

# When bronchitis

# causes concern

In acute-on-chronic bronchitis and other severe chest infections, you can be more certain of first-time success when you prescribe Magnapen.

Magnapen's greater certainty means that the patient is more likely to respond quickly, minimising the damage to lung tissue. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

Magnapen destroys virtually all the bacteria met in general practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Full information on Magnapen is available on request.

# Ceporex beats bronchitis

Bronchitis means the loss of millions of working days.

This winter, as every winter, you can expect to see a number of new patients with acute bronchitis.

This winter, too, you'll be seeing a lot of familiar faces—your regular chronic bronchitic patients.

Ceporex can help all your bronchitic patients. Ceporex is cephalixin, the broad spectrum antibiotic from Glaxo.

With a success rate of 94% in acute bronchitis and 87% in acute exacerbations of chronic bronchitis.\*

Prescribe Ceporex this winter.  
You'll help get rid of  
bronchitis.

Safely and surely.

# FALSE ALARM!

BRITISH MEDICAL JOURNAL, 27 OCTOBER 1973

A person often experiences anxiety when it can serve no useful purpose. A signal originates in the amygdala (orange spot) and is transmitted into the body via the hypothalamus (red spot) and autonomic nervous system. In such cases, anxiety becomes a problem causing many difficult and unpleasant symptoms.

Nobrium relieves anxiety by a precise action on the amygdala—the source of anxiety. It also acts specifically on the hypothalamus to damp the transmission of anxiety into the body. The precise action is highly effective—relieving over 80% of patients<sup>1</sup>—and causes few side-effects<sup>2</sup> as other parts of the brain are virtually unaffected.

# Vertigo is an anxious business. Hence Vertigon.

The psychological aspects of vertigo can be critical. Anxiety can trigger the attacks.<sup>1</sup> And the attacks intensify anxiety.<sup>2</sup>

That's why therapy must be aimed at both. That's why we've produced 'Vertigon'.

'Vertigon' is a powerful vestibular sedative with both anxiolytic<sup>3,4,5</sup> and antemetic properties.<sup>6,7,8</sup>

It is effective during attack and can provide protection, too.

Taken early or in stressful situations it should usually avert the active phase.

'Vertigon' is available as sustained-release 'Spansule' Capsules. It gives smooth, continuous, day-long control so there is steady drug release, less chance of break-through symptoms and fewer side effects.

'Vertigon' can be taken for long periods of time.<sup>9,10</sup> Further information available on request.

# Brufen

## a significant price reduction

Brufen, the first compound for the treatment of rheumatic disease to be developed entirely by British research, is now widely accepted as a significant contribution to current therapy and usage of this effective, well tolerated anti-arthritic drug continues to increase.

From September 1st 1973, the N.H.S. Price of Brufen is reduced by 25%. 100 Brufen tablets now cost £1.88 instead of £2.50. At the average dosage, treatment with Brufen will now cost 7.2p daily.

We feel sure that doctors – particularly those who have observed the benefits of Brufen in practice – will appreciate this reduction in prescribing costs.

Brufen is ibuprofen, available as tablets containing 200 mg and as a Suspension containing 100 mg in each 5 ml. Full information from The Boots Company Ltd., Nottingham.

# A doctor without insurance must have nerves of steel.

Just think about the number of times  
you've seen patients struck down by a serious illness.

Just think about the tragic  
consequences when they haven't got adequate  
insurance cover. It's a rather unhappy story.

And as a doctor you're in a better  
position than most to realise that the chances of this  
happening are greater than the majority of people think.

So if you haven't adequate insurance  
yourself, that's something you should be feeling rather  
nervous about.

Luckily there's a simple answer. A  
policy with the Medical Sickness Society. The mutual  
society founded to take care of the insurance needs of  
doctors and dentists.

The Medical Sickness Society  
understands the problems of your profession.

It can advise on the type of insurance  
a doctor needs.

Be it life cover, a pension plan, sickness  
and accident insurance, an equity-linked savings plan  
or just plain advice about your insurance problems.

But contact us now.

You could feel a lot better for it.

