

A good friend in

Amoxil is an excellent antibiotic for the treatment of bronchitis. Its broad spectrum of activity covers the respiratory pathogens commonly encountered in general practice, *H. influenzae*, pneumococci and other streptococci.

Amoxil's outstanding oral absorption¹ – not greatly affected by food – ensures that high bactericidal serum levels are rapidly obtained. Clinical results² have demonstrated that bactericidal levels can also be achieved in the bronchial secretions, recognised as a frequent source of re-infection, in exacerbations of chronic bronchitis.

This action contrasts with that of many commonly used antibiotics which cannot effectively penetrate these secretions to eradicate the infection.

1. Brit. med. J. (1972), 3, 13
2. Brit. J. Dis. Chest. (1972), 66, 185

Add to this the convenience of a three times daily dosage regime, the degree of safety associated with penicillin therapy, treatment costing as little as 16p a day and a wide range of highly acceptable oral presentations and it's easy to see why Amoxil is a good friend in bronchitis.

Further information on Amoxil (amoxycillin) is available from: Bencard, Freepost, Great West Road, Brentford, Middx.

AMOXIL

an excellent antibiotic for routine treatment

Prescribing Information

Dosage: Adults 250 mg three times a day. Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

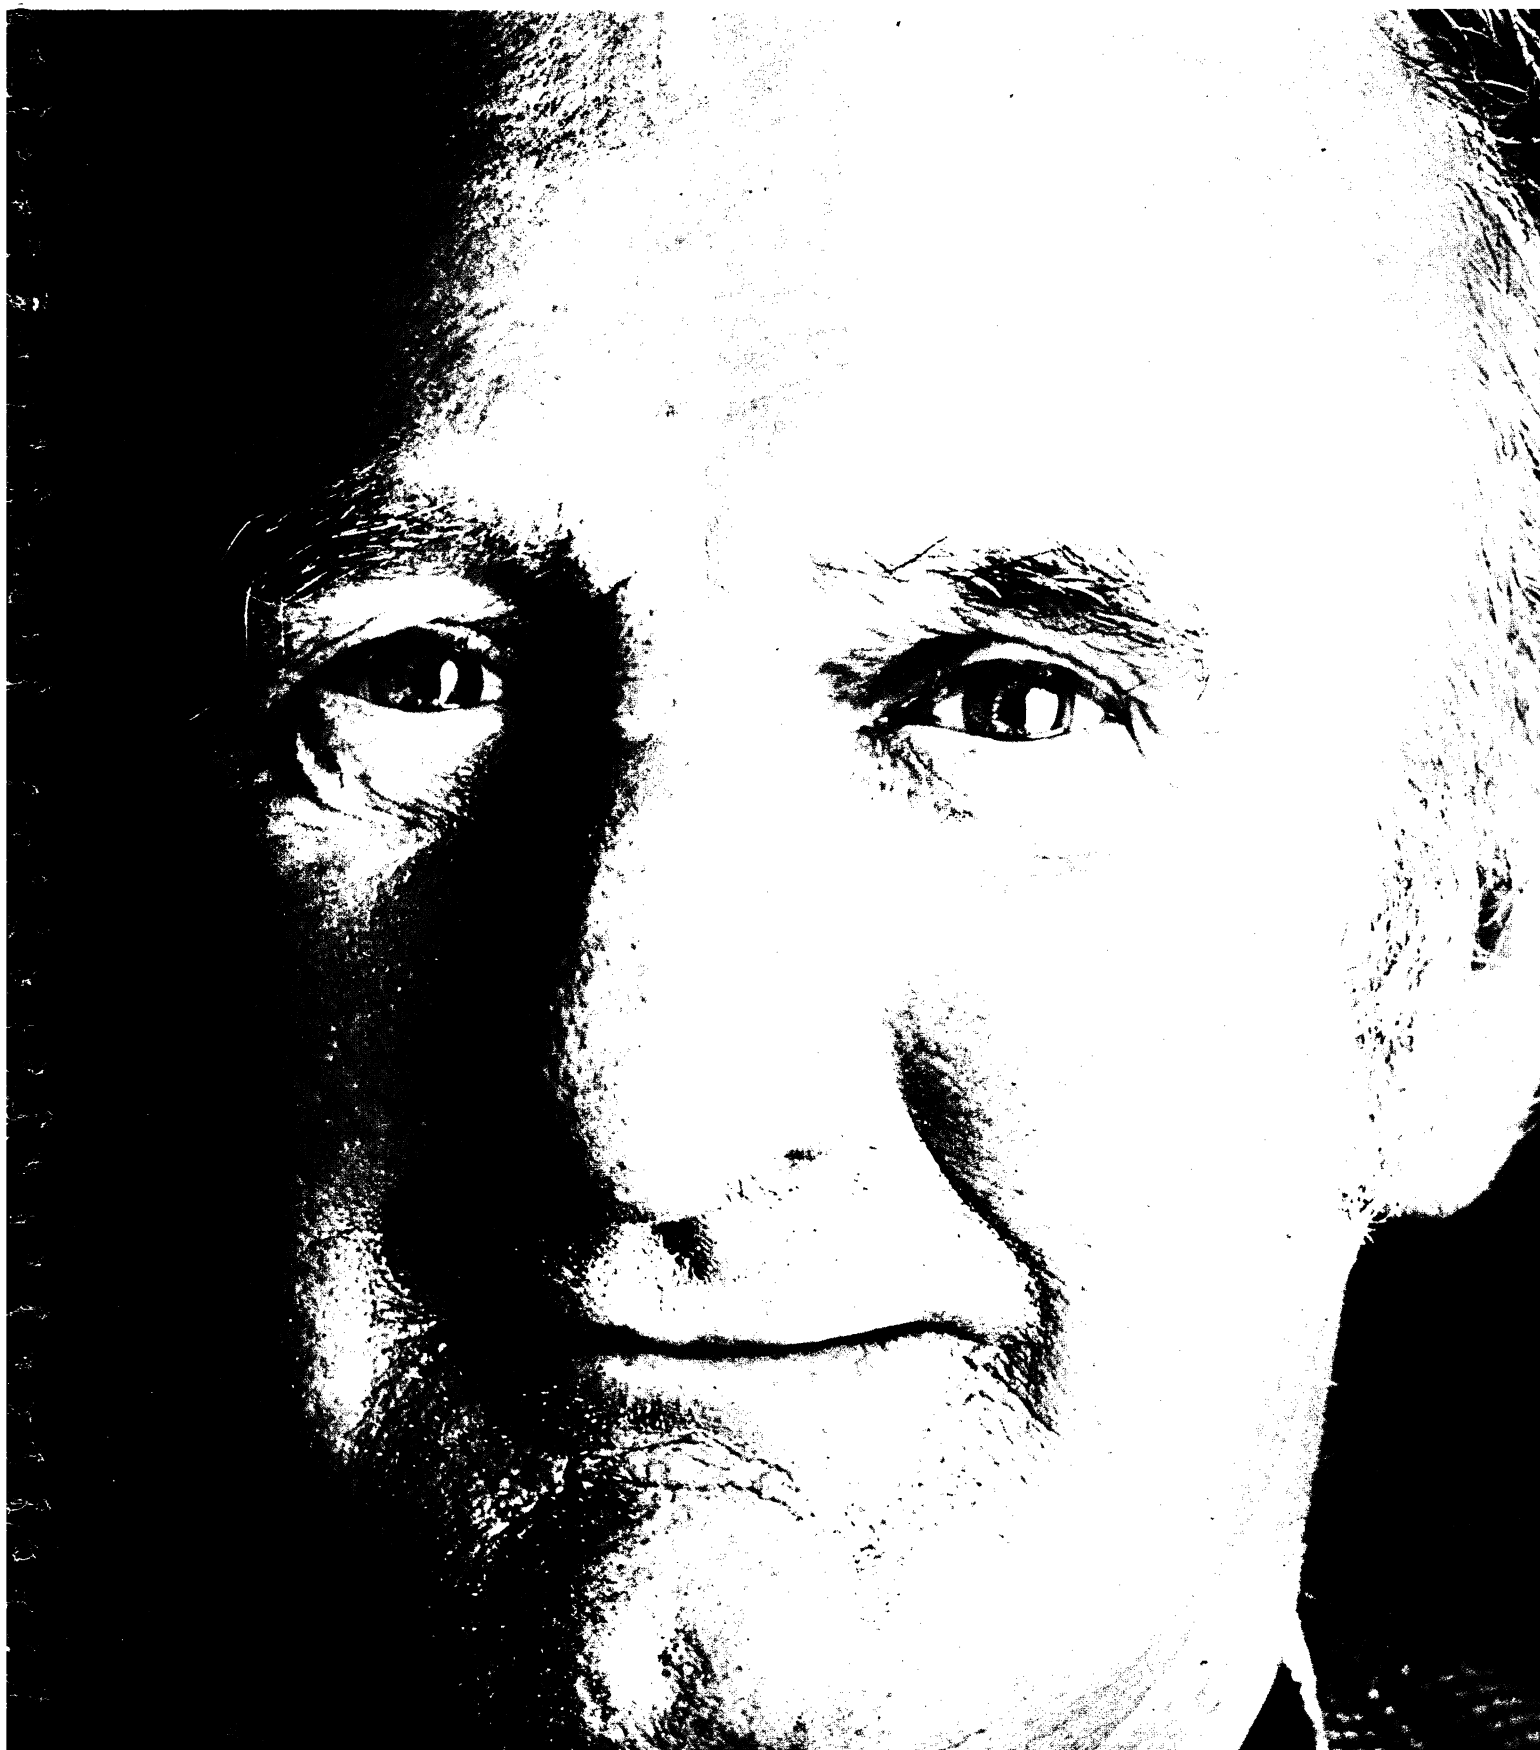

Presentation: Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette. Amoxil presentations

contain amoxycillin as the trihydrate.

