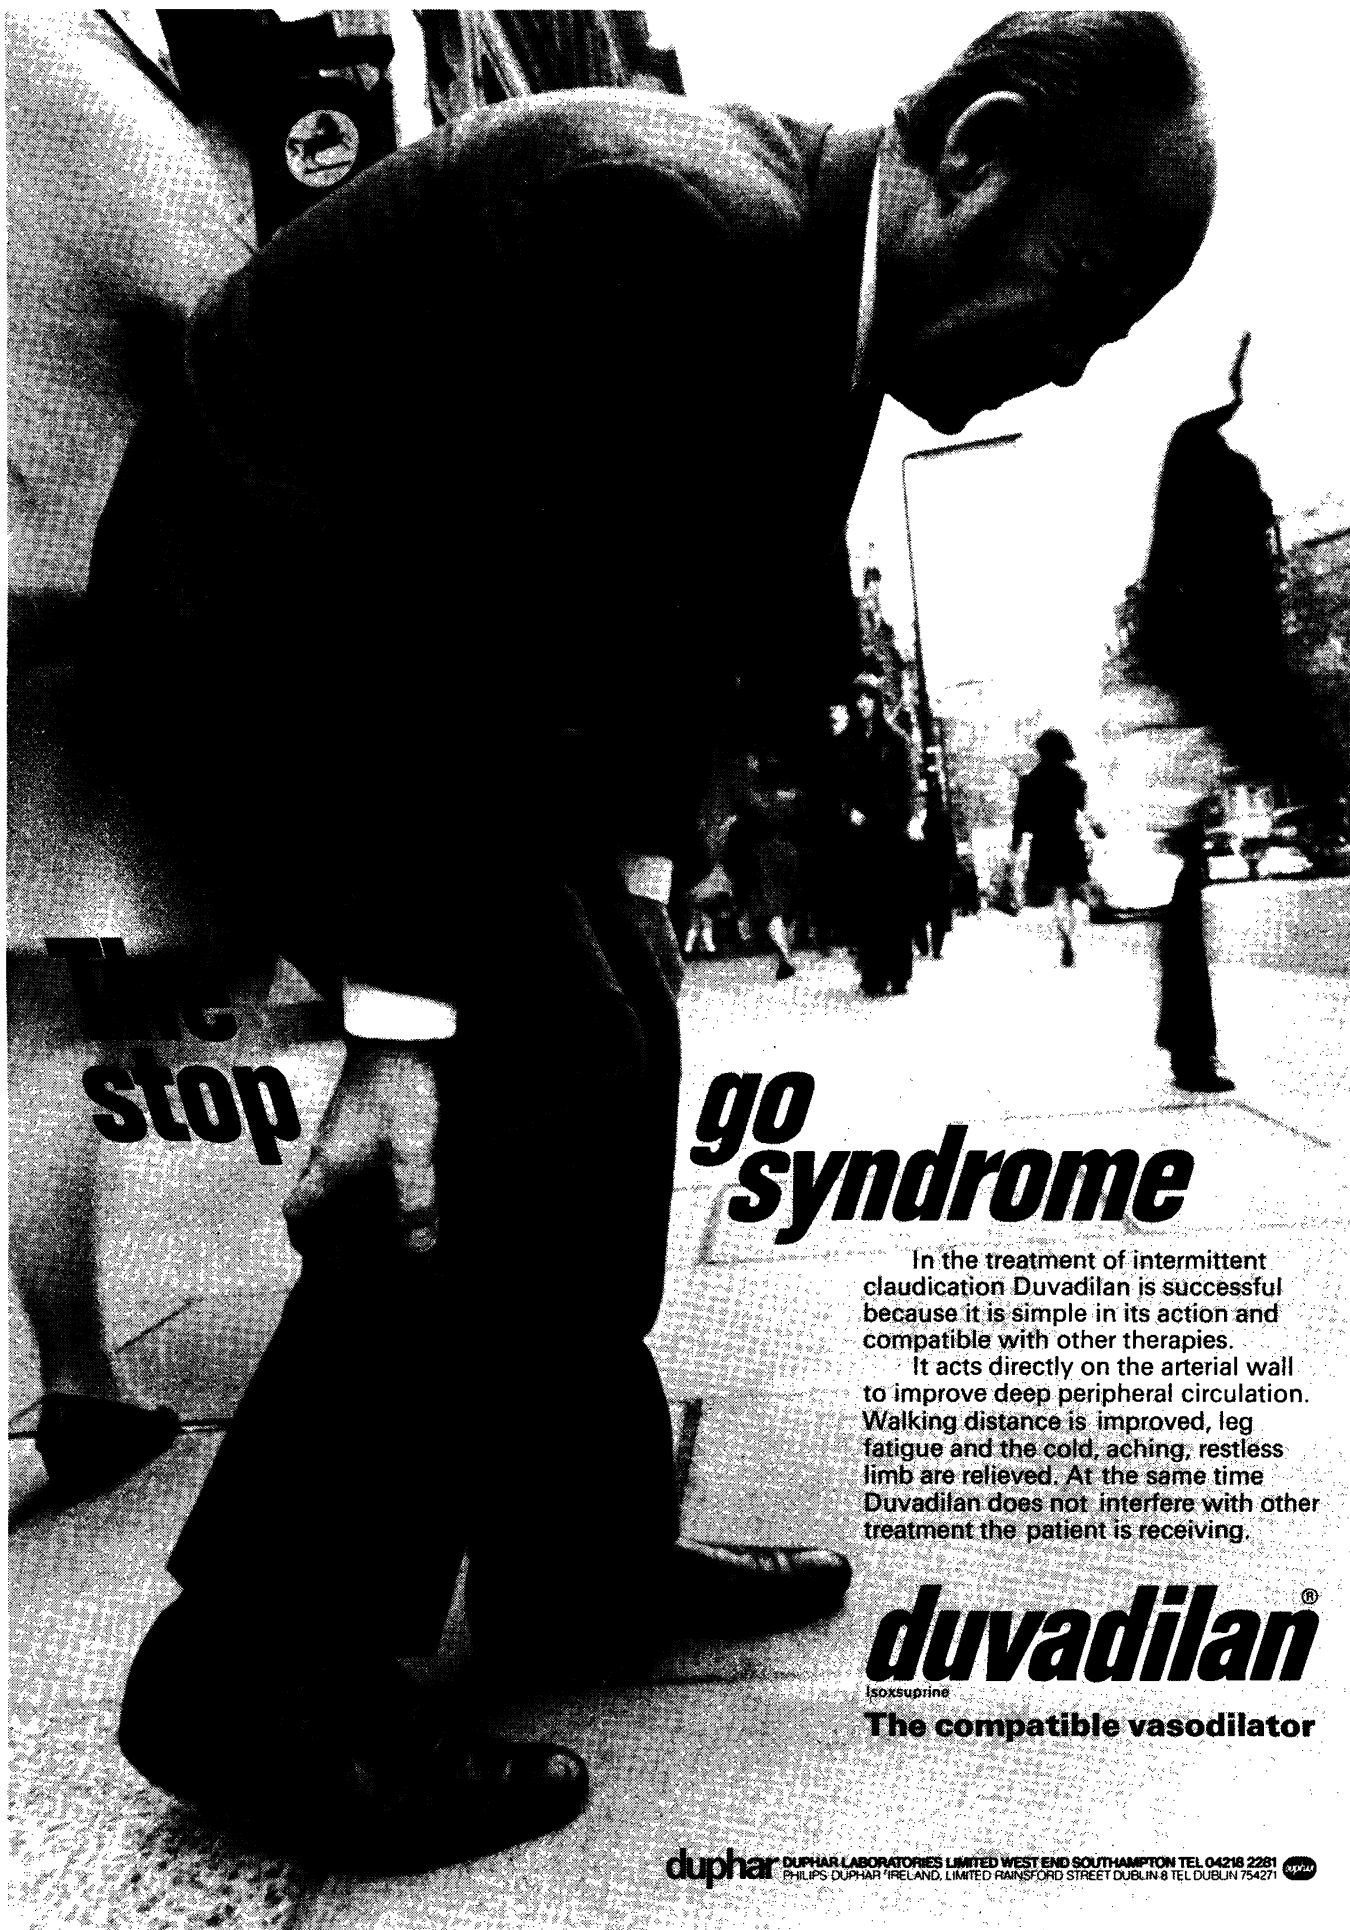

Bread is a major source of protein, B vitamins, iron and calcium, as well as providing energy. As such, it plays a key role in the national diet, and few can afford to do without it. For instance, almost *one-fifth* of the protein in an average diet comes from bread alone. It is one of the best food bargains in the world, when you consider that penny for penny bread contains nearly twice as much protein as cheese, and three times the protein of white fish or beef.