When upper respiratory bacterial infection keeps a child from school, the gaps in his education tend to snowball. He can soon find himself falling behind.

That's why he needs 'Eskacef,' fast.

'Eskacef' acts quickly, is strongly bactericidal, has high tissue penetration, and extremely low toxicity. Nephrotoxicity has not proved a problem, even in children. So you can hit the infection hard in the beginning, giving the child the best possible chance of recovery in the shortest possible time. 'Eskacef,' paediatric suspension has a pleasant fruity flavour.

# Prothiaden quickly breaks the web of depressive illness

Rarely does one encounter a depressed patient who does not also show definite signs of anxiety. A common problem for the prescriber.

Tranquillizer? Anti-depressant? Or both?

Prothiaden is the anti-depressant that not only treats depression, but also quickly relieves the anxiety so often a feature of depressive illness.

Fast-acting, exceptionally well tolerated, with Prothiaden your depressed patient is soon having a lot more 'good' days than bad ones.

## Relief of symptoms in varicose disorders

*Varicose veins, post-phlebitic syndrome, superficial thrombophlebitis, varicose ulcers, varicose eczema, ankle oedema, restless legs, paraesthesia, haemorrhoids.*

**Dosage** Initial treatment: 4 capsules a day, preferably with meals. In most cases, at least four weeks treatment with PAROVEN is required before significant benefit is felt. At the point where the patient experiences benefit, the dosage may be adjusted to a maintenance level. Maintenance treatment: 1-2 capsules a day.

**Side effects and Precautions** In a few patients, slight gastro-intestinal disorders, flushes and headaches have been reported. These are usually overcome by taking the capsules with meals or by slight adjustment of dosage. There are no known contra-indications to PAROVEN; it is virtually non-toxic and has no teratogenic effects. In keeping with current teaching and practice its use during the first trimester should, however, be avoided.

## Auntie remembers— taking her Lucidril.

Forgetfulness presents itself in many ways in old age—for example, a patient often forgets when and how much to take of any prescribed medication.

Lucidril can help a patient's memory by an action that does not depend on improving the blood supply to the brain.

Lucidril starts the old brain working again—along different lines. Firstly, it stimulates the metabolism of

the brain, probably through different pathways. Secondly, it removes the lipofuscin pigments which are a concomitant of old age and which may impair cellular metabolism.

Lucidril thus improves mental function; as a recent clinical paper has pointed out:

"These preliminary results [with Lucidril] are encouraging, because they indicate that the intellectual impairment exhibited by such patients

may be reversible, even when the underlying causes are presumably of an organic nature, such as cerebral arteriosclerosis."

Lucidril 300 contains 300 mg. meclofenoxate hydrochloride. Product Licence Number 0098/5002. Lucidril is a trade mark.

## She has psoriasis

Have you ever stopped to think what it is really like to be a psoriatic? Psoriasis is more than a skin disease. It is a terrible mental affliction, particularly for young people and can literally ruin their lives. Most forms of treatment are equally depressing.

**Steroids under polythene?** True the lesions may resolve rapidly but in almost all cases the rebound factor will bring back the psoriasis even more quickly and more severely. And the patient will rebound into your surgery with a questioning look after doing unspeakable things to himself in a youth hostel – or trying to lead a normal love life in a plastic bag!

**Coal Tar?** Anointing oneself with smelly tar is even less appealing.

**Dithranol?** Certainly very effective treatment, but patients jib at the burning and particularly the staining which makes the lesions even more noticeable while under treatment.

**The Advantages of Exolan Treatment** Exolan attacks the psoriatic lesions with the striking effectiveness of dithranol but without its unpleasant side effects of burning and staining.

Exolan has been available for years as a paste and a cream – and now, in response to the suggestions of dermatologists – Exolan has been formulated as a Lotion, particularly for those patients with dry scaly lesions, lesions of the scalp, and of the flexures, where a soothing emollient effect is required.

Exolan (triacetoxanthracene) is available as a Paste, as a Cream and as a Lotion.

