

LIST OF BOOKS

PUBLISHED BY

HENRY RENSHAW, 356, STRAND, LONDON.

I.

Foolscap 8vo, cloth, lettered, price 10s 6d,

A MANUAL of GENERAL THERAPEUTICS, with Rules for Prescribing, and a copious Collection of Formulae. By D. SPILLAN, M.D., A.M.

“The manner in which Dr. Spillan has executed his arduous task, reflects high credit both on his industry and judgment. We can safely recommend his work as one calculated to be of great value, not only to the student, but to the practitioner.”—*Dublin Medical Press*.

“This will prove a great favourite with the active practitioner, who has not time to wade through elaborate works on therapeutics. It is an excellent compilation, some portions of which we shall notice in our next number.”—*Johnson's Journal*.

“It is a valuable boon, both to the practitioner and student; and contains ample stores of valuable information. We strongly recommend for the perusal of our readers, the admirable chapter on the modus operandi of medicines contained in Dr. Spillan's work.”—*Dublin Medical Journal*.

II.

M A Y O ' S P H Y S I O L O G Y.

8vo, boards, price 18s,

OUTLINES of HUMAN PHYSIOLOGY. By HERBERT MAYO, F.R.S., Senior Surgeon to the Middlesex Hospital. Fourth Edition, considerably enlarged, and illustrated, by very numerous Wood Engravings.

“The information contained in the present volume is at the same time so complete, so much condensed and so clearly arranged, that we conceive it ought to be in the hands of every student of physiology, and of every one who wishes to obtain a just view of the structure of the human frame, the uses of its various organs, and the nature of animal bodies generally.”—*Edinburgh Medical Journal*.

III.

M A Y O ' S P A T H O L O G Y.

8vo, cloth, price 18s,

OUTLINES of HUMAN PATHOLOGY; containing the Morbid Affections of the Bones, Joints, Muscles, Nerves, Spinal Cord, Brain, Integuments, Digestive Organs, Blood Vessels, Heart, Lungs, and Urino-genital System. By HERBERT MAYO, F.R.S., &c. &c.

“In barely more than a page we find nearly all that is certainly known of the pathology of dropsy. * * * * We cannot afford space for noticing the diseases of the joints, the discussion of which, as of other subjects of surgical pathology, the author displays more than usual ability.”—*Forbes's Review*.

IV.

M A Y O O N S I P H I L I S.

8vo, cloth, price 5s 6d,

A TREATISE on SYPHILIS. By HERBERT MAYO, F. R. S., Senior Surgeon to the Middlesex Hospital.

V.

B U R N E T T ' S B O T A N Y.

8vo, cloth, price 21s,

OUTLINES of BOTANY, including a General History of the Vegetable Kingdom, in which Plants are arranged according to the system of Natural Affinities. By the late GILBERT T. BURNETT, F.L.S., Professor of Botany at King's College, London.

VI.

L I S T O N ' S O P E R A T I V E S U R G E R Y.

8vo, cloth, price £1 2s,

PRACTICAL SURGERY; with 150 Engravings on Wood. By ROBERT LISTON. Third Edition, much enlarged.

* * * The aim throughout has been to produce a work which should be useful to the Students of Surgery and young Practitioners, exhibiting a plain, common sense view of the most important injuries and diseases which are met with in practice, unencumbered by speculations or theories, and accompanied by simple directions how to conduct the treatment.

MR. RENSHAW'S WORKS CONTINUED.

VII.

SCHILL'S SEMEIOLOGY.

Foolscap 8vo, cloth, price 7s 6d,

The SIGNS of DISEASE deduced from the SYMPTOMS, and explained by reference to Pathological Anatomy. Translated from the German of Professor SCHILL, with copious Notes by D. SPILLAN, M.D., A.M.

VIII.

SPILLAN'S TRANSLATION OF ANDRAL.

In 1 Vol. 8vo, price 25s, cloth,

The CLINIQUE MEDICALE; OR, REPORTS OF MEDICAL CASES.

By G. ANDRAL. Translated, with copious Notes, by D. SPILLAN, M.D.

"We earnestly recommend all our young friends who wish to know what is most excellent in the modern pathology of France to lose no time in adding this translation to their stock of medical authorities."—*Forbes's Review*, No. 1.

"The present translation of Andral's valuable volumes is likely to prove useful to practitioners in this country. We recommend Dr. Spillan's translation to the attention of our readers."—*Johnson's Journal*, No. 49.

IX.

DR. GREGORY'S PRACTICE OF PHYSIC.

8vo, cloth, price 16s,

ELEMENTS of the THEORY and PRACTICE of MEDICINE; designed for the use of Students and Junior Practitioners. By GEORGE GREGORY, M.D., Fellow of the Royal College of Physicians. Fifth Edition, considerably enlarged and improved.

FROM PREFACE.

"The object of the author, in the following pages, is to lay before the student an outline of the theory and practice of medicine, unbiassed by attachment to any professed principle, and to delineate those views of pathology which appear to direct the reasonings, and to give a tone to the language, of medical writers at the present period.

