# OUCH!

Gastric reflux does nasty things to the oesophagus

Like causing oesophagitis.  
And heartburn.

All the more reason for prescribing Gaviscon rather than simple antacids.

Gaviscon suppresses gastric reflux—simple antacids don't. Recent evidence confirms that Gaviscon reduces the number of reflux episodes as well as the time during which the lower oesophageal pH is acid!

And Gaviscon has the backing of more than ten years' clinical experience in the treatment of reflux heartburn.

Will your depressed patients  
get tired of their treatment?

## Not if you prescribe the non-sedative, widely effective antidepressant from ICI.

'Vivalan', in trials involving over 2,000 patients, has proved to be a unique antidepressant. In one trial in which 77 patients took 'Vivalan' there was "...virtual complete absence of drowsiness and dry mouth at any dose level. These are considerable advantages when treating ambulant patients who may be driving a motor car, or who may wish to remain at work, despite their illness and treatment."<sup>1</sup>

'Vivalan' is the fresh approach to the problems of depression: patients achieve recovery without hindrance from unwanted drowsiness.

# For the patient with ischaemic heart disease the recommendation of Flora margarine is logical, clinical advice.

Many authorities throughout the world are in no doubt that a causative relationship exists between a raised blood cholesterol level and coronary atherosclerosis.<sup>1,2</sup>

Therefore, to lower blood cholesterol is a sound objective in the management of the patient. This can be achieved by reducing the intake of saturated fats in the diet and by partial substitution by polyunsaturated fats.<sup>3,4,5</sup>

Flora is higher in polyunsaturated fats than any other leading margarine,\* and is low

in saturated fats. It is an effective, easy and palatable component of a lipid lowering diet.<sup>6,7,8,9,10</sup>

If you would like further information about Flora margarine and recipes in which it may be used by your patients with coronary heart disease, please write to: Flora Information Service, 25 North Row, London W1.

**How much Caved-S can an intractable duodenal ulcer patient take?**

**For a full year without relapse, 12 tablets a day for up to 16 weeks\***

**The Practitioner**

**June 1973 Vol. 210 pp. 820-823**

\* This dosage regimen was established in a recent trial of Caved-S on patients all with intractable duodenal ulcer and a history of more than six relapses in the year prior to the trial. Of twenty patients receiving 12 Caved-S tablets a day for 16 weeks, 12 had no relapse in a full year's follow-up, and the other 8 had two or one relapse in the follow-up year. All these patients had actually been referred for surgery, but surgery was avoided in all cases. Another similar group of 20 patients received 8 Caved-S tablets a day for 8 weeks - the condition of patients selected was too serious for controls with a placebo. Of this second group 3 had no relapse, 7 up to two relapses, and 10 up to 4 relapses in a year's follow-up.

No significant side effects occurred. Only one patient discontinued treatment, and he later resumed treatment successfully.

The authors conclude:

"Caved-S . . . should be given in high dosage before surgery is attempted in patients with duodenal ulcer who fail to respond to a low dose or other treatments."

# MEET THE CALMURID BROTHERS

Urea is now known to possess antipruritic, keratolytic and antibacterial properties, and can produce a marked rise in the water content of treated dry skin. Until recently, the instability of urea solution prevented other than extemporaneous preparations being used. However, the Calmurid

formulation has overcome the problem. Calmurid Cream rehydrates and softens thickened and dry skin; Calmurid HC is indicated where hydrocortisone is needed additionally to deal with inflammation.