*that helps to conserve the body's natural potassium*

'Moduretic' owes its versatility to the complementary actions of its active constituents:

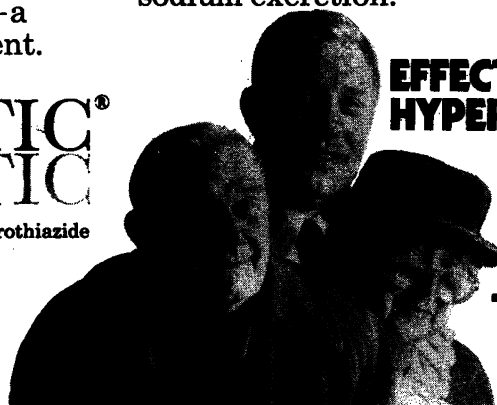

Hydrochlorothiazide—the well-established thiazide diuretic.  
Amiloride hydrochloride—a potassium-conserving agent.

Besides moderating the kaliuretic effect of hydrochlorothiazide, amiloride has an additive diuretic effect; the results of some studies reflect a synergistic effect on sodium excretion.

# **NATIONAL HEALTH SERVICES INNER LONDON EXECUTIVE COUNCIL GUY'S HOSPITAL MEDICAL SCHOOL THAMESMEAD**

An experienced general practitioner is required to establish and lead the first of three teams of doctors to be based on the Thamesmead Main Health Centre and to take an active part in teaching and research.

An integrated health service is being planned for the new community of Thamesmead and the Main Health Centre, which is expected to open in 1978, will be the principal base for an ambitious teaching programme for medical and dental students, nurses and others. It will also provide a wide range of specialist clinics and diagnostic services. The centre will serve an ultimate population of up to 40,000 in the northern (Greenwich) area of Thamesmead, the first of whom will arrive in the spring of 1974.

Until 1978 the new practice will be based on temporary premises and will be supported by nurses and other staff attached to the Area Health Authority. Teaching activities will be arranged in co-operation with the staff of the Lakeside Health Centre which serves 7,000 people now living in the Southern (Bexley) area of Thamesmead. Out of hours duties may be arranged similarly.

It is expected that the successful applicant will be eligible for a Type D allowance which takes the form of a guarantee that the doctor's income will be made up to an amount agreed with the Executive Council; he will be offered an appointment as Senior Lecturer in the Department of General Practice at Guy's Hospital Medical School. He will be expected to take up his appointment as early as possible in 1974.

Application forms and further information may be obtained from the Clerk, Inner London Executive Council, Addison House, 32-43 Chart Street, London N1 6EF. Further information may also be obtained from the Secretary, Department of General Practice, Guy's Hospital Medical School, London Bridge, S.E.1.

The closing date for receipt of completed application forms is Monday, 12th November, 1973. (H14611) 5

## COMMITTEE ON SAFETY OF MEDICINES

Doctors are invited to apply for part-time posts for follow-up work with the Adverse Reactions Sub-Committee of the Committee on Safety of Medicines. Some sixty doctors already assist, but certain areas are not adequately covered. Additionally, posts are available in the London area to assist with an improved computer system.

1. Candidates for posts outside London must be car drivers and have a good grounding in general medicine. Special knowledge of pharmacology and therapeutics is not essential. The posts are particularly suitable for married women doctors not able to work full-time because of family or other commitments. The duties are to arrange and conduct informal interviews with doctors who have reported adverse drug reactions and also to take part in epidemiological studies of drug safety problems. Remuneration is on a fee-per-visit basis and there is a mileage allowance. The work is only occasional.  
Vacancies exist in: Cambridgeshire, Derbyshire, Dorset, Co Durham, Isle of Man, Isle of Wight, Leicestershire, Lincolnshire, Northern Ireland, Northumberland, Nottinghamshire, Shropshire, Staffordshire, Yorkshire.

2. Candidates for the London area should have similar qualifications but will be required, initially, to work at the Committee's headquarters for a minimum of two half-day sessions per week. This work will not involve interviewing doctors, but comprises the medical assessment and coding of reports received by the Committee for their new computer system. When this work is completed, these officers could, if they wished, participate as in (1) above but in London.

