IV.

Octavo, price 5s. Observations on the

SURGICAL PRACTICE OF PARIS.

Illustrated by Cases.

By W. O. MARKHAM, M.D.

"We have read this work with considerable interest. The Author gives in a short space a comprehensive, and we believe accurate sketch of the present state of Surgical Practice in Paris. He mentions the names of most of the eminent surgeons in that city, whose clinics he has attended, and whose opinions and treatment of many important surgical diseases he has given detailed accounts of. We strongly recommend its perusal."—*Dublin Medical Journal*, Jan. 1841.

THE PRINCIPLES and PRACTICE

of OBSTETRIC MEDICINE and SURGERY, in relation to PARTURITION. By F. H. RAMSBOTHAM, M.D., Consulting Physician in Obstetric Cases to, and Lecturer on Midwifery at, the London Hospital, &c.

"We are certain the work has only to be known, in order to make the demand for it very extensive."—*Medical Gazette*.

"We strongly recommend this work. Decidedly one of the cheapest volumes ever issued from the medical press of the country."—*Lancet*.

"Looking at the contents of the volume, and its remarkably low price, we have no hesitation in saying that it has no parallel in the history of publishing."—*Provincial Medical Journal*.

"We feel much pleasure in recommending to the notice of the profession one of the cheapest and most elegant productions of the medical press of the present day."—*Dublin Medical Press*.

"We can speak very favourably of this work, and as a large sale can only remunerate the publisher, we wish him that large sale which he deserves."—*Dr. Johnson's Review*.

"We strongly recommend this work to all our obstetrical readers, especially to those who are entering upon practice; it is not only one of the cheapest, but one of the most beautiful works in Midwifery."—*Dr. Forbes' Review*.
