

PENNY DOCTORS.

The following document is one that must be painful to every member of an honorable profession. It either indicates a state of desperate poverty, that renders a man eager to catch at every straw, or else the selfish inclination to obtain a practice by underselling, and taking away the legitimate profits of his neighbours.

"The Cheltenham Penny Medical and Surgical Society, established for the especial benefit of Servants and Working Classes, and conducted by Mr. W. C. Funge, Surgeon, Apothecary, and Accoucheur, at his residence, No. 2, Buckingham Villas, Wellington-street.—Hours of attendance, daily (Sundays excepted), mornings, from nine to twelve; evenings, from six to seven."

"RULES.

"1. A subscription of one penny per week (to be paid every Monday), entitles the subscriber to medical and surgical advice, and medicine so long as the same is paid.

"2. Subscribers requiring medical or surgical advice, &c. (in all cases that will admit), to attend upon the surgeon within the hours above specified.

"3. Subscribers requiring medical or surgical advice, &c., whose case will not admit of attending upon the surgeon, within the hours above specified, to signify the same, that they may be attended to in the ordinary course of visiting (cases of sudden illness excepted), they being attended to at all hours.

"4. Subscribers to provide bottles, pots, and bandages, and to send for their medicines.

"Midwifery cases will be charged to subscribers to the above, 10s. 6d. Vaccination included.

"N.B. Mr. Funge has been established in Cheltenham upwards of five years; for three years has held, and still holds, the appointment of surgeon to a very extensive society, and superintends the preparation of all medicines.

"Cheltenham, August, 1843."

BOOKS RECEIVED.

The Dublin Journal of Medical Science; including the latest Discoveries in Medicine, Surgery, and the Collateral Sciences. Dublin: Hodges and Smith, Nov. 1843.

TO CORRESPONDENTS.

Subscribers to this Journal are recommended to order from their Booksellers, without delay, any numbers required to complete sets, as the first 79 are quite out of print, and but few copies remain of many of the later numbers.

T. S. is thanked for his hint.

We cannot attend to an anonymous communication reflecting on any person's character.

Mr. Palmer.—Our correspondent's wants might be supplied by a perusal of the chapter on Glanders in Burgess's translation of Cazenave.

* * Communications, journals, and books for review, to be forwarded (carriage paid) to the Publisher, 356, Strand, London. Letters connected with the Provincial Association, to Dr. Streeten, Worcester.

Gentlemen desirous of having the "Provincial Medical Journal," forwarded to them by post, may send a post-office order to the Publisher, 356, Strand, London.
