## REPORT OF THE ANÆSTHETICS COMMITTEE

OF THE

BRITISH MEDICAL ASSOCIATION.

This Report is based on 25,920 recorded cases of the administration of anæsthetics in Great Britain, tabulated and analysed with a view to the investigation of the influence of various factors in the production of complications and danger under each of the chief anæsthetics.

The Report deals with many interesting and important questions, and contains 76 statistical tables together with detailed accounts of more than 800 complicated cases.
