## Moveable Artificial Eyes.—The Prize

MEDAL of the Great Exhibition, 1851, was awarded exclusively to the EYES made by W. R. GROSSMITH, 175, Fleet Street, London, Maker to the Senior Surgeons of the Ophthalmic, Bartholomew's, St. Thomas's, St. George's, and all the principal London Hospitals. They are fitted in a few hours, without pain or operation, in every case, where sight has been lost; they effect a perfect MOVEMENT, in accordance with the action of the natural eye; the colours of the Iris are closely matched, and they are the only Artificial Eyes yet invented not liable to crack in wearing. Sent by post to all parts of the world, from GROSSMITH'S Artificial Eye, Leg, Hand, and Nose Manufactory, 175, Fleet Street, London. Established 1760.

Or SACCHARATED CAPSULES.—Copaiba and Cubebs are, doubtless the best remedies, but these drugs are of a repulsive taste and odour, and occasion colicky pains, nausea, and gastric disturbance. M. JozEAU has succeeded in rendering these valuable therapeutic agents perfectly innocuous, by increasing, in his Copaine, all the curative properties. This preparation has been adopted by the Paris Academy of Medicine, after more than a thousand trials in Paris, and the different London Hospitals, viz., St. Thomas's, Guy's, and St. Bartholomew's, under the care of Messrs. Lloyd, Poland, and Le Gros Clark. "Lancet" Nov. 6, and Dec. 10, 1852. The Copaine, which is in form of a pretty pink sugar-plum, effects a cure in about six days, either in recent or chronic diseases. 100 Capsules, 4s. 6d. at G. JOZEAU'S, French Chemist, 49, Haymarket, London; 22, Rue St. Quentin, Paris; and all the most important Chemists.
