

THE ANATOMISTS' VADE-MECUM; a System of Human Anatomy. By W. J. ERASMUS WILSON, Lecturer on Anatomy and Physiology at the Middlesex Hospital Medical School. With 150 Illustrations, price 12s. 6d.

No expense has been spared in woodcut illustrations to render this work the most beautiful and perfect volume that has ever been placed in the hands of the student. It has already received a very extensive sale, while its republication in America and Germany proves that its merits are widely appreciated.

London: JOHN CHURCHILL, Princes-street, Soho.

NEW WORK ON MATERIA MEDICA.

Just published, in 8vo., price 6s.

ELEMENTS OF MATERIA MEDICA AND PHARMACY. By O'B. BELLINGHAM, M.D., Lecturer on Materia Medica at the Richmond Hospital School of Medicine, one of the Medical Officers of St. Vincent's Hospital, and lately Chairman of the Pharmacy Court of Examiners of the Royal College of Surgeons in Ireland. Edited by ARTHUR MITCHELL, M.D., Lecturer on Botany at the Richmond Hospital School of Medicine.

Dublin, FANNIN and Co.: London, LONGMAN and Co., and H. RENSHAW.

BELLINGHAM ON DISEASES OF THE HEART. Second Edition, revised and enlarged, price 2s.

A Tabular View of the Signs furnished by Auscultation and Percussion, and of their application to the Diagnosis of Diseases of the Heart and Great Vessels. By O'BRYEN BELLINGHAM, M.D. M.R.C.S.I.

"As might be expected from Dr. B.'s well-known zeal and industry, and the attention which he has been paying to this important subject, his table supplies us with an accurate and concise view of the present state of our knowledge in this department of medicine, and will be found highly valuable both to the practitioner and student."—*Medical Press.*

Also by the same Author,

A TABULAR VIEW of the SIGNS FURNISHED by AUSCULTATION and PERCUSSION in DISEASES of the LUNGS. Second Edition, considerably improved, price 2s.

Dublin, FANNIN and Co.; London, LONGMAN and Co.

Just published, in 2 vols., 8vo. cloth, containing an Atlas of 30 Plates, price 24s.

ELEMENTS of the GENERAL and MINUTE ANATOMY of MAN and the MAMMALIA, chiefly after Original Researches. By Professor GERBER, Prosector in the University of Bern. With Notes and an Appendix, by GEORGE GULLIVER, F.R.S.

London; H. BAILLIERE, 219, Regent-street.

GRAHAM'S CHEMISTRY. COMPLETION.

Just published, the 6th and last Part of

PROFESSOR THOMAS GRAHAM'S ELEMENTS of CHEMISTRY: including the Application of the Science in the Arts—Containing ORGANIC CHEMISTRY. 8vo., 9s. Complete in 1 vol. cloth, 26s. Subscribers are requested to make up their Sets before the 1st of February next, as after that date Parts will not be sold separately. Cases for binding, 1s. each.

London: H. BAILLIERE, 219, Regent-street.

RUPTURES.—THE PATENT SELF-ADJUSTING GERMAN TRUSS,

acting effectually without any complications, is recommended by the Faculty for the CURE and RELIEF of HERNIA. The most eminent members of the profession are of opinion that the necessary quality of a good Truss is an efficient resisting power, without unnecessary pressure on the part affected, which desirable object is alone obtained in a Truss unencumbered with straps, spiral springs, or pad behind.

J. EGG and Co, the inventors, engage to secure any reducible Rupture, if left to their management. —Manufactory, No. 1, Piccadilly.

TO GENERAL PRACTITIONERS.

WANTED to PURCHASE a PARTNERSHIP, in a good PRACTICE, or the whole of a smaller one. The former will be preferred.

Letters containing particulars of income, &c. addressed to P., care of R. R. Perry, Esq., House Surgeon, St. Bartholomew's Hospital, London, will receive immediate attention.

DEGREES.

GENTLEMEN desirous of obtaining the Degree of M.D. either from a British or Foreign University, the Diploma of the College of Surgeons, or the License of Apothecaries' Hall, can have their object facilitated by applying to the Advertiser. In any case a very short absence from Practice will be necessary.

Address, post-paid, to M. D., 14, Euston-place, Euston-square.

TO PARENTS AND GUARDIANS. BOARD, &c. FOR MEDICAL STUDENTS.

MEDICAL STUDENTS are received into the house of a Private Lecturer living close to University College. Assistance in their studies, and cheerful society in their hours of relaxation, are the advantages offered. The treatment is liberal, and the terms very moderate. An arrangement with the friends preferred. Gentlemen residing, are prepared for their examinations without extra fee.