Applications to: The Medical Assessor, Committee on Safety of Medicine, Finsbury Square House, 33/37A Finsbury Square, London EC2A 1PP. (H14626) 37

## Immediate full-time Board appointment

A major business career for a  
qualified physician

with Market Investigations (P & A) Ltd., leading international market researchers for the ethical pharmaceutical industry.

## The type of work we do

We interview General Practitioners and Specialists in the U.K. and countries throughout the Americas, Europe and parts of Asia on problems relating to diseases and therapy.

We have been a leading company in this field since 1962 and our senior executives are supported by a substantial team of specialists in statistics, economics and market research techniques.

In the U.K., we maintain a panel of 180 qualified doctors to carry out the fieldwork, in addition to a panel of 800 trained interviewers for surveys where medical qualifications are not essential.

Our work is primarily concerned with major disease areas in the human pharmaceutical field but a proportion of our work is concerned with veterinary medicines.

## We seek

a qualified doctor, preferably a specialist physician, with several years' post-graduate and specialist experience to join the Board of Directors and to work as a full-time executive.

## We prefer

a doctor who has had commercial experience either in hospital or Government administration or with a pharmaceutical company. Our prime requirements are a lively mind and a basic desire to develop a business career by applying a real understanding of medicine to market research.

We shall give a very intensive training in market research and will in any case provide a close and harmonious working relationship with executives who are specialists in other disciplines.

Starting salary — a minimum of £5,000 p.a. but where suitable commercial experience exists, a salary of up to £6,000 p.a. would be considered. A car is provided.

We have an annual bonus scheme and after 6-12 months, the director would join a profit-sharing scheme ensuring a further income of between £500-£1,500 at present profit levels.

Write in confidence to the Chairman, Market Investigations (P & A) Ltd,

1-2 Berners St.,  
London W1P 3AG

## NORTH BRISBANE HOSPITALS BOARD

Royal Brisbane Hospital  
Royal Children's Hospital  
Royal Women's Hospital

Full-time Medical Staff

# Director of Anaesthesia

## and Specialist

# Anaesthetists

The Anaesthetic Department of the Board, serving the Royal Brisbane, Royal Children's and Royal Women's Hospitals is undergoing a major re-organisation. Additional positions have been created, salaries increased and conditions of service improved. The new staff establishment will consist of 10 full-time specialist anaesthetists and 52 visiting specialist staff sessions.

Applications are invited from suitably qualified anaesthetists registered, or able to be registered, as a specialist with the Medical Board of Queensland for appointment to the following positions:— Director of Anaesthesia, North Brisbane Hospitals Board; Director of Anaesthesia, Royal Children's Hospital; Director of Anaesthesia, Royal Women's Hospital; Deputy Directors of Anaesthesia (2 positions), North Brisbane Hospitals Board; Specialist Staff Anaesthetics (5 positions).

The positions of Director of Anaesthesia, Royal Children's or Royal Women's Hospitals will become vacant only if one of the present occupants is promoted to the position of Director of Anaesthesia to the Board.

Salaries for the positions are as follows: Director of Anaesthesia, North Brisbane Hospitals Board \$19,672 per annum ( \$754.10 per fortnight); Director of Anaesthesia, Royal Children's Hospital \$18,420 per annum; Director of Anaesthesia, Royal Women's Hospital ( \$706.10 per f/n); Deputy Directors \$16,206 — \$17,925 per annum ( \$621.20 — \$687.10 per f/n); Staff Anaesthetists \$14,021 — \$17,925 per annum ( \$537.50 — \$687.10 per f/n).

These salaries are subject to review as they do not include the recent 12% increase in Public Service salaries.

The commencing salary of Deputy Directors and Staff Anaesthetists will be determined by their experience since obtaining specialist qualifications. The salary will rise by yearly increments until the maximum of the classification is reached.

Conditions of service include study leave of six months on full pay after seven years service, five weeks' annual recreational leave, and sick leave and long service leave in accordance with Public Service conditions. Consideration will be given to applications to attend conferences as official representatives of the Board. Appointees will be required to join the Public Service Superannuation Scheme.

