

# She needed something to help her sleep

## **SURMONTIL** relieves insomnia while treating its cause

## But what?

A hypnotic will certainly give her a good nights' sleep, but if she is one of those patients – and there are many of them – whose insomnia originates from anxiety/depression, sleep is all she'll get. The root cause of the condition will always remain untreated with the patient becoming more and more dependent on the medication. Moreover, the degree of this dependence is further heightened by the fact that, because they distort normal sleep patterns, all major hypnotics (and many antidepressants as well) can give rise to unpleasant symptoms upon withdrawal. Patients, therefore, feel most disinclined to discontinue a treatment which, although giving symptomatic relief, is not removing the cause of their condition. These people, in fact, need more than just "something" to help them sleep – they need 'Surmontil'.

- immediately restores sound natural sleep
- relieves daytime anxiety/depression
- avoids long-term hypnotic therapy by treating the underlying condition
- removes the risk of withdrawal problems due to REM suppression/rebound, and possible dependence encountered with both hypnotics and other major tricyclic antidepressants
- unlike a number of other antidepressants does not increase intra-sleep restlessness, thus its sleep-restoring properties are enhanced

# When chest infections clamp down Magnapen relieves the pressure.

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

## You're looking at the destruction of pathogens by 'Eskacef' The new bactericidal antibiotic. Use it... to be sure.

The way to prevent infections becoming problems is to cope with them... with 'Eskacef'.

'Eskacef' is a powerful bactericidal against a wide range of Gram-positive and Gram-negative organisms – even penicillinase producing strains. It is one of the most rapidly absorbed antibiotics and reaches high plasma concentration in active form.

It is so low in toxicity that it can be used in children, may be suitable for long term use, and, with adjustment of dosage, avoid accumulation in renal failure.

'Eskacef' is available in both capsule and suspension presentations.

Use it... to be sure.

Each capsule contains 250 mg or 500 mg cephradine. Each 5 ml of suspension contains 125 mg or 250 mg cephradine.

Further pharmacological and clinical data available on request.

# Medicine in a Tropical Environment

Edited by A. G. Shaper, J. W. Kibukamusoke, M. S. R. Hutt

*Medicine in a Tropical Environment* is intended for medical students and doctors working in tropical and developing countries. The essays bring together specific problems of the tropical environment which have been the subject of recent investigation, and the authors write on them from personal experience. Little of the material on which the essays are based was available more than five years ago. To doctors in temperate climates preparing themselves for medical work in developing parts of the world *Medicine in a Tropical Environment* is essential reading.

**CONTENTS:** Measles — Buruli Ulcer — Myositis — Schistosomiasis — Parotitis — Fungal infections — Tuberculosis — Scleroma — Meningitis — Melanoma — Nasopharyngeal carcinoma — Burkitt's lymphoma — Kaposi sarcoma — Growth and development — Kwashiorkor — Malnutrition — Thyroid disease — Tropical splenomegaly syndrome — Neutrophils and eosinophils — Psychiatry — Endomyocardial fibrosis — Intestinal malabsorption — Pancreatic disease — Necrotizing enteritis — Liver disease — Portal hypertension — Nephrotic syndrome.

## Gynaecology in General Practice

As in other branches of medicine, the pattern of gynaecological problems likely to be encountered by the general practitioner will probably change in the future. Moreover, many doctors, now in practice were taught little about some of the topics which are important today and are likely to become even more so. In 1971 the *B.M.J.* published a series of articles in the "Medical Practice" section discussing the management of various gynaecological disorders in a domiciliary setting. These have now been collected together as a booklet entitled *Gynaecology in General Practice* and provides a useful and up-to-date account of gynaecology in general practice.

# ALLERGIC RHINITIS

## A completely fresh approach

The unique way in which sodium cromoglycate prevents asthmatic reactions has been the subject of over 150 clinical trials. Prompted by this success, more recent investigators have shown that, in the form of RYNACROM, sodium cromoglycate has a similar protective effect on the nasal mucosa and can provide year-round prophylaxis in allergic rhinitis<sup>2</sup>

RYNACROM is not a decongestant, anticholinergic, antihistamine or steroid. Its action is unlike any other form of treatment.

