DISEASES OF THE HEART. Their Diagnosis, Prognosis, and Treatment by Modern Methods.

With a Chapter on the Electro-Cardiograph.
Demy 8vo, 484 pp. Very fully Illustrated. 21s. net

Lancet.—"By great care, and by the use of an amazing amount of material, he has accomplished what many readers have been waiting for, giving us a complete account of the diagnosis, prognosis, and treatment of heart diseases by modern methods, and in association with all the invaluable teaching bequeathed to us by the older masters of clinical observation."

British Medical Journal.—"The book presents a comprehensive account of modern knowledge of cardiology."

Edinburgh Medical Journal.—"Taken as a whole the book is, from the practitioner's standpoint, one of the best of the many monographs on the heart that has appeared in recent years."

Dublin Medical Journal.—"It is probably destined to take the place in the library of the present day physician that was occupied some twenty or more years ago by Sir W. Broadbent's well-known work."

Practitioner.—"In his evident desire to place before his readers a succinct, and at the same time, a comprehensive account of cardiac disease in the light of modern knowledge, Dr. Price has certainly succeeded."

Midland Medical Review.—"It is impossible to enumerate the many excellencies of this book."

London:

THE FUTURE OF MEDICINE

By Sir JAMES MACKENZIE, F.R.S., M.D., F.R.C.P., LL.D. Ab. & Ed., F.R.C.P.I. (Hon.), Consulting Physician to the London Hospital.
Demy 8vo. Cloth. Illustrated. Price 8/6 net.
"It is not often that a book appears like Sir James Mackenzie's 'Future of Medicine.' Every thoughtful medical man should read it."
—BRITISH MEDICAL JOURNAL.

HENRY FROWDE AND HODDER & STOUGHTON, 17, Warwick Sq., Newgate Street, London, E.C. 4.
Price 2s. 6d. net (postage 3d.).

OTITIS MEDIA (MASTOID DISEASE).

Saving the Hearing of the Discharging Ear with Perforated Drumhead.

By CHARLES J. HEATH, F.R.C.S. Eng., Consulting Aurist, Metropolitan Asylums Board, Late Surgeon Throat Hospital, Golden Sq., London.

"... the efforts which for some years Mr. Charles J. Heath has made to convince otologists that the radical mastoid operation is out of date. As long ago as 1906 he expounded his views upon the cure of chronic suppuration of the middle ear without the removal of the drum or ossicles, or loss of hearing. Since then he has made the matter his constant study and observation, proving conclusively the value of the conservative mastoid operation which he has introduced."—*Medical Press*
"We have no hesitation in describing Heath's paper as epoch-making. It is the first occasion in which the diagnosis of invisible tympanic conditions has been made possible as a guide to treatment."—*St. Bartholomew's Hospital Journal*.

"In his book, Mr. Heath gives us a new pathology in Otitis Media... His work is already widely known, and this publication of his will carry conviction that the old pathology and the antiquated methods of treatment are finished, and that a new era has dawned in aural surgery... It is a work which every medical man should read and possess, and which all education authorities should consult."—*Medical World*.

London: BAILLIERE, TINDALL & COX, 8, Henrietta Street, Covent Garden, London, W.C. 2.

By LESLIE THORNE THORNE, M.D., B.S., etc. NAUHEIM TREATMENT IN ENGLAND OF DISEASES OF THE HEART AND CIRCULATION.