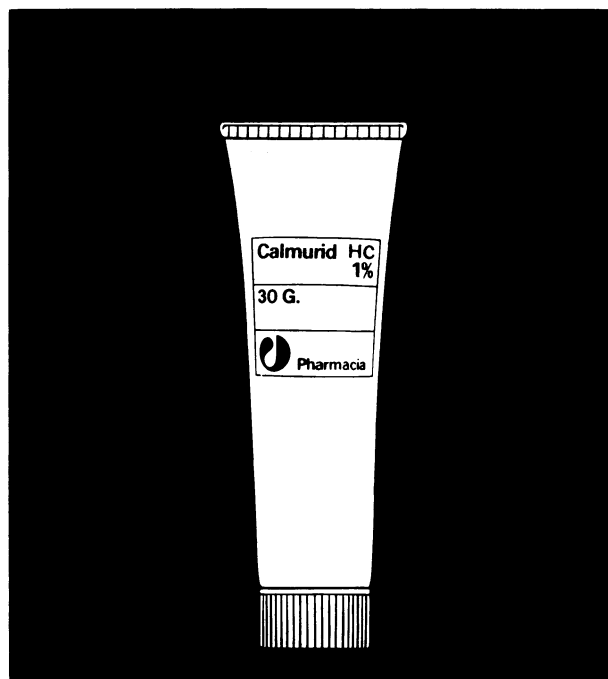

## FOR DRY SKIN

Whether the dry scaling skin in ichthyosis or the horny masses of tylosis of the hands or feet, Calmurid disperses the horny scales and raises the water content of the skin towards normal. In patients with severe ichthyosis Calmurid was the most effective of four preparations tested.<sup>1</sup> In other studies resistant cases showed remarkable clinical improvements in a few days<sup>2</sup> with parallel biochemical improvement<sup>3</sup>. Calmurid was found most valuable in the treatment of hyperkeratotic feet<sup>4</sup>. Carbamide (urea) B.P. 1968 10% in a stabilising emulsified base; tubes of 50 and 100g.

**There is  
a Sister  
Too.**

Calmurid Solution (20% Urea) represents a step forward in the treatment of psoriasis of the scalp, seborrhoeic eczema and seborrhoea – no tar, no steroids. Data sheet available on request.

## FOR ECZEMA

Eczema characteristically has inflammation and frequently a dry scaly covering. Calmurid HC, by its dispersive and rehydrating actions on the scale allows hydrocortisone to exert its full anti-inflammatory effect. So effective is this combination that Calmurid HC has been found to be as effective as the commonly used fluorinated steroids<sup>5,6</sup> yet it achieves this without the risks of skin damage and systemic effects associated with them. Hydrocortisone has negligible atrophic action on skin<sup>7</sup>. Carbamide (urea) B.P. 1968 10%, hydrocortisone 1% in a stabilising emulsified base; tubes of 30g.

Calmurid is a registered trademark.

## AN INTRODUCTION TO MECHANISMS IN PHARMACOLOGY AND THERAPEUTICS

R. G. Spector, MD, PhD, FRCP

J. R. Trounce, MD, FRCP

H. Rogers, MA, MB, BChir, PhD, MRCP

This book, written by three authorities, explains a basis upon which drugs work and their use in practice. It is not a recipe book, but rather a work which is likely to become a classic in explaining the action and inter-action of pharmacological products.

## MODERN TOPICS IN MIGRAINE

J. Pearce, MD, FRCP

Patients are being referred in increasing numbers to clinics with an expressed interest in migraine and other varieties of headaches. Epidemiological and clinical studies of the problems have increased to a surprising degree in the last 20 years, and it has been a natural consequence that the clinical scientist has for the first time tackled the complex puzzles posed by the migraine patient.

This book consists of a series of essays contributed by experts, and attempts to embrace both clinical and laboratory aspects which are continuously expanding our knowledge. It is hoped that this book will stimulate the interests of physicians, neurologists and also neurochemists working in this area.

## MEDICAL CARE FOR MOUNTAIN CLIMBERS

Peter Steele, MA, MB, BChir, FRCS

This book is written for the active mountaineer and climber to help him, as the author states in his introduction, "to muster his wits in order to keep the casualty alive in those first few shattering minutes after an accident". The reader may be a teacher taking a party of schoolchildren on Dartmoor or over Ben Alligan, a virtuoso on the north face of the Piz Badile or a young doctor in some wild valley beyond Dhaulagiri. The book is intended not just as an aid in emergency situations but to provide 'first aid information' for all those situations that a mountaineer or climber is likely to find himself confronted with from time to time. The book is the first of its kind to be published in this country and Dr. Steele, as a seasoned mountaineer, is well qualified to write it.

## USING NUMBERS FOR EFFECTIVE HEALTH SERVICE MANAGEMENT

Michael Tyrell

This book is intended as a guide to statistics for Health Service managers of all disciplines with no mathematical background except the simplest 2+2 variety. It explains simply the technical terms used in health statistics and the basic techniques, but gives greater emphasis to the interpretation of statistics with numerous real life illustrations and anecdotes. The new NHS service planning system is discussed and there is a useful list of published statistics and Department of Health and Social Security returns. The book should be of great assistance to community physicians, senior Nurse Managers and Health Service administrators, as well as members of Health Authorities, Community Health Councils and Health Care Planning Teams. It is also a light introduction to the subject for those sitting examinations.

# **NEW BENEFIT FOR SICK AND DISABLED PEOPLE WITHOUT N.I. CONTRIBUTIONS.**

**DO YOU KNOW ANYONE WHO SHOULD APPLY?**

There are many people who are incapable of work but have not qualified for sickness or invalidity benefit because they do not have enough national insurance contributions. Now they can claim Non-Contributory Invalidity Pension.

