TRADE

'INFUNDIN'

MARK

'Infundin' is Pituitary (Infundibular) Extract made by Burroughs Wellcome & Co.

If you write "Pituitary Extract," or any contraction, you risk getting products of variable origin and varying strength. When you write 'INFUNDIN,' you get a physiologically standardised product, of definite potency and proved keeping quality.

'INFUNDIN' is now issued in two strengths:

- (1) 'HYPOLOID' 'INFUNDIN' (New Standard, equivalent to 10 % Extract; conforms to the standard recommended by the Medical Research Council and the U.S.P. It is supplied to *special order only*).
- (2) 'HYPOLOID' 'INFUNDIN' (Original Strength, equivalent to 17 % Extract).

Each strength is supplied in hermetically-sealed containers of 0.5 c.c., and 1 c.c., in boxes of 6. New Standard, at 3/9 and 5/6 per box; Original Strength, at 4/6 and 7/6 per box.
