

Royal College of Physicians.—In
consequence of the delivery of the Hunterian Oration at the Royal College of Surgeons on Wednesday, the 14th instant, the first Croonian Lecture at the College of Physicians will take place on TUESDAY, the 13th instant, instead of Wednesday.

Medical Benevolent College.—The
Votes and Interest of the Governors are respectfully and earnestly requested on behalf of

MARY ANN BULL,

a Widow, who applies to be admitted into the College, and

GEORGE BULL,

who applies to be admitted as a Foundation Scholar to the School.

Mary Ann Bull is the widow, and George Bull is a younger son, of the late Daniel Bull, a duly qualified medical man (Member of the Royal College of Surgeons, and Licentiate of the Apothecaries' Company), who died in November, 1852, having been disabled by paralysis during the last eight years of his life.

The father, mother, and eight children were in the greatest distress, when, in 1851, an appeal was made to the profession on their behalf, which was generously responded to by subscriptions to the amount of between three and four hundred pounds. A weekly sum of money was given to the family up to the period of the father's death, when the sum of £300 was invested in the names of three gentlemen residing in Bedford, as trustees. The interest from this sum, and a small amount from life assurance, is now the sole income of the widow and family.

The appeal on behalf of this "distressing case" particularly aroused the sympathy of one gentleman, who lost no time in devising some means of relieving similar cases, and who has now the distinguished honour of having founded the "Medical Benevolent College."

The case is most earnestly recommended by a great many members of the Clerical and Medical Professions. Proxies will be thankfully received by Mrs. BULL, Princes Street, Bedford; or by Dr. T. H. BARKER, of Bedford.

Kousso.—(Brayera Anthelmintica.)

—THE NEW REMEDY FOR TAPE-WORM.—Mr. KEATING begs to inform the Profession that he receives constant supplies of this invaluable drug, hermetically sealed in Abyssinia, which he begs to offer the Profession at 1s. 4d. the ounce, postage free. By means of this remedy Mr. Keating has lately had a case in which the worm was completely voided, including the head.

79, St. Paul's Churchyard, London.

TO PHYSICIANS, SURGEONS, AND DRUGGISTS.

Brown's Cantharidine Blistering

TISSUE, prepared from Pure Cantharidine. An elegant preparation, vesicating in much less time than the Emp. Lyttæ P. L., easily applied and removed, and will not produce stranguity or troublesome after-sores. It has received the sanction and commendation of many of the most eminent Practitioners in the kingdom. In Tin Cases, containing ten feet, 6s. 6d.; and small Cases of five square feet, 3s. 6d. each.

BROWN'S TISSUE DRESSING, an elegant, economical, and cleanly substitute for all ointments as a dressing for Blisters, and may be called a companion to the above. In Tin Cases, containing twelve square feet, 1s. 6d. each.

Extracts and Editorial Note from the "New York Journal of Medicine".

"March 1st, 1850.

"BROWN'S CANTHARIDINE TISSUE.—It presents peculiar claims to our notice in the inflammatory diseases of females and children, in whom the unpleasant consequences which so often follow the application of the Emp. Cantharides are most apt to occur. We have found it a reliable and peculiarly safe vesicant, and from the many trials we have given it, we are satisfied that it deserves the attention of the Medical Profession.

"Accompanying this article is a very simple and neat dressing."

"June 24th, 1850.

"Mr. Dalrymple presents his compliments to Mr. Brown, and is much obliged to him by his kindness in sending Specimens of his Preparation for Blistering, etc. Mr. D. delayed answering this present until he had had an opportunity of testing it in practice, and is most happy to acknowledge its utility, elegance, and cheapness, and he has recommended it with great satisfaction."

"60, Grosvenor Street, London.

"10, Finsbury Place South,

"March 16, 1852.

"Dear Sir,—I beg to acknowledge the receipt of a case of your Cantharidine Tissue, as well as a case of your Tissue Dressing, for which I have to offer you my best thanks. I have given both preparations a thorough trial, and cannot refrain from speaking of them in the highest terms. The Cantharidine Plaster is the most elegant and effective blistering agent with which I am acquainted, and only requires a trial or two to ensure its being preferred before those applications of a similar kind that are now in use.