In the face of challenge – pollen, house dust, feathers, pets, etc. – RYNACROM (sodium cromoglycate) prevents the degranulation of those cells which would normally rupture and release histamine and inflammatory agents. Thus regular insufflation of RYNACROM provides continuous prophylaxis from a condition which, hitherto, has been difficult to control symptomatically and even more difficult to prevent. A number of patients who have failed

to respond to other forms of treatment have greatly benefited from RYNACROM!

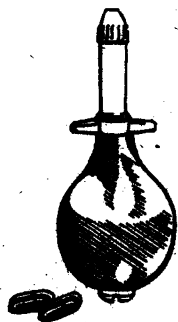

RYNACROM does not produce inconvenient side effects associated with conventional therapy.

# A good friend in

Amoxil is an excellent antibiotic for the treatment of bronchitis. Its broad spectrum of activity covers the respiratory pathogens commonly encountered in general practice, *H. influenzae*, pneumococci and other streptococci.

Amoxil's outstanding oral absorption<sup>1</sup> – not greatly affected by food – ensures that high bactericidal serum levels are rapidly obtained. Clinical results<sup>2</sup> have demonstrated that bactericidal levels can also be achieved in the bronchial secretions, recognised as a frequent source of re-infection in exacerbations of chronic bronchitis.

This action contrasts with that of many commonly used antibiotics which cannot effectively penetrate these secretions to eradicate the infection.

1. Brit. med. J. (1972), 3, 13
2. Brit. J. Dis. Chest. (1972), 66, 185

Add to this the convenience of a three times daily dosage regime, the degree of safety associated with penicillin therapy, treatment costing as little as 16p a day and a wide range of highly acceptable oral presentations and it's easy to see why Amoxil is a good friend in bronchitis.

Further information on Amoxil (amoxycillin) is available from: Bencard, Freepost, Great West Road, Brentford, Middx.

#### Prescribing Information

Dosage: Adults 250 mg three times a day. Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

Presentation: Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette. Amoxil presentations

contain amoxycillin as the trihydrate.

Contra-indication: Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

Side effects: In clinical trials involving more than 1,500 patients no serious side effects were reported. Those side effects which were encountered were of a mild transitory nature.

# THE HISTAMINE CHALLENGE:

## Can any single antihistamine tablet fight off attacks for 24 hours?

In a study† designed to test the duration of protection afforded by PRO-ACTIDIL\*, human volunteers were given intradermal injections of histamine and the areas of flare and weal response were measured.

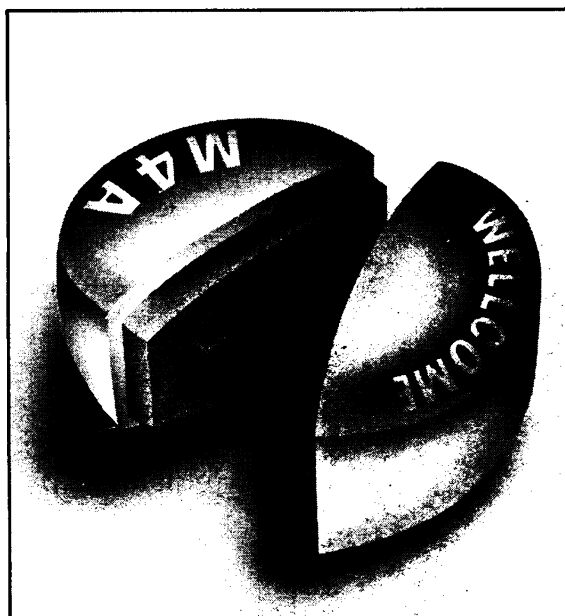

After the responses had completely disappeared one PRO-ACTIDIL tablet was administered to each volunteer and the histamine challenge was repeated.

By measuring the reduction in areas of flares and weals the protective effect of PRO-ACTIDIL could be plotted for the 24 hours following administration.

After 24 hours the weals still showed a reduction of 65 per cent and the flares a reduction of 83 per cent. The authors concluded that the antihistaminic effect of PRO-ACTIDIL lasts for 24 hours.

## THE UNIVERSITY OF LIVERPOOL DEPARTMENT OF ANAESTHESIA

Courses of postgraduate instruction in anaesthesia will be conducted at the University of Liverpool during the Session October, 1972 to September, 1973.