Contra-indication: Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

Side effects: In clinical trials involving more than 1,500 patients no serious side effects were reported. Those side effects which were encountered were of a mild transitory nature.

bronchitis

In the Nobrium general practice survey 228 British GPs studied 691 patients with anxiety, most of whom kept a subjective record of their progress. Both the GPs and the patients recorded a substantial remission of symptoms with Nobrium (a total pretherapy symptom score of 9167 was reduced to 3888). A detailed analysis of these results is now being circulated to all general practitioners under the title of the Nobrium general practice survey: Results in 691 patients

Intal doesn't relieve asthmatic attacks

It prevents them

Steroids, bronchodilators and antihistamines, whether in aerosol or tablet form, are only symptomatic treatments. Whereas INTAL actually *protects* the patient from asthmatic attacks—day in, day out.

By preventing the release of spasmogens INTAL affords daily prophylaxis for as long as any challenge exists. More than 150 clinical trials have proved its effectiveness, safety and ease of administration.

But only an asthmatic can really appreciate the difference it makes.

A New Horizon in Asthma

Becotide INHALER

**STEROID CONTROL WITHOUT STEROID
SIDE EFFECTS**

Systemic steroids have, for many years, been recognized as the most effective form of treatment for moderate to severe bronchial asthma but their use is complicated by many serious side effects.

ALLEN & HANBURYS LTD LONDON E2 6LA

Therapy

Becotide Inhaler contains beclomethasone dipropionate BP, a steroid which differs from those previously administered to asthmatics by aerosol in that it is highly active within the lungs in doses which are not systemically active. Effective control of asthma can be achieved without causing unwanted systemic effects. Because of the intrinsic properties of the steroid employed and the direct route of administration Becotide Inhaler provides an extremely selective and thereby safer form of steroid therapy for bronchial asthma.

In Asthma—Becotide Inhaler puts steroid therapy in its place

For full prescribing information see overleaf

Becotide INHALER

BECOTIDE INHALER PRESCRIBING INFORMATION

Indications for Becotide Inhaler

Becotide Inhaler is indicated for a wide range of patients with bronchial asthma. The simplest cases are those whose asthma is becoming worse and bronchodilators less effective. For their safety it is important that they receive additional treatment and not simply increase their intake of bronchodilators. Treatment with Becotide Inhaler restores the patient's response to bronchodilators and often reduces their rate of use. Another group of patients who respond well to Becotide Inhaler are those who are not controlled or are inadequately controlled by sodium cromoglycate in addition to bronchodilators.

An important group are severely asthmatic patients who are dependent on systemic steroids or ACTH for their

well being. The majority of these patients can be transferred to Becotide Inhaler with maintenance of good respiratory function and disappearance of dangerous steroid-induced systemic side effects. In others, a substantial reduction in systemic steroid intake is achieved with reduction in the risk of serious side effects. Patients who are receiving intermittent courses of steroids are also suitable for transfer to Becotide Inhaler therapy.

Becotide Inhaler is particularly important for managing severe asthma in children because good control of asthma can be achieved without retardation of growth. Resumption of growth occurs in children transferred from systemic steroids.

DOSAGE

Adults

Two inhalations (100 mcg) three or four times a day is the usual maintenance dose. In severe cases it is advisable to start at 600 mcg—800 mcg per day and adjust the dose according to the response.

The maximum daily intake should not exceed 20 inhalations (1 mg) in adults, or 10 inhalations (0.5 mg) in children below 12 years of age.

It is essential that the patient should understand that Becotide Inhaler is *not* a bronchodilator aerosol. It should be used regularly and not for rapid relief of bronchospasm. It is also important to instruct the patient in the proper use of the pressurised aerosol. He should breathe out fully and then "fire" the aerosol early in inspiration to ensure that the particles of steroid are carried in the airstream as far down the bronchi as possible.

Children

One or two inhalations (50–100 mcg) should be given two, three or four times daily, according to the response.

IMPORTANT ASPECTS OF CLINICAL MANAGEMENT

Patients to be treated with Becotide Inhaler fall into two broad groups:

- 1) Those not receiving systemic steroids.
- 2) Those who are steroid dependent.

Different consideration must be given to these groups in order that the full benefits of Becotide Inhaler can be achieved in clinical practice.

Patients not receiving systemic steroids

The use of Becotide Inhaler in patients who have never taken steroids or taken only occasional courses of steroids is straightforward. An improvement in respiratory function is obvious within a week. The few patients who do not respond during this period usually have excessive mucus in their bronchi so that the drug is unable to penetrate to its site of action. In such cases a short course of systemic steroid in relatively high dosage should be given to eliminate mucus and other inflammatory changes in the lungs. Continuation of treatment with Becotide Inhaler usually maintains the improvement achieved, the oral steroid being gradually withdrawn.

Exacerbation of the asthma caused by infection is usually controlled by appropriate antibiotic treatment and, if necessary, by increasing the dose of Becotide Inhaler.

Steroid-dependent patients

The transfer of steroid-dependent patients to Becotide Inhaler and their subsequent management needs more attention mainly because recovery from impaired adrenocortical function caused by prolonged systemic steroid

therapy is usually slow.

The patient should be in a reasonably stable state before being given Becotide Inhaler in addition to his usual maintenance dose of systemic steroid. After about a week, gradual withdrawal of the systemic steroid is started at a rate which must not exceed 1 mgm of prednisolone, or the equivalent of other drug, per day. Some patients feel unwell during the withdrawal phase despite maintenance or even improvement of respiratory function. They should be encouraged to persevere with the Inhaler and withdrawal of systemic steroid continued unless there are objective signs of adrenal insufficiency.

Most patients can be successfully transferred to Becotide Inhaler with good respiratory function but special care is necessary for the first months after the transfer until the pituitary-adrenal system has sufficiently recovered to enable the patient to cope with emergencies such as trauma, surgery or severe infections.

Transferred patients should carry a warning card indicating that they may need supplementary systemic steroid during periods of severe stress. The dose of Becotide Inhaler should be increased at this time and then reduced to the maintenance level after the systemic steroid has been discontinued.

Replacement of systemic steroid treatment with Becotide Inhaler sometimes unmasks allergies such as allergic rhinitis or eczema previously controlled by the systemic drug. They should be treated with antihistamine and/or topical preparations.

Side effects

No major adverse side effects attributable to the use of recommended doses of Becotide Inhaler have been reported but some patients have become hoarse. Localised infection with *Candida albicans* has occurred in the mouth and throat of a few patients; the condition rapidly cleared after appropriate topical antifungal therapy without discontinuing the treatment with Becotide Inhaler. Reduction of plasma-cortisol levels has been reported in patients who received twice the recommended maximum dose of Becotide Inhaler. (*Brit. J. Dis. Chest* (1972) 66, 101).

Becotide is a trade mark of ALLEN & HANBURY LTD. LONDON E2 6LA

Contra-indications

No specific contra-indications are known but special care is necessary in active or quiescent pulmonary tuberculosis.

Caution

Unnecessary administration of drugs during the first trimester of pregnancy is undesirable.

Presentation

Becotide Inhaler is a metered aerosol delivering 50 mcg beclomethasone dipropionate per inhalation with a specially designed actuator. Each container of Becotide Inhaler provides 200 inhalations.

Who cares about another Christmas?

We do.

Christmas may seem like a tired old ritual with its real meaning totally obscured. Its exploitation may make you sick. But the fact remains it's a celebration. And no matter how *you* celebrate December 25, it's impressive compared to the way some poor souls spend the day.

These children in Bogota, Colombia, for example.

They're part of the army of 10,000 abandoned boys and girls who live on the streets and exist by begging,

stealing and prostitution.

Oxfam is helping build an additional home to receive some of these children.

Currently, we also support similar projects in Bombay, Addis Ababa and Saigon.

That way, a few get the chance of basic education, care — and love.

We make no apology for asking you for money this Christmas. We have no intention of trying to spoil your enjoyment of what is, after all, a festival.

We simply ask that you help to make someone else's Christmas happy, too.

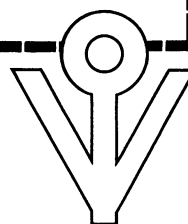

To Room, 45 Oxfam, Banbury Road,
Oxford OX2 7DZ.

I enclose £ as my contribution
to Oxfam's work.

One word from you could save your patients money on prescriptions.

Please tell them about prescription 'season tickets'

As you know, patients who have to pay prescription charges frequently can save money by purchasing a pre-payment certificate. But not all patients who could take advantage of this scheme are doing so.

So it would help if you could remind them about pre-payment certificates. A six-month certificate costs £2 and saves money if more than 10 items are needed on

prescription during that period. A certificate giving 12 months cover represents even better value at £3.50, if over 17 items will be required in that time.

Form EC95 (in N. Ireland, form HS154) gives full details and includes an application form. Your patients can get it from any post office, social security office or NHS Executive Council office.

EVERY BRONCHITIC DESERVES A FIRST CLASS TICKET

More effective than ampicillin or tetracycline

In clinical trials^{1,2} the reduction obtained in sputum volume and purulence with SEPTRIN was superior to results with either ampicillin or tetracycline.

Highly active against both primary and secondary invaders

"... not only are the two primary pathogens *Strep pneumoniae* and *H influenzae* sensitive, but so are the secondary invaders such as *klebsiella* which often replace them after antibiotic treatment."³

New Deteclo Syrup

For patients you can't keep tabs on

There are some patients who need the triple tetracycline of Deteclo, but who find their medicine hard to swallow. Maybe it's because they're young. Or old. Or simply hate taking tablets. New Deteclo Syrup solves their problems in a raspberry-flavoured syrup. It tastes so nice, you won't have any trouble persuading them to take the treatment they need. And it's so effective, because the combination of tetracycline with demethylchlortetracycline and chlortetracycline produces such wide antibacterial activity. So when you can't be sure if they'll take the tablets or not, they can still get the good value of Deteclo and like it.

back from death**

Flora margarine can help prevent heart disease.

In 1972, one in four deaths will be caused by coronary heart disease. Many victims dying before retiring age.

