

## Aërated Lithia Water. — The

An exhibition of Lithia in an effervescent water having been suggested by Dr. Garrod (in his recent treatise on Gout and Rheumatic Gout) as a remedial agent, by reason of its great power in dissolving Uric Acid and the Urates, Messrs. BLAKE, SANDFORD, & BLAKE have prepared three different Waters—of LITHIA, LITHIA with POTASH, and LITHIA with AMMONIA, which they beg to introduce to the Profession.

The following Waters are prepared as usual:—Potash, containing 18 grains of the Bicarbonate in each bottle; Citrate of Potash, 30 grains; Soda, 15 grains; Ammonia, 10 grains; Seltzer and Vichy, from their respective analyses; and a very delicious, as well as useful, MINERAL ACID WATER. ### CHLORODYNE.

ADDRESS TO THE MEDICAL PROFESSION.

## Physicians, when prescribing

CHLORODYNE, believe that their Patient will have it, and anticipate on their next visit a marked benefit from its employment. But too often disappointment results. And why? Because the word Chlorodyne is dishonestly and piratically applied to compounds in imitation of, or substituted for, the only genuine—viz.,

DR. J. COLLIS BROWNE'S CHLORODYNE.

Dr. J. C. BROWNE discovered and named this extraordinary remedy, and confided its manufacture solely to J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury; therefore the assumption of the name or title of the word to any mixture or compound but the genuine is a gross and palpable deceit and representation of what is not true. Physicians and Practitioners are impressed with the necessity of remembering this fact, and when prescribing using the words Dr. J. COLLIS BROWNE'S Chlorodyne.

Price to the Profession, 3s. per fluid ounce, and in quantity of 10 ounces carriage free. The genuine bears a red stamp, with the words Dr. J. COLLIS BROWNE'S Chlorodyne, in white letters, over each bottle, and the signature of J. T. DAVENPORT on the label inside.

## Lichen Islandicus, or Iceland Moss

C O C O A .

Manufactured by DUNN & HEWETT, London.

Strongly recommended by the Faculty in all cases of Debility, Indigestion, Consumption, and all Pulmonary and Chest Diseases.

The two articles here combined are well known for their nutritive qualities. The Moss contains a large portion of nitrogen, or flesh-producing substance; and being prepared by a very careful and peculiar process, which frees it from all the grittiness and disagreeable flavour which are always so unpleasant, is rendered perfectly pure, with nothing but the beneficial parts left.

The Cocoa, containing more nutriment than most articles of food, being combined with the Moss, forms in this mixture an article of the greatest importance to the Invalid, and at the same time beneficial to the healthy and robust, restoring health where it is declining, and retaining it where already enjoyed.

Testimonial from A. H. HASSALL, Esq., M.D.

"I have carefully examined, both microscopically and chemically, the preparation of Iceland Moss and Cocoa made by Messrs. Dunn and Hewett: I find it to be carefully manufactured with ingredients of the first quality.

"The combination of Iceland Moss and Cocoa forms a valuable article of diet, suited equally for the robust and for invalids, especially those whose digestion is impaired. It is very nutritious, of easy digestibility, and it possesses, moreover, tonic properties." (Signed) A. H. HASSALL, M.D.