Three groups of students may be accepted for these courses:

a) students from the United Kingdom or overseas who are prepared to accept designated remunerated posts in those Liverpool Hospitals which permit attendance on the course.

b) those who already hold anaesthetic posts in the Liverpool area and  
c) those students who are in receipt of a Government or other grant and do not require a remunerated post.

The courses provide both for students who are studying for the basic sciences with the Primary F.F.A.R.C.S. in view and also for those for whom instruction and practice are necessary in the clinical subject required for the Final F.F.A.R.C.S. (Anaesthesia, Medicine and Surgery).

Fees for attendance on the course are fifteen pounds seventy-five pence per term.

Further particulars and application forms may be obtained from Dr. I. C. Geddes, Acting Head of Department, Department of Anaesthesia, The University of Liverpool, P.O. Box 147, Elizabeth Street, Liverpool L69 3BX, and the forms should be returned, completed, not later than 28th February, 1973. Quote ref: RV/BMJ/14167. (19000)

## PRACTICES (Executive Councils)

### NATIONAL HEALTH SERVICE EXECUTIVE COUNCIL FOR BUCKINGHAMSHIRE

#### MILTON KEYNES HEALTH SERVICES LIAISON COMMITTEE GENERAL MEDICAL SERVICES AT WUGHTON MILTON KEYNES

Milton Keynes marks a new approach to the planning and provision of health care. From the beginning an integrated service will be provided, based on health centres supported by a district general hospital, of which the first phase (planned to start in 1974) will be a community hospital. It is hoped that general practitioners will be able to act as family doctors and in addition have the opportunity, if they wish, to develop their own particular specialist interests.

A general practitioner is now required to establish the first new practice in the city, in the Woughton area, adjacent to the site of the new district general hospital. A health centre serving an ultimate population of 42,000 is at present being planned and should open in 1974, temporary facilities being available from early 1973.

The post presents opportunities for developing general practice along modern lines, and includes a commitment to help with the planning and development of health services in the new city. It is hoped that the general practitioner appointed might assume some teaching responsibilities.

A Type D Initial Practice Allowance, which takes the form of a guarantee that the doctor's income will be made up to an amount agreed with the Executive Council, will be payable, provided that the successful applicant has been qualified for about ten years, of which two have been in hospital appointments and five in a busy general practice in this country. He should be experienced in maternity work and be acceptable for the obstetric list.

Application forms and further information may be obtained from the Clerk, Executive Council for Buckinghamshire, Paterson House, Oxford Road, Aylesbury, Bucks.

The closing date for receipt of completed forms is 20th January, 1973. (H9802)5

**TRAINEE VACANCY.** Leeds. Good facilities, time off, attachments, open access, release scheme. Box 3241.B.M.A. 19

**WILTSHIRE.** Vacancy February, 1973 in Group practice. G.P. General and Maternity Hospitals. Central Surgery with full ancillary staff. Appointment system. Facilities for postgraduate study. Apply Dr. D. J. Ellison, Giffords, Melksham. Tel: 702671 or 702049 (evening).

## GENERAL PRACTICE TRAINING POSTS

### BANBURY AND DISTRICT HOSPITAL MANAGEMENT COMMITTEE

Applications are invited for a linked training post for General Practice jointly between the Horton General Hospital, Banbury and Local Practices. The post will be in the grade of Senior House Officer commencing in Medicine on the 1st February, 1973.

Full details of the post are available on application to Dr. T. F. Mortimer, Area Clinical Tutor, at the Horton General Hospital, Banbury, Oxfordshire.

Applications in writing with age, experience and names of two referees to the Hospital Secretary. (40880) 22

### KINGSTON AND LONG GROVE GROUP HOSPITAL MANAGEMENT COMMITTEE

School of Radiography  
Teacher Principal 'B'

Applications are invited for the above appointment which is vacant from 1st January 1973 due to the retirement of the present holder. Candidates should hold the Teacher's qualification and the Higher Diploma.

The school based at Kingston Hospital has an excellent record and the accommodation meets the requirements of the Society of Radiographers. It is anticipated that the present facilities will be greatly improved when the proposed new educational centre is completed. Major capital development is centred on Kingston Hospital and a 364 bedded Surgical Block is scheduled for completion mid-1974. This will bring the total beds to approximately 610.

