With 10 Plates and 25 Woodcuts, 8vo, 7s. 6d.

Stricture, and other Urinary Disorders.

By REGINALD HARRISON, F.R.C.S., Surgeon to the Liverpool Royal Infirmary.

"These lectures contain an able record of an extensive experience. The cases chosen to illustrate his views are well selected, and in themselves form a collection of clinical observations of no small merit."—*Med. Times & Gaz.*

"We have seldom read a book with greater enjoyment than this. The charm of it depends upon the manner in which the subject is handled quite as much as, if not more than, on the intrinsic attractiveness of its theme."—*Indian Medical Gazette.*

"We have space only for this brief notice of some of the principal features of these admirable lectures. It is calculated to be of great value to practitioners as well as students."—*New York Medical Journal.*

"Ce petit livre élémentaire est un résumé clinique concis, clair, bien lisible, intéressant, écrit sur la partie la plus importante de la pathologie des voies génito-urinaires, sur leur traitement."—*Gazette Hebdomadaire.*
Liverpool: HOLDEN. London: CHURCHILL.

Now ready, Second Edition, revised, and incorporating the Author's LECTURES upon ELECTROTHERAPEUTICS, with 10 Illustrations, 8vo, cloth, 3s. 6d.

How to Use a Galvanic Battery.

By HERBERT TIBBITTS, M.D., F.R.C.P. Edin., Senior Physician to the West-end Hospital for Diseases of the Nervous System, Paralysis, and Epilepsy.

"Within a space of a little over seventy pages, Dr. Tibbitts has managed to compress a large amount of information of just the kind that the practitioner requires, and we can recommend it as a really useful practical guide to the subject."—*Lancet.*

"A small book giving details clearly and concisely is of greater value than a large monograph. On the whole, Dr. Tibbitts' volume meets this want sufficiently well, and it contains a good deal of valuable information."—*Brit. Med. Jour.*

J. & A. CHURCHILL, New Burlington Street.

Second Edition, with Plates, 8vo, price 15s.

On Diseases of the Chest:

Second Edition, Revised and Enlarged. By A. T. H. WATERS, M.D., F.R.C.P., Physician to the Liverpool Royal Infirmary.

"We have to congratulate the profession on the appearance, in an enlarged form, of Dr. Waters' book. One of the most valuable treatises hitherto published on diseases of the chest."—*Dub. Med. Journal.*

"We are glad to welcome a second edition of the thoughtful and practical lectures and papers which are collected in Dr. Waters' volume. Comprising the result of many years' careful observation of the subjects to which they refer, they have a special value to the pathologist and to the practitioner."—*The Lancet.*

"Œuvre consciencieuse, fruit de méditations sincères et de recherches assidues. Il est vraiment pratique."—*Gaz. Méd. de Paris.*

J. & A. CHURCHILL, New Burlington Street.

Miss Lonsdale and the Guy's Hospital Nurses.

By Dr. MOXON.

Contemporary Review for MAY.

Dr. Moxon on Miss Lonsdale AND THE GUY'S HOSPITAL NURSES.
