NEW WORK ON MIDWIFERY,

Illustrated by upwards of 100 fine Wood Engravings. In Foolscape 8vo, cloth extra, price 12s 6d,  
**The THEORY and PRACTICE of MIDWIFERY. By FLEETWOOD**  
**CHURCHILL, M.D.**

This Treatise includes the most recent observations on the Anatomy and Physiology of the Organs of Generation, Menstruation, Conception, Ovology, Utero-gestation, Signs of Pregnancy, Duration of Pregnancy, Gestation, Sterility, Super Foetation, Extra Uterine Foetation, Foetal Pathology, Abortion, and on Parturition, with its Abnormal Variations; illustrated by extensive Statistics, and by upwards of One Hundred highly-finished Wood Engravings by BAGG.

II.

Foolscape 8vo, cloth, lettered, price 10s,

**Dr. HOOPER'S PHYSICIAN'S VADE MECUM.** New Edition, entirely re-written, enlarged, and greatly improved. By W. A. GUY, M.B., Physician to King's College Hospital.

III.

In Foolscape 8vo, price 10s 6d, cloth, lettered,

**The SURGEON'S VADE MECUM. By ROBERT DRUITT.** Second Edition. Illustrated with 50 Wood Engravings.

"If we know anything of the wants and tastes of students, this Vade Mecum will take. It gives them what they need, concise descriptions and accurate directions. Such a book was a desideratum; and, if we are not mistaken, Mr. Druitt has made a hit."—*Johnson's Journal*.

"The author shows himself well acquainted with the most approved views both of pathology and practice, and the general arrangement of the subjects; and the style in which the information is conveyed is particularly good. \* \* \* \* The work is very creditable to the author, and we recommend it to the advanced pupil and to the young surgeon as a useful index to the great book of surgical knowledge."—*Forbes's Review*.

"It is an excellent epitome of surgery, and may be consulted with advantage by all ranks of the profession."—*Provincial Medical Journal*.

"This work merits our warmest commendations, and we strongly recommend it to surgeons as an admirable digest of the principles and practice of modern surgery."—*Medical Gazette*.

"The Surgeon's Vade Mecum is an exceedingly valuable companion to the student or to the practitioner, it contains a store of valuable information upon an important branch of medicine."—*Lancet*.

"An admirable guide to the student in surgery; the author has introduced a large proportion of sound scientific information on surgical pathology."—*Edinburgh Medical Journal*.

IV.

SPILLAN'S TRANSLATION OF ANDRAL.

In 1 Vol. 8vo, price 25s, cloth,

**The CLINIQUE MEDICALE; OR, REPORTS OF MEDICAL CASES.**  
By G. ANDRAL. Translated, with copious Notes, by D. SPILLAN, M.D.

"We earnestly recommend all our young friends who wish to know what is most excellent in the modern pathology of France to lose no time in adding this translation to their stock of medical authorities."—*Forbes's Review*, No. 1.

"The present translation of Andral's valuable volumes is likely to prove useful to practitioners in this country. We recommend Dr. Spillan's translation to the attention of our readers."—*Johnson's Journal*, No. 49.

V.

ACTON ON VENEREAL DISEASES.

Illustrated by a Quarto Atlas of Coloured Plates, 8vo, cloth, price £1 11s 6d,

**A COMPLETE PRACTICAL TREATISE on VENEREAL DISEASES,** and their Immediate and Remote Consequences; including Observations on certain Affections of the Uterus, attended with Discharges. By WILLIAM ACTON, late Externe of the Female Venereal Hospital, Paris.

"\* \* The Letter-press, illustrated with Woodcuts by BAGG, forms a closely-printed Volume of 450 pages. No expense has been spared in the execution of the Coloured Plates. The Original Drawings were made expressly for this work, with the sanction of M. RICORD, by first-rate Artists, from the most remarkable cases observed in that professor's Clinique during the years 1836—1840.

"We recommend this work to the attention of our readers as deserving of perusal."—*Lancet*.

"The work abounds with practical views, which are novel to the English reader; and the various subjects are treated in a very methodical and complete manner."—*Provincial Medical Journal*.

"It presents a better idea of the pathology of this class of diseases than any other we have met with."—*Medical Gazette*.

"The author deserves credit for the manner in which he has executed his task."—*Johnson's Journal*.

CHANCERY.

MURRAY & ANOTHER

v.

TAGART.

