Brown's Cantharidine Blistering

TISSUE, prepared from Pure Cantharidine. An elegant preparation, vesicating in much less time than the Emp. Lytta P. L., easily applied and removed, and will not produce strangury or troublesome after-sores. It has received the sanction and commendation of many of the most eminent Practitioners in the kingdom. In Tin Cases, containing ten feet, 6s. 6d.; and small Cases of five square feet, 3s. 6d. each.

BROWN'S TISSUE DRESSING, an elegant, economical, and cleanly substitute for all ointments as a dressing for Blisters, and may be called a companion to the above. In Tin Cases, containing twelve square feet, 1s. 6d. each.

Extracts and Editorial Note from the "New York Journal of Medicine".

"March 1st, 1856.

"BROWN'S CANTHARIDINE TISSUE.—It presents peculiar claims to our notice in the inflammatory diseases of females and children, in whom the unpleasant consequences which so often follow the application of the Emp. Cantharides are most apt to occur. We have found it a reliable and peculiarly safe vesicant, and from the many trials we have given it, we are satisfied that it deserves the attention of the Medical Profession.

"Accompanying this article is a very simple and neat dressing."

"June 24th, 1856.

"Mr Dalrymple presents his compliments to Mr. Brown, and is much obliged to him by his kindness in sending Specimens of his Preparation for Blistering, etc. Mr. D. delayed answering this present until he had had an opportunity of testing it in practice, and is most happy to acknowledge its utility, elegance, and cheapness, and he has recommended it with great satisfaction."

"10, Finsbury Place South,

"March 16, 1852.

"Dear Sir,—I beg to acknowledge the receipt of a case of your Cantharidine Tissue, as well as a case of your Tissue Dressing, for which I have to offer you my best thanks. I have given both preparations a thorough trial, and cannot refrain from speaking of them in the highest terms. The Cantharidine Plaster is the most elegant and effective blistering agent with which I am acquainted, and only requires a trial or two to ensure its being preferred before those applications of a similar kind that are now in use.

"I am, dear Sir, yours faithfully,

"JOHN GAY, F.R.C.S.,
Hon. Surgeon to the Royal Free Hospital, &c.

"To Mr. Brown."

Prepared by THOMAS B. BROWN, Pharmaceutical Chemist, at his Laboratory, Stanwell Moor, Staines, Middlesex; and Sold by his Sole Consignees, Messrs. BAILEY & WILLS, Horseleyfields Chemical Works, Wolverhampton, and all wholesale and retail Druggists and Medicine Agents throughout the British Empire.

RUPTURES.—BY ROYAL LETTERS PATENT.

White's Moc-Main Lever Truss is

allowed by upwards of 300 Medical Gentlemen to be the most effective invention in the curative treatment of HERNIA. The use of a steel spring, so often hurtful in its effects, is here avoided: a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body two inches below the hips being sent to the Manufacturer, Mr. WHITE, 228, Piccadilly, London.

Price of a Single Truss, 16s., 21s., 26s. 6d., and 31s. 6d.—Postage, 1s.

Price of a Double Truss, 31s. 6d., 42s., and 52s. 6d.—Postage, 1s. 6d.

Elastic Stockings for Va-

RICOSE VEINS, and all cases of Weakness and Swelling of the Legs, Sprains, etc. They are porous, light in texture, and inexpensive and are drawn on like an ordinary Stocking. Price from 7s. 6d. to 16s. each—Postage, 6d.

MANUFACTURER—JOHN WHITE, 228, PICCADILLY, LONDON.

TO THE MEDICAL PROFESSION.
