UNIV. OF MICH.

The Journal of the British Medical Association.
WITH SUPPLEMENT.

No. 3059.

SATURDAY, AUGUST 16, 1919.

Price 1/-

NOTICE.

THE MEDICAL DIRECTORY.

The issue for 1920 being in preparation, all practitioners should now make returns to the Editors. A fresh circular, if needed, will be sent on application.

Owing to demobilization the changes of addresses, appointments, etc., in the New Issue will exceed all previous experience. Copies will therefore be of unusual value.

Terms: 18s. to those who prepay.

Advertisers should take advantage of the increased circulation, due to the return of normal conditions.

7, GREAT MARLBOROUGH ST., LONDON, W. 1.

DISEASES OF THE HEART.

Their Diagnosis, Prognosis, and Treatment
 by Modern Methods.

With a Chapter on the Electro-Cardiograph.

Demy 8vo, 184 pp. Very fully Illustrated. 21s. net

Lancet.—"By great care, and by the use of an amazing amount of material, he has accomplished what many readers have been waiting for, giving us a complete account of the diagnosis, prognosis, and treatment of heart diseases by modern methods in association with all the invaluable teaching bequeathed to us by the older masters of clinical observation."

British Medical Journal.—"The book presents a comprehensive account of modern knowledge of cardiology."

Edinburgh Medical Journal.—"Taken as a whole the book is, from the practitioner's standpoint, one of the best of the many monographs on the heart that has appeared in recent years."

Dublin Medical Journal.—"It is probably destined to take the place in the library of the present day physician that was occupied some twenty or more years ago by Sir W. Broadbent's well-known work."

Practitioner.—"In his evident desire to place before his readers a succinct, and at the same time, a comprehensive account of cardiac disease in the light of modern knowledge, Dr. Price has certainly succeeded."

Midland Medical Review.—"It is impossible to enumerate the many excellencies of this book."
