

Messrs. Curtis beg respectfully to call the attention of the Medical Profession to a new Preparation called

**"P A S M A",**  
(OR, HEALING POWDER),  
THE REMEDY FOR

EXCORIATIONS, BURNS, ULCERS, AND ERUPTIONS. ALSO A PROPHYLACTIC OF ABRASIONS IN DELICATE, TENDER, AND IRRITABLE SKINS.

This Preparation, during many months, has been submitted to the test of Professional experience, and is now confidently introduced to the Medical Public as possessing Healing Properties of a most marked and rapid character, and on that account as meriting publicity, and a place in every Hospital and Surgery.

In bringing "P.A.S.M.A." under the notice of Medical Men, the Proprietors solicit its trial, and will esteem any communication a favour in which the result is detailed.

They also draw attention to their

**"CONCENTRATED INFUSIONS",**

Containing the Medicinal Properties of the Recent Infusion unimpaired, solely attributable to the peculiar method of Preparation.

N.B. These Infusions stand unrivalled, Messrs. CURTIS having received Medical Testimony to that effect.

Also to their

**EXPRESSED JUICES**

Of Belladonna, Conium, Coptyledon, Hyoscyamus, and Taraxacum, at 3s. 4d. per lb each.

And

**LIQUORS.**

- Liq. Cinchona Flav.
- " Copaive Comp., (in Gonorrhoea.)
- " Gallii Aparine, (an Alterative.)
- " Morphia Bimeconate.
- " Opii Sedativus.
- " Parietarie, (a valuable diuretic.)
- " Sarsae, (Simple and Compound.)
- " Sennae dulcis, (particularly adapted for Children.)
- " Taraxac.
- Chloroform and Collodion.
- Pure Glycerine, (perfectly free from smell.)

**And MEDICINAL EXTRACTS,**

Prepared with the greatest care from the fresh plants.

Their charges, in almost every instance, are lower than most other houses. A complete Price List of all their Preparations sent post free.

Address—

CURTIS AND COMPANY, Pharmaceutical and Dispensing Chemists (Wholesale and Retail), 15, Crawford Street, London.

TO PHYSICIANS, SURGEONS, AND DRUGGISTS.

**Brown's Cantharidine Blistering**

TISSUE, prepared from Pure Cantharidine. An elegant preparation, vesicating in much less time than the Emp. Lytta P. L., easily applied and removed, and will not produce stranguary or troublesome after-sores. It has received the sanction and commendation of many of the most eminent Practitioners in the kingdom. In Tin Cases, containing ten feet, 6s. 6d.; and small Cases of five square feet, 3s. 6d. each.

BROWN'S TISSUE DRESSING, an elegant, economical, and cleanly substitute for all ointments as a dressing for Blisters, and may be called a companion to the above. In Tin Cases, containing twelve square feet, 1s. 6d. each.

Extracts and Editorial Note from the "New York Journal of Medicine".

"March 1st, 1850.

"BROWN'S CANTHARIDINE TISSUE.—It presents peculiar claims to our notice in the inflammatory diseases of females and children, in whom the unpleasant consequences which so often follow the application of the Emp. Cantharides are most apt to occur. We have found it a reliable and peculiarly safe vesicant, and from the many trials we have given it, we are satisfied that it deserves the attention of the Medical Profession.

"Accompanying this article is a very simple and neat dressing."

"June 24th, 1850.

"Mr. Dalrymple presents his compliments to Mr. Brown, and is much obliged to him by his kindness in sending Specimens of his Preparation for Blistering, etc. Mr. D. delayed answering this present until he had had an opportunity of testing it in practice, and is most happy to acknowledge its utility, elegance, and cheapness, and he has recommended it with great satisfaction."

"60, Grosvenor Street, London.

"10, Finsbury Place South

"March 16, 1852.

"Dear Sir,—I beg to acknowledge the receipt of a case of your Cantharidine Tissue, as well as a case of your Tissue Dressing, for which I have to offer you my best thanks. I have given both preparations a thorough trial, and cannot refrain from speaking of them in the highest terms. The Cantharidine Plaster is the most elegant and effective blistering agent with which I am acquainted, and only requires a trial or two to ensure its being preferred before those applications of a similar kind that are now in use.

"I am, dear Sir, yours faithfully,

"JOHN GAY, F.R.C.S.,

"To Mr. Brown."

"Hon. Surgeon to the Royal Free Hospital, &c.