Druggist, of Cheltenham, from vending a spurious liquid, which he, the said Tagart, sold as, and for "Sir James Murray's Fluid Magnesia," and bearing his (Sir James Murray's) name on the labels. This fabrication Tagart carried on for nearly two years, and substituted his imitation for the genuine, to the public, and for dispensing the prescriptions of Physicians and Surgeons. This conduct furnished other imitators with a spurious compound, which was sent to Bath, and elsewhere, in Sir James Murray's old bottles, and bearing his labels, so that the frititious liquid, purporting to be that of Sir James Murray, was imposed upon Chemists to be analysed, and the result of such analysis is published under pretext of being that of the Original Fluid Magnesia of Sir James Murray, as introduced by him into practice in 1808, before the present pirates were in existence.

In order to fill the genuine bottles with his pure preparation, Sir James Murray has removed to Wolverhampton those extensive engines so highly approved of by the Professors of Chemistry and the heads of the Medical Profession in Dublin. In future his genuine FLUID MAGNESIA will be prepared at WOLVERHAMPTON, under the superintendance of the proprietor and inventor himself, of that proportion of strength which is conformable to the laws of chemical equivalents, and which has been proved in Hospital and private practice, during the last thirty years, to be the best adapted for the human stomach, and the most suitable for the treatment of females and children.

His professional brethren and the public may rely upon the same scrupulous care to secure for the sick and infirm those numerous advantages which were first experienced so many years since in the distinguished practice of that eminent physician, the present Dr. Mc Donnel, of Belfast—advantages which were also publicly recorded by H. R. H. the late Duke of York, after the success which followed the use of this invaluable remedy, when recommended to his Royal Highness by his friend, the present Noble Marquis of Donegal.

In order to protect the profession and the public from being further imposed on, Mr. Bailey, of Wolverhampton, the commercial consignee, and one of the plaintiffs in this matter, begs to notify, that the said defendant, Tagart, is no longer his agent for Cheltenham or elsewhere, and the legal proceedings are now in progress to punish such breach of trust, and to recover compensation for the damage done by circulating such spurious and wretched imitations. To obviate such unprincipled substitutions, purchasers are requested to order from the venders, only such bottles as are wrapped up with the seal (Sir James Murray's crest, motto, and name engraved thereon), unbroken—regardless of any selfish interference of some few agents who recommend noxious preparations, merely for the sake of extra large profits and allowances!!!

Sir James Murray's Pure Fluid Magnesia, as prepared at Wolverhampton, was this month analysed, and approved of, by Professor Daniel, of King's College, London.

Sold in bottles, 1s, 2s 6d, 3s 6d, 5s 6d, 11s, and 21s each, for families, ships, hospitals, and also for economy in dispensing. The Acidulated Syrup (in bottles), 2s each, by Messrs. Hannay and Dietrichsen, 63, Oxford-street, London, and by all respectable Medicine Venders.

March, 1842.

An injunction was granted on the 3rd of March, 1842, by the Honourable Court of Chancery in England, to restrain John Davis Tagart, Chemist and

In 8vo, cloth, lettered, price 12s,  
**A TREATISE** on the **VENEREAL**  
DISEASE and its VARIETIES. New Edition,  
with Plates. By WILLIAM WALLACE, M.R.I.A.  
"The practical surgeon may study this volume with  
much advantage."—*Forbes's Review.*

**NEW APPARATUS AND BANDAGE**.—WEISS and SON beg to recommend Dr. HULL'S ABDOMINAL SUPPORTER for Prolapsus Uteri, which, after four years' experience, has been universally approved of, and found to supersede every form of pessary. It is applied externally, and affords immediate relief, enabling those previously confined to a recumbent position to walk about with ease and comfort, while in many instances a cure has been effected.

For the convenience of Ladies, WEISS and SON have a private establishment, at No. 9, King William-street, Strand, where the Supporters, and every other description of Surgical Apparatus and Bandages, Syringes, &c., may be obtained. It is conducted by Mrs. SELTZER, who has had long experience in their business, and who will attend Ladies at their own houses, where required.

Supporters and Pamphlets may be had at their house, 62, Strand, and of Mr. Higham, 48, Jermyn-street.

DUVAL'S APPARATUS, as used at Guy's Hospital, is exceedingly portable and convenient for hospital use or private practice, for the local application of steam, for steam or hot-air bath, and for a sulphur or medicated vapour bath: it has been extensively used in Paris, and a translation of the report of the Royal Medical Academy, with plates and descriptions, may be had upon application.

