## THERE ARE TWO SCHOOLS OF THOUGHT ABOUT LIFE ASSURANCE.

ONE ANNOUNCES:—"No Agents, No Commission," and believes that thereby the position is greatly improved from the point of view of the insured. This view is restricted to about half a dozen offices. THE OTHER SCHOOL comprises practically all the Leading Life Offices.

The **MEDICAL INSURANCE AGENCY** has examined the results of all the offices and is convinced that the ultimate return under a Life Policy effected through this Agency depends upon factors independent of commission.

That is why the **MEDICAL INSURANCE AGENCY** does not bind itself to any particular company or class of companies, but considers only *your* interests in the advice it gives.

Where commission is earned a special rebate is made to the doctor insuring.

Incidentally the balance of commission earned goes to the support of the Medical Charities.

**THE MEDICAL INSURANCE AGENCY EXISTS TO PROTECT YOUR INTERESTS AND SAVE YOUR MONEY.**