The Board's hospitals are major teaching hospitals associated with the University of Queensland Medical School. They are fully accredited by the Faculty of Anaesthetists, Royal Australasian College of Surgeons, for training purposes and the establishment at present includes 10 Registrar positions. The Director of the Board's Anaesthetic Services will be the Head of the Department. He will be responsible to the General Medical Superintendent for the administration and control of the anaesthetic services of the Board and for the administration of the Operating Theatre complex. The Deputy Directors, Staff Anaesthetists and Directors of Anaesthesia, Royal Children's and Royal Women's Hospitals will be responsible to the Director, though the latter two will also be responsible to the Medical Superintendents of the respective hospitals for the efficient functioning of their departments within those hospitals. As far as possible, Staff Anaesthetists will be allotted specific areas of responsibility but endeavours will be made to allow appointees to rotate through areas of specific interest. In addition, it is intended that a proportion of the working week will be set aside for teaching, research and administrative commitments.

Further particulars, if required, may be obtained from the General Medical Superintendent. Application forms are available from the General Medical Superintendent or Manager and should be returned to the General Medical Superintendent, Royal Brisbane Hospital, Base Hospitals Post Office, Queensland 4029 by 30th November, 1973. Later applications will however be considered if vacancies still exist. In the case of overseas applicants, a letter of intention to apply will, if desired, be regarded as an application pending the return of completed application forms. (H14623) 118

# RESIDENT MEDICAL OFFICER

## Major Hong Kong Hospital

A resident Medical Officer is required by one of Hong Kong's major hospitals. This hospital offers extensive outpatient and inpatient treatment as well as providing the normal specialist support services. The resident Medical Officer will be required to maintain these medical services at the highest level of efficiency. This is a new position and the appointee will be expected to review existing procedures and methods and to recommend changes to improve performance and profitability consistent with quality of service.

The minimum qualification required is that of a registered medical practitioner. Some hospital administration experience is desirable. The position requires an individual who has the ability to take full control of the hospital medical facilities and mould the existing team into an efficient and well motivated unit. He should be enthusiastic to train and develop those reporting to him. He will be required to have a detailed knowledge of medical and hospital procedures

and should have had considerable experience as a medical practitioner in his own right. It is essential that he has an analytical approach to assess and improve existing techniques and to maintain and improve the quality of the medical service provided by the hospital.

A commencing salary will be negotiated in the region of £6,000 to £8,000 per annum (A\$9,500 to A\$12,600 p.a.) and a three bedroomed unfurnished flat will be provided by the hospital. The right to private practice will not be denied by the Board of Governors, however, this will be influenced by the requirements of the hospital. Replies will be sent to Hong Kong. A PA Consultant is advising on this appointment.

(Ref: D6029/BMJ)

*REPLIES will be forwarded direct, unopened and in confidence to the client unless addressed to our security Manager listing companies to which they may not be sent. They should include comprehensive career details, not refer to previous correspondence with PA and quote the reference on the envelope.*

#### THE WOLLONGONG & THE PORT KEMBLA DISTRICT HOSPITAL GROUP LABORATORY

#### DIRECTOR OF PATHOLOGY

Applications are invited from suitably qualified Medical Practitioners for the above position.

The successful applicant will be required to organise and supervise pathology services at both hospitals through a central laboratory situated at The Wollongong Hospital. The total bed capacity of both hospitals is over 500 beds and they are situated in a rapidly expanding area. The laboratory itself is new with new equipment continually being added to meet the increasing demands.

Negotiations are presently taking place for the occupant of this position to act as Regional Director in the South Coast and Southern Tablelands Region of N.S.W.

The Wollongong Hospital anticipates commencing a vocational training programme for general practitioners in 1974.

The salary and conditions of employment of medical specialists are those as prescribed within the N.S.W. Specialists (State) Award. In addition to a salary based on experience, a limited right of private practice exists.

