

ALLSOPP'S PALE OR BITTER ALE.

IN consequence of the REPORTED ADULTERATION of BITTER BEER, Messrs. SAMUEL ALLSOPP and SONS have received numerous incidental TESTIMONIALS to the excellence, purity, and salutary effects of their ALES. They consider it due to the Medical Profession, who have so long recommended ALLSOPP'S PALE ALE in all cases where dietetic regimen is required, to give publicity to these Testimonials, as a means of disabusing the public mind of any possible prejudice on the subject.

By the following extracts among a number from the most eminent Medical Men, the Profession throughout the country will have the satisfaction of finding their just appreciation of the remedial advantages of ALLSOPP'S PALE ALE amply confirmed by the concurring testimony of the most able Physicians and Surgeons, as well as the most illustrious Chemists of the time :—

FROM BARON LIEBIG,

"The specimens of your PALE ALE sent to me have afforded me another opportunity of confirming its valuable qualities. I am myself an admirer of this beverage, and my own experience enables me to recommend it, in accordance with the opinion of the most eminent English Physicians, as a very agreeable and efficient tonic, and as a general beverage both for the invalid and the robust.—" Giessen, May 6."

FROM PROFESSOR GRAHAM, F.R.S., UNIVERSITY COLLEGE, LONDON; AND PROFESSOR HOFMANN, Ph.D., F.R.S., COLLEGE OF CHEMISTRY, LONDON.

"The sifting nature of the chemical examination which the Beers of Messrs. ALLSOPP'S manufacture for many months past have been subjected to, fully establishes their incontestable purity. The process of brewing PALE ALE is one in which nothing but Water and the best Malt and Hops of the first quality are used : it is an operation of the greatest delicacy and care, which would be entirely ruined by any tampering with the materials employed.—" London, April 26."

FROM THE ANALYTICAL SANITARY COMMISSIONER OF THE "LANCET," MAY 15, 1852.

"From the pure and wholesome nature of the ingredients employed, the moderate proportion of alcohol present, and the very considerable quantity of aromatic anodyne bitter derived from hops contained in these Beers, they tend to preserve the tone and vigour of the stomach, and conduce to the restoration of the health of that organ when in a state of weakness or debility. They resemble, indeed, from their lightness, a *wine of malt*, rather than an ordinary fermented infusion ; and it is very satisfactory to find, that a beverage of such general consumption is entirely free from every kind of impurity."

FROM R CHARLES M. CLARKE, BART., PHYSICIAN TO HER LATE MAJESTY THE QUEEN DOWAGER.

"I have frequently recommended BITTER ALE medicinally, and when my home-brewed Ale has been exhausted, I have been supplied with Ale from your brewery.—" Wiggington Lodge, May 2."

FROM THOMAS WATSON, M.D.

"In the genuineness and salubrity of PALE ALE and BITTER BEER, as manufactured at Burton, my confidence remains unshaken.—" Henrietta Street, Cavendish Square, May 5."

FROM GEORGE BUDD, M.D., SENIOR PHYSICIAN OF KING'S COLLEGE HOSPITAL.

"I did not want any testimony to satisfy me of the perfect purity of the PALE ALE manufactured by you. A close observation of its effects upon myself and upon many others to whom I have prescribed it long ago, convinced me, as such as the most searching chemical analysis could do, that it contains nothing more than malt and hops, and as it is a first-rate beverage.—" Dover Street, May 1."

FROM MARSHALL HALL, M.D., F.R.S.

"My confidence in the purity of your PALE ALE remains unshaken, and my opinion of its great value in a dietetic and remedial point of view, is entirely confirmed by long time and experience.—" Grosvenor Street, April 30."

FROM BENJAMIN TRAVERS, ESQ., F.R.S.

"I do not hesitate to affirm, that no deleterious substance is employed in ALLSOPP'S PALE ALE and BITTER BEER, and that my confidence in its wholesomeness as a beverage remains unshaken.—" Green Street, April 30."