AGENTS for the sale of the above, and for Weiss's Instruments, on the same terms as in London:—Dublin: Fannin and Co. Cork: Edwards Casey. Edinburgh: William Pugh. Aberdeen: Charles Davidson. Manchester: L. Simpson. Birmingham: T. Flewitt.

VEGETABLE JELLY.

**PREVITE'S PREPARED ROYAL**

CEYLON MOSS.—The valuable properties of this gelatinous and highly nutritive plant stand now unrivalled, both as a luxury for the table, and as one of the best and mildest aliments for weak constitutions ever discovered, being considered by the faculty highly nutritious, easy of digestion, and possessing superior tonic qualities. According to the analysis by Professor Dr. W. B. O'SHAUGHNESSY, of Calcutta, and R. BATTLEY, Esq., of London, every 100 grains of this fucus contain 63 parts of nutritive jelly, and 3 parts of iron; the latter ingredient is acknowledged by the learned profession to be one of the most invigorating chalybeates with which they are acquainted, consequently it has now become an article of great importance in the sick chamber, for it is daily recommended as the principal diet for invalids, especially for ladies in delicate health, young infants, and children, in preference to all kinds of animal food, or any other vegetable substance.

Sold by Messrs. Savory and Moore, of New Bond-street and Regent-street, the sole wholesale Agents; and may also be had of all the most respectable chemists and medicine venders throughout the kingdom, in packets, at 1s, 2s, and 4s each.

See Dr. Sigmund's Treatise on Ceylon Moss, Second Edition, just published, with the Analysis, and numerous testimonial from the medical profession, who have most liberally certified the many beneficial effects invalids will derive from the use of the prepared Ceylon Moss. To be had of HENRY RENSHAW, 356, Strand, and by all Booksellers, price 2s 6d.

PROVINCIAL MEDICAL ADVERTISER.

The Seventh Edition, 8vo (pp. 1400), 30s boards,

**HOOPER'S MEDICAL DICTIONARY; Revised, Corrected, and greatly Enlarged, by KLEIN GRANT, M.D., &c. &c., Lecturer on Therapeutics.—Also,**

**COOPER'S SURGICAL DICTIONARY.** Seventh Edition, very greatly enlarged, 30s boards.

**COOPER'S FIRST LINES of SURGERY.** Seventh Edition, 18s boards.

London: Printed for LONGMAN, BROWN, and Co.; and the other Proprietors.

---

The Fifth Edition, considerably enlarged and improved, 8vo, cloth, price 16s,

**The ELEMENTS of the THEORY and PRACTICE of MEDICINE.** By GEORGE GREGORY, M.D., Fellow of the Royal College of Physicians.

\*\*\* In this Edition the results of the Author's more recent experience have been incorporated into the text, and other improvements introduced calculated to give additional value to the work.

"We can recommend it, in its present improved form, as the best elementary treatise on medicine which the student or young practitioner can consult; it contains faithful descriptions of disease, which leave little to be desired for accuracy or faithfulness."—*Lancet*.

"Dr. Gregory's Elements are very uniformly good; the practice recommended is, for the most part, highly judicious, and the style of writing is highly perspicuous."—*Forbes's Review*.

London: HENRY RENSHAW, 356, Strand; JOHN CHURCHILL, Princes-street, Soho. Edinburgh: MACLACHLAN, STEWART, and Co. Dublin: FANNIN and Co.

Size of the Painting, 30 inches by 25.

---

**HÆMORRHAGE, internal and external, often baffles the skill of Medical Men.** Sir B. C. Brodie, Dr. Chambers, Dr. J. Johnson, Professor Mayo, Mr. Guthrie, and other high authorities, have for years strongly recommended, and exhibited, with the greatest success, the CHEVALIER RUSPINI'S STYPTIC. Speaking of Haemoptysis, Dr. Chambers says, "Give 5j. of Ruspini's Styptic every three hours;" Sir B. C. Brodie also, "Apply Ruspini's Styptic;" Mr. Guthrie, "If the Bleeding be obstinate, you may suppress it by Ruspini's Styptic;" Dr. Johnson, "This Styptic possesses extraordinary powers in arresting Haemorrhage;" Professor Mayo, "Of all the Styptics with which I am acquainted, Ruspini's is the most efficacious;" together with numerous other eminent recommendations.

It is Prepared and Sold, Wholesale and Retail, at the Depôt, J. Collins, 54, Piccadilly; to be had also at the Wholesale Houses, and Retail at all the Druggists in the Kingdom.