Applications close on the 15th November, 1973 and should include details of age, qualifications and experience, be accompanied by three nominated referees and be forwarded to the Chief Executive Officer, The Wollongong Hospital, Crown Street, Wollongong, N.S.W. Australia. (H14638) 118

# An important announcement for all doctors prescribing **Erythroped<sup>®</sup>**

## As from October 1st all three strengths of Erythroped were increased.

For children 0-2 years **Erythroped P.I.** is increased to 125mg./5ml.

For the 2-8 year olds **Erythroped** has been increased to 250mg./5ml.

And for those over 8 years old  
**Erythroped Forte** has been increased to 500mg./5ml.

What this means in practical terms is that no longer do you have to consider whether to prescribe 4 or 6 times daily. Simply select the product by name according to age of patient and write it q.d.s.

Another advantage is that the new 500mg. Erythroped Forte is now eminently suitable for Geriatrics or any other adult who finds it difficult to swallow tablets.

During October the Medicines Commission are allowing both the new and the old strength Erythroped to run side by side, however the new strength product will be dispensed against scripts that specify it.

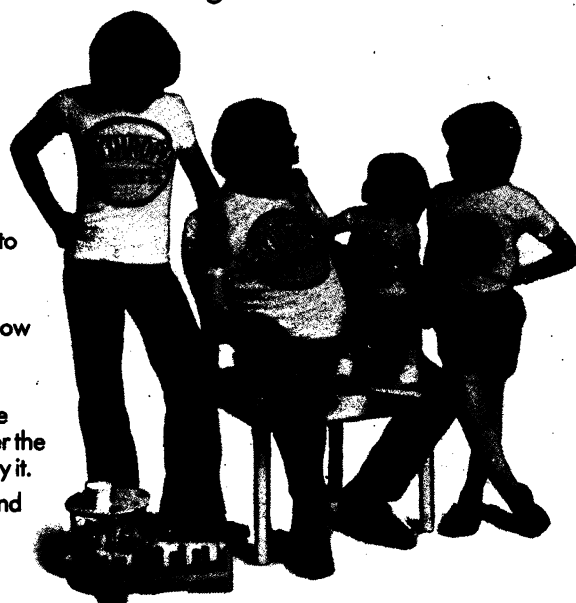

Your Abbott representative will be able to answer any queries and will be able to tell you more about new strength Erythroped.

