

LIST OF BOOKS

PUBLISHED BY

HENRY RENSHAW, 356, STRAND, LONDON.

I.

MEADE'S MANUAL FOR APOTHECARIES' HALL AND OTHER MEDICAL INSTITUTIONS.
12mo, cloth, price 10s 6d,

A MANUAL for STUDENTS who are PREPARING for EXAMINATION at APOTHECARIES' HALL or other MEDICAL INSTITUTIONS; comprising a complete Epitome of the Knowledge which is usually required from the Student at a Medical Examination. By WILLIAM MEADE, M.R.C.S.

"It is by far the best Manual which the student can consult; and, from the extent of information contained in it, is calculated for any medical examination in the kingdom."—*Lancet*.

II.

LAENNEC ON THE CHEST.

8vo, bds, price 18s,

A TREATISE on DISEASES of the CHEST, and on MEDIATE AUSCULTATION. By R. T. H. LAENNEC, M.D. Translated from the latest French Edition, with Notes, and a Sketch of the Author's Life, by JOHN FORBES, M.D. The Fourth Edition, illustrated by Plates.

III.

SPILLAN'S PHARMACOPŒIA.

18mo, cloth, price 6s,

A TRANSLATION of the PHARMACOPŒIA LONDINENSIS; with a Commentary, Chemical, Pharmaceutical, and Medicinal. By D. SPILLAN, M.D.

IV.

BURNETT'S BOTANY.

8vo, cloth, price 21s,

OUTLINES of BOTANY, including a General History of the Vegetable Kingdom, in which Plants are arranged according to the system of Natural Affinities. By the late GILBERT T. BURNETT, F.L.S., Professor of Botany at King's College, London,

V.

MAYO'S PATHOLOGY.

8vo, cloth, price 18s,

OUTLINES of HUMAN PATHOLOGY; containing the Morbid Affections of the Bones, Joints, Muscles, Nerves, Spinal Cord, Brain, Integuments, Digestive Organs, Blood Vessels, Heart, Lungs, and Urino-genital System. By HERBERT MAYO, F.R.S., &c. &c.

"In barely more than a page we find nearly all that is certainly known of the pathology of dropsy. * * * * We cannot afford space for noticing the diseases of the joints, the discussion of which, as of other subjects of surgical pathology, the author displays more than usual ability."—*Forbes's Review*.

BRAITHWAITE'S RETROSPECT.—

Just Published, price 5s 6d, neatly bound in cloth, the Fifth Volume of this Journal, giving a careful Analysis of all the Practical Matter of the fourteen British, besides many of the French, German, and American Medical Journals, during the last six months. Edited by W. BRAITHWAITE, Surgeon to the Leeds General Eye and Ear Infirmary, and Lecturer on Midwifery and the Diseases of Women and Children in the Leeds School of Medicine.

The Third Edition of Vol. I. is now ready, price 4s 6d.

London: Simpkin, Marshall, and Co. Edinburgh: Oliver and Boyd. Dublin: Hodges and Smith. Leeds: G. Cullingworth.

This half-yearly volume enables the busy practitioner to keep up his periodical reading at the least possible expense, and with but little loss of time. In the same time, everything that can be really useful has been collected from at least 100 medical journals.

PROVINCIAL MEDICAL JOURNAL.

—Nos. 1 to 27 are quite out of print, and of 28 to the present time but few remain; therefore, Subscribers, having incomplete Sets, are requested to make immediate application through their respective Booksellers.

WALTERS' HYDRO-PNEUMATIC ENEMA SYRINGE.

THIS newly-invented Instrument is very much superior to any at present in use, on account of its simplicity, its great portability, and its durability. It is in itself reservoir and syringe, less than half the size of any others that hold the same quantity of fluid, and gives a continuous jet of any force required, and free from air. It has been shown to several of the most eminent Surgeons and Physicians in London, and has met with their unqualified approbation. They will be forwarded into the Country, on receipt of a Post-office Order for a Guinea and a Half. Manufactured only by the Inventor, J. Walters, Anatomical Machinist, &c., 16, Moorgate-street, London, whose name and address is stamped upon them.

MAUNSELL AND EVANSON ON DISEASES OF CHILDREN.

8vo, cloth, price 12s 6d,

PRACTICAL TREATISE ON THE MANAGEMENT AND DISEASES of CHILDREN. By RICHARD T. EVANSON, M.D., Professor of Medicine in the Royal College of Surgeons in Ireland, and H. MAUNSELL, M.D., Professor of Midwifery in the Royal College of Surgeons in Ireland. Fourth Edition, revised, improved, and considerably enlarged.

