"Dr. Latham gives an interesting discussion on the  
conditions of the nervous and vascular systems which  
may probably be associated therewith. . . . Whether the  
theory itself be accepted or not, the indications for  
treatment which the writer points out appear to be  
sound, and the treatment recommended is probably  
the best attainable."—*The Athenæum*  
"We can cordially commend Dr. Latham's book. . .  
Contains much sound sense on the subject."—*Med.