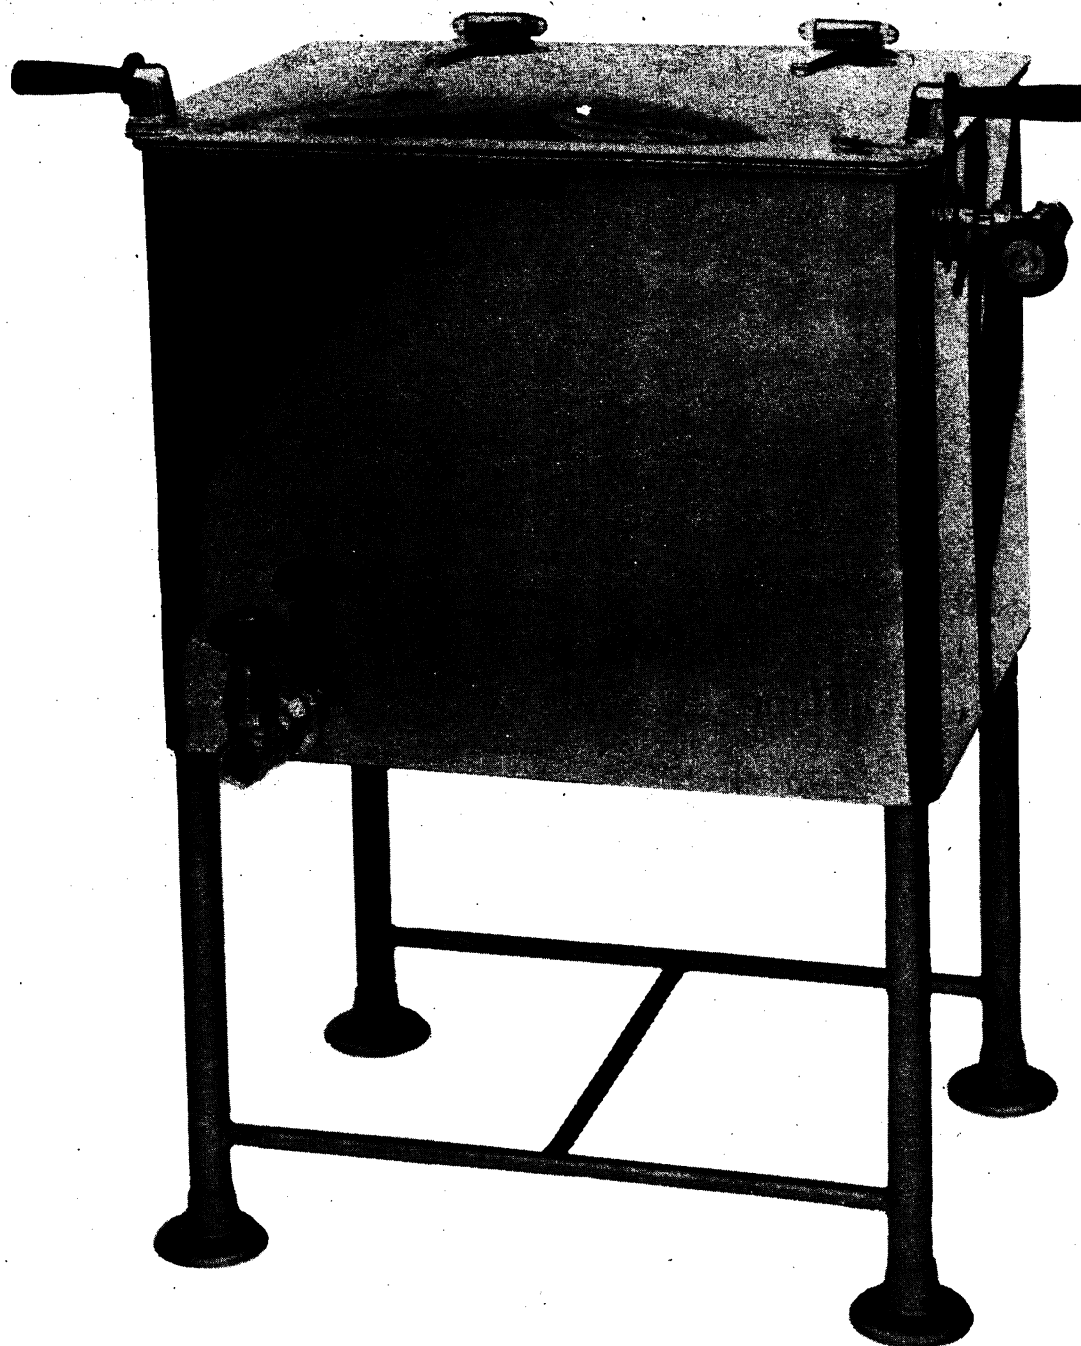

Product Licence Nos. 0037/5014/5015/5016.

Full information on Erythroped (Erythromycin ethyl succinate) available from

## When did you last use one of these?

Paraffin heated sterilizers are past history in the health service.

In some developing countries paraffin is the only available power source and these sterilizers are urgently needed. The Joint Mission Hospital Equipment Board supplies them.

Many of your colleagues in the emergent nations in mission hospitals and medical relief programmes work in primitive conditions and with outmoded equipment. Will you help them a little by helping the Joint Mission Hospital Equipment Board to supply them with up-to-date equipment very cheaply?

All it needs is a money gift which will be carefully spent.

Please send what you think you can spare to:  
Sir John Richardson, BT., M.V.O., M.D., F.R.C.P.,  
Joint Mission Hospital Equipment Board, 5 Robin  
Hood Lane, Sutton, Surrey.

The Joint Mission Hospital Equipment Board is a registered charity and benefits from income tax rebates on covenanted gifts.

Please write for details of how to take out a personal covenant or banker's order. All gifts will be personally acknowledged. Thank you.