Some premature deaths might be prevented, however, by substituting Flora margarine, the spread highest in polyunsaturated fats, for animal fats in normal diet.

For 50% of Flora's fat content is natural cis-cis linoleic essential fatty acid.

And it is widely accepted that substituting polyunsaturated fats for

saturated fats can lower the risk of coronary heart disease.

Because of its cholesterol-reducing properties, Flora margarine is particularly effective as part of the dietary treatment of hyperlipidaemia.

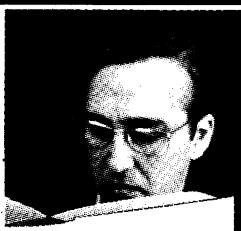

For people at risk from coronary heart disease, indeed for almost anyone, Flora margarine makes very good advice.

Do you have MARTINDALE at your elbow?

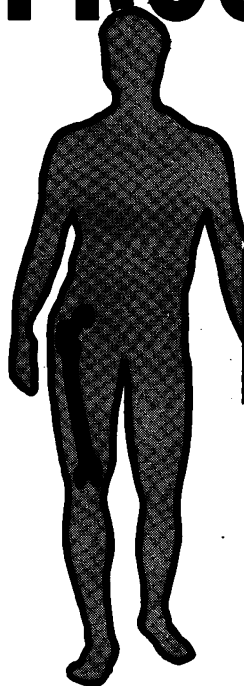

Martindale, says *The Practitioner*, "puts every other textbook of treatment in the English language in the shade, so far as the practising clinician is concerned." And it goes on to say: "The general practitioner who does not have a copy of this 'opus magnum' permanently at his elbow is not only depriving himself of a 'must', he is asking for unnecessary trouble." Martindale is the world's most comprehensive guide to drugs and medicines. The 26th edition, published recently, is a book of 2,346 pages containing about two million words. Martindale now includes over 2,800 drug monographs with information (where appropriate) about pharmacological action; toxic effects and their treatment; precautions to be observed on administration; interactions with other drugs; absorption, metabolism,

and fate in the body; actions, uses and dosage; proprietary drug preparations. Both proprietary and non-proprietary names are included in the 34,000-entry main index. The information is supported by abstracts and references selected from more than 30,000 specially prepared for this edition. The formulas are given of over 1,700 medicines that can be bought by the public without prescription, information often essential in compiling a clinical history. For rational prescribing, Martindale is an essential tool. Ask your pharmacist to show you his copy—but don't expect him to let you borrow it! You can get your own copy from any medical bookseller, or post free from The Pharmaceutical Press.

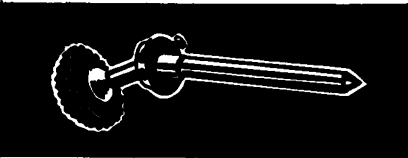

MARTINDALE The Extra Pharmacopoeia

26th edition, complete in one volume of 2,346 pages. Price £14. Produced by the Pharmaceutical Society of Great Britain. Published by THE PHARMACEUTICAL PRESS, 17 Bloomsbury Square, London WC1A 2NN. Detailed prospectus available on request.

HIP JOINT PROSTHESIS

Patients with destroyed or ankylosed hip joints are able to move freely with the "SIVASH" HIP JOINT which reproduces the kinetics of a normal joint. Extensively tested by many orthopaedic clinics, and proved successful in many difficult cases.

No problems will be met when replacing a hip joint with the "SIVASH" Prosthesis, provided that the special purpose set of instruments are used. Detailed information from:

She needed something to help her sleep

SURMONTIL relieves insomnia while treating its cause

But what?

A hypnotic will certainly give her a good nights' sleep, but if she is one of those patients – and there are many of them – whose insomnia originates from anxiety/depression, sleep is all she'll get. The root cause of the condition will always remain untreated with the patient becoming more and more dependent on the medication. Moreover, the degree of this dependence is further heightened by the fact that, because they distort normal sleep patterns, all major hypnotics (and many antidepressants as well) can give rise to unpleasant symptoms upon withdrawal. Patients, therefore, feel most disinclined to discontinue a treatment which, although giving symptomatic relief, is not removing the cause of their condition. These people, in fact, need more than just "something" to help them sleep – they need 'Surmontil'.

- immediately restores sound natural sleep
- relieves daytime anxiety/depression
- avoids long-term hypnotic therapy by treating the underlying condition
- removes the risk of withdrawal problems due to REM suppression/rebound, and possible dependence encountered with both hypnotics and other major tricyclic antidepressants
- unlike a number of other antidepressants does not increase intra-sleep restlessness, thus its sleep-restoring properties are enhanced

when the "hot" infection

when the infection has cooled down...

Hiprex

helps keep the patient from coming back

Hiprex meets the need for acceptable, effective follow-up treatment aimed at maintaining antibacterial activity in the urinary tract, eliminating infection completely, and so preventing recurrence.

Antibiotics, sulphonamides and other agents can all give prompt relief of acute symptoms. But all too often the infection is left smouldering, only to flare up again perhaps months later.

And however successful the initial treatment, the patient remains at risk from re-infection. Yet this risk diminishes with time. The longer the patient remains free from infection, the less chance there is of recurrence.

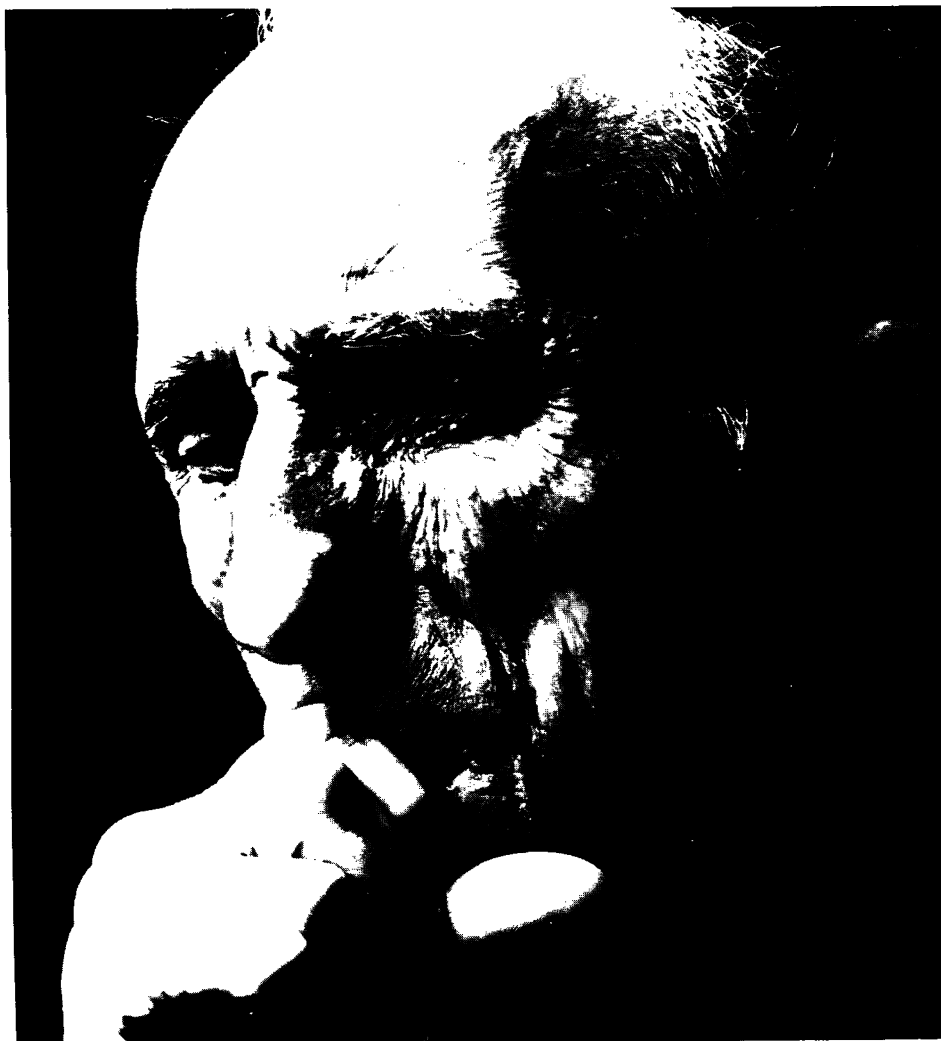

Long-term therapy with *Hiprex* — after the "hot" infection has cooled down — can help to buy this valuable time.

Composition Each tablet contains hexamine hippurate 1g. **Indications** The treatment of urinary tract infections, such as pyelitis, cystitis and urethritis, but excluding acute pyelonephritis. The treatment of chronic pyelonephritis, and as maintenance therapy after successful antibiotic treatment of acute pyelonephritis. The treatment of asymptomatic bacteriuria, including that occurring during pregnancy. Prophylaxis before and after urological surgery. **Dosage** Adults: 1 tablet twice daily. Children: 6-12 years: $\frac{1}{2}$ tablet twice daily. In refractory cases, the dosage may be increased to: 1 tablet three or four times daily in adults; $\frac{1}{2}$ tablet three or four times daily in children aged 6-12 years. Tablets may be halved but should not be crushed. **Alkalinity** Some patients may have an alkaline urine as a result of a predominantly vegetarian diet or occasionally due to *Proteus* or *Pseudomonas* infection. In these cases, additional acidification may be necessary to lower the urinary pH to the level required to degrade the hexamine moiety. Administration of ascorbic acid 2g. daily in divided doses (either as powder or as tablets) is recommended in these cases. **Side-effects** Occasionally, rashes, gastric irritation, or irritation of the bladder may occur. With prolonged administration at high dosage, the latter may lead to haematuria. All side-effects are reversible on withdrawal of the drug. **Treatment of side-effects** If the symptoms of infection such as painful micturition or bladder irritation do not subside within seven days of starting treatment, or if such symptoms develop on prolonged treatment at high dosage, this probably indicates drug-induced bladder irritation. Prompt relief can be obtained by the consumption of copious quantities of water and 2-3 teaspoonfuls of bicarbonate of soda. **Contra-indications** Hepatic insufficiency, severe dehydration, severe renal failure (serum creatinine level > 5 mg.%) or metabolic acidosis. *Hiprex* may be used where mild to moderate renal insufficiency is present. *Hiprex* is also contra-indicated as the principal therapeutic agent in acute parenchymal infections of the kidney. *Hiprex* should not be administered concurrently with sulphonamides owing to the danger of crystalluria, or with alkalinising agents such as mixtures of potassium citrate.

