BERIAH DREW AND COMPANY'S

Pure Cod Liver Oil with Quinine.

Notice to the Medical Profession. In consequence of the repeatedly expressed opinion that the price of this valuable compound, and also the Cod Liver Oil with Iodide Iron, etc., ought now to be made to approximate more to the present market value of the separate ingredients, and that the hitherto high charge for the mere amalgamation ought to be economised, we have made arrangements for their manufacture on a more effective and less costly plan, which will enable us to alter our prices, until further notice, to the following REDUCED SCALE, viz.—

30 oz. Capsuled Dispensing Bottles, 4s.; 40 oz. ditto, 7s. 6d.; 80 oz. ditto, 14s.; 160 oz. ditto, 27s. each; also in Bottles at 2s. and 3s. each. The larger sizes delivered free to any part of England, including package, for 1s. 6d. above the price of each Bottle.

Finest NEWFOUNDLAND COD-LIVER OIL (same as used for the above preparations), 11s. per Gallon (delivered free for 1s. 6d. extra, including package). PRICE CURRENTS of Drugs and Chemicals on application.

Brown's Cantharidine Blistering

TISSUE, prepared from Pure Cantharidine. An elegant preparation, vesicating in much less time than the Emp. Iyris P. L., easily applied and removed, and will not produce strangury or troublesome after-sores. It has received the sanction and commendation of many of the most eminent Practitioners in the kingdom. In Tin Cases, containing ten feet, 6s. 6d.; and small Cases of five square feet, 3s. 6d. each.

BROWN'S TISSUE DRESSING, an elegant, economical, and cleanly substitute for all ointments as a dressing for Blisters, and may be called a companion to the above. In Tin Cases, containing twelve square feet, 1s. 6d. each.

Extracts and Editorial Note from the "New York Journal of Medicine".

"March 1st, 1880.

"BROWN'S CANTHARIDINE TISSUE.—It presents peculiar claims to our notice in the inflammatory diseases of females and children, in whom the unpleasant consequences which so often follow the application of the Emp. Cantharides are most apt to occur. We have found it a reliable and peculiarly safe vesicant, and from the many trials we have given it, we are satisfied that it deserves the attention of the Medical Profession.

"Accompanying this article is a very simple and neat dressing."

"June 24th, 1880.

"Mr. Dalrymple presents his compliments to Mr. Brown, and is much obliged to him by his kindness in sending Specimens of his Preparation for Blistering, etc. Mr. D. delayed answering this present until he had had an opportunity of testing it in practice, and is most happy to acknowledge its utility, elegance, and cheapness, and he has recommended it with great satisfaction."

"10, Finsbury Place South,

"March 16, 1882.

"Dear Sir,—I beg to acknowledge the receipt of a case of your Cantharidine Tissue, as well as a case of your Tissue Dressing, for which I have to offer you my best thanks. I have given both preparations a thorough trial, and cannot refrain from speaking of them in the highest terms. The Cantharidine Plaster is the most elegant and effective blistering agent with which I am acquainted, and only requires a trial or two to ensure its being preferred before those applications of a similar kind that are now in use.

"I am, dear Sir, yours faithfully,

"JOHN GAY, F.R.C.S.,

"To Mr. Brown."
