**THE BRAIN as an ORGAN OF MIND.**

By H. CHARLTON BASTIAN, M.D., F.R.S., Professor of Pathological Anatomy and of Clinical Medicine in University College, London, Physician to University College Hospital and to the National Hospital for the Paralyzed and Epileptic.

"It teems with new and suggestive ideas..... Dr. Bastian's volume is a valuable and highly original contribution to the science with which it deals."—*Athenæum*.

"The diverse, complicated, and profound problems of psychology and neurology with which it is engaged, have never before been so fully, ably, and lucidly presented to the general reader."—*Brain*.

"This work is the best book of its kind. It is full and at the same time concise; comprehensive, but confined to a readable limit; and though it deals with many subtle subjects, it expounds them in a style which is admirable for its clearness and simplicity..... It will supply a want which has been much felt by specialists as well as by general readers."—*Nature*.

C. KEGAN PAUL & Co., Paternoster Square, London.

Also, by the same Author, 8vo, 10s. 6d.,  
**ON PARALYSIS FROM BRAIN DISEASE in ITS COMMON FORMS.**

MACMILLAN & Co., Bedford Street, London.

Now ready, 8vo, 5s.

**Orthopragms of the Spine.**

Illustrated by a Typical Collection lately presented to the Parkes Museum of Hygiene, University College, London. By ROBERT HEATHER BIGG, Assoc. Inst. C.E.

J. & A. CHURCHILL, New Burlington Street.

Just published, Second Edition, Enlarged, and chiefly Re-written, with Coloured Plates, price 10s. 6d.

**Diseases of the Ear.**

By GEORGE P. FIELD, M.R.C.S., Aural Surgeon to St. Mary's Hospital, and Lecturer on Aural Surgery in the Medical School.

"Plain, shrewd, common-sense."—*British Medical Journal*.

"This book is worthy to have reached a second edition in a very short time, as it has done. It will be found to be very practical and helpful to the student and to the general practitioner."—*The Lancet*.

"The medical practitioner will not often take up a book on a special subject the perusal of which will afford him more pleasure and satisfaction."—*Medical Press and Circular*.

"Of all the smaller text books we have recently seen this seems to us to contain the most..... The plan is novel and the book is good."—*Medical Times and Gazette*.

"Book of value for reference."—*American Journal of Otolary*.

**MALCOLM MORRIS ON SKIN DISEASES.**

Now ready, with Illustrations, crown 8vo, 7s. 6d.

**Skin Diseases: including their**

Definitions, Symptoms, Diagnosis, Prognosis, Morbid Anatomy, and Treatment; a Manual for Students and Practitioners.

By MALCOLM MORRIS, F.R.C.S. Edin., Joint Lecturer on Dermatology, St. Mary's Hospital Medical School; and formerly Clinical Assistant, Hospital for Diseases of the Skin, Blackfriars.

"The book is clearly and concisely written, and the subject handled in a way calculated to be readily intelligible to students."—*THE LANCET*.

"It is an extremely skilful and intelligent condensation of the essentials of dermatology; and it shows throughout the marks of careful observation, as well as well-grounded scientific study. The arrangement is systematic, the style clear, and the matter accurate. The manual possesses therefore all the essentials of sound instruction, and is likely to lead to satisfactory practice on the part of those who rely on it for their guidance."—*BRITISH MEDICAL JOURNAL*.