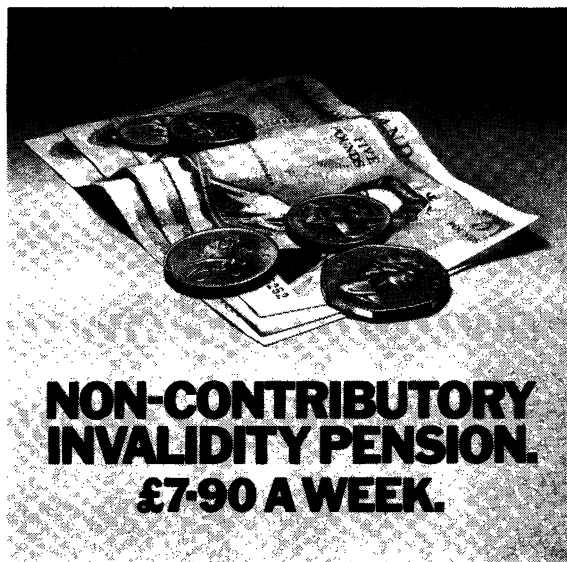

Under the Non-Contributory Invalidity Pension scheme, they could be entitled to £7.90 a week. (More, if they have a wife and children.)

If you have a friend, relation or patient who qualifies, you could tell them about it. How do they qualify?

They must be between 16 and 65 (men) or 60 (women) and have been incapable of work for at least 28 consecutive weeks. But, at present, a woman cannot qualify if she is married and living with her husband.

To get a leaflet and claim form all they need do is fill in the coupon below, or call at their local Social Security Office. Payments start from November 20th.

But don't forget to tell them; or better still, show them this advertisement.

## Personal View—An Anthology (1975)

Since the feature started in 1968 Personal View has been one of the most popular pages of the B.M.J. A hundred of these have now been gathered together in an anthology, to which an introduction has been written by a noted Personal View contributor, Dr Mahadeva of Ceylon, Sri Lanka. The subjects of the views contained in this anthology range from experience of practice all over the world to work as a schoolteacher, the role of music in medicine, learning to be a farmer's wife, and running a fringe event at the Edinburgh Festival.

Price £3.00 (U.S.A. \$9.00)

## Surgery of Violence (1975)

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence. First published as a series of articles in the *BMJ* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

Price £1.00 (U.S.A. \$3.00)

## Cardiovascular Diseases in the Tropics (1974)

The book presents the present state of knowledge regarding many conditions previously thought to be peculiar to the temperate and developed countries and also deals with those disorders peculiar to the tropical situation. It provides an up-to-date review suitable both for clinical and epidemiological work and for further research into these disorders.

Price £4.50 (U.S.A. \$13.50)

## Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

This is the third course for doctors who are responsible for training general practitioner teachers or for conducting courses for trainees. The courses have been initiated by The Royal College of General Practitioners with the support of the Nuffield Provincial Hospitals Trust. Subjects covered include organisation of educational programmes, teaching methods, the core content of general practice and small group leadership.

The course will have six separate five-day modules. The first module will be held at Brunel University, Hillingdon, from 5th to 9th July 1976. Further modules will take place as follows:

Module II — 25th-29th October, 1976. R.C.G.P. Module III — 29th November-3rd December, 1976. R.C.G.P. Module IV — 21st-25th February 1977. R.C.G.P. Module V — 28th March-1st April 1977. R.C.G.P. Module VI — 4th-8th July 1977. Brunel.

Members conduct educational exercises between modules. Help with these exercises will be available from the Nuffield Tutor, Dr. Paul Freeling, who has overall responsibility for the course.

Those who attend all six modules will be funded by the Department of Health and Social Security under the 'extended leave' provisions for general practitioners which includes payment of locums. Those who attend for fewer modules will attend under Section 63.

For further details please apply as soon as possible to The Royal College of General Practitioners, 14 Princes Gate, London, S.W.7. (29908)

## GENERAL PRACTICE TRAINING POSTS

### EAST SUSSEX AREA HEALTH AUTHORITY Hastings Health District

#### VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

Applications are invited from Registered Medical Practitioners for further appointments which it is intended to make to the Hastings Health District Vocational Training Scheme with effect from 1st March, 1976.

This is an established scheme in which the trainees can expect to spend an initial 6 months in selected general practice in either Bexhill, Hastings or Rye. There will then be a period of 2 years in rotating hospital appointments during which the trainee may cover accidents and emergencies, geriatrics, rheumatology and general medicine, obstetrics, otorhinolaryngology, paediatrics and psychiatry. There will also be opportunity for those who are interested to receive instruction in dermatology and ophthalmology. The final 6 months of the 3 year traineeship will again be spent in general practice. Throughout the whole three year period there will be regular meetings of the trainer/trainee group, plus the usual half-day release course during which topics appropriate to general practice will be considered in depth. There will also be opportunity to attend courses at the Hastings Postgraduate Medical Centre and the University of Sussex.

