IMPORTANT AND SALUTARY IMPROVEMENTS HAVE BEEN INTRODUCED INTO LIFE ASSURANCE PRACTICE BY THIS COMPANY.

The Policies or Contracts of Assurance are Indefeasible and Indisputable.

The whole Profits of the Mutual or Participating Branch of Assurance, are divided amongst the Assured of that Class, who are relieved from all responsibility.

The Lowest Rates of Premium, the Reduced or Non-participating Rates, are intended for those who prefer an immediate saving to prospective accumulations.

One-half of the Premiums may remain Unpaid for Seven Years, affording a greater facility for Loan Transactions than any other plan which has been suggested—allowing a Policy to be dropped at one-half of the usual sacrifice—and entitling the Assured at a future period, when loss of health may prevent him from obtaining a New Assurance, to continue a Policy for double the amount of the sum for which he has paid Premiums.

Sums Assured may be made Payable to the Assured themselves, at any specified age, or to their heirs or assigns, in the event of the Assured's death before that time.

TO THE FACULTY.

The success of Life Assurance depends on the fidelity of medical reports, in the preparation of which, time, caution, and delicacy are required;—instead of endeavouring to procure these without payment, as is usual, the Manager of this Company transmits a consultation fee to the medical attendant with every application for information.

The Managing Director will receive Applications for Appointments as Medical Advisers for towns in England, in which the Company have not already Medical Advisers. The applications to be accompanied with references to Medical Gentlemen of eminence in London;—