"Their book bears intrinsic evidence of the fruits of careful observation; it is judiciously and carefully drawn up, and exhibits the joint production of the fellow labourers in a very attractive light."—*Medical Gazette*.

"The second chapter embraces the management and physical education of children. This chapter ought to be printed in gold letters, and hung up in the nursery of every family; it would save many lives, and prevent much suffering."—*Med. Chir. Review*.

Dublin: Fannin and Co., 41, Grafton-street. London: Henry Renshaw, 356, Strand. Edinburgh: MacLachlan, Stewart, and Co.

BY COMMAND.

STEEL PEN MAKER to the QUEEN.—Precept dated April 13, 1840.

JOSEPH GILLOTT, PATENT STEEL PEN MANUFACTURER, Victoria Works, Graham-street, Birmingham, and at 37, Gracechurch-street, London, has been for twenty years engaged in the manufacture of Steel Pens, and during that time has devoted his unceasing attention to the improving and perfecting this useful and necessary article; the result of his persevering efforts, and numerous experiments upon the properties of the metal used, has been the construction of a Pen upon a principle entirely new, combining all the advantages of the elasticity and fineness of the quill, with the durability of the metallic pen, and thus obviating the objections which have existed against the use of Steel Pens.

The Patentee is proud to acknowledge that a discerning public has paid the most gratifying tribute to his humble, though useful, labours, by a demand for his Pens far exceeding his highest expectations.

The number of Pens manufactured at the works of JOSEPH GILLOTT, from Oct. 1838, to Oct. 1839,

Was 44,654,702,

or 3,721,225 doz. and 2-12ths,

or 310,102 gross 1 doz. and 2-12ths;

And from Dec. 1840, to Dec. 1841,

Was 62,126,928,

or 5,177,244 dozens,

or 431,437 gross.

CAUTION.—J. G. regrets to say, certain disreputable Makers have tried to impose upon the Public a spurious article, bearing the misspelled name of the Patentee and sole manufacturer, thus, "GILLOT," by omitting the L; and in some instances the final r is omitted, thus, "GILLLOT," so as to retain the sound; but the Public will please observe, all the genuine Pens are marked in full "JOSEPH GILLOTT;" and Venders are desired to note that his Cards of Pens are made up in Packets of one dozen each, and have a label outside with a fac-simile of his signature.

At the request of persons engaged in tuition, J. G. has introduced his Warranted School Pens, which are especially adapted to their use, being of different degrees of flexibility, and with fine, medium, and broad points, suitable for the various kinds of writing taught in Schools.

Sold Retail by all Stationers, Booksellers, and other respectable dealers in Steel Pens. Merchants and Wholesale Dealers can be supplied at the Works, Graham-street, Birmingham.

LONDON, EDINBURGH, and DUBLIN LIFE ASSURANCE COMPANY, 3, Charlotte-row, Mansion-house, and 55, Chancery-lane, London.

Trustees:

KENNETT KINGSFORD, Esq., BENJAMIN IFILL, Esq., JAMES BIDDEN, Esq.

The important improvements introduced by this Company, one of which is the proper remuneration of Medical Gentlemen, which render Assurances more generally useful as Family Provisions and as Securities, and their advantages certain, are explained in the Prospectuses of the Company, which are forwarded to applicants free of expense.

ALEX. ROBERTSON, Manager.

PROVINCIAL MEDICAL AND SURGICAL ASSOCIATION.

THE Members and Friends of the above Association are informed that the Tenth Anniversary Meeting will be held at Exeter, on Wednesday and Thursday, the 3rd and 4th days of August next, when the attendance of all those interested in the objects of the Society is requested. President, Dr. GOLDIE, York; President-Elect, J. H. JAMES, Esq., Exeter.

The Retrospective Address will be delivered by JAMES BLACK, M.D., of Manchester.

The Address in Surgery, by W. SANDS COX, Esq., Birmingham.

CHARLES HASTINGS, M.D.,
J. P. SHEPPARD, Surgeon,
Secretaries to the Association.

*** Members residing at a distance are informed that trains now leave Bristol each day for Taunton (thirty miles from Exeter), in the morning at nine, at 50 minutes after ten, at 40 minutes after twelve o'clock; and in the afternoon at 40 minutes after two, at four, at five, and at seven o'clock.

EDUCATION AT TORQUAY,
(Under sanction of the Diocesan Board).

LIEUT. J. A. WALKER, formerly of the Royal Military College, with the aid of competent Masters, superintends the Education of a very limited number of Pupils, requiring more than ordinary care, from Pulmonary Affections, or tendencies to Disease of the Nervous System, &c., and will have one or two Vacancies between the present holidays and the winter season. His residence, quite detached, and well sheltered from the north and east winds, is delightfully situated close to the sea-side, a few minutes walk from the town.