Hiprex: British registered trade mark.

HELP PREVENT CRUELTY TO ADULTS

Every adult with a cruel, hacking, useless cough deserves the full treatment afforded by ACTIFED* COMPOUND LINCTUS: Codeine—to suppress the cough reflex by central action. Triprolidine and pseudoephedrine—to clear congestion and dry up that cough triggering post-nasal drip. Blackcurrant flavour—one of the few fruity flavours with universal adult appeal. Be as kind to adults as you are to children. *Trade Mark

Tropium

Chlordiazepoxide B P

'turns' the emotional and behavioural effects of anxiety and stress to normality

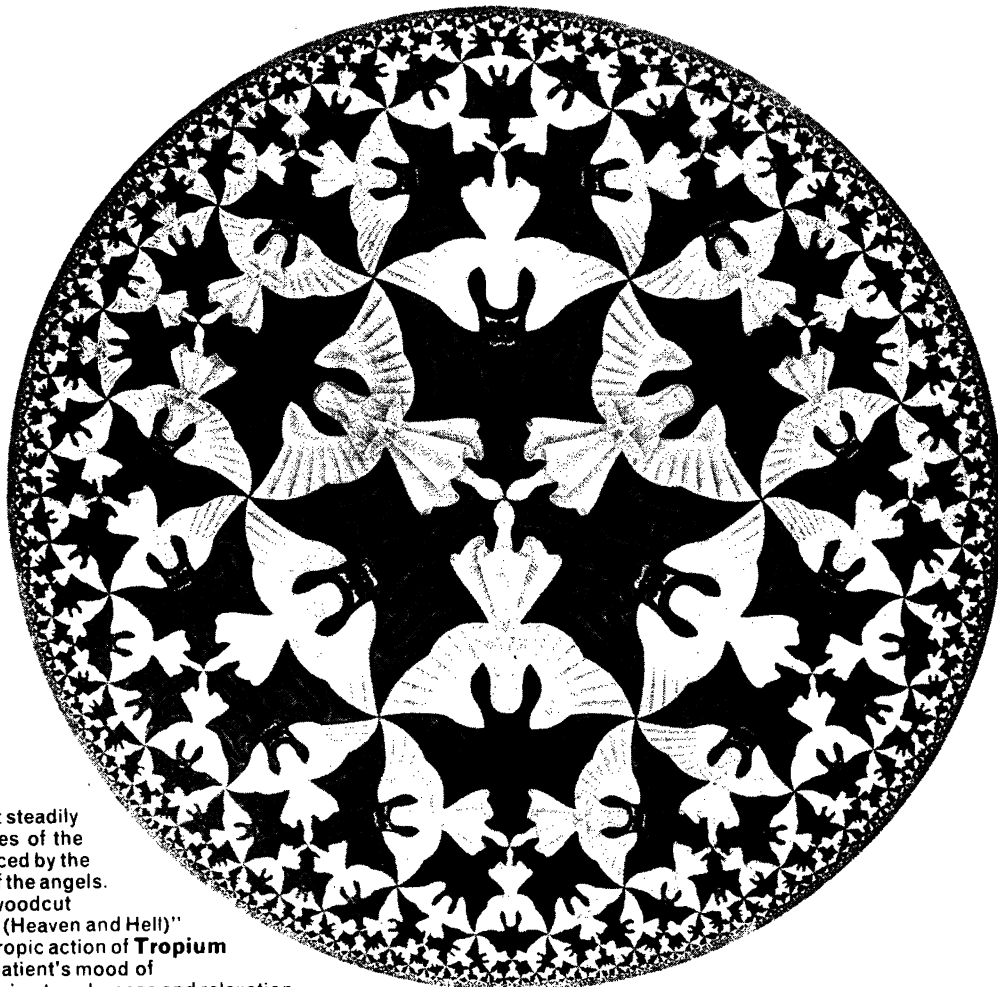

The psychotropic effect of Tropium restores the disturbed functional balance of the emotional centres in the limbic system – without loss of alertness.

Tropium combines quality with dependability – all dosage forms and the contained drug are manufactured in the United Kingdom.

Tropium is available as capsules and tablets of 5mg. and 10mg. Basic NHS cost: Capsules: 5mg x 100 £0.65 10mg x 100 £0.80 Tablets: 5mg x 100 £0.60 10mg x 100 £0.75.

Tropium is the trademark applied to pharmaceutical presentations containing Chlordiazepoxide HCl. B

Further information and samples on request from The Medical Information Department DDSA Pharmaceuticals Ltd., 310 Old Brompton Road London SW5.

When looked at steadily the black shapes of the devils are replaced by the white shapes of the angels. in this Escher woodcut "Circle Limit IV (Heaven and Hell)"

The psychotropic action of **Tropium** also turns the patient's mood of anxiety and tension to calmness and relaxation.

M C Escher Woodcut Circle Limit IV. The Escher Foundation, Haags Gemeentemuseum, The Hague.

millophyline

(Etamiphylline Camsylate)

dilates the bronchi — stimulates respiration —
improves cardiac output — relatively non-irritant

millophyline

(Etamiphylline Camsylate)

for bronchial or cardiac asthma —
chronic bronchitis — congestive heart failure

Dosage (adult)

Ampoules Intramuscular — 1 ampoule 3-4 times a day. I.V. — half ampoule, diluted to 10 m.l. injected slowly. **Suppositories** (adult and paediatric) — 1, once or twice a day. **Tablets** — 1-3 tablets three or four times a day.

'...the active constituent of a preparation, to which alone the generic name refers, does not necessarily constitute the sole basis for its effect...what may appear to be minor changes in formulation—coating, capsuling, particle size, disintegration time, and so forth—may well make all the difference to the therapeutic efficacy of the active constituent!'

Brit. med. J., 1969, 1, 2 (4 Jan)

Since its introduction over ten years ago, many thousands of hypertensive patients have been treated, and are still being successfully treated, with 'Aldomet'.

To be certain that your hypertensive patient receives 'Aldomet', please be sure to prescribe 'Aldomet' by name.

Only 'Aldomet' is available in three tablet strengths: 125 mg, 250 mg, and 500 mg—which makes treatment easier for you and more convenient for your patient.

GENERAL PRACTICE TRAINING POSTS

BARROW AND FURNESS HOSPITAL MANAGEMENT COMMITTEE

VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

Applications are invited from Registered Medical Practitioners for the above Training Scheme in the Barrow and Furness Group. The Scheme is recognized by the Royal College of General Practitioners as suitable preparation for the M.R.C.C.P. examination and will consist of two years in various Hospital departments (S.H.O. Grade) and one year in a selected and linked teaching practice. Postgraduate Medical facilities and a good Medical Library are available. Applications to the Group Secretary, 'Priors Lea', Abbey Road, Barrow-in-Furness, Lancashire. (18706) 22

ISLE OF THANET (EAST KENT)

VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

A vocational Training Scheme for General Practice is in operation in the hospitals of the above-mentioned area, consisting of four periods of six months in hospital posts in Senior House Office Grade, followed by one year in General Practice. Vocational Training Grant payable on completion of the course. The hospital posts are as follows:—

1. Paediatrics, E.N.T. and Emergency Surgery.
2. Obstetrics.
3. General Medicine (including Skins, Ophthalmology and Physical Medicine).
4. Geriatrics and Psychiatry.

The first three posts are at the Isle of Thanet District Hospital (Margate and Ramsgate) and the fourth at Nunery Fields Hospital, Canterbury. Training is recognized for the D.(Obst.) R.C.O.G. and the M.R.C.G.P. An extended day release course over two years is held at the Kent Postgraduate Medical Centre, Canterbury and trainees are able to attend this Course: regular programmes of lectures and demonstrations are arranged in the Thanet Group.

Suitable single or married accommodation available for the duration of the hospital appointment.

The next vacant post will commence on 1st December, 1973.

Application forms and further information from Hospital Secretary, District Hospital, Margate, Kent. (40699) 22

NORTH MIDDLESEX AREA

VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

Applications are invited from doctors for two vacancies in a linked, day-release, hospital-general practice vocational training scheme. The appointee will spend one year initially at the North Middlesex Hospital with a choice of two out of five posts in the following specialties:— general medicine, paediatrics, psychiatry, gynaecology and obstetrics, and casualty. The second year will be spent in a local training practice. A half-day release course for training in general practice operates, which all trainees in the area are invited to attend.

The course is recognized for the M.R.C.G.P. examination and the hospital posts are recognized for the relevant higher diplomas.

Further particulars can be obtained from the Secretary, Academic Centre, North Middlesex Hospital, who will make arrangements for visiting the hospital and area if requested.

Applications in own handwriting, stating age, qualifications and experience and the names or referees, should be made to the Hospital Secretary, North Middlesex Hospital, Silver Street, London N18 1QX, by 6th January, 1973. (18356) 22

CHRISTMAS AND NEW YEAR PRESS DATES

All advertisements should reach this office by 10 a.m. as follows:

Semi-Display: Friday, 15th December.

Classified: Tuesday, 19th December

for the issue of December 30th.

Cancellations and/or corrections cannot be effected if received after 12 noon on Tuesday, 19th December.

Vocational Training for General Practice

The Ipswich Scheme

This is a well established and successful Vocational Training Scheme. It is specifically designed to allow a group of 8 trainees to go through their training programme together. The programme consists of 2 years' rotating appointments in hospital and a total of 1 year in General Practice. Trainees who enter the scheme in the next intake, will be offered the option of a 3-months period in General Practice before starting their hospital appointments. This will mean taking up their posts in G.P. in May, 1973 and starting their hospital training in August, 1973.

