Contemporary Literature:—1. Theology and Philosophy.—2. Politics and Education.—3. Science.—4. History, Biography, Voyages and Travels.—5. Art and Belles Lettres.

LONDON: JOHN CHAPMAN, 8, KING WILLIAM STREET, STRAND.

Freemasons' Tavern.--Messrs.

ELKINGTON and Co., have the honour to announce to the Public, their friends, and the Patrons of the Freemasons' Tavern that they have entered upon the proprietorship of that extensive establishment, fully impressed with the many and varied responsibilities attached to its management.

During the recent vacation they have been engaged in the renovation, decoration, and embellishment of the various reception rooms and other apartments, in accordance with modern taste, effecting a complete change in the aspect of the establishment, which they believe will materially tend to the comfort and convenience of their patrons.

It is the determination of the Proprietors to use their most earnest and unceasing endeavours to maintain the ancient reputation of the tavern, honoured as it has been for nearly a century by the patronage of Royalty, the nobility, and the most distinguished classes of society.

They respectfully solicit the support of the members of the legal profession and Parliamentary agents, to whom they beg to offer every facility for meetings of creditors, arbitrations, conferences, &c., whilst the several spacious apartments afford every accommodation for meetings of railway, mining, and other large companies.

The great Hall of the Establishment (possessing the advantage of a private entrance) also affords facilities of an unequalled character for public meetings, and Messrs. E. and Co., whilst making moderation in charge a principle in their management, are prepared especially to consider all applications for meetings for religious and charitable purposes in the most liberal and economic spirit.

To the members of the Masonic Craft Messrs. E. and Co. address themselves with respectful confidence, trusting to meet with that kind and liberal support ever accorded to sincere endeavours, and they pledge themselves to be unceasing in their efforts to promote the comfort and secure the approbation, both collectively and individually, of every kind supporter of the Order.

The decorative character of the saloons and grand hall afford peculiar advantages also for the accommodation of private parties, and the proprietors will be happy to receive, in the most liberal spirit, applications for soirées, assemblies, and dinners, from families whose domestic accommodation may not be sufficiently ample for large parties. Literary, scientific, artistic, and other societies will also be liberally treated with, for their annual soirées and meetings, either at the tavern or at their own establishments.

The cuisine of the tavern is placed under the direction of a chef of acknowledged ability and experience, whilst the cellar department, recently supplied with wines of the rarest vintages, will receive the proprietors' most especial attention, ensuring to them, they hope, a large increase of public patronage.

Great Queen Street,
Lincoln's-Inn-Fields.

ELKINGTON and Co.

MR. HOOPER'S IMPROVED HYDROSTATIC BEDS, OR MATTRESSES & CUSHIONS, FOR PLACING ON AN ORDINARY BEDSTEAD. ANY TEMPERATURE MAY BE USED.

AND REPORTS OF CASES,
FROM THE THREE
PRESIDENCIES OF THE
HON. EAST INDIA COMPANY,

THE FULL-LENGTH MATTRESS OR HYDROSTATIC BED,

The width of the Bed should be sent with the Order.

ORDERS BY
TELEGRAPH, OR OTHERWISE,
PROMPTLY ATTENDED
TO.

FREE BY POST.

"The comfort your Hydrostatic Beds afford can only be estimated by those that have them in use."—HENRY GILBERT, M.R.C.S., Kensington.

"I have in several instances employed Mr. Hooper's Water Cushions and Mattresses. They have in all cases afforded great relief and comfort, and have proved much more convenient and manageable than the original Water Bed."—J. PEREIRA, M.D., Physician to the London Hospital.

HOOPER'S WATERPROOF SHEETING for protecting Bedding from Sloughing Sores, Incontinence of Urine, Hemorrhage, etc.

Mr. Hooper has succeeded in manufacturing Waterproof Sheeting at a great reduction in price, that may be washed as family linen. It is soft, inodorous, and not acted on by urine, heat or cold, acids, or alkalies.

HOOPER'S URINALS, with Valve to prevent leakage, adapted for Invalids or Railway Travellers of both sexes, for sitting, reclining, or walking, they are not affected by boiling water, and therefore may be easily kept clean.

HOOPER'S INSPISSATED JUICE OF TARAXACUM, prepared by dry air, can be obtained in the following forms:—

The EXTRACT; dose, a tea-spoonful.

The FLUID EXTRACT; dose, a dessert-spoonful.

The LIQUOR; dose, one or two tea-spoonfuls.

The LIQUOR, with CORTICAL ESSENCE OF SARSAPARILLA; dose a dessert-spoonful.

With Brighton Seltzer Water, either of these preparations forms a pleasant draught and with which their effects are greatly augmented.

"For emaciated constitutions, I know of no medicine equal to Hooper's Taraxacum and Sarsaparilla."—DR. JOHNSON.

For AFFECTIONS OF THE LIVER, KIDNEYS, JAUNDICE, INDIGESTION, CUTANEOUS AFFECTIONS, and CONSTIPATIONS, these preparations have long been prescribed by the most eminent of the Faculty with the best results. The above Extracts of Taraxacum, when mixed with water, produce a milky appearance, similar to the juice in its fresh state.

The following remarks of the Rev. A. Leapingwell show the value of Taraxacum when properly prepared:—

"So valuable a preparation as your Taraxacum can need no recommendation from me, still I feel bound to say its beneficial effects have surpassed my most sanguine expectations. My mother, who is in her 78th year, and who through the greater part of her life has been a martyr to liver complaint, appears to have had ten years added to her life by a three months use of it."

"I remain yours truly, ARTHUR LEAPINGWELL."

"To Mr. Hooper, 7, Pall-mall East."

"Haydon Vicarage, Sleaford."

BRIGHTON SELTZER WATER, 4s. per doz. Other factitious Mineral Waters, at a reduction of 25 per cent.

FOR EPILEPSY.

COTYLEDON UMBILICUS.—The Introduction of this remedial agent has proved a valuable discovery. The satisfactory accounts Mr. HOOPER has received have induced him to pay great attention to its collection and preparation. He cautions medical men against the use of worthless preparations, passed off for his, and as prepared for Mr. Salter, etc. Mr. Hooper has instructions to state, that Mr. Salter has never used any but that obtained from him. A copy of Mr. Salter's reports in the *Medical Gazette* sent free by post.

GALUUM APARINE (HOOPER'S) FOR CUTANEOUS DISEASES, PSORIASIS, etc.—Dr. Winn, of Finsbury Square, having published in his *Medical Gazette*, October 4th, 1851, an account of the peculiar properties of the Galium Aparine in Cutaneous Diseases, Leprosy, Psoriasis, etc., Mr. Hooper has given his attention to preparing it in various forms. Dr. Winn finds the inspissated Juice the most efficient preparation, which can be had from Mr. Hooper, or direct through the Wholesale Houses.

HOOPER, Operative Chemist, Inventor and Sole Manufacturer of Invalid Beds and Cushions, 7, Pall Mall East, and 55, Grosvenor Street, London. Laboratory, Mitcham, Surrey.
