'WELLCOME' BRAND

INSULIN

Prepared throughout by Burroughs Wellcome & Co., under licence from the Medical Research Council. By a complicated system of fractionation, the specific activity of INSULIN is concentrated and constituents which tend to lessen its stability are eliminated.

A booklet has been prepared which contains a summary of clinical evidence and detailed notes on administration. A copy will be sent gratis and post free to any practitioner on request.

'WELLCOME' BRAND INSULIN is supplied to the Medical Profession, in rubber-capped amber glass phials, containing 100 units in a volume of 5 c.c. Ample supplies are available.