The particular features of the Ipswich scheme include a sponsorship of the trainees for General Practice during their hospital period, weekly seminars in psychiatry and medicine and a specifically designed group training programme based on a day-release scheme conducted during the G.P. year.

Hospital married accommodation will be available for trainees, if desired, during the G.P. and hospital training periods.

Early application is invited by those interested in joining this scheme. They should be fully registered and available to start in May, 1973, if they wish to take advantage of the initial period in General Practice. For further details, please write to the Clinical Tutor, The Ipswich Hospital, Anglesea Road Wing, Ipswich, or make arrangements to visit the Hospital. Quote Ref. 1H/VT/1.

B.M.A. DEPUTISING SERVICES

Applications are invited from Doctors interested in becoming full-time or part-time Deputies in the Blackpool and Newport area. Full-time or part-time positions are offered on either a short or long-term basis and subject to a suitable probationary period. Successful applicants will have security, both financially and in terms of tenure. The pay structure is complex and takes into account the area, the efficiency of the Deputy and the nature of the hours he works. The average full-time Deputy at the present time earns well over £4,500 per annum. Deputies who opt to work less hours than this are paid on a pro rata basis.

Applications to be sent to:

**The B.M.A. Deputising Services,
47a, Low Pavement, Chesterfield, Derbyshire**

There are B.M.A. Services in Edinburgh, Glasgow, Newcastle, Sunderland, Sheffield, Rotherham, Nottingham, Leicester, Coventry, Bristol, Cardiff and Southampton.

UNIVERSITY AND RESEARCH APPOINTMENTS

ARTHRITIS
AND RHEUMATISM COUNCIL
Field Unit for Epidemiological
Investigations

This research unit is based on the University of Manchester. It is engaged in studies on the occurrence of rheumatic complaints in the community; the validity of diagnostic classification, particularly by application of methods of numerical taxonomic analysis; and the delivery of health care to persons suffering from rheumatism.

A vacancy exists for a MEDICAL PRACTITIONER to join a team composed of an epidemiologist, statistician, and computer scientists. The person appointed will be expected to assume responsibility for conducting field surveys and for analysing the results. Preference will be given to individuals with experience in epidemiology, rheumatology, or orthopaedic surgery. Opportunities could be arranged for some clinical work in rheumatology, for work on a higher degree, or for gaining requisite experience for specialization in community medicine (including preparing for examination for membership of the Faculty of Community Medicine, through association with the University Department of Social Medicine). Additional part-time appointments could also be considered.

University terms of employment, superannuable (N.H.S. or F.S.S.U.), as Clinical Lecturer (£2,337 to £5,112) according to qualifications and experience. Application form, returnable by 1st January, 1973, from Director, The Arthritis and Rheumatism Council Field Unit for Epidemiological Investigations, Clinical Sciences Building, York Place, Manchester M13 0JJ. (H9797) 25

KING'S COLLEGE
HOSPITAL MEDICAL SCHOOL
(University of London)
Denmark Hill, London SE5 8RX

Applications are invited from medical graduates for the post of

SENIOR LECTURER (Consultant)

in microbiology. The applicant should have a broad-based background in medical microbiology and an interest in clinical bacteriology.

Applications (6 copies) with the names of three referees should be sent not later than 12th January, 1973 to the Secretary (JMB), from whom further particulars may be obtained. (18602) 25

KING'S COLLEGE
HOSPITAL MEDICAL SCHOOL
(University of London)
Denmark Hill, London SE5 8RX

Dental, Medical or Science Graduate required as

RESEARCH ASSISTANT

on a project on salivary gland function. Experience in histochemistry and electron microscopy desirable but not essential. Commencing salary within the range £1,750-£2,300 p.a. according to qualifications and experience. Applications with the names of two referees to Professor J. R. Garrett, Department of Oral Pathology, (JMB) Dental School, SE5 8RS, not later than 2nd January, 1973. (18603) 25

UNIVERSITY OF OTAGO
Dunedin, New Zealand

APPOINTMENTS IN ANATOMY (Visiting or Established Posts)

Applications are invited from suitably qualified persons for appointment to teach gross anatomy to students of medicine, dentistry and physical education. Experience in teaching neuroanatomy or embryology would be an added advantage.

The Anatomy Department has excellent facilities for research involving electron microscopy or other histological work and a collection of crania of special interest to physical anthropologists. One post is an establishment one, normally leading to tenure. The University is prepared also to enter into discussions for a short-term appointment for two years (although one year would be considered) with return air-fares provided. The short-term posts might interest recently retired anatomists.

Salary according to qualifications and experience within the following scales:
Science Graduate: Lecturer: \$N25,589 to \$7,149 per annum. Senior Lecturer: \$N27,278 to \$9,358 per annum, with a bar at \$9,579 per annum.

Dental Graduate: Lecturer: \$N26,332 to \$8,865 per annum. Senior Lecturer: \$N29,182 to \$10,131 per annum.

Medical Graduate: Lecturer: \$N27,669 to \$11,049 per annum with a bar at \$9,098 per annum. Senior Lecturer: \$N211,373 to \$13,128 per annum.

Academic salary scales are subject to regular cost-of-living increases and to triennial review. An adjustment is expected shortly.

Further particulars should be obtained from the Secretary-General, Association of Commonwealth Universities (Appts), 36 Gordon Square, London WC1H 0PF (Tel: 01-387 8572), or from the Registrar of the University.

Applications close in New Zealand and London on 15th January, 1973. (18786) 25

ST. THOMAS'S HOSPITAL
MEDICAL SCHOOL
(University of London)
London SE1 7EH

SENIOR LECTURER IN CHEMICAL PATHOLOGY

Applications are invited for this post, the holder of which will be expected to share the supervision and administration of the routine clinical chemistry department; to undertake research; and to assist with the planning and implementation of the undergraduate and postgraduate teaching commitments of the department of Chemical Pathology. An Honorary Consultant grading would be requested for a successful medical applicant. Salary on University scales. The appointment is super-annuable.

The department may be visited by arrangement with Dr. R. R. McSwiney (01-928 9292, Ext. 2267). Applications to the School Secretary, with the names of two referees by 6th January, 1973. (H9795) 25

THE WELSH NATIONAL
SCHOOL OF MEDICINE
(University of Wales)

LECTURER IN GENERAL PRACTICE

Applications are invited for the appointment of Lecturer in General Practice in the General Practice Unit of the Department of Social and Occupational Medicine. Applicants should have adequate vocational training or practical experience in General Practice and an interest in researches in that field.

The successful candidate will act as one of the practitioners working from a Health Centre near the new Medical Teaching Centre in Cardiff. In this capacity he will comply with all the requirements of the National Health Service, but his list will be restricted to enable him to pursue his research interests and participate in undergraduate and postgraduate teaching.

Salary for Lecturers will be within the scale £2,445-£4,692 per annum with participation in the Superannuation Scheme.

Applications (one copy only is needed, but it should be suitable for reproduction) with the names and addresses of three referees should be submitted within four weeks of the appearance of this advertisement to the Registrar, Welsh National School of Medicine, Heath Park Cardiff CF4 4XN, from whom further particulars may be obtained. (18640) 25

THE UNIVERSITY OF SHEFFIELD

CHAIR OF PHYSIOLOGY

Applications are invited for the Chair of Physiology which will become vacant in September, 1973 on the retirement of Professor D. H. Smyth, F.R.S. In view of the considerable expansion in the size of the Medical School candidates should have a special interest in the teaching of medical students. Salary in the range approved for Professorial appointments with F.S.S.U. provision.

Further particulars may be obtained from the Registrar and Secretary, The University, Sheffield S10 2TN, to whom applications (one copy only) should be sent by 15th January, 1973. Quote Ref. R.14/D. (18582) 25

UNIVERSITY OF LONDON

(18360)

25

ROYAL COLLEGE OF SURGEONS
OF ENGLAND

The Post

RESEARCH ASSISTANT

at the pre-Registrar, Registrar or post-Registrar or equivalent level. Tenable for one or two years.

The Project. To undertake a clinical study of the physiological reactions to environmental conditions of patients in the operative, post-operative recovery and intensive care stages. Most of this work will be done in hospitals. It will be under the guidance of the Director of the Department of Surgical Sciences at the College and the facilities of that Department will be available.

The Sponsor. Department of Health and Social Security.

This appointment might appeal to physicians, surgeons or anaesthetists who regard a short-term research study as a valuable aspect of their training. National Health Service superannuation benefits can be preserved during tenure. Candidates should apply either for an application form or with full c.v. to Mr. H. Cooke, Royal College of Surgeons of England, 35/43 Lincoln's Inn Fields, London WC2A 3PN. (18630) 25

UNIVERSITY OF DUNDEE
Department of Anatomy

There is a vacancy for a

LECTURER

in the Department of Anatomy. The department is concerned with teaching all branches of Anatomy including Cytology, Histology and Neuroanatomy. It is housed in the New Medical Sciences Institute, completed in 1970, and has excellent research facilities including two electron microscopes, an EM801 and a Coriograph. The Lecturer should preferably possess a medical qualification but non-medical applicants will be considered, especially those who have experience of teaching Gross Anatomy. An active interest in research will be a recommendation.

Salary scale: £1,766-£4,299 with placing according to qualifications and experience. F.S.S.U. grant towards removal expenses. Further information may be obtained from Professor D. A. T. Dick, Department of Anatomy, The University, Dundee DD1 4HN.

Applications (6 copies) containing the names of three referees should be lodged with The Secretary, The University, Dundee DD1 4HN by 8th January, 1973. (18389) 25

UNIVERSITY OF EDINBURGH
Department of Anaesthetics

LECTURESHP

Applications are invited for the post of Lecturer in Anaesthetics. The duties are primarily undergraduate and postgraduate teaching but the lecturer will be expected to participate in research and to undertake clinical sessions under an honorary contract with the South-Eastern Regional Hospital Board. The post is tenable from 12th February, 1973.

