TO SURGEONS, DISPENSING CHEMISTS, ETC.

## Sulphate of Quinine, pure Crystal-

lized, prepared by EDWARD HERRING, for the use of Hospitals, Dispensaries, Surgeons, Dispensing Chemists, etc.

This Sulphate of Quinine is chemically pure; its form of Crystal is the same, and in every respect identical with the Sulphate of Quinine of commerce, the only difference being that the one is bleached, the other unbleached.

It has been successfully introduced for the use of Hospitals, Dispensaries, and Public Charities; but its purity and great reduction in price are now attracting the attention of Medical Men and Dispensing Chemists.

The peculiar mode of preparing the Hospital or unbleached Sulphate, and also the usual white Sulphate, is being made the subject of a Patent; the processes of manufacture will therefore be made public.

It is put up in bottles (tree) of 3 oz. and 6 oz. each, capsule with the name of the Proprietor, and labelled with the name of the Inventor.

Both these Sulphates to be had of the leading Druggists in London, and the United Kingdom, and in quantities of not less than 100 ounces of

JACOB HULLE, Jun. Proprietor, Chemical Works, Trinity Street, Southwark, London.

## Householders' Life Assurance Company.

The Directors adopt the principle in all cases of paying the Medical Refuses.

Peter Paterson, Esq., Leyton, Essex.  
Thomas Pocock, Esq., Southwark-bridge-road.  
Peter Paterson, Esq., jun., Park-road, Holloway.

### DISTINCTIVE AND PECULIAR FEATURES.

1. Every Policy is absolutely indisputable, the state of health, age, and interest being admitted on the Policy.

2. The Savings Bank Assurance—the Company granting an Assurance on the life of the Depositor for every sum deposited, with liberty to withdraw the deposit at fourteen days notice.

3. Loans on the security, or for the purchase, or erection, of property, on an entirely new plan, the payments to cease in the event of the death of the Borrower, and the property to be handed over to his family, or representatives, free and unencumbered.

4. The Savings Bank and Assurance-Loan Branches combined, by which Depositors in Savings Banks and intending Members of Building Societies, may invest their funds so as to secure the Assurance of a given sum in the event of death, and at the same time employ them for the purchase of property during life. This system supersedes Building Societies—supersedes Savings Banks.