#### Joint Committee for Regional Postgraduate Medical Education

#### COMBINED TRAINING PROGRAMME FOR GENERAL PRACTICE with Obstetrics & Paediatrics

Applications are invited from registered medical practitioners for a two year rotating training post which will include Obstetrics, Paediatrics and General Practice starting on 1st March 1976.

During the two years each doctor will spend six months in Obstetrics, six months in Paediatrics, and two six months periods in two separate group practices. The training offered would be of value not only to those intending to enter General Practice, but also to those hoping to specialise, particularly in Obstetrics or Paediatrics.

The Obstetric post will be at Mill Road Maternity Hospital, Liverpool, and the Paediatric post at Alder Hey Children's Hospital, Liverpool. General Practice training will be in two approved teaching group practices. The Obstetric training will qualify a candidate for the D.Obst.R.C.O.G. examination, and the Paediatric training will qualify for the D.C.H. examination. The appointment in Paediatrics allocated to this training scheme is one of the Senior House Officer posts which are advertised in the Paediatric section of this issue. An appropriate day release course is organised. Any candidate who has already spent at least one year post-registration in a hospital appointment would also qualify for the Vocational Training Allowance on entering general practice.

Salaries will be at the appropriate hospital grade and in the practice year at the appropriate level on the Trainee Practitioners' Scheme, with car allowance.

Applicants wishing to visit the two practices should apply to Dr. J. Lowe, Cantril Farm Health Centre, The Withens, Liverpool L28 1NL, telephone 051-489 9924; or Dr. C. W. Warner, 6 Woolton Street, Liverpool 25, telephone 051-428 4184.

Application forms are obtainable from the Area Administrator, Liverpool Area Health Authority (Teaching), Orleans House, Edmund Street, Liverpool L3 9NG, and should be returned not later than 17th November, 1975. (H19015)

## OCCUPATIONAL HEALTH

# Industrial Medical Officer

A large Manufacturing Group with interests in several different industries requires a full time Doctor, aged about 35-45, to take charge of Occupational Health within its manufacturing businesses in the Manchester area employing over 3,000 people in several locations. The post is a replacement as a result of internal promotion. It will be permanent, pensionable, carry a number of fringe benefits and the provision of a car. Experience of Industrial Medicine within the UK is regarded as essential for this appointment.

The Group has a progressive outlook to its Occupational Health responsibilities and the Doctor appointed will need to be of like mind bringing a profound interest in Industrial Medicine. He must have good administrative ability and the social skills to maintain the sound relations with management that already exist. He will have Secretarial assistance and three modern well equipped

surgeries staffed by competent and experienced nursing staff.

The duties will offer ample opportunities for clinical work and will cover a comprehensive range of health screening with an active involvement, some of it through Committee work, in all aspects of safety, accident prevention and environmental matters.

The initial salary will be negotiable with reference to age and pertinent experience.

Applications should be made to D. G. Wright, quoting ref. 356, and may be made by letter (or initially by telephone). The strictest confidence will be guaranteed until permission is given to release details to our clients. Interviews will be arranged in the Manchester area, or locally elsewhere, for preliminary discussions, if so required.

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

# Occupational Medicine Advisers

Up to £9,970

The Employment Medical Advisory Service is the nucleus of all medical activities in the Health and Safety Executive and is responsible for all aspects of occupational medicine.

There are now vacancies for full-time advisers within the service, based in or near the following:

EMAS Headquarters (London)	West Midlands (1 or 2 posts)
London & South-East (London) — 2 posts	North Eastern (Bradford)
Eastern & S. E. Midlands (Leicester)	Northern (Newcastle)

Vacancies may arise in other areas.

The work of a Medical Adviser is varied in content and in the demands it places on professional expertise. It includes direct medical supervision of people at work, young people not fully fit for employment and people undergoing training or rehabilitation, investigations and formal surveys and provision of guidance on working conditions and other matters affecting occupational health and medicine. Communication and contact with workers, their representatives, employers, general practitioners and medical staff in hospitals and private industry are essential to the work.

Where possible, Advisers will work in Groups supported by nursing and clerical staff and laboratory and statistical facilities.

Applicants (men and women) must be fully registered medical practitioners in the United Kingdom. Experience in industrial medicine or in allied subjects, such as toxicology, pulmonary physiology, rehabilitation or psychiatry, is desirable and the possession of higher qualifications will be an advantage. A current driving licence is essential.

Starting salary between £6,990 and £9,560 (higher in London). There are good prospects of promotion as the Service develops, to posts with salaries of £11,000 and beyond. The pension is non-contributory and previous superannuation rights will normally be transferable.