The initial salary will be at a suitable point on the scale:—£2,361—£4,617 per annum.

Applications, by letter (six copies) giving the names of two referees, should be lodged with the Secretary to the University, Old College, South Bridge, Edinburgh EH8 9YL, from whom further particulars may also be obtained. The closing date for applications is 29th December, 1972. Please quote reference 1075. (18466) 25

UNIVERSITY OF LONDON
St. George's Hospital Medical School

Applications are invited for the position of

LECTURER IN CHEMICAL PATHOLOGY

The successful candidate will be required to participate in all aspects of the work of the Department including the provision of a hospital analytical service and will be encouraged to take a special interest in an agreed topic within the latter field.

The Department provides regular formal and informal training for higher qualifications in Chemical Pathology.

Salary according to qualifications and experience within the range of £1,764-£4,419.

Further particulars may be obtained from Professor J. A. Owen, Chemical Pathology, St. George's Hospital Medical School, London, S.W.17. Candidates are invited to visit the Laboratory by appointment.

Applications which should include a curriculum vitae and the names of two referees should reach the Secretary, St. George's Hospital Medical School, London, S.W.17 by 1st January, 1973. (H9731) 25

GRANTS

THE ERNEST AND MINNIE DAWSON
CANCER TRUST

THE AWARDS, 1973

Applications for awards are invited from anyone engaged or to be engaged in cancer research and to whom a grant would be of benefit. Applicants need not necessarily be registered medical practitioners, although applications must be supported by the Dean of a Medical School in the United Kingdom or by some responsible authority.

All applications must be submitted to the Clerk to the Trust the Ernest and Minnie Dawson Cancer Trust, Williams & Glyn's Bank Chambers, 2 Lytham Road, Fulwood, Preston, not later than 31st March, 1973. E. Preston, Clerk to the Trust. (H8971) 29

APPLICANTS ARE ADVISED NOT TO send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

COMMERCIAL APPOINTMENTS See also P. xxvi

Wellcome Clinical Investigator/ Clinical Pharmacologist

This appointment will suit intending consultants with a genuine interest in clinical science — an interest they do not wish to relinquish merely to further a career in clinical medicine. Based in the Department of Clinical Pharmacology it will entail the study of all aspects of drug behaviour in man, its interpretation to development chemists and pharmacologists on the one hand and to clinicians and commercial directors on the other. Specialization according to previous interests will be encouraged, and the person appointed will be expected to continue with or obtain a senior post in clinical or academic medicine.

Membership of the Royal College of Physicians is essential. Starting salary will be commensurate with the N.H.S. consultant grading and there are attractive conditions of employment. Long term prospects are extremely good and the Laboratories are situated in pleasant parkland surroundings.

Please write with full details to:

Personnel Manager,
THE WELLCOME RESEARCH LABORATORIES,
Langley Court,
Beckenham, BR3 3BS.

(18688) 34

CLINICAL PHARMACOLOGIST For Research

We are seeking a physician with an interest in investigative medicine or scientific research who is interested in joining a team working in the field of human pharmacology. The post will be located within our Clinical Pharmacology Department at Brockham Park Research Centre near Dorking, where facilities exist for both laboratory and clinical investigation. It will also involve use of the facilities of a new purpose built clinical pharmacology unit located at a London hospital.

The work involves practical, clinical investigation into the problems of absorption, distribution, metabolism, excretion and mode of action of new and existing drugs. The investigations are made on volunteer subjects at the early stages of Human Pharmacology prior to clinical trials which are the responsibility of a separate department. There are well defined areas of responsibility with ample scope for initiative and original thought.

The successful applicant will ideally have experience equivalent to that of Registrar level in clinical medicine and be capable of liaising with senior scientists in other disciplines.

Beecham Research Laboratories are part of the Beecham Group and situated in a pleasant area of Surrey within easy reach of London. The successful applicant will qualify for the Group's bonus, non-contributory pension and life assurance schemes, and consideration will be given to the payment of house removal expenses to the successful candidate. Please apply briefly, stating age, qualifications and experience to:

(18690)

Manager, Personnel Department,
Beecham Research Laboratories,
Brockham Park,
Betchworth,
Surrey.

34

Clinical Pharmacologist Salary up to £4,500

Increasing research in the Clinical Pharmacology of potential new therapeutic agents has created a vacancy for a **CLINICAL PHARMACOLOGIST** in the research organisation of a leading U.K.-based pharmaceutical company.

The successful applicant will lead a newly created department of Clinical Pharmacology and will be responsible for supervising and organising studies with Company products in academic units of clinical pharmacology. In addition he will be expected to spend an average of one day per week carrying out personal clinical pharmacological work in one of the London Hospitals with which the Company already has good contact.

He should be in his thirties and in addition to appropriate medical qualifications have relevant experience and preferably a Ph.D. degree. He will be expected to work in close collaboration with pre-clinical pharmacologists and medical colleagues supervising therapeutic trials. He will be encouraged to initiate new ideas at both the laboratory and clinical level. This is an important and challenging appointment with considerable potential for the right man.

The Company's research laboratories and offices are within easy reach both of Central London and of pleasant residential areas.

Applications, with curriculum vitae, should be sent to Box No. 2888 BMJ

APPOINTMENTS

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1969, No. 163).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,749 per annum for the posts held during the first year; £1,887 per annum for posts held during the second year; £2,025 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,280 per annum x £177(2) — £2,634.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,634 per annum x £162(4) — £3,282.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £204 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £3,120 per annum x £162(1) x £216(4) — £4,146.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,925 per annum x £168(1) x £180(3) x £168(10) — £5,313.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £4,836 per annum x £279(8) x £282(1) — £7,350.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

CHEMICAL PATHOLOGY (Clinical Biochemistry)

THE BETHLEM ROYAL HOSPITAL AND THE MAUDSLEY HOSPITAL and

The Woolwich, Greenwich and Deptford and Seamen's Hospital Groups

Applications are invited for rotating

SENIOR REGISTRARS IN CHEMICAL PATHOLOGY (2 posts)

It is expected that about 2 years will be spent in the laboratories of the Woolwich,

Greenwich and Deptford and Seamen's Hospital Groups which provide full facilities for a comprehensive training in all fields of chemical pathology with a wide range of reference investigations. About 2 years will be at the Bethlem Royal Hospital and Maudsley Hospital where the emphasis is mainly on psychiatric, neurosurgery and neurology. Including drug addiction work and a metabolic ward. A full, smaller scale chemical pathology service is also in operation. The scheme is recognized for training by the Royal College of Pathologists and candidates should preferably have passed the Primary examination or hold an equivalent qualification. Research experience is available and the first appointee will be encouraged to select projects with a neuropsychiatric basis. Participation in postgraduate teaching will be required and experience in undergraduate instruction is also available as the Maudsley department is linked to King's College Hospital Medical School as well as to the Institute of Psychiatry.

Application forms obtainable from and returnable to Mr. L. H. W. Paine, House Governor and Secretary, The Maudsley Hospital, Denmark Hill, London SE5 8AZ, by 12th January, 1973. (18728) 55-5

(resident)

in the Geriatric Unit (305 beds) vacant on the
24th December. The successful candidate will
work under the direction of two Consultant
Physicians (Geriatrics) and will have the
opportunity of gaining experience in all
aspects of geriatric medicine. The unit admits
all emergency cases in the pensionable age
group and approximately two thirds of the
total beds are devoted to assessment and
rehabilitation, emphasis being placed on
clinical medicine. Resident staff includes one
Registrar and four House Officers. This post
carries a peripheral allowance of £150 p.a.

Full postgraduate facilities are available
with well stocked library and regular clinical
meetings in the Postgraduate Centre.

Applications to the Hospital Secretary with
full particulars of qualifications and
experience, and names and addresses of two
referees. (18463) 63-8

UNITED NORWICH HOSPITALS

SENIOR HOUSE OFFICER GENERAL MEDICINE
required for these hospitals. This post offers the possibility of full training in General Medicine, Cardiology, Chest Medicine, Neurology and Nephrology over a period of three years in an attractive City. The post will, in the first instance, be for a period of nine months as Senior House Officer during which time, in addition to General Medical training there will be special emphasis on training in Neurology. At the end of this period, the successful candidate can (1) opt out voluntarily, (2) be offered a placement in the Medical Registrars' rotational scheme or (3) be considered unsuitable for further training by the Consultants to whom he/she is responsible.
In the event of (1) or (3) the successful candidate would be able to continue in post in a locum capacity for a further three months to enable him/her to obtain a post elsewhere. In the event of (2) the appointee would enter the Registrar rotational scheme at Registrar level (non-residential post) to complete the three year training rotation.
Candidates will be interviewed by a Medical Appointments Committee for Registrars in order that the successful applicant, if satisfactory, may be promoted to Registrar at the end of the first nine months' training and continue with the comprehensive training programme.
It is proposed to commence this rotational scheme on the 1st March, 1973.
Application forms are obtainable from the Medical Executive Secretariat, Norfolk & Norwich Hospital, St. Stephen's Road, Norwich NR3 5SA, to be returned by 1st January, 1973. (40662) 67-8

PAEDIATRICS

MANCHESTER REGIONAL HOSPITAL BOARD

Whole-time or maximum part-time
CONSULTANT PAEDIATRICIAN
to the Booth Hall and Monsall, and North East
Manchester Groups of Hospitals. This is a new
appointment with a special interest in
Paediatric Gastroenterology created as a
result of the expansion in the work of the
Paediatric Department, including a rapid
development of the undergraduate teaching
programme. The duties are mainly at Booth
Hall Children's Hospital (343 beds). One
session per week will be spent at Monsall
Hospital (390 beds) where there will be close
liaison with the staff of the Regional
Infectious Diseases Unit, and one at
Crumpsall Hospital (1,018 beds) which will be
related to neonatal care in the obstetric unit.
Wide experience and higher qualifications
are essential and the appointee will be
required to live within 10 road miles of Booth
Hall Hospital.

