

show that he had done his best to attain professional independence. There are at present 150 pupils receiving their education at the college; the annual subscriptions, which are yearly on the increase, amount to £3,000; the endowment fund now stands at £3,600; and the existing debt is £3,600, which is more than covered by the value of the property on which it is secured. His lordship concluded with a warm appeal on behalf of the institution, and a high eulogium upon Mr. Probert, the founder of the charity.

Mr. C. W. W. WYNN returned thanks.

Several other appropriate toasts followed.

The subscriptions of the evening amounted to £928:17:6, besides which there were announced two legacies, one of £3,000 and another of £50.

VACCINATION. An order has been issued from the Privy Council Office stating, that whereas by the Public Health Act of 1858, the Privy Council are empowered to issue regulations for securing the due qualification of all persons to be contracted with by guardians and overseers of unions and parishes in England for the vaccination of persons resident in such unions and parishes, it is enacted "That no contract for vaccination shall be entered into by such guardians or overseers, except with a medical practitioner who shall be legally competent to practise both medicine and surgery in England and Wales. Provided, that if in any union or parish it shall not be practicable for the guardians or overseers to contract with a person residing in or near to the district for which he shall be required to act, fully qualified as aforesaid, the guardians or overseers may report the circumstances to the Poor-Law Board, and the said Board may permit a contract to be entered into with a medical practitioner not fully qualified for so long a time as the said Board shall deem proper."

TO CORRESPONDENTS.

NOTICE.—DR. WYNTER will feel obliged if the Associates will address all Post Office Orders in payment of Subscriptions, to the Publisher, Mr. THOMAS JOHN HONEYMAN, 37, Great Queen Street, Lincoln's Inn Fields, London, W.C., "Bloomsbury Branch"; and he would also feel obliged by their sending all communications respecting the non-receipt of the Journal, to the same address; as both these matters are out of the province of the Editor.

POSTAGE OF MANUSCRIPT AND PRINTED MATTER.

Any amount of manuscript or printed matter, singly or together, provided it contains nothing in the form of a written letter, is transmitted through the post, in packets *open at the ends*, at the following rates: not exceeding 4 ounces, one penny; above 4 and not exceeding 8 ounces, twopence; above 8 ounces and not exceeding 1 pound, fourpence; for every additional half-pound or under, twopence.

Members should remember that corrections for the current week's JOURNAL should not arrive later than Wednesday.

ANONYMOUS CORRESPONDENTS should always enclose their names to the Editor; not for publication, but in token of good faith. No attention can be paid to communications not thus authenticated.

Communications have been received from:—DR. F. J. BROWN; DR. MARKHAM; MR. T. HOLMES; DR. LAYCOCK; MR. J. S. BARTRUM; MR. ALFRED FLEISCHMANN; MR. A. EMSON; MR. STONE; DR. CAMPS; DR. P. H. WILLIAMS; DR. A. INGLIS; MR. W. BURTON; MR. O. PEMBERTON; DR. HAYES JACKSON; MR. P. H. CHAVASSE; A LOOKER-ON; SERANS; and DR. J. ARMSTRONG.

Priced Catalogues of the above may be had, post-free on application.

PRINTING OF EVERY DESCRIPTION AT MODERATE PRICES.

Dr. Caplin's Electro-Chemical Bath

ESTABLISHMENT, 9, York Place, Baker Street, Portman Square, for the extraction of Mercury and other Metallic or Extraneous Substances, and the Treatment of Chronic Diseases. For the demonstration of this new system, *vide* the Second Edition, price 1s., 8vo, of Dr. Caplin's Treatise on the Electro-Chemical Bath, and the Relation of Electricity to the Phenomena of Life, Health, and Disease. Sold at the Author's Establishment.

Important to the Medical Profession.—The GENUINE DR. JAMES'S POWDER.

—Messrs. Newbery continue to prepare the above from the only Recipe existing, under Dr. James's Hand, and beg to recommend the Profession always to prescribe it as "*Pulvis Jacobi ver. Newbery's*," that they may not be disappointed in the result of their recipes by the substitution of COMMON ANTIMONIAL POWDER, WHICH IS OFTEN SOLD UNDER THE TITLE OF "*PULVIS JACOBI VERUS*," but is neither so mild or so certain in its operation as the Powder prepared from Dr. James's Recipe. The identity of these cheap imitations with common Antimonial Powder is proved by the similarity of dose, viz. 6 grains.

*** Be careful to observe the name, "*F. NEWBERY, No. 45, ST. PAUL'S CHURCHYARD*," London, engraved on the Government Stamp affixed to each packet and bottle. Price for dispensing, 9s. per oz.; also in packets at 2s. 9d. Established A.D. 1746.

N.B.—It is a remarkable fact, that James's Powder, prepared from Dr. James's recipe, may be safely given in doses up to Sixteen grains, while common Antimonial Powder, and some other preparations sold as true Dr. James's Powder, cannot be administered in doses exceeding SIX grains without danger.

None is genuine without a Seal in red wax, as in the margin, on the outside of each packet.

WALTERS' INDIA-RUBBER URINALS.

F. WALTERS having originally invented these Urinals, begs to warn the Profession of the many bad and useless imitations which are now sold, and he would advise them, before purchasing, to look that they are stamped with his name; as, unless that be the case, he cannot guarantee them.

These conveniences are made for those who only require them only occasionally, during a long journey, as well as for those invalids who use them always. Mr. WALTERS has much improved them by making them of *Etherised India-Rubber*, which adds very greatly to the strength of the India-Rubber, at the same time that it prevents its sticking together; by this means he is enabled to make them less stiff and harsh than hitherto, and yet to retain all the advantages of that stiffness. There is a patent valve, which prevents the return of the fluid; and they may be worn either sitting, walking, or lying, without the slightest inconvenience, and without being perceived by any one.

WALTERS' CONVENIENCES FOR LADIES will be found particularly useful during pregnancy. They are perfectly soft and flexible, and may be worn with perfect comfort.

All orders must be accompanied by a Post-Office Order or Reference. Entrance for Ladies, at the Private Door, where a Female attends.

MANUFACTURER OF ELASTIC STOCKINGS, BELTS, &c.,

It is suited to all cases of delicate skin (whether arising from disease or otherwise), and is admirably adapted for nursery use. May be had of all respectable Chemists, Perfumers, etc.

SOAP WORKS, CLERKENWELL, LONDON, E. C.

Colwell's Trusses have been recom-

mended to the public by upwards of thirty of the Daily, Weekly, and Medical Journals. The following are extracts:

"Those Trusses designed for Prolapsus Ani are admirable in their construction, and for the efficiency with which they perform their office; but those which are intended for Prolapsus Uteri are the most perfect instruments we have ever seen."—*The Chemist*.

"In science and skill in adapting his Trusses to the peculiar circumstances of the case, Mr. Colwell is inferior to no artist in London."—*United Service*.

Price to Surgeons.—Good Plain Trusses, 18s. per dozen; Salmon's Patent, 30s. per dozen; Coles's ditto, 48s. per dozen. Elastic Stockings in Cotton, 3s. 6d.; in Silk, 5s. Spiral Elastic Stockings, Belts, and every description of Surgical Bandage, at equally moderate charges, and warranted of the best material and workmanship.—59, SOUTH MOLTON STREET, BOND ST.
