22. Food, in Health and Ill-health .. 1

23. Conclusion .. 1

"This work is not put forward as an imperfect Practice of Physic. It is a novel attempt to explain the rationale of our Therapeutics. First, the Physiology of the subject is given, so far as it bears on actual practice; then the Pathology is adduced; after that the action of remedies is examined; and finally, their application in actual practice is described."—PREFACE.

MAGILLAN & CO., London.

Price 4s.

On Epilepsy, Hysteria, and

ATAXY. By JULIUS ALTHAUS, M.D., M.R.C.P., Physician to the Hospital for Diseases of the Nervous System.
