TO ADVERTISERS.

British Medical Journal.—Office,
37, GREAT QUEEN STREET, LINCOLN'S INN FIELDS, LONDON, W.C.

The Journal of the British Medical Association is published every Saturday, and is transmitted direct from the Office to BETWEEN TWO AND THREE THOUSAND Members of the Association in all parts of the United Kingdom, among whom are the Medical Officers of most Hospitals and Dispensaries, and the majority of the leading members of the profession. It is also taken in by many Libraries and Medical Societies, and thus comes under the notice of a large number of Medical Men not connected with the Association.

SCALE OF CHARGES FOR ADVERTISEMENTS.

Four lines and under	£0 2 6
Each additional line	0 0 6
A whole column	2 15 0
A page	5 0 0

A line contains ten words.

When a series of insertions of the same advertisement is ordered, a reduction is made in the above charges.

Advertisements ought to be delivered and paid for at the Office on the Thursday preceding publication; or if not paid for at the time, should be accompanied by a respectable reference.

Post-Office Orders are to be made payable at the Western Central District Office, High Holborn, to THOMAS JOHN HONEYMAN (the Publisher), 37, Great Queen Street, Lincoln's Inn Fields, London, W.C.

Williams and Son's Pure Glycerine

SOAP, analysed by Dr. HOFMANN, F.R.S., and PROFESSOR REDWOOD, Ph.D., strongly recommended by many eminent Members of the Medical Profession, and favorably noticed by the following Medical Journals.

The *British Medical Journal*.
The *Lancet*.
The *Medical Times and Gazette*.
The *Medical Circular*.
The *Edinburgh Medical Journal*.
The *Dublin Hospital Gazette*.

It is suited to all cases of delicate skin (whether arising from disease or otherwise), and is admirably adapted for nursery use. May be had of all respectable Chemists, Perfumers, etc.

SOAP WORKS, CLERKENWELL, LONDON, E.C.

Lichen Islandicus, or Iceland Moss
C O C O A.

Manufactured by DUNN & HEWETT, London.
Strongly recommended by the Faculty in all cases of Debility, Indigestion, Consumption, and all Pulmonary and Chest Diseases.

The two articles here combined are well known for their nutritive qualities. The Moss contains a large portion of nitrogen, or flesh-producing substance: and being prepared by a very careful and peculiar process, which frees it from all the grittiness and disagreeable flavour which are always so unpleasant, is rendered perfectly pure, with nothing but the beneficial parts left.

The Cocoa, containing more nutriment than most articles of food, being combined with the Moss, forms in this mixture an article of the greatest importance to the Invalid, and at the same time beneficial to the healthy and robust, restoring health where it is declining, and retaining it where already enjoyed.

Testimonial from A. H. HASSALL, Esq., M.D.

"I have carefully examined, both microscopically and chemically, the preparation of Iceland Moss and Cocoa made by Messrs. Dunn and Hewett: I find it to be carefully manufactured with ingredients of the first quality.

"The combination of Iceland Moss and Cocoa forms a valuable article of diet, suited equally for the robust and for invalids, especially those whose digestion is impaired. It is very nutritious, of easy digestibility, and it possesses, moreover, tonic properties." (Signed) A. H. HASSALL, M.D.

Pepsine.—M. Boudault begs to state

that he cannot be answerable for the purity and strength of any Preparation sold under his name unless obtained from his sole Agent, Mr. PETER SQUIRE, Her Majesty's Chemist, 277, Oxford Street, London. to whom all applications respecting it must be addressed.

Second Edition of Boudault on "Pepsine", with Remarks by English Physicians; edited by W. S. SQUIRE, Ph.D. Published by J. Churchill, London. May also be had of the Author, 277, Oxford Street. Price 6d.