Application forms and further particulars
from the Senior Administrative Medical
Officer to the Board, Gateway House,
Piccadilly South, Manchester M60 7LP, to be
returned by 5th January, 1973. (18693) 79-1

THE HOSPITALS FOR SICK CHILDREN

will serve the purpose quite as well,
and in the event of their being lost or
mislaid no inconvenience will ensue.**

UROLOGY

**LEEDS
REGIONAL HOSPITAL BOARD**

invites applications for the post of
REGISTRAR IN UROLOGY
at the Hull Royal Infirmary, Sutton.

The Department, under two consultant
urologists, provides urological services for an
area of 600,000 population. The successful
applicant will be expected to work in close
liaison with other departments, notably
nephrology and haemo-dialysis service,
radiotherapy and nuclear medicine,
gynaecology and trauma.

The post is particularly suitable for the
holder of a higher qualification in surgery who
is seeking wide experience of urology. A
research interest will be encouraged.

The department actively participates in
postgraduate education and there is an
excellent medical library. Married quarters
will be available. Applicants for the post are
invited to visit the department by
appointment.

Please quote reference number 276.
Application forms may be obtained from
The Secretary, Hull (A) Hospital Management
Committee, Victoria House, Park Street, Hull
HU8 2TD, to whom they should be returned by
28th December, 1972. (40770) 93-6

**THE UNITED LIVERPOOL HOSPITALS
Sefton General Hospital**

Applications are invited for the post of
**REGISTRAR
IN SURGERY
(Urology)**

for the period to 30th September, 1974.
Reappointment thereafter until completion of
the normal period of training will be
considered without the need for further
application.

The successful candidate will have duties in
the Urological Centre at Sefton General
Hospital.

This is a non-rotating post offering wide
experience in Urology.
Applicants should have the F.R.C.S. or have
completed the requirements of the Royal
College of Surgeons for candidates taking the
final F.R.C.S. examination.

Apply by 29th December, 1972 on
application form obtainable from the
Secretary, The United Liverpool Hospitals, 80
Rodney Street, Liverpool L1 9AP. (H9744) 93-6

REGIONAL HOSPITAL BOARD
(Scotland)**

Applications are invited for the post of
MEDICAL SUPERINTENDENT
of the Inverness Group of Hospitals. The
salary scale is £4,306 rising by six annual
increments to a maximum of £5,817 per
annum.

Schedules of application and further
particulars may be obtained from the
Secretary, Northern Regional Hospital Board,
17 Old Edinburgh Road, Inverness IV2 3HG,
with whom applications should be lodged by
15th January, 1973. (H9767) 111

PUBLIC HEALTH

COUNTY BOROUGH OF WALLASEY

**DEPUTY MEDICAL OFFICER
OF HEALTH
AND DEPUTY PRINCIPAL
SCHOOL MEDICAL OFFICER**

Applications are invited from registered
medical practitioners for the above full-time
superannuable post. Possession of the
Diploma in Public Health desirable, but not
essential.

Duties are both administrative and clinical,
the latter being mainly in connection with the
Child Health and School Health Services,
including the ascertainment of children
requiring special educational treatment.

Wallasey has a population of nearly 100,000
and is conveniently situated on the coast of
Liverpool and North Wales. It will comprise
part of District (e) of the Merseyside
Metropolitan County and as from April, 1974
the health services will be administered by
the corresponding area/district health
authority.

Salary within the scale £3,954 x 4 increments
to £4,380.

Personnel Manager,
CIBA-GEIGY (UK) Limited, Simonsway, Manchester, M22 5LB. (18590) 118

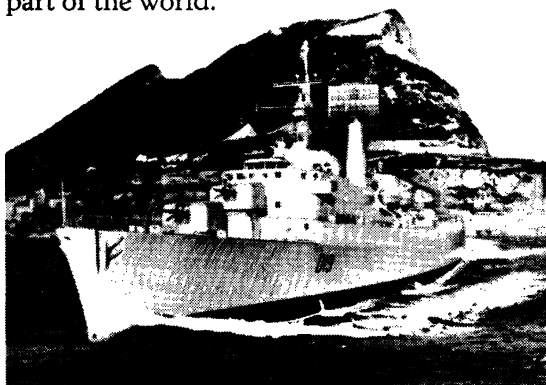

SERVICES

AS A NAVAL DOCTOR, YOU'D GET A WHOLE LOT MORE OUT OF LIFE.

(AND SO WOULD YOUR FAMILY)

Right from the start, you'd have a complete change of scene.

Serving either with the Navy at sea or among service personnel and their families at a naval establishment. Very likely in another part of the world.

Either way, you'd never find yourself short of assistance. (Every naval doctor is fully supported by medical staff).

Equally important, you'd never find yourself getting into a rut – for in two years or so you'd receive a new appointment.

In a new place. Doing a different job. Perhaps with the chance to learn something of the special problems of diving, aviation, or tropical medicine for example.

It's a stimulating life. Not only for yourself but for your family too.

For in most cases they'd accompany you. And wherever you go there are usually married quarters – fully furnished houses or flats, equipped with everything you need. And at very reasonable rents.

What's more, a generous education

allowance is made for your children if they are at boarding school. £363 p.a. for a first child, £432 p.a. for a second, £519 p.a. for a third. On top of this, removal and other allowances are also provided.

Add this to the salary and you'll see how well a naval doctor's pay compares with a civilian doctor's.

For instance, with five years' post registration experience you would join us as a Surgeon Lieutenant-Commander on £4,767 a year.

And any specialist qualifications/experience you have could increase your salary even more.

There are opportunities, too, to keep up with the latest developments in medicine. For the Navy fully recognises the need for such opportunities both in the interests of naval medicine and a doctor's professional advancement.

That's not all. You can join on a 3-year or 5-year commission (each carrying a tax-free terminal gratuity of £1,500 and £3,000 respectively) and you can transfer to a full 16-year pensionable commission if you wish.

Applicants should be of British nationality and parentage. To find out more, write to Surgeon Cdr. L. C. Banks, M.B., B.Ch., R.N. (724ABA), Dept. of the Medical Director-General (Navy), Empress State Building, London S.W.6.

RN
ROYAL NAVY

CANADA. A second G.P. is required for Wolseley, Saskatchewan, capable of handling minor surgery. There is a 20 bed hospital, and the town has a population of 1,500 and is situated on the Trans-Canada Highway, 45 minutes drive from the city of Regina. Please contact Mr. W. C. A. Linton, Chief of Medicine, Victoria Hospital, London, Ontario, Canada. (H9721) 118

UNITED STATES. Hospital Internships and Residencies available. University and non-university affiliated hospitals. Wide choice. Submit curriculum vitae to International Medical Exchange, 1250 Portland Avenue, Rochester, New York, 14621, U.S.A. Interviews may be arranged. 118

UNIVERSITY OF BERGEN
Norway

LECTURER

(Morbid Anatomy)

The post of Lecturer (Morbid Anatomy) is vacant at the Department of Pathology, University of Bergen. The salary scale is from N.kr. 55,280 to N.kr. 71,630 per year according to qualifications and experience. The post does not carry clinical responsibility. The Department offers a wide variety of research openings. Interest in ultrastructure and/or audiovisual teaching methods would be an advantage. Previous knowledge of Norwegian is not essential. Further information can be obtained from The Secretariat, Medical Faculty, University of Bergen, or from Professor Flora Hartveit, The Gade Institute, Department of Pathology. Applications, enclosing scientific papers, must be sent to University of Bergen, Personalavdelingen, Postboks 25, 5014 Bg-U, by 20th January. (H9736) 118

WELLINGTON HOSPITAL BOARD
Wellington, New Zealand

WHOLE-TIME OPHTHALMOLOGIST

Wellington Hospital

The Wellington Hospital Board invites applications from qualified medical practitioners for the above post.

Applicants must either be registered in New Zealand, or hold qualifications which entitle them to such registration. An appropriate higher qualification is required.

The appointee will be required to devote the whole of his working time to the duties of the position.

Conditions are in accordance with the New Zealand Hospital Services Determination for Medical Officers and the position requires a person of specialist status as defined in the Determination.

Salary scale will be within the range of \$NZ 9,946 — \$NZ 13,393 per annum with automatic increments to the maximum of the scale.

Applicants should obtain a copy of the conditions of appointment and a form of application from the Office of the High Commissioner for New Zealand, New Zealand House, Haymarket, London, or from the Chief Executive, Wellington Hospital Board, P.O. Box 10245, Wellington, New Zealand, by whom applications will be received up till Wednesday, 31st January, 1973. (18609) 118

"Compared to aminophylline it (Choledyl) is more soluble, more stable, better absorbed from the gastrointestinal tract, and less irritating to the gastric mucosa."

(Goodman L. S. & Gilman A. (1970) The Pharmacological Basis of Therapeutics, p. 366)

PRESENTATION

Choledyl is available as tablets of 100mg and 200mg choline theophyllinate BP in containers of 100 and 500 tablets; and as Choledyl Syrup in bottles of 150ml.

Full information is available on request

Choledyl is manufactured under licence from Warner-Lambert Pharmaceutical Co. New Jersey U.S.A. owners of the trade mark.

Hazard Ahead...

but with care, one that is readily overcome.

The 'Hazards' facing you and your family are not so easily tackled, but with the same care you can provide for yourself and your dependants with the right type of insurance.

Understandably, you may not know where to start, but the Medical Insurance Agency, with its knowledge of the insurance market and of the needs of the medical and dental professions, will help you to find the policy that is exactly right for you.

The sports car doctors prefer.

The Ford Escort Mexico, that notorious red hot rally winner, is beginning to reveal a new side to its character.

When we first supplied a number of Mexicos, fitted with the luxury Custom Pack to one of our specially appointed Rallye Sport dealers, he sold most of them to doctors.

But then the Escort Mexico fitted with a Custom Pack has everything a doctor needs:

An extremely well appointed limousine interior, well in keeping with making an impression on students and patients, and the kind of performance that will zip

any doctor round his rounds in next to no time (0-50 in under 8 seconds and over the ton shortly after that — always assuming you can find somewhere to do the ton).