Prepared by THOMAS B. BROWN, Pharmaceutical Chemist, at his Laboratory, Stanwell Moor, Staines, Middlesex; and Sold by his Sole Consignees, Messrs. BAILEY & WILLS, Horseleyfields Chemical Works, Wolverhampton, and all wholesale and retail Druggists and Medicine Agents throughout the British Empire.

**Poultices Superseded by Markwick's**

**PATENT SPONGIO PILINE.** The advantages are cleanliness, absence of offensive smell, economy, retention of moisture, lightness and easy application. Markwick's 2s. 6d. Respirators, Cholera Belts, Chest Protectors, Piline for Rheumatism, and Shoe Socks, are strongly recommended. Sold, Retail by Chemists and Druggists, and Wholesale only by GEO. TRIMBEY, 4, Queen Street, Cheapside.

RUPTURES.—BY ROYAL LETTERS PATENT.

**White's Moc-Main Lever Truss is**

allowed by upwards of 200 Medical Gentlemen to be the most effective invention in the curative treatment of HERNIA. The use of a steel spring, so often hurtful in its effects, is here avoided; a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body two inches below the hips being sent to the Manufacturer, Mr. WHITE, 228, Piccadilly, London.

Price of a Single Truss, 16s., 21s., 26s. 6d., and 31s. 6d.—

Postage, 1s.

Price of a Double Truss, 31s. 6d., 42s., and 52s. 6d.—

Postage, 1s. 6d.

**Elastic Stockings for Va-**

RICOSE VEINS, and all cases of Weakness and Swelling of the Legs, Sprains, etc. They are porous, light in texture, and inexpensive and are drawn on like an ordinary Stocking. Price from 7s. 6d. to 16s. each—Postage, 6d.

MANUFACTURER—JOHN WHITE, 228, PICCADILLY, LONDON.

TO THE MEDICAL PROFESSION.

**Messrs. Savory and Moore have**

made arrangements in their Laboratory to increase the supply of the MEDICATED COD LIVER OILS, and have also added several new combinations to those previously in use. The following Medicinal substances combined with COD LIVER OIL, may now be obtained, viz. Arsenical Iodidum, Arsenical et Hydrargyri Iodidum (this is analogous to Donovan's Solution), Ferri Iodidum, Ferri Iodidum cum Quina, Ferri Bromidum, Ferri Lactat, Hydrargyri Bichloridum, Hydrargyri Biniodidum, Iodinium et Quina, Morphia, Plumbi Acetas, Quina, Quinae Valerianas, Sulphuris Iodidum, Zinci Iodidum, Zinci Valerianas, from any respectable Chemist and Druggist, or direct from SAVORY and MOORE, 143, New Bond Street, and 220, Regent Street, London.

BERIAH DREW AND COMPANY'S

**Ol. Jecoris Aselli cum Quina.—**

This perfect compound of Cod-Liver Oil with Quinine, after a year's trial by numbers of the Profession, and in several Hospitals and Medical Institutions throughout the country, is acknowledged as an elegant and efficacious form for administering these valuable medicines. Testimonials of the highest character from Physicians of eminence have been received.

B. DREW & Co. are now making this and several other combinations of different chemicals with Cod-Liver Oil on a large scale, viz.—

With IODIDE OF IRON—LACTATE OF IRON—IODINE—IODINE and QUININE—IODIDE OF IRON & QUININE—DONOVAN'S SOLUTION, etc., etc., all of which they beg to offer to the Profession, in 20 oz. sealed bottles, 4s. 9d. each; 40 oz. ditto, 9s.; 80 oz. ditto, 17s.; (sent free to any part of England, including package, for 1s. 6d. above the price of each bottle.) Orders for above 20s. free, without extra charge, or through any Wholesale House.—N.B. A considerable allowance to Hospitals and Dispensaries.

Finest NEWFOUNDLAND COD-LIVER OIL (same as used for the above preparations), 11s. per Gallon (delivered free for 1s. 6d. extra, including package). PRICE CURRENTS of Drugs and Chemicals on application. BERIAH DREW and Co., Wholesale Chemists, 91, Blackman Street, Southwark, London.

**DR. DE JONGH'S**

**LIGHT-BROWN COD-LIVER OIL.**

This pure transparent LIGHT-BROWN COD-LIVER OIL is invariably and carefully submitted to Chemical Analysis, and, to preclude any subsequent admixture or adulteration, is supplied ONLY in Bottles, capsuled and labelled with Dr. De Jongh's Stamp and Signature, so that the Faculty may rely upon a genuine Medicine, and, so far as is possible, anticipate a uniform, regular, and certain result.