Yet bread is often underestimated as the

source of such a wide range of essential nutrients. In the right amount, it plays a vital part in helping to keep any diet in healthy balance. To deprive anyone, including the slimmer, of all the goodness of bread, can throw a diet drastically—and even imprudently—out of balance.

The 1970 National Food Survey confirms the vital importance of bread in the national diet. According to this survey the percentages of essential nutrients in the average daily diet deriving from bread alone are shown below.

SURMONTIL relieves insomnia while treating its cause

But what?

A hypnotic will certainly give her a good nights' sleep, but if she is one of those patients – and there are many of them – whose insomnia originates from anxiety/depression, sleep is all she'll get. The root cause of the condition will always remain untreated with the patient becoming more and more dependent on the medication. Moreover, the degree of this dependence is further heightened by the fact that, because they distort normal sleep patterns, all major hypnotics (and many antidepressants as well) can give rise to unpleasant symptoms upon withdrawal. Patients, therefore, feel most disinclined to discontinue a treatment which, although giving symptomatic relief, is not removing the cause of their condition. These people, in fact, need more than just "something" to help them sleep – they need 'Surmontil'.

- immediately restores sound natural sleep
- relieves daytime anxiety/depression
- avoids long-term hypnotic therapy by treating the underlying condition
- removes the risk of withdrawal problems due to REM suppression/rebound, and possible dependence encountered with both hypnotics and other major tricyclic antidepressants
- unlike a number of other antidepressants does not increase intra-sleep restlessness, thus its sleep-restoring properties are enhanced

Interest rates offered to big investors and small savers alike are many and varied, but each investment has its own particular set of terms and conditions.

Some investments tie up your savings for a fixed period of years, whilst others offer prompt withdrawal facilities.

Some are designed to provide regular income; others offer capital growth. Either may or may not be taxable.

Both may incorporate life assurance and the income tax relief then obtainable can further improve the attractiveness of the investment.

It's all very confusing unless you are a financial expert. How else can you choose a plan to suit your own particular needs and be safe in the knowledge that the Company to which you are to entrust your savings is absolutely secure?

Whether you are interested in saving a monthly sum out of salary, or making a single investment, you would be wise to consult the experts at the M.I.A. They are there to help you, as they have helped thousands of your colleagues—their advice is free and entirely without obligation.

PROBLEMS OF THE NEWBORN

from the British Medical Journal

Many doctors outside the neonatal and paediatric field may be unaware of the rapid advances made in the care of the newborn in the last decade. Last year the *B.M.J.* published a series of articles discussing the diagnosis and management of common conditions affecting newborn babies. The articles have been revised by their authors and collected together as a booklet, forming a useful guide to both serious problems and more everyday topics which confront doctors in their practice.

GENERAL PRACTICE TRAINING POSTS

Vocational Training for General Practice

The Ipswich Scheme

This is a well established and successful Vocational Training Scheme. It is specifically designed to allow a group of 8 trainees to go through their training programme together. The programme consists of 2 years' rotating appointments in hospital and a total of 1 year in General Practice. Trainees who enter the scheme in the next intake, will be offered the option of a 3-months period in General Practice before starting their hospital appointments. This will mean taking up their posts in G.P. in May, 1973 and starting their hospital training in August, 1973.

The particular features of the Ipswich scheme include a sponsorship of the trainees for General Practice during their hospital period, weekly seminars in psychiatry and medicine and a specifically designed group training programme based on a day-release scheme conducted during the G.P. year.

Hospital married accommodation will be available for trainees, if desired, during the G.P. and hospital training periods.

