

Furthermore, that the sums placed by Parliament at the disposal of the Government and of the Royal Society should, in the former case, be augmented, and, in the latter, not necessarily limited to 1000*l.*, but increased wherever "special reasons may be assigned for an additional sum." That scientific officers shall be placed more nearly on a level, in respect to salary, with such other civil appointments as are objects of ambition to civilised men. Finally, the Royal Society expresses its satisfaction at the concentration of the principal scientific societies at Burlington House, and suggests the establishment of some Board "which might advise the Government on all matters connected with science." The society concludes by pointing out the fees taken upon the granting of patents as the proper fund from whence money might be taken, if necessary, for the purpose of carrying out their recommendations.

**MEDICINE IN EGYPT.** All who are interested in the progress of medicine will be gratified in learning that the school of medicine in Cairo has been reopened. The school, which was founded about thirty years ago by Dr. Clot-Bey, was suppressed by the late Viceroy Abbas Pasha, and its founder was compelled to retire from Egypt. On the 10th of September last the institution was reopened, under the presidency of Ethem Pasha, to whom the progress of public instruction in Egypt owes much. Dr. Clot-Bey delivered a discourse on the occasion, and proclaimed the opening of the school.

**LUNACY.** The receipts of the Lunacy Commissioners in the year ended the 31st of July, 1856, amounted to £14,491, and the payments to about £13,158.

## TO CORRESPONDENTS.

LETTERS and other COMMUNICATIONS for the JOURNAL should be directed to the private address of the Editor, 39, Curzon Street, May Fair.

To CONTRIBUTORS. The Editor would feel glad if Members of the Association and others, would cooperate with him in establishing as a rule, that in future no paper for publication shall exceed two pages of the Journal in length. If the writers of long communications knew as well as the Editor does, that lengthy papers *always* deter the reader from commencing them, this great evil would never arise. Brevity is the soul of medical writing—still more than of wit.

Members should remember that corrections for the current week's JOURNAL should not arrive later than Wednesday.

NOTICE.—DR. WYNTER will feel obliged if the Associates will address all Post Office Orders in payment of Subscriptions, to the Publisher, Mr. THOMAS JOHN HONEYMAN, 37, Great Queen Street, Lincoln's Inn Fields, London, W. C.; and he would also feel obliged by their sending all communications respecting the non-receipt of the Journal, to the same address; as both these matters are out of the province of the Editor.

Communications have been received from:—MR. J. H. T. KING; MR. W. JAMESON; MR. G. BIRD (Tollerton); MR. J. S. GAMAGE; MR. CHARLES PEARSON; DR. J. SLOANE; MR. THOMAS PAGET; MR. T. L. PRIDHAM; DR. C. Hands and Feet, Vertebrae, and Loose Bones, at the lowest possible prices.

## Pure Country Bread, supplied every

Day by Train, by G. BILLINGS, of Sawbridgeworth, Herts.

G. BILLINGS begs respectfully to call the attention of the Public to the  
subjoined Testimonial (vide the *Lancet*, March 26th, 1882), as to the pure  
and unadulterated nature of Bread made by him.

Having been earnestly solicited by numerous parties in London to intro-  
duce it to the public, he has appointed as his agents—Mr. Holloway,  
18, Liverpool-street, Bishopsgate; Billings, 189, Kingland-road; Morgan,  
Lime-street, City; Boniface, Goswell-road Granary.—N.B. All Bread supplied  
to the London public is stamped, "G. BILLINGS, Sawbridgeworth."

London Hospital, March 17th, 1882.  
I have made a careful analysis of the Bread manufactured by Mr. George  
Billings, Sawbridgeworth, Herts, and I find that it is perfectly free from  
everything of a deleterious nature; besides which, it is of good colour and  
light texture, is pleasant to the taste, entirely free from acidity, easy of diges-  
tion, and apparently well suited to the wants of the dyspeptic.

HENRY LETHBRIDGE, M.B.,  
Professor of Chemistry, etc., in the London Hospital.

January 21st, 1886.  
Sir,—I hereby certify that I have this day terminated a careful examination  
of the loaves (one of which was Brown Bread) which you left with me for the  
purpose a few days ago; that they were all perfectly free from alum, and in  
every respect genuine, each according to its kind. I feel, therefore, much  
pleasure in giving you this certificate under the conditions which you have  
accepted, and which are recited in your letter to me—namely, that you have  
undertaken to forfeit £50 in behalf of a Provident or Charitable Institution  
should Bread or Flour in any way adulterated be subsequently found exposed  
for sale in your shop.—I remain, Sir, yours respectfully,  
Mr. Billings, Baker, Sawbridgeworth. Dr. NORMANDY.

\* \* \* Orders by post punctually attended to.

Mr. HOLLOWAY, 18, Liverpool Street, City. Central Depot.

## Williams and Son's Pure Glycerine

SOAP, analysed by Dr. HOFMANN, F.R.S., and PROFESSOR  
REEDWOOD, Ph.D., strongly recommended by many eminent Members of the  
Medical Profession, and favourably noticed by the following Medical Journals:

The *Lancet*.  
The *Medical Times and Gazette*.  
The *Medical Circular*.  
The *Dublin Hospital Gazette*.

It is suited to all cases of delicate skin (whether arising from disease or  
otherwise), and is admirably adapted for nursery use. May be had of all  
respectable Chemists, Perfumers, etc.