Sole Consignees and Agents for the United Kingdom and the British Possessions,

**ANSAR, HARFORD, & CO., 77, STRAND, LONDON.**

HALF-PINTS (10 Ounces), 2s. 6d.

PINTS (20 Ounces), 4s. 9d. QUARTS (40 Ounces), 9s.

IMPERIAL MEASURE.

\* \* A LIBERAL DISCOUNT TO THE PROFESSION.

BY HER MAJESTY'S LETTERS PATENT

**COMFORT FOR INVALIDS**

**8 DENMARK ST. SOHO LONDON.**

**J ALDERMAN, Nephew and Successor to Mr. CHAPMAN,** begs most respectfully to inform his Friends and the Medical Profession, that after many years' experience in the manufacture of all kinds of Invalid Beds, Couches, Chairs, Carriages, etc., and more especially the well-known Earle's Fracture Bed, he has obtained Her Majesty's Letters Patent for his imperceptibly Graduating, Mechanical, and Elastic Adjustments, which he has invented for the comfort and convenience of Invalids; he has also made them applicable to all kinds of Operating Couches

and Chairs, for surgical and dental purposes. Earle's Bed, a few years ago, was used principally for Fractures, it being too hard, and its movements too coarse, for general use; but by carefully studying the properties of this Bed, or Couch, the Patentee saw that by proper mechanical and elastic adjustments it might be made the most perfect, useful, and elaborate piece of Furniture extant. To accomplish this would be a work of time and expense, and could only be attained by being constantly working for Invalids, and making careful experiments to alleviate the sufferings of the various patients, so as to render the Bed or Couch suitable for every case.

The Patentee is now happy to say, that after many years' experience in trying every mechanical action and elastic adjustment that could be thought of, to alleviate the sufferings by every possible change of position, and that imperceptibly to the patient, at the same time avoiding all pressure by his elastic adjusting foundation and mattress, to prevent bedsores, so as to supersede the use of water, he has at length succeeded in making his mechanical and elastic adjustments so simple and perfect as to be able to apply them to all sorts of Invalid Furniture. Earle's Bed, or Couch, can now be safely said to be the most perfect, useful, and elaborate piece of furniture in use, and will be found the greatest boon to all those who are suffering from Spinal Affections, Hip Complaints, Paralysis, Fractures, and in all cases where perfect rest is required. Ladies, who require complete rest before and after their Confinements, will find this Couch a great luxury. The Illustrations—1, 2, 3, 4, 5, and 7—will show the various ways and positions in which this Couch can be fitted-up and used.

These Beds, or Couches, are also fitted-up for Hospital use, and with every necessary arrangement to prevent the patient being removed. The Patentee would particularly recommend them for the use of our Military Hospitals, where they would be found of the greatest comfort and convenience, both to the surgeon and patient.

Nos. 6, 8, 6, is an illustration of J. Alderman's Patent Portable Equilibrium Carrying Chair, by which a patient can be carried up or down stairs with perfect ease and safety, the Chair always adjusting itself, which enables the two persons who carry to walk up or down stairs in the usual way, and quite erect, with their arms down, so as to avoid any strain upon the muscles; it has also a shifting stand upon very easy Castors, so that it can be used as an easy Chair to prevent the patient being disturbed.

Nos. 8, 8, is the Patent self-adjusting Invalid Chair, which is adjusted by Graduating Imperceptible Mechanism. This Chair, like the Couch, has been a work of time, the Patentee having followed Nature in every part of it: for instance, when the back is depressed, the arms, the seat, and the leg-rest, all work together imperceptibly, so that not a muscle of the patient is disturbed. In order that the patient may get on and off from either side while the leg-rest is up, either of the arms can be taken off.

No. 9 is a self-propelling Chair, which renders a patient quite independent, being able to go from room to room without any assistance.

No. 10 is a four-wheeled Brighton Chair, suitable for either hand or Pony

Nos. 11 and 12 are three-wheeled Garden or Bath Chairs, with and without a hood.

No. 13 is J. Alderman's Improved Spinal or Sofa Carriage, mounted upon C and under-springs; also the patent noiseless wheels, if required. The couch being made to slide on and off the carriage, and having a stand upon easy castors for the room, prevents the necessity for the patient's removal from the couch.

J. A. begs to state that, in order to bring these general comforts within the reach of all those who do not wish to purchase, he intends Lending them on Hire, and where the hirer wishes to become a purchaser within the third month, the hire will be deducted.

N.B. Inclined Planes, Prone Couches, Bed Chairs, and every other article required by Invalids.