Address to M. D., at Mr. Fryer's, Bookseller, Gower-street North.

NEW WORKS

PUBLISHED BY

MR. CHURCHILL, PRINCES STREET, SOHO.

A PRACTICAL WORK on the **DISEASES** of the **EYE**, and their **TREATMENT**, **MEDICALLY**, **TOPICALLY**, and by **OPERATION**. By **FREDERICK TYRRELL**, Senior Surgeon to the Royal London Ophthalmic Hospital, Surgeon to St. Thomas's Hospital, &c. Two Vols. 8vo., cloth, with Coloured Plates, 1l. 16s.

"This work is written in a perspicuous style, and abounds in practical information; we add our earnest recommendation to our readers, to procure and read through the two volumes, assuring them that they will be richly repaid for their trouble. A series of plates, illustrative of the various diseases, are given."—*Dublin Journal of Medical Science*.

"We consider it a very valuable addition to the existing books on diseases of the eye, and we believe that it will prove eminently useful."—*Medico-Chirurgical Review*, October, 1840.

A TREATISE on the **NATURE**, **CAUSES**, and **TREATMENT** of **ERY-SIPELAS**. By **THOMAS NUNNELEY**, Lecturer on Anatomy, Physiology, and Pathology, in the Leeds School of Medicine. 8vo., cloth, price 10s. 6d.

"We consider that Mr. Nunneley has done good service to the profession by the production of this work."—*Provincial Medical Journal*.

ON the **CONSTRUCTION** and **MANAGEMENT** of **HOSPITALS** for the **INSANE**. Translated from the German of Dr. **JACOBI**, with Additions by **SAMUEL TUKE**. With Plates. 8vo., cloth 9s.

"We have just received, with very great pleasure, a translation of Dr. Maximilian Jacobi's work, and we desire to recommend it strongly to our readers. The whole work is composed with a rare practical knowledge of the subject, which has seldom marked the recent publications of the same class. The observations, both of the author and of Mr. Tuke, are such as may suggest improvements in every institution for lunatics in the country."—*Medical Gazette*.

A MANUAL OF PRACTICAL MIDWIFERY; Containing a Description of Natural and Difficult Labours, with their Management. Intended chiefly as a Book of Reference for Students and Medical Practitioners. By **JAMES REID, M.D.**, Lecturer on Midwifery at the Webb-street Medical School. With Engravings on Wood, 24mo., cloth, 5s. 6d.

"The relative diameters of the pelvis and the fetal head, and the different presentations of the child, are all usefully represented by wood engravings among the letter-press, and the book is thus particularly well calculated to effect the objects of such a work."—*Lancet*.

ON the **PHENOMENA** of **SENSATION**, as connected with the **Mental**, **Physical**, and **Instinctive Faculties** of **Man**. By **JAMES JOHNSTONE, M.D.**, Physician to the General Hospital, Birmingham. 8vo., cloth, price 8s.

"This volume contains a good *resumé* of the labours of different physiologists; it exhibits careful and extensive reading, and a just and candid appreciation of the labours of other men. The student of the nervous system will derive benefit from the perusal of this work, which is very creditable to its author."—*Dublin Journal of Medical Science*.

BILLARD'S TREATISE on the **DISEASES** of **INFANTS**. Translated from the Third French Edition, with Notes, by **JAMES STEWART, M.D.** 8vo. cloth, price 14s.

"This translation of Dr. Billard's work will supply a want felt to exist in our medical literature. The author has enjoyed opportunities of pursuing pathological investigations to an almost unlimited extent, and, as the result, he has presented to the world a book remarkable for the variety and importance of the facts it contains. Of the manner in which Dr. Stewart has executed his task, we can speak in the highest terms."—*Dr. Johnson's Review*.

"M. Billard held a very important station at the Hôpital des Enfants, and there he laboured with, almost unrivalled industry and talent to shed new light upon the general pathology and treatment of infantile diseases. The work is decidedly a very valuable contribution to our knowledge. The translator has performed his task in a very correct and creditable manner, and his Appendix forms a very important addition."—*British and Foreign Medical Review*.

A PRACTICAL FORMULARY of **HOSPITALS**, **British** and **Foreign**. By **MICHAEL RYAN, M.D.**, Member of the Royal College of Physicians. Third Edition, considerably enlarged, price 5s. 6d.

"This work is a conspectus of the best prescriptions of the most celebrated physicians and surgeons throughout the civilized world. It is a modern universal Pharmacopœia, and contains a vast number of new remedies, the doses and uses being all given. It includes every medicine described in the British Pharmacopœias, and in the Formulary of M. Magendie: to which are added, rules for prescribing, the explanations of the actions of medicines on the economy, the various modes of administering them, and the principles on which they are compounded."