Early application is invited by those interested in joining this scheme. They should be fully registered and available to start in May, 1973, if they wish to take advantage of the initial period in General Practice. For further details, please write to the Clinical Tutor, The Ipswich Hospital, Angelsea Road Wing, Ipswich, or make arrangements to visit the Hospital. Quote Ref. 1H/VT/1.

HEAD OF THE MEDICAL SERVICE

£8,000 p.a.

The John Lewis Partnership owns 16 department stores, 45 supermarkets and some manufacturing units. It employs over 20,000 people and has a turnover exceeding £160 million a year.

The Head of the Medical Service, who is based in Central London, leads a team consisting of two other full-time doctors, several part-time doctors and a large number of nursing sisters. The service is concerned with occupational and preventive medicine in its broadest sense, covering working conditions, health hazards, health education and individual consultations wherever physical or mental health is a problem, as well as screening recruits for senior posts. We are looking for a first-class doctor, either a specialist or a general practitioner and preferably one with some experience in occupational health. Beyond this, however, the demands of a large organization, in which the benefits of ownership are shared by all who work in it, call for personal qualities of the highest order and most particularly the ability to get on with a large number of people at all levels.

Salary probably £8,000 a year but could be more for an outstanding candidate. Preferred age 40/50.

Conditions include five day week, non-contributory pension scheme, generous holidays and profit sharing. If you are interested in being considered for this post please write a preliminary letter summarizing your career to:

**The Director of Personnel,
The John Lewis Partnership,
Oxford Street, London W1A 1EX**

A detailed job specification will be sent on request. Our present full-time doctors are aware of this advertisement and have been invited to apply. (18410) 35

EASTERN
REGIONAL HOSPITAL BOARD
(Scotland)
Dundee Teaching Hospitals

DIAGNOSTIC RADIOLOGIST
(Consultant)
with special interest in Neuroradiology.
DIAGNOSTIC RADIOLOGIST
(Consultant)

Applications are invited for the post of
Diagnostic Radiologist (Consultant) with
special interest in Neuroradiology. Dundee
Teaching Hospitals (Dundee Royal Infirmary
— 595 beds and Maryfield Hospital — 359
beds).
The ratio of Neuro/General Radiology will
be variable depending upon circumstances,
but it seems likely that Neuroradiology will
require five to six sessions per week. It is
expected that the University of Dundee will
grant an honorary teaching appointment in
association with the post. The appointment
will be on a whole-time or maximum part-time
basis at the option of the successful
candidate.

Arrangements might be made to provide
further training to candidates who wish to
undertake Neuroradiology but who have no
previous training in the field. Alternatively,
the Board may be prepared to make a
prolegic appointment.

Applications are invited for the post of
Diagnostic Radiologist (Consultant) in the
Dundee Teaching Hospitals. The duties will be
primarily in Maryfield Hospital and Dundee
Royal Infirmary with the proportion of time to
be spent in each to be agreed with the
successful applicant. There may be occasional
duties in other hospitals in the area and these
will be a commitment to undergraduate
teaching under an honorary University
appointment.

The appointment will be on a whole-time or
maximum part-time basis at the option of the
successful candidate. Salary and conditions of
service in accordance with the National
Agreement.

Depending upon the interests of the
successful candidates a commitment to work
in the fields of radioisotopes and ultrasonics
may be associated with these posts.

Forms of application and further particulars
from the Secretary to the Board,
Vernonholme, Riverside Drive, Dundee, with
which applications should be lodged not later
than 23rd December, 1972. (H9190) 85-1

**PRINCIPAL ASSISTANT
SENIOR MEDICAL OFFICER**
Medical Information Services

Re-Advertisement

The South-Eastern Regional Hospital Board wish to appoint to their Headquarters staff a medical officer in information services in the grade of Principal Assistant Senior Medical Officer. The overall responsibility of the person appointed will relate to a wide spectrum of medical information services and will, in particular, involve responsibility for the study of medical care information in Livingston New Town.

It is anticipated that candidates for this appointment will be experienced in epidemiological techniques and will be interested in medical records, in general, and informed on computer handling of such records.