Applications with full details of qualifications and experience together with names and addresses of 3 referees to the Group Administrator, "Liddesdale", 50 Galsworthy Road, Kingston-upon-Thames, Surrey KT2 7BG. Candidates are welcome to visit the department by arrangement with the Personnel Officer. (546 711, Ext. 564). Closing date 12th January, 1973. (45160) 22

## GOVERNMENTAL

# Part-time Medical Advisers

## for the Employment Medical Advisory Service

There are further vacancies in the Employment Medical Advisory Service for part-time Medical Advisers and the Department of Employment invites applications for them from men and women.

Posts are expected to arise in the following locations, which are the bases from which the Advisers will work:—

Billingham	Lincoln
Birmingham	Northampton
Derby	Shrewsbury
Glasgow	Southampton
	Swindon

Most part-time Advisers will work in groups with one or more full-time Advisers, although some will work alone. Hours of work will be 20 per week except at Lincoln where they will be 15. The duties will include investigations and formal surveys, advice about working conditions, and medical supervision of young people who are not fully fit for employment and of people undergoing training or rehabilitation. The work is wide-ranging and will take an Adviser into many different work-places, particularly factories and will require him to give advice on occupational medicine to workers (and their representatives) and employers, as well as maintaining liaison with medical practitioners and hospitals on the medical aspect of their patients' work.

Applicants (men or women) must be fully registered medical practitioners in the United Kingdom. Experience in industrial medicine or in allied subjects such as toxicology, pulmonary physiology or psychiatry is desirable and the possession of higher qualifications will be an advantage. A current driving licence is essential.

The salary will be pro rata (based on a 37 hour week) of the full-time Adviser's salary scale which is £4,313—£6,045 per annum. There is a non-contributory pension scheme for part-time staff working more than 18 hours per week.

For full details of these posts and an application form (to be returned by 13 January 1973) please write to Mr. C. H. Acres, Department of Employment (Est B3c), 12 St. James's Square, London SW1Y 4LL.

#### PRINCE HENRY'S HOSPITAL St. Kilda Road, Melbourne, Australia

Applications are invited for appointment as:  
**ANATOMICAL PATHOLOGIST**  
Applicants must possess a senior qualification in Pathology.

Prince Henry's is a general teaching hospital of 442 beds and has a large out-patients department. The Monash University Chairs of Medicine, Surgery and Psychological Medicine are located at the hospital, and there is close liaison with the Monash University Department of Pathology. The successful applicant will participate in the surgical pathology and necropsy activities of the Department of Anatomical Pathology and will work in the combined cytology laboratories of the Hospital and the Victorian Cytology (Gynaecological) Service. Participation in an active teaching programme will also be required.

Salary and conditions in accordance with the provisions of the Senior Medical Officers' Wages Board Determination. (Currently this provides a salary range of \$11,518 to \$16,624 (Aust.) per annum for a Specialist, who is defined as a graduate of not less than 8 years standing, who holds an appropriate senior qualification and has had not less than 3 years experience in the specialty since gaining same).

A voluntary superannuation scheme (Contributory) is available after six months service.

Official form of application and further details available from the undersigned, with whom applications close on 28th February, 1973. W. A. Cross, Manager & Secretary. (18989) 118

#### PRINCESS MARGARET HOSPITAL FOR CHILDREN Perth, Western Australia

Applications are invited for the post of  
**REGISTRAR  
IN PAEDIATRIC PATHOLOGY**

to commence February 1, 1973.  
The duties of the appointee will depend on interests and experience but would normally include necropsy work, responsibilities in relation to other branches of pathology and teaching.

The successful applicant with appropriate experience will be appointed as a Registrar of the hospital and, subject to qualifications and agreement on a suitable teaching programme, may be appointed as part-time Lecturer in Pathology, Clinical Biochemistry or Microbiology in the University of Western Australia. The latter duties will involve limited teaching duties for the University department concerned, assistance from the department in training and supervision of research projects, and the use of facilities in the department where appropriate.

