On Paralysis from Brain Disease in its COMMON FORMS.

By H. CHARLTON BASTIAN, M.D., F.R.S., Physician to University College Hospital, and to the Hospital for the Paralyzed and Epileptic.

"We have formed a high estimate of this work. No one should omit reading it who wishes to keep abreast of recent progress in the difficult department of cerebral disease."—*Glasgow Med. Jour.*

"The author has been able to discuss every part of his subject in the light of a wide, practical, and scientific knowledge."—*The Lancet.*

"The remarks on treatment are, we think, practical, sagacious, and clinically useful."—*Brit. Med. Jour.*

"There is no better account of cerebral paralysis in our language."—*Birmingham Medical Review.*

MACMILLAN & Co., London.

Dr. Matthews Duncan on PUERPERAL FEVER.

The article on the non-epidemic character of Puerperal Fever, with large Diagrams showing the Deaths from Scarlatina, Puerperal Fever, Erysipelas, and Rheumatism in each week of the years from 1848 to 1874 will appear in the *Edinburgh Medical Journal* for March.

The Journal is published monthly, price 2s., and may be had of any Bookseller, or will be sent post free for 12 months for 24s., or for 6 months for 12s., on application to OLIVER and BOYD, Edinburgh.

Sixth Edition, price 12s. 6d.

Theory and Practice of Midwifery. By FLEETWOOD CHURCHILL, M.D. Dub. and Edin., M.R.I.A. The Sixth Edition, thoroughly Corrected and Illustrated by 126 highly finished Wood Engravings.

"It is clear in style, methodical in arrangement, and sound in matter."—*The Lancet.*

London: HENRY RENSHAW. Dublin: FANNIN & Co.