The demand for a fifth edition has afforded the author an opportunity of making some alterations in the work, which he hopes will give it additional value. The several diseases of the human body have been thrown into a new arrangement. The distinction between acute and chronic diseases has been abandoned, and a classification has been adopted better suited to the existing state of medical science. The *formulae medicamentorum* scattered throughout the work have received some additions, and have everywhere been adapted to the nomenclature of the new London Pharmacopœia. Five new chapters have been added—namely, on Cachexia, Hypochondriasis, Cynanche Cellularis, Otitis, and Furuncular Inflammation. The results of the author's more recent experience have been incorporated into the text, and such other information introduced as appeared calculated for elementary instruction."

X.

NEW WORK ON MIDWIFERY,

Illustrated by upwards of 100 fine Wood Engravings. In Foolscap 8vo, cloth extra, price 12s 6d,

The THEORY and PRACTICE of MIDWIFERY. By FLEETWOOD CHURCHILL, M.D.

This Treatise includes the most recent observations on the Anatomy and Physiology of the Organs of Generation, Menstruation, Conception, Ovology, Utero-gestation, Signs of Pregnancy, Duration of Pregnancy, Gestation, Sterility, Super Fœtation, Extra Uterine Fœtation, Fœtal Pathology, Abortion, and on Parturition, with its Abnormal Variations; illustrated by extensive Statistics, and by upwards of One Hundred highly-finished Wood Engravings by BAGG.

"It is impossible to conceive a more useful or elegant manual than Dr. Churchill's Practice of Midwifery; the letter-press contains all that the practical man can desire; the illustrations are numerous, well chosen, and of the most elegant description, and the work has been brought out at a moderate price, which brings it within the reach of every practitioner in the kingdom."—*Provincial Medical Journal*.

"This Treatise on Midwifery, which also contains some well arranged observations on child-bed diseases, has afforded us a great deal of pleasure in its perusal. Its appearance will be hailed by the student as a boon of considerable value, as it is calculated to shorten to him the path to knowledge, which will be permanently useful in its character; and to the practitioner, whose avocations leave him but little time to study, this manual will be of no less service, as it lays before him, as it were at a glance, the most recent views and the most modern improvements in his art."—*Dublin Medical Journal*.

XI.

Foolscap 8vo, cloth, lettered, price 10s,

Dr. HOOPER'S PHYSICIAN'S VADE MECUM. New Edition, entirely re-written, enlarged, and greatly improved. By W. A. GUY, M.B., Physician to King's College Hospital.

"Dr. Guy has added many original articles, and has so altered and improved the others, that the work may now be considered a very excellent epitome of the present state of medicine."—*Dublin Medical Journal*.

"We can confidently recommend it to the attention of the student and junior practitioner as the best epitome of the kind in the English language"—*Provincial Medical Journal*.

MR. RENSHAW'S WORKS CONTINUED.

XII.

In Foolscap 8vo, price 10s 6d, cloth, lettered,

The SURGEON'S VADE MECUM. By ROBERT DRUITT. Second Edition. Illustrated with 50 Wood Engravings.

"An admirable guide to the student in surgery; the author has introduced a large proportion of sound scientific information on surgical pathology."—*Edinburgh Medical Journal*.

"This work merits our warmest commendations, and we strongly recommend it to young surgeons as an admirable digest of the principles and practice of modern surgery."—*Medical Gazette*.

XIII.

MAUNSELL AND EVANSON ON DISEASES OF CHILDREN.

8vo, cloth, price 12s 6d,

PRACTICAL TREATISE on the MANAGEMENT and DISEASES of CHILDREN. By RICHARD T. EVANSON, M.D., and H. MAUNSELL, M.D. Fourth Edition, greatly improved and enlarged.

"Their book bears intrinsic evidence of the fruits of careful observation; it is judiciously and carefully drawn up, and exhibit the joint production of the fellow labourers in a very attractive light."—*Medical Gazette*.

XIV.

8vo, cloth, price 14s,

The ANATOMY of SUICIDE. By FORBES WINSLOW, M.R.C.S.

"The whole is arranged with great care and precision; the subject is treated in all its bearings and ramifications, and nothing appears left undone that can in any way illustrate or exemplify the crime; altogether the book is highly valuable."—*Times*.

XV.

ACTON ON VENEREAL DISEASES.

Illustrated by a Quarto Atlas of Coloured Plates, 8vo, cloth, price £1 11s 6d,

A COMPLETE PRACTICAL TREATISE on VENEREAL DISEASES, and their Immediate and Remote Consequences; including Observations on certain Affections of the Uterus, attended with Discharges. By WILLIAM ACTON, late Externe of the Female Venereal Hospital, Paris.

"We recommend this work to the attention of our readers as deserving of perusal."—*Lancet*.

"The author deserves credit for the manner in which he has executed his task."—*Johnson's Journal*.
