Extract from the Directors' Annual Report.

"The Directors of the New EQUITABLE believed that, by adopting a plan founded on justness and liberality towards the Medical Profession, an immense field hitherto uncultivated would be opened for philanthropic and prudential operations. The position thus discovered and examined they have attempted to occupy, and abundant are the reasons which render the results pre-eminently satisfactory.

"The business already transacted by the New EQUITABLE Company has exceeded, both in extent and character, the most sanguine expectations of its founder and zealous advocates. From the 31st of January, 1851, the date of the complete registration of the Company, to the 31st of January, 1852, inclusive, no less than *four hundred and forty-eight* proposals were received and entertained by the Directors. Out of this number of proposals *three hundred and fifty-five* policies were completed, and the remaining *ninety-three* have been either declined, or are not yet completed. The sum assured on the *three hundred and fifty-five* policies issued by the Company is *one hundred and sixty-eight thousand seven hundred and sixty-five pounds*. The premiums on the policies thus effected amount to *six thousand and twenty-five pounds two shillings and seven pence per annum*, the average amount of the policies being *nearly five hundred pounds*."

Forms of Proposals, and any further information, may be had on applying personally, or by letter, to the Resident Director or Secretary, at the