New Works published by Mr. Churchill.

ON the NATURE and TREATMENT of STOMACH and URINARY DISEASES; being an Inquiry into the Connexion of Diabetes, Calculus, and other Affections of the Kidney and Bladder, with Indigestion. By WILLIAM PROUT, M.D., F.R.S. Third Edition, with Six Engravings, 8vo., cloth 20s.

"Those who have been benefited by the labours and researches of Dr. Prout will be delighted to see the announcement of the third edition, so much enlarged as to be almost a new work This table of contents will show the great extent of our author's inquiries, and we need hardly assure our readers that the subjects are treated with consummate ability."—*Dublin Journal of Medical Science*.

"Many of the doctrines contained in this work will certainly be embodied in the practice of English medical men during the next half century. We would gladly extend our analysis, did our limits permit, but that we believe we have enabled the reader to comprehend the philosophical plan on which the work is constructed, and the length to which we have already gone will show our sense of its value."—*Medical Gazette*.

THE PRESCRIBER'S PHARMACOPŒIA; containing all the Medicines in the London Pharmacopœia, arranged in Classes, according to their Action with their Composition and Doses. By a PRACTISING PHYSICIAN. 32mo. cloth, price 2s. 6d.

PRACTICAL or OPERATIVE SURGERY; illustrated with 150 Engravings on Wood. By ROBERT LISTON, Esq., Surgeon to the North London Hospital. This Work contains ample information on Injuries and Diseases of Joints and Bones—On Tumors—On Affections of the Gullet and Windpipe—On Diseases of the Genito-Urinary Organs and Rectum, Stone, Stricture, Fistula, &c.—On hernia, Congenital Deformities and Deficiencies, &c. Third Edition, 8vo., cloth, price 22s.

THE PATHOLOGY and DIAGNOSIS of DISEASES of the CHEST; illustrated chiefly by a Rational Exposition of their Physical Signs. By CHARLES J. B. WILLIAMS, M.D., F.R.S., Professor of the Practice of Medicine, University College, London. Fourth Edition, with much important new matter, Plates, 8vo., cloth, 10s. 6d.

"The fact that a Fourth Edition is called for is a very good argument in favour of any book. But this was not necessary in the case of Dr. Williams; it was well known to the profession as one of the best manuals of diseases of the chest we possess."—*Dublin Medical Journal*.

"Evidently written by a man thoroughly acquainted with his subject."—*Lancet*.

"We strongly recommend this work to the attention of auscultators."—*Med. Chir. Review*.

"By far the most important addition to our literature on this subject," &c.—*See Dr. Forbes's Preface to Trans. of Laennec*.

"Laennec, Andral, and Williams, the best writers on auscultation."—*Dr. Copeland's Dict.*

PRINCIPLES of GENERAL and COMPARATIVE PHYSIOLOGY, intended as an Introduction to the Study of Human Physiology, and as a Guide to the Philosophical Pursuit of Natural History. By W. B. CARPENTER, M.D., Lecturer on Physiology to the Bristol Medical School. The Second Edition, considerably enlarged, with numerous Figures on Steel and Wood, 8vo., cloth, 18s.

"The high character of the first edition of this work was universally acknowledged by all the professional critics of this country; it was warmly eulogised by other physiological writers, and was quoted as a safe and very useful guide for students by physiological lecturers of established judgment. The present edition offers still stronger claims to favourable notice than its predecessor, for it brings us quite up to the physiological knowledge of the day, by many important additions. Without, indeed, any exaggerated compliment to Dr. Carpenter, we must say that we know of no author of modern date who excels him in clearness of description, and a general happiness of style."—*Medical Gazette*, Oct. 22, 1841.

ELEMENTS of NATURAL PHILOSOPHY; being an Experimental Introduction to the Study of the Physical Sciences. By GOLDING BIRD, M.D. F.L.S. F.G.S., Lecturer on Natural Philosophy at Guy's Hospital. Illustrated with Two Hundred and Thirty Woodcuts, 8vo. cloth, 12s.

"By the appearance of Dr. Bird's work, the student has now all that he can desire in one neat, concise, and well-digested volume. The elements of natural philosophy are explained in very simple language, and illustrated by numerous woodcuts."—*Medical Gazette*.

"This work teaches us the elements of the entire circle of natural philosophy in the clearest and most perspicuous manner. Light, magnetism, dynamics, meteorology, electricity, &c., are set before us in such simple forms, and so forcible a way, that we cannot help understanding their laws, their operation, and the remarkable phenomena by which they are accomplished or signified. As a volume of useful and beautiful instruction for the young, and as a work of general value to both sexes, we cordially recommend it."—*Literary Gazette*.