There are two consultant pathologists, one of whom is in charge of the whole of the laboratories and is responsible for the departments of Microbiology (including a small Virology unit), Biochemistry (including a unit for screening for metabolic disorders); the other pathologist is responsible for the departments of Haematology and Morbid Anatomy, and takes part in the work of the Leukaemia Clinic and Combined Therapy Clinic for the treatment of malignant tumours.

The Princess Margaret Hospital is the only paediatric hospital in Western Australia, with 300 beds and a busy out-patient department. There are well developed postgraduate teaching programmes in paediatrics at the hospital and in pathology at the nearby Royal Perth Hospital.

A Children's Medical Research Foundation has been established and a co-ordinated paediatric research programme is in progress. Salary range: \$7,619-9,039 p.a. according to previous experience. (Rates currently under review).

Travelling allowances available in return for guaranteed service. Board and lodging available for single person.

Enquiries and applications, stating age, qualifications and experience, together with the names and addresses of two referees, close with the undersigned on 31st January, 1973. J. D. Clarkson, Administrator. (H9901) 118

**PRINCE HENRY'S HOSPITAL**  
St. Kilda Road, Melbourne, Australia

Applications are invited from medical practitioners with a suitable senior postgraduate qualification in medicine, surgery or anaesthetics for appointment as—

**DIRECTOR OF INTENSIVE CARE**  
Prince Henry's (442 beds) is a general teaching hospital affiliated with Monash University and in active undergraduate and postgraduate centre. University Departments of Medicine, Surgery and Psychological Medicine are located at the Hospital.

It is hoped to appoint a Director before construction is completed for a new Intensive Care Unit and so enable active participation in the prior organization of same. Construction is scheduled for completion late 1973.

The Unit will occupy an area of 5,500 sq. ft., contain 9 beds (including two isolation beds) and supporting facilities, some of which will be shared with the Coronary Care Unit to be located on the same floor.

Although the appointee will have a full-time appointment at the hospital, it is anticipated that part of this time will be spent in a specialty, depending on the appointee's interest, other than intensive care.

Salary and conditions in accordance with the provisions of the Senior Medical Officers' Wages Board Determination. Currently, the salary range is \$11,518 to \$17,529 (Aust.). Commencing salary within this range will depend upon qualifications and experience.

Further information is available from the Medical Superintendent, Dr. L. N. Walsh.

Applications stating earliest date upon which appointment could be assumed, must be on the prescribed form and close with the undersigned on 28th February 1973. W. A. Cross, Manager & Secretary. (18988) 118

**UNIVERSITY COLLEGE HOSPITAL**  
Ibadan

**HEAD OF GENERAL OUT-PATIENTS DEPARTMENT**  
The Board of Management invites applications from suitably qualified and experienced registered Medical Practitioners for the above appointment. An Honorary Lectureship within the Faculty of Medicine of the University of Ibadan, may be offered to the successful candidate.

The Head of the Department is assisted by four Senior Hospital Medical Officers, 4 Senior House Officers/Registrars, and is responsible for:—

(a) The General Out-Patients Clinic;

(b) The Staff Medical Service.

The General Out-Patients Clinic is designed to provide a suitable number of patients for the Consultant Clinics and facilities for medical students' teaching which is now established and is becoming of increasing importance in the Department. The Staff Medical Service is maintained by the four senior doctors of the department who do this work in conjunction with their work in the General Out-Patients Clinic. Since the conditions presented by the patients cover the whole field of medical practice, the position calls for a doctor of wide and mature experience and good clinical judgement.

Salary — £3,300 per annum, plus a gratuity of £37.10/- per completed quarter of service.

Appointment initially for two years of 12-18 months renewable by mutual agreement.

Applications should be submitted not later than 8th January, 1973 on the appropriate forms which will be forwarded on receipt of an addressed foolscap envelope by the Adviser on Staff Recruitment, London Office, (U.C.H., Ibadan), 91 Regent Street, (Third Floor), London W1R 7TB. (H9913) 118

Ear, Nose and Throat Infections

## Prescribe Penbritin with Confidence for infections in children

Confidence is born of experience. And experience with Penbritin in the treatment of ear, nose and throat infections has established an outstanding record of safety and effectiveness.

Penbritin gives you broader cover than penicillin V—yet retains all the benefits of penicillin safety.

And Penbritin has none of the tooth-staining problems associated with the use of tetracyclines in young children.

### Trust Penbritin
