

TO CORRESPONDENTS.

CHANGE OF ADDRESS OF THE EDITOR. From the 25th instant, letters and communications for the Journal should be sent to Dr. WYNTER, at Colehurne Court, Old Brompton, London, S.W.

TO CONTRIBUTORS. The Editor would feel glad if Members of the Association and others, would cooperate with him in establishing as a rule, that in future no paper for publication shall exceed two pages of the Journal in length. If the writers of long communications knew as well as the Editor does, that lengthy papers *always* deter the reader from commencing them, this great evil would never arise. Brevity is the soul of medical writing—still more than of wit.

Members should remember that corrections for the current week's JOURNAL should not arrive later than Wednesday.

NOTICE.—DR. WYNTER will feel obliged if the Associates will address all Post Office Orders in payment of Subscriptions, to the Publisher, Mr. THOMAS JOHN HONEYMAN, 37, Great Queen Street, Lincoln's Inn Fields, London, W. C., "Bloomsbury Branch"; and he would also feel obliged by their sending all communications respecting the non-receipt of the Journal, to the same address; as both these matters are out of the province of the Editor.

We have received Dr. TILT's note, and are obliged for his suggestion, which we shall bear in mind.

ARMY MEDICAL REFORM. In our leader of last week upon Army Medical Reform, the fourth line read thus: "The medical department of the army should be governed by a medical officer or field inspector, who should be always in advance with the commissary general." There are one or two unintentional errors in this sentence, it should have read thus: "The medical department of the army should be represented by a field inspector or medical officer of health, in the field, who should be always in advance with the Quarter-Master General."

Communications have been received from:—MR. STONE; MR. HOLMES COOTE; DR. MARKHAM; DR. HAYES JACKSON; DR. RADCLIFFE HALL; DR. TILT; MR. JOHN KITCHING; DR. J. C. HALL; MR. GAMGEE; DR. C. HANDFIELD JONES; DR. COCKLE; MR. T. HOLMES; MR. MORELL MACKENZIE; MR. CHARLES COATES; DR. GARROD; SIR CHARLES HASTINGS; and MR. JOHN BURROWS.

ADVERTISEMENTS.

N.B. A NEWLY-INVENTED SPRING TRUSS for Hernia, and Improved Appliances for Prolapsus Ani and Prolapsus Uteri, &c., &c.

Davenport's Syrup of the Iodide of QUININE AND IRON.

From the late Dr. GOLDING BIRD.

I do not hesitate to express my opinion of its great value as a therapeutic agent. This triple compound possesses many advantages over the simple Iodide, and not the least of them is the satisfactory manner in which it is tolerated by the stomach, especially if administered (as all preparations of iron ought to be) immediately after a meal.

From Dr. G. P. MAY, of Maldon.

I can with confidence testify to its marked efficacy in cases of struma and anæmia. This preparation appears to combine all the therapeutic powers of its constituents without their nauseous quality, which renders it an admirable Medicine in the treatment of some of the disorders of childhood.

SYRUP of the IODIDE of ZINC, as prepared for Dr. Barlow, of Guy's Hospital.

CITRATE of QUININE and IRON, 25 per cent. Quinine, 3s. 6d. per ounce.

BIMECONATE SOLUTION of OPIUM. In this preparation the unpleasant effects of ordinary Opiates are entirely obviated. 8d. per ounce.

TARAXACUM.—DAVENPORT'S LIQUOR or FLUID EXTRACT prepared by spontaneous inspissation, possesses every characteristic of the fresh Juice, and has proved highly efficacious where the ordinary extracts have proved inert.

J. T. DAVENPORT, Operative Chemist to H. R. H. the Duke of Cambridge, 33, Great Russell Street, Bloomsbury, London.
