## ESTABLISHED IN 1907

The MEDICAL INSURANCE AGENCY has for its object to ensure that every Medical Man desiring to take out a policy of Assurance or Insurance obtains the particular policy most suited to his needs. The M.I.A has no axe to grind. No policy is recommended unless the security offered is absolute, the terms fair to the assured, and the premium payable is sufficiently low in comparison with the return offered by the company to make the contract "good business" from the point of view of the doctor.

All classes of Insurance are dealt with, and the Medical Insurance Agency secures reductions of premiums in nearly every case.

Since last winter further service has been offered by the provision of free expert advice, born of skill and experience, in any matter relating to the purchase, use, or sale of Motor Cars.

### AT THE MOTOR SHOW THIS YEAR

the Consulting Engineers to the Agency, Messrs. MANN, EGERTON & Co., LTD., have arranged for a number of representatives from their various departments to be at the service of Medical Men, with a view to advising them on any technical or business matters on which they require assistance.

You help yourself and the Medical Charities by CONSULTING THE AGENCY which has  
SAVED £14,000 by way of reductions on Premiums. CONTRIBUTED £11,500 to the Charities.
