RUPTURES.—BY ROYAL LETTERS PATENT.

White's Moc-Main Lever Truss is

allowed by upwards of 200 Medical Gentlemen to be the most effectual invention in the curative treatment of HERNIA. The use of a steel spring, so often hurtful in its effects, is here avoided; a soft bandage being worn round the body while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body two inches below the hips being sent to the Manufacturer, MR. WHITE, 228, PICCADILLY, LONDON.

Price of Single Truss, 16s., 21s., 26s.6d., and 31s.6d.; postage, 1s. Double Truss, 31s.6d., 42s., and 52s.6d.; postage, 1s.8d. Post-office Orders to be made payable to JOHN WHITE, Post-office, Piccadilly.

ELASTIC STOCKINGS for VARICOSE VEINS, and all cases of Weakness and Swelling of the Legs, Sprains, etc. They are porous, light in texture, and inexpensive, and are drawn on like an ordinary stocking. Price from 7s.6d. to 16s.

JOHN WHITE, MANUFACTURER, 228, PICCADILLY, LONDON.

JOZEAU'S COPAHINE MEGE.

Or SACCHARATED CAPSULES.—Copaiba and Cubebs are, doubtless, the best remedies, but these drugs are of a repulsive taste and odour, and occasion colicky pains, nausea, and gastric disturbance. M. Jozeau has succeeded in rendering these valuable therapeutic agents perfectly innocuous, by increasing, in his Copahine, all the curative properties. This preparation has been adopted by the Paris Academy of Medicine, after more than a thousand trials in Paris, and the different London Hospitals, viz., St. Thomas's, Guy's, and St. Bartholomew's, under the care of Messrs. Lloyd, Poland, and Le Gros Clark. "Lancet" Nov. 6, and Dec. 10, 1852. The Copahine, which is in form of a pretty pink sugar-plum, effects a cure in about six days, either in recent or chronic diseases. 100 Capsules, 4s.6d. at G. JOZEAU'S, French Chemist, 49, Haymarket, London; 22, Rue St. Quentin, Paris; and all the most important Chemists.

Mr. Bourjeaud's Registered Spiral

ELASTIC COMPRESSIONAL APPLIANCES, to be obtained only at No. 11, DAVIES STREET, BERKELEY SQUARE, W., and at No. 11, RUE DES BEAUX ARTS, PARIS, and through Medical Practitioners.

BELT AND AIR-PAD FOR INGUINAL HERNIA.

MR. BOURJEAUD, in submitting the accompanying Diagrams, presents his best thanks to the Members of the Medical Profession for their unceasing support of his invention of the Spiral Elastic Compression Principle in Surgical Appliances, and for the continuance of innumerable recommendations in all parts of the kingdom, at the same time he feels it incumbent upon him to remind his friends, that this Invention was registered by him in February 1848, and, immediately after, advertised in the Medical Journals, thus affording an undeniable contradiction to the assertions of the unblushing appropriators of his principle, who have never appeared till within the last three and a half years, and yet style themselves Patentees, Registrars, etc., of the Spiral Principle. The advantage of qualifying antecedents, and being a Member of the Surgical Profession, have enabled Mr. B., by confining his attention to the superintendence of the manufacture and adjustment of his appliances, to attain great proficiency; and he considers it essential, especially in difficult cases, that patients should be attended by himself or his assistants, and if not practicable, by a Member of the Profession, as it must be admitted to be exceedingly hazardous for the suffering to entrust their limbs or cases of hernia to persons totally ignorant of anatomical or physiological laws.

The charges, estimating the amount of benefit afforded, are less than the prices of the imitations: Mr. B. invites an inspection, and of the certificates confirming his sole claim to the inventions.

N.B. No. 11, DAVIES STREET, near Mivart's Hotel. The Establishment is strictly private. At home from 10 till 6.

For Varicose Veins and Weakness.

—Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS, on a New Principle, pervious, light in texture, and inexpensive, yielding an efficient and unvarying support, under any temperature, without the trouble of Lacing or Bandaging. Likewise, a strong low-priced article for Hospitals and the Working-classes.

ABDOMINAL SUPPORTING BELTS for both Sexes those for Ladies' use, before and after accouchement, are admirably adapted for giving adequate support with EXTREME LIGHTNESS—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed.

Instructions for measurement and prices on application, and the articles sent by post from the Manufacturers, POPE and PLANTE, 4, Waterloo-place, Pall Mall, London. The Profession, Trade, and Hospitals supplied.

J. & E. BRADSHAW, late