The successful candidates will be expected to contribute to the work of a multi-disciplinary team which will advise on the use of data currently collected in the hospital service in the evaluation of services provided and in its epidemiological significance, and will consider, in the light of the impending reorganization of the National Health Service, the integration of existing and development of new information systems.

It is likely that a suitable candidate will be offered an attachment to the Department of Social Medicine of the University of Edinburgh.

Salary £4,836 x 279(6) — £6,510.

Applications, giving the names of three referees, by 23rd December, 1972 to the Secretary, South-Eastern Regional Hospital Board, Scotland, 11, Drumsheugh Gardens, Edinburgh EH3 7QQ, from whom further particulars may be obtained. (18207) 111

Medical Appointment Pfizer Asia, Hong Kong

This position will be of prime interest to outstanding members of the medical profession who are seeking an international career with excellent advancement prospects.

Pfizer International is a worldwide organization which is prominent in the pharmaceutical, agricultural, veterinary, fine chemical, consumer and cosmetic industries. In Asia, Pfizer operations extend from Japan through Australia and New Zealand to India and Pakistan, and are administered from a management centre in Hong Kong.

Following further recent promotions, this management centre again must seek from external sources an Assistant Medical Director who will report to the Medical Director for Pfizer Asia.

The appointee will be involved in all medical activities, but a major responsibility will be the coordination and evaluation of clinical trials programmes in Pfizer locations in Asia. In most cases the working relationship will be through Country Medical Directors. Pfizer medical staff work closely with the marketing groups and considerable job interest is gained through medical service activities. This position requires travel both within Asia and on occasions to Europe and the U.S.

Applicants should be medically qualified and possess an appropriate postgraduate degree. Initial preference will be shown towards those with experience in clinical research, drug trial methodology or teaching. Final selection will place considerable emphasis on the applicant's managerial potential and ability to assimilate into a commercial enterprise.

Conditions: Compensation components provide a high net income level after housing and tax costs are applied. Company car supplied. Additional attractive benefits include a U.S. based retirement plan, annual home leave and reimbursement of major education costs.

Applications will be received in the strictest confidence. They should include personal details such as family status, age and nationality, educational record and work experience and current compensation. We would also like to know your availability and details of exposure to internal medicine, clinical research, psychiatry, tropical medicine or teaching.

Please note that applications received after 30th December, 1972 cannot be considered.

Medical Officer

General duties & obstetrics

In Zambia, Roan Consolidated Mines provides a comprehensive medical service for its employees. Based at Mufulira, the doctor appointed will undertake general duties involving hospital out-patient sessions and domiciliary and clinic visits. He will also have medical and obstetrical in-patient responsibilities and will share hospital obstetrical call duties on a rota basis, with the principal obstetrician and one other medical officer. Experience in hospitals and general practice is called for which must include obstetrics. This is a post for a doctor holding the DRCOG rather than MRCOG.

Curative medical services are centred on two well-equipped hospitals totalling 460 beds. There are a total of 13 medical officers, including those with higher qualifications working in their specialised fields. The services are provided for employees and their dependants which comprises about 55,000 local and 2500 expatriate personnel.

A competitive salary will be negotiated, depending on experience and qualifications. Employment will be on a two or four year contract by agreement. Benefits include ■ children's education allowances ■ return passages ■ low rental housing ■ paid leave which accrues at the rate of 55 days per annum.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Intal doesn't relieve asthmatic attacks

It prevents them

Steroids, bronchodilators and antihistamines, whether in aerosol or tablet form, are only symptomatic treatments. Whereas INTAL actually *protects* the patient from asthmatic attacks—day in, day out.

By preventing the release of spasmogens INTAL affords daily prophylaxis for as long as any challenge exists. More than 150 clinical trials have proved its effectiveness, safety and ease of administration.

But only an asthmatic can really appreciate the difference it makes.

Ear, Nose and Throat Infections

Prescribe Penbritin with Confidence for infections in children

Confidence is born of experience. And experience with Penbritin in the treatment of ear, nose and throat infections has established an outstanding record of safety and effectiveness.

Penbritin gives you broader cover than penicillin V—yet retains all the benefits of penicillin safety.

And Penbritin has none of the tooth-staining problems associated with the use of tetracyclines in young children.