References to Gentlemen of the Medical Profession and Parents, Testimonials, &c., of the highest respectability, with all requisite details, will be afforded on application.

Terms—French and Washing inclusive—from 70 to 90 Guineas per Annum, according to age and state of health, and 5 Guineas entrance.

OULTON RETREAT, near Stone, Staffordshire, conducted by SAMUEL G. BAKEWELL, M.D. (formerly of Spring Vale, near Stone).

Oulton Retreat is a delightful residence, and well adapted for the accommodation and recovery of the unfortunate subjects of mental derangement. The house is a handsome building, occupying a warm and sheltered situation, and commanding extensive and varied views of a beautiful country. The apartments are spacious, airy, and conveniently arranged. Gardens, pleasure-grounds, and a lawn of considerable extent, afford ample means of exercise and recreation; the neighbourhood also is pleasant and retired, affording the inmates many agreeable walks beyond the limits of their own grounds.

The system of treatment practised by the late Mr. Bakewell, at Spring Vale, for the period of twenty-five years, and since his decease in 1835, by his son, Dr. Bakewell, has been attended with the most gratifying success. Nine out of ten of the recent cases have recovered; and of those more confirmed, a considerable number have been restored, and others materially benefited.

Dr. Bakewell resides in the Establishment, and devotes his whole time to the superintendence and society of his patients, who are, as far as possible, treated as members of the family. The ladies are under the immediate care of Mrs. Bakewell, the widow of the late proprietor. The terms of board, &c., will be found moderate.

TO OLD ESTABLISHED SURGEONS, &c.

A YOUNG MEDICAL PRACTITIONER, of steady, active habits, and much practical experience, who graduated at the University as M.D., and is a Member of the Royal College of Surgeons and Apothecaries' Hall, London, having been in business by himself for the last three years, is desirous of PURCHASING a PARTNERSHIP in a respectable and old-established Family Practice, where a certain probationary period will be allowed him for the investigation of the business, and to satisfy the Gentleman he may join that he is capable, by his professional abilities, of extending and improving the business.

Numerous references, both as to respectability of character and surgical talents, will be given. Address, M.D., care of Mr. Renshaw, Publisher, 356, Strand.

DIPLOMA in MEDICINE or ARTS.—Gentlemen desirous of Graduating may, through the assistance of the Advertiser, obtain their Degrees from a celebrated Continental University. Assistance is also given in Preparing Works for the Press.

Address, post paid, enclosing a stamp, and stating qualifications, to M. D., Messrs. Nock's, Booksellers, 15, Tottenham-court, New-road.

MEDICAL PRACTICE FOR DISPOSAL.—It is situated in a pleasant village in Worcestershire, and would afford an excellent opportunity for an active and well-qualified man to commence business. The Connection is respectable, and capable of much extension. The sum of £350 will include Six Months' Introduction, the House, Furniture, and the contents of the Surgery.

Apply to Mr. LANE, Medical Agent, 13, John-street, Adelphi, personally, between Twelve and Four, or by letter, prepaid.

VEGETABLE JELLY.

PREVIT'S PREPARED ROYAL CEYLON MOSS.—The valuable properties of this gelatinous and highly nutritive plant stand now unrivalled, both as a luxury for the table, and as one of the best and mildest aliments for weak constitutions ever discovered, being considered by the faculty highly nutritious, easy of digestion, and possessing superior tonic qualities. According to the analysis by Professor Dr. W. B. O'SHAUGHNESSY, of Calcutta, and R. BATTLE, Esq., of London, every 100 grains of this fucus contain 63 parts of nutritive jelly, and 3 parts of iron; the latter ingredient is acknowledged by the learned profession to be one of the most invigorating chalybeates with which they are acquainted, consequently it has now become an article of great importance in the sick chamber, for it is daily recommended as the principal diet for invalids, especially for ladies in delicate health, young infants, and children, in preference to all kinds of animal food, or any other vegetable substance.

Sold by Messrs. Savory and Moore, of New Bond-street and Regent-street, the sole wholesale Agents; and may also be had of all the most respectable chemists and medicine venders throughout the kingdom, in packets, at 1s, 2s, and 4s each.

See Dr. Sigmond's Treatise on Ceylon Moss Second Edition, just published, with the Analysis, and numerous testimonials from the medical profession, who have most liberally certified the many beneficial effects invalids will derive from the use of the prepared Ceylon Moss. To be had of HENRY RENSHAW, 356, Strand, and by all Booksellers, price 2s 6d.
