DISEASES OF THE HEART.

Their Diagnosis, Prognosis, and Treatment

by Modern Methods.

With a Chapter on the Electro-Cardiograph.

Demy 8vo, 48s. pp. Very fully Illustrated. 21s. net

Lancet.—"By great care, and by the use of an amazing amount of material, he has accomplished what many readers have been waiting for, giving us a complete account of the diagnosis, prognosis, and treatment of heart diseases by modern methods in association with all the invaluable teaching bequeathed to us by the older masters of clinical observation."

British Medical Journal.—"The book presents a comprehensive account of modern knowledge of cardiology."

Edinburgh Medical Journal.—"Taken as a whole the book is, from the practitioner's standpoint, one of the best of the many monographs on the heart that has appeared in recent years."

Dublin Medical Journal.—"It is probably destined to take the place in the library of the present day physician, that was occupied some twenty or more years ago by Sir W. Broadbent's well-known work."

Practitioner.—"In his evident desire to place before his readers a succinct, and at the same time, a comprehensive account of cardiac disease in the light of modern knowledge, Dr. Price has certainly succeeded."

Midland Medical Review.—"It is impossible to enumerate the many excellencies of this book."

London: HENRY FROWDE AND HODDER & STOUGHTON.

By O. LEYTON, M.D., D.Sc., F.R.C.P. Physician to the London Hospital,