So if you're thinking of changing cars, don't bother going to the garage for advice. Ask your doctor instead.

To: Ford Motor Co. Ltd.,
Advanced Vehicle Operations,
24/801 FREEPOST South
Ockendon, Essex. RM15 1BR

Rallye Sport

Besides the luxurious all-extras-included Custom Pack, the standard Mexico specification includes servo-assisted disc/drum brakes, specially strengthened and engineered body, 1600 GT engine, alternator, Weber twin choke carb and radial ply tyres on 5½" safety rim wheels. Also available is the Escort RS 1600, similar in specification to the Mexico but featuring a 115bhp detuned formula 2 twin overhead cam 4 valve per cylinder engine, which produces a phenomenal 0-50 in 6.4 sec. and a top speed nearly 50mph over the legal limit. The Escort Mexico is priced from £1229.00. The Mexico illustrated is fitted with 'Special Build' flared wheel arches and 6" wheels at extra cost.

The Future General Practitioner

Learning and Teaching

General or family practice is a special subject. This book is written by six experienced teachers selected by the Council of the Royal College of General Practitioners. It is intended chiefly for teachers, but it will also be valuable to those who are learning and to all who are concerned about the place of family practice within a country's medical services.

A syllabus is developed in five main parts:

Health and Diseases
Human Development
Human Behaviour
Medicine and Society
The Practice

Throughout the book the authors have tried to indicate ways in which the teacher may approach the task of passing on what he had learned by his own experience. The theme is the search for objectives which will satisfy the needs of learner and teacher. The belief is that this search will benefit the future family practitioner and through him the community of his patients.

CARDIOVASCULAR RESEARCH

Published in association with the British Cardiac Society

A journal mainly for the publication of basic research. The subjects covered include physiological, pathological, pharmacological, biochemical, biophysical, haemodynamic, surgical and similar advances in the study of the heart and circulation.

Annual Subscription (six issues a year), Inland £8.00; Overseas £8.75 (U.S.A. \$21.00).

Combined Annual Subscription to British Heart Journal and Cardiovascular Research, Inland £18.00; Overseas £19.75 (U.S.A. \$47.50).

Order from: The Subscription Manager, British Medical Journal.

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

Full information is available on request.
Magnapen* (250mg ampicillin with 250mg flucloxacillin)
is a British product originated by

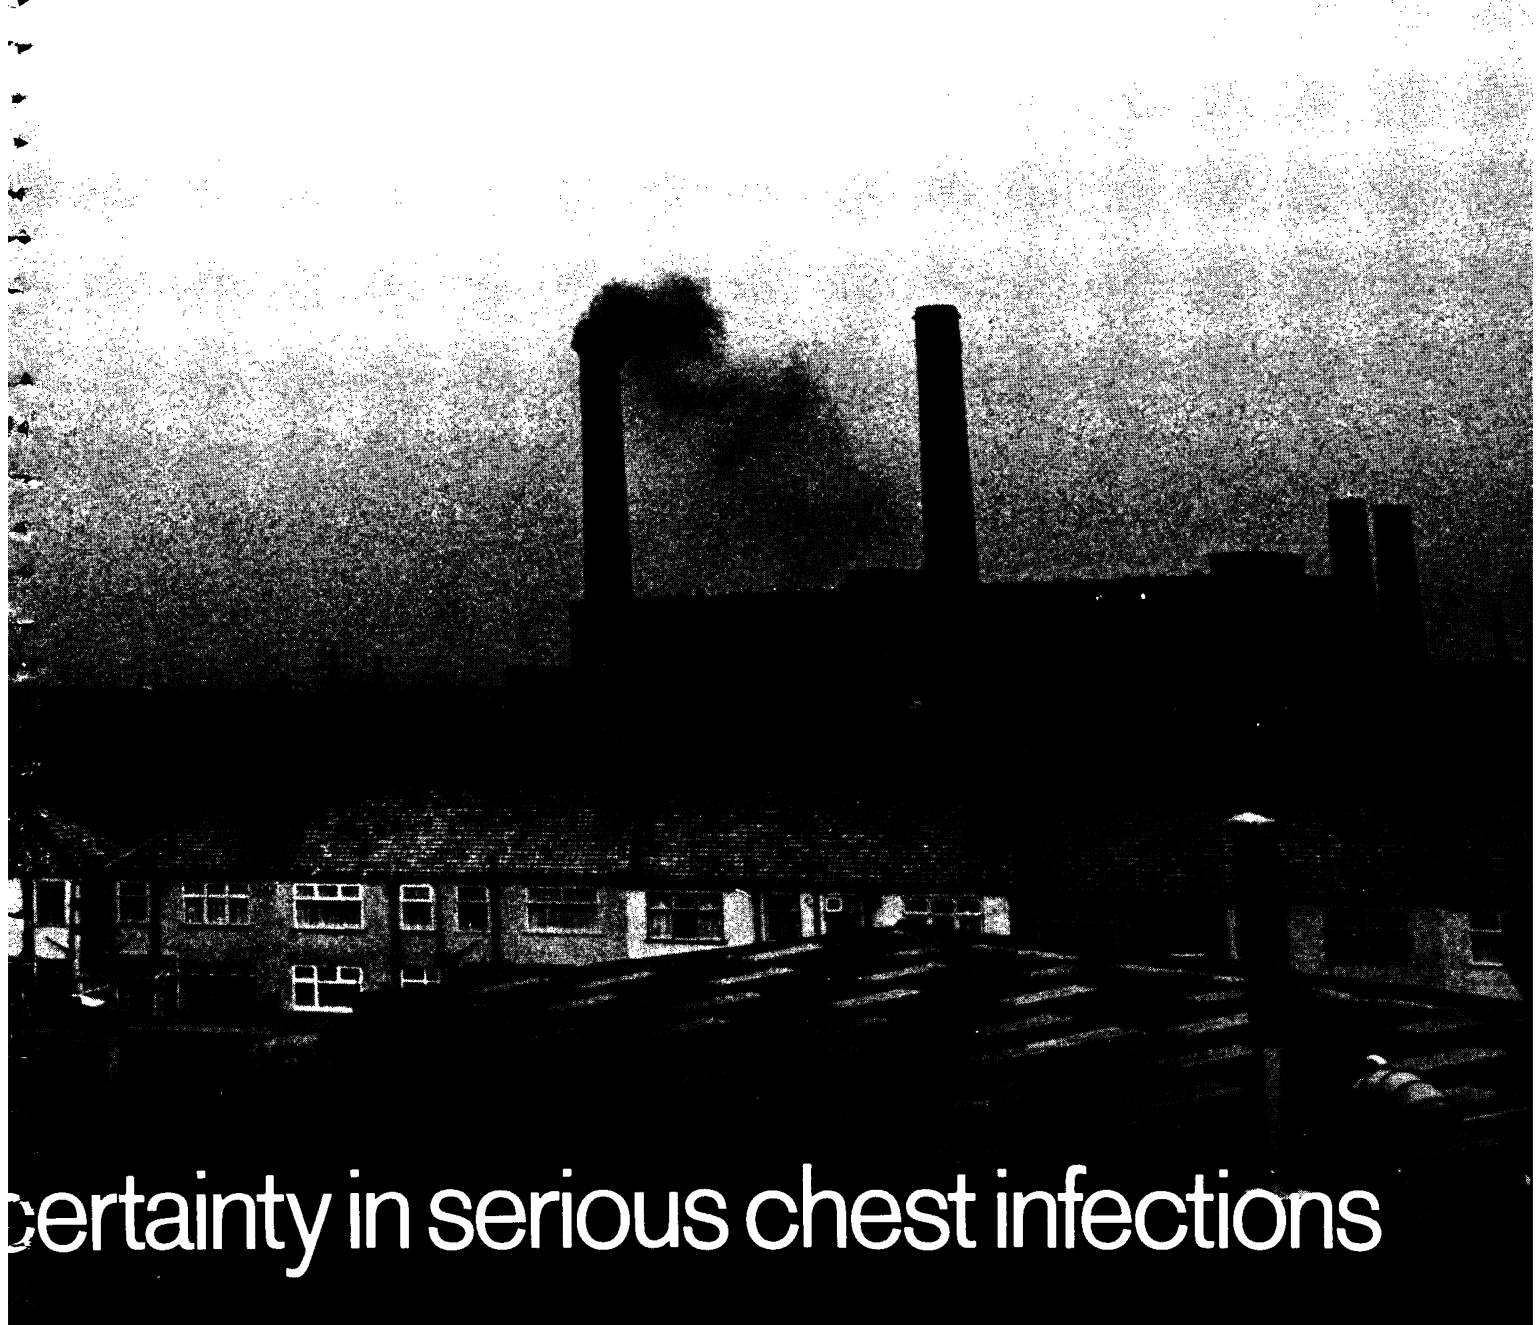

**Beecham Research
Laboratories**
Brentford, England.

IS IT TRUE...
**they
don't
make
aspirin
any
longer**

If aspirin is the choice for chronic rheumatic patients, then longer action is the true criterion of aspirin. And no-one makes it any longer—in effectiveness—than Levius.

Longer sojourn—in the form of aspirin—for relief of day-time pain, with continuing comfort through the night. Sustained high level of total salicylate for anti-inflammatory effect, reducing stiffness and aching joints the following morning.

The Levius tablet rapidly disintegrates into 35,000 separately-encased microgranules, which release the aspirin at a controlled rate. With full dosage, high concentrations are avoided—greatly lowering the incidence of gastro-intestinal irritation, nausea and anorexia.

In the long term treatment of rheumatic diseases, few drugs have gained the wide acceptance of aspirin. And Levius is the logical extension of aspirin.

Levius

Long-acting aspirin for long term relief

Full information and samples on request.

Pharmitalia (UK) Limited, Kingmaker House, Barnet, Herts. Telephone: 01-440 7171
