RETIREMENT OF M. RICORD. In accordance with the legal
 regulations of the Parisian hospitals, M. Ricord would have
 had, on the 1st of January of the coming year, to retire from
 the post of surgeon to the Hôpital du Midi, which he has for
 thirty years most worthily occupied. He has, however, taken
 the resolution of retiring at once; and, on Thursday week last,
 his farewell lecture was delivered to a numerous audience of
 members of the profession and of students. In his address,
 which lasted two hours, he gave a *resumé* of his labours.

MEDICAL MISSIONS TO CENTRAL AFRICA. In a letter from
 Archdeacon Mackenzie, the head of the Mission to Central
 Africa, occurs the following: "My chief anxiety at present is
 to find a really earnest as well as competent medical man,
 willing to go with us as a missionary, devoting himself and his
 talents and skill to God's glory and the good of his fellows." A
 Cambridge paper, alluding to this paragraph, thinks it a
 splendid opportunity for any gentleman who possesses com-
 petent medical and surgical skill, a hardy constitution, a love
 of enterprise and adventure, and a fondness for natural his-
 tory; such a man might easily make a splendid reputation.

DISEASES AT THE DIGGINGS. From the Australian papers it
 appears that the European population at the diggings are said
 to be in a state of excitement owing to the great influx of
 Chinese, amongst whom leprosy has broken out. The colonial
 government has appointed three medical gentlemen to examine
 into and report on the sanitary condition of the Chinese in the
 Braidwood district. Influenza has been general throughout
 the month of June, and prevailed with unabated virulence,
 especially in the country districts. In the week ending Satur-
 day, July 21st, more deaths occurred in the vicinity of Armi-
 dale, New South Wales, than ever occurred before in a similar
 period.

ROYAL COLLEGE OF SURGEONS. The Library and Museum of
 this institution were reopened on Monday last.

 and DISORDERS of the MIND: their Incipient Symptoms, Patho-
 logy, Diagnosis, Treatment and Prophylaxis.

By FORBES WINSLOW, M.D., D.C.L. Oxon., etc.

"Insanity is now no more incurable than half the physical diseases that
 afflict mankind. This change has been wrought by the humane labours and
 the genius of Pinel and his followers, of whom Dr. Forbes Winslow is
 perhaps the most illustrious. Dr. Winslow seeks to trace the steps by which
 cerebral disease advances, from its first dawn until the time comes when the
 lurid light of insanity shines out with a horrible and unmistakable glare,
 before which the torch of reason pales and is extinguished. This work is
 rich in the fruits of a great experience, reasoned with the subtle logic of an
 able dialectician, and pregnant with the honesty of a Christian philosopher."

Crosse and Blackwell, Purveyors in

Ordinary to Her Majesty, respectfully invite attention to their PICKLES, Sauces, Tart Fruits, and other table delicacies, the whole of which are prepared with the most scrupulous attention to wholesomeness and purity. The practice of colouring pickles and tart fruits by artificial means has been discontinued, and the whole of their manufactures are so prepared that they are not allowed to come in contact with any deleterious ingredient. A few of the articles most highly recommended are, Pickles and Tart Fruits of every description, Royal Table Sauce, Essence of Shrimps, Soho Sauce, Essence of Anchovies, Jams, Jellies, Orange Marmalade, Anchovy and Bloaters Pastes, Strasbourg and other Potted Meats, and Calf's-foot Jellies of various kinds for table use. C. and B. are also sole Agents for M. Soyer's Sauces, Bécham, and Aromatic Mustard; and for Carstairs' Sir Robert Peel's Sauce, and Payne's Royal Osborne Sauce. The above may be obtained of most respectable Sauce Vendors throughout the United Kingdom; and Wholesale of CROSSE and BLACKWELL, 21, Soho Square.

BROWN & POLSON'S

Patent Corn Flour.

The Lancet States,

"THIS IS SUPERIOR TO ANYTHING OF THE KIND KNOWN."

First of the kind Manufactured and Patented in the United Kingdom and France, as explained, with Engravings, in *The Illustrated London News* of May 26th. Supplied by BROWN & POLSON, to Her Majesty the Queen, by order from Buckingham Palace. It is in great favour wherever it has been made known, for Puddings, Blanc-mange, etc., preferred to the best arrow-root, and especially suited to the delicacy of Children and Invalids.

BROWN & POLSON, Manufacturers and Purveyors to Her Majesty: Paisley, Manchester, Dublin, and London.

For Varicose Veins and Weakness.

—Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS, on a New Principle, pervious, light in texture, and *inexpensive*, yielding an efficient and unvarying support, under any temperature, without the trouble of Lacing or Bandaging. Likewise, a strong low-priced article for Hospitals and the Working-classes.

ABDOMINAL SUPPORTING BELTS for both Sexes, those for Ladies' use, before and after accouchement, are admirably adapted for giving adequate support with EXTREME LIGHTNESS—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed.

Instructions for measurement and prices on application, and the articles sent by post from the Manufacturers,

POPE and PLANTE, 4, Waterloo-place, Pall Mall, London. The Profession, Trade, and Hospitals supplied.

Lichen Islandicus, or Iceland Moss C O C C A.

Manufactured by DUNN & HEWETT, London.

Strongly recommended by the Faculty in all cases of Debility, Indigestion, Consumption, and all Pulmonary and Chest Diseases.

The two articles here combined are well known for their nutritive qualities. The Moss contains a large portion of nitrogen, or flesh-producing substance; and being prepared by a very careful and peculiar process, which frees it from all the grittiness and disagreeable flavour which are always so unpleasant, is rendered perfectly pure, with nothing but the beneficial parts left.

The Cocoa, containing more nutriment than most articles of food, being combined with the Moss, forms in this mixture an article of the greatest importance to the invalid, and at the same time beneficial to the healthy and robust, restoring health where it is declining, and retaining it where already enjoyed.

Testimonial from A. H. HASSALL, Esq., M.D.

"I have carefully examined, both microscopically and chemically, the preparation of Iceland Moss and Cocoa made by Messrs. Dunn and Hewett: I find it to be carefully manufactured with ingredients of the first quality.

"The combination of Iceland Moss and Cocoa forms a valuable article of diet, suited equally for the robust and for invalids, especially those whose digestion is impaired. It is very nutritious, of easy digestibility, and it possesses, moreover, tonic properties." (Signed) A. H. HASSALL, M.D.