Erythroped

**Erythroped Forte**  
Children over 8 years—Adults.  
500 mg./5 ml.

**Erythroped P.I.**  
Children under 2 years.  
125 mg./5 ml.

Erythroped is the easy antibiotic. Easy for you to prescribe. Easy for parents to give. Easy for children—and old people—to take.

Erythroped is made in 3 strengths for 3 different age groups—the only children's antibiotic that is. We've increased the three strengths, so now Erythroped is even more effective. Simply prescribe them by name, according to the age of the child, q.i.d.

And the delicious cherry taste of Erythroped will ensure that all the treatment you prescribe gets taken.

You know exactly where you are with Erythroped. It's the antibiotic that makes life easier for everyone.

When the problem is  
larger than reality

# Once-a-day Tranxene<sup>®</sup>

## restores reality

Tranxene\* is a new but distinctive benzodiazepine offering these major benefits to anxious patients.

### **Convenient once daily dosage**

The problems of forgotten doses are reduced with once daily Tranxene.

### **Fewer side-effect problems**

Sedation, lassitude and other side-effect problems associated with previous members of the benzodiazepine family occur significantly less frequently with Tranxene.<sup>1,2,3</sup>

### **Specific anxiolytic action**

Double-blind studies have demonstrated that the frequency and severity of anxiety symptoms are significantly reduced with once-a-day Tranxene.<sup>1</sup>

The results of these studies confirm the proven anxiolytic action of Tranxene.<sup>3,4</sup>

# Has she got intrinsic

Becotide Inhaler is likely to be effective whatever the type of asthma and whatever the aetiology.

In a trial of Becotide Inhaler in 17 asthmatic patients, intrinsic in 13 and extrinsic in 4, the results were equally good in both types of asthma. Of three patients with more severe intrinsic asthma the following report was given:

"Patients 13, 16 and 17 were all controlled on prednisolone in excess of 10mg per day and were unable to reduce the dose of prednisolone below that level without clinical deterioration. They now remain as well, if not better, controlled on the steroid aerosol (Becotide) in a dose of 100mcg four times a day and all have normal basal plasma-hydrocortisone levels."

*(Lancet, 1972, 1, 1361)*

"Effective control of the asthma (with Becotide Inhaler) is achieved with no evidence of systemic absorption or steroid side effects . . . As many of them had already failed to respond to disodium cromoglycate this new approach may have much to offer."

*(Brit. med. J., 1972, 1, 585)*

# or extrinsic asthma?

**Becotide Inhaler  
provides effective relief in both  
intrinsic and extrinsic asthma . . .**

**and avoids unwanted  
steroid side effects.**

This is because of the intrinsic properties of beclomethasone dipropionate and its localisation at the intended site of action.

Extensive clinical trials <sup>1,2,3,4,5</sup> have shown a high rate of success and no evidence of systemic steroid side effects, including adrenal suppression, in the recommended dosage.

# When waking hours stretch far into the night...

...The simple answer so often is **'Surmontil'**

Insomnia is a complex problem.

Partly because sleep itself is a complex process: to correct abnormalities requires special care.

And partly because sleep disorder is but a symptom: its cause must be identified and treated too.

'Surmontil' can often provide a simple answer.

First, by promoting sound, *natural* sleep. Research has shown that many hypnotics fall short of this requirement: they do, of course, provide sleep, but only by inducing new, artificial sleep patterns. These can cause unpleasant symptoms when treatment is withdrawn and so encourage dependence. With 'Surmontil' old, physiological patterns are restored, and the patient sleeps as she used to.

Second, because 'Surmontil' also has powerful mood-elevating and tranquillizing properties it provides more than partial relief when insomnia is traced to anxiety/depression. It acts not only

on the physical symptom but also on the emotional causes, thus ensuring full recovery. No hypnotic, tranquillizer or antidepressant alone can provide this comprehensive benefit – only 'Surmontil', with all three required effects, makes a complex problem less so.

**'Surmontil' restores sleep,  
lifts depression, allays anxiety**