"I am, dear Sir, yours faithfully,

"JOHN GAY, F.R.C.S.

"To Mr. Brown."

"Hon. Surgeon to the Royal Free Hospital, &c,

Prepared and Sold by T. B. BROWN, Pharmaceutical Chemist, 42, Admiral Terrace, Vauxhall Bridge Road, London; and by the Sole Consignee, MR. WILLIAM BAILEY, Wolverhampton, and all wholesale and retail Druggists and Medicine Agents throughout the British Empire.

A Discount of 30 per cent. to the Profession.

HUXLEY and CO., 8, Old Cavendish Street, late of 5, Vere Street, Oxford Street.

Purification of Linen—Prevention of

Disease.—J. BOILESSVE, 55, King William Street, City, London, solicits the attention of the Nobility and Gentry to his CALORIFERE for Drying by Hot Air all the Family Linen, avoiding any contamination with those of unhealthy persons, and thus removing the most shocking cause of disease.

From His Grace the DUKE OF BEDFORD, Woburn Abbey, Sept. 24, 1853.

SIR,—His Grace the Duke of Bedford has desired me to say, his Grace has received your letter inquiring about the Calorifere (Drying Machine) put up in the Laundry at Woburn Abbey in May 1852, by Mr. Boilessve. In answer to that inquiry, I have to state, that nothing can exceed it in effect and economy; I sent to the Laundry for the man who has the management of it, and he says, that they can dry off the linen in much less time than they could with the old stove, without dust or dirt of any kind in the Laundry. They can obtain any degree of heat they wish for, and that at a great saving of fuel.

I am, Sir, your obedient servant,

J. PALFREMAN, House Steward.

Fr. G. Ernst's Manufactory of Sur-

GICAL, ANATOMICAL, AND ORTHOPÆDIC INSTRUMENTS, 43, LAMB'S CONDUIT STREET, FOUNDLING HOSPITAL. Every kind of Apparatus for the CURE and RELIEF of BODILY DEFORMITIES, from the simplest splint up to the finest application of the rack and pinion power (the agent in modern Orthopedy), including the principles of the spring, lever, etc. etc., may be obtained at the above Establishment, as well as every kind of elastic Bandages, Belts, Trusses, Artificial Legs, Arms, and Hands, Crutches, etc. etc.

FR. G. ERNST particularly solicits the attention of the Faculty to his newly-invented SPINAL SUPPORT, which has met the entire approbation of the Medical Profession.

Surgical Instruments made to order and kept in repair.

Bland and Long, Philosophical and

A D N A M'S

PATENT GROATS

IMPROVED

AND BARLEY.

THE ONLY EXISTING PATENT,
And strongly Recommended by the Medical Profession.

To Invalids, Mothers, and Families.

—The important object so desirable to be obtained, has at length been secured to the Public, by J. & J. C. ADNAM, PATENTEES, who, after much time and attention, have succeeded, by their Improved Process, in producing preparations of the purest and finest quality ever manufactured from the Oat and BARLEY.

To enumerate the many advantages derived by the Public from the use of the IMPROVED PATENT GROATS is not the intention of the PATENTEES; suffice it to say that, by the process of manufacture, the acidity and unpleasant flavour so generally complained of in other preparations is totally obviated, and very superior Gruel speedily made therefrom. It is PARTICULARLY RECOMMENDED to those of CONSUMPTIVE CONSTITUTIONS, LADIES, and CHILDREN; and the healthy and strong will find it an excellent LUNCHEON or SUPPER.

The Barley being prepared by a similar process is as pure as can be manufactured, and will be found to produce a light and nourishing FOOD for INFANTS and the AGED; and to contain all the necessary properties for making a delicious pudding. It has also the distinguishing character for making very superior Barley Water, and will be found a most excellent ingredient for thickening Soups, etc.

CAUTION.—To prevent errors, the Public are requested to observe that each Package bears the Signature of the PATENTEES, J. & J. C. ADNAM.

To be obtained Wholesale at the Manufactory, Malden Lane, Queen Street, London; and Retail in Packets and Canisters, at 6d. and 1s. each, and in Canisters for Families at 2s., 5s., and 10s. each, of all respectable Grocers, Druggists, etc., in Town and Country.
