In the Press, a Second Edition, revised and enlarged, of the **HASTINGS ESSAY**, for 1873.

On the Pathology and Treatment of DISEASES of the OVARY.

By LAWSON TAIT, F.R.C.S., etc., Surgeon to the Birmingham Hospital for Women, and Consulting Surgeon to the West Bromwich Hospital.

"Mr. Tait's views are original, and the essay will be read with pleasure by every one interested in ovarian pathology. It shows evident marks of the years of study and personal investigation which the author has devoted to the subject, and we hope he will continue his labours in the same direction."—*British and Foreign Medico-Chirurgical Review*.

"It is gratifying to find a treatise giving so much valuable matter in so condensed a form. The essay is a work of considerable merit, and will repay a careful perusal."—*Obstetrical Journal*.

"An essay of very great merit."—*British Med. Jour.*

The Diseases of Children.

Translated from the German of STEINER by LAWSON TAIT, F.R.C.S., Surgeon to the Birmingham Hospital for Women.

"A very comprehensive treatise, embracing everything that could be suggested in regard to children's diseases proper. The author has succeeded very well in presenting his descriptions clearly, and yet so concisely as to render the work especially adapted to the wants of the student and general practitioner.... The translation is well done, and the annotations of Mr. Tait add to the value of the work."—*New York Med. J.*
