## THE BRAIN AS AN ORGAN OF MIND.

By **H. CHARLTON BASTIAN, M.D., F.R.S.**, Professor of Pathological Anatomy and of Clinical Medicine in University College, London, Physician to University College Hospital and to the National Hospital for the Paralyzed and Epileptic.

"It teems with new and suggestive ideas. .... Dr. Bastian's volume is a valuable and highly original contribution to the science with which it deals."—*Athenæum*.

"The diverse, complicated, and profound problems of psychology and neurology with which it is engaged, have never before been so fully, ably, and lucidly presented to the general reader."—*Brain*.

"This work is the best book of its kind. It is full and at the same time concise; comprehensive, but confined to a readable limit; and though it deals with many subtle subjects, it expounds them in a style which is admirable for its clearness and simplicity. .... It will supply a want which has been much felt by specialists as well as by general readers."—*Nature*.

C. KEGAN PAUL, & Co., Paternoster Square, London.

Also, by the same Author, 8vo, 10s. 6d.,

## ON PARALYSIS FROM BRAIN DISEASE IN ITS COMMON FORMS.

MACMILLAN & Co., Bedford Street, London.

Just Published, crown 8vo, cloth boards, 1s. 6d.

## How to Feed an Infant.

With Notes on some of the Common Ailments of Infancy.  
By **BENSON BAKER, M.D.**  
London:—BAILLIÈRE, TINDALL, & Cox, 20, King William Street, Strand.

Just published, Second Edition, Enlarged, and chiefly Re-written, with Coloured Plates, price 10s. 6d.

## Diseases of the Ear.

By **GEORGE P. FIELD, M.R.C.S.**, Aural Surgeon to St. Mary's Hospital, and Lecturer on Aural Surgery in the Medical School.

"Plain, shrewd, common-sense."—*British Medical Journal*.

"This book is worthy to have reached a second edition in a very short time, as it has done. It will be found to be very practical and helpful to the student and to the general practitioner."—*The Lancet*.

"The medical practitioner will not often take up a book on a special subject the perusal of which will afford him more pleasure and satisfaction."—*Medical Press and Circular*.

"Of all the smaller text books we have recently seen this seems to us to contain the most. .... The plan is novel and the book is good."—*Medical Times and Gazette*.

"Book of value for reference."—*American Journal of Otolaryngology*.

London: H. RENSHAW, 356, Strand.

## On the Immediate Treatment of STRICTURE of the URETHRA.

By **BARNARD HOLT, F.R.C.S.**, Consulting Surgeon to the Westminster Hospital.

"Mr. Holt's method of treatment of stricture of the urethra by 'immediate dilatation' is so fully recognised and practised by surgeons of the day, that his work, in which the results of his own practice are recorded, can need no recommendation."—*Lancet*.

"This work will both spread Mr. Holt's already well-earned reputation, and—what he will value far more—will help to lessen human suffering and prolong human life."—*Edin. Med. Jour.*

London: J. & A. CHURCHILL, New Burlington Street.

Next week, 7s. Coloured Plates, imperial 8vo, £5 5s.
