THE BRAIN AS AN ORGAN OF MIND.

By H. CHARLTON BASTIAN, M.D., F.R.S., Professor of Pathological Anatomy and of Clinical Medicine in University College, London, Physician to University College Hospital and to the National Hospital for the Paralysed and Epileptic.

"It teems with new and suggestive ideas..... Dr. Bastian's volume is a valuable and highly original contribution to the science with which it deals."—*Athenæum*.

"The diverse, complicated, and profound problems of psychology and neurology with which it is engaged, have never before been so fully, ably, and lucidly presented to the general reader."—*Brain*.

"This work is the best book of its kind. It is full and at the same time concise; comprehensive, but confined to a readable limit; and though it deals with many subtle subjects, it expounds them in a style which is admirable for its clearness and simplicity..... It will supply a want which has been much felt by specialists as well as by general readers."—*Nature*.

C. KEGAN PAUL, & Co., Paternoster Square, London.

Also, by the same Author, 8vo, 10s. 6d.,

ON PARALYSIS FROM BRAIN DISEASE IN ITS COMMON FORMS.

"Highly instructive and valuable observations on subjects in which he is known to have taken some special interest."—*Half-Yearly Abstract of the Med. Sciences*.

"We know of no surgical writer of the present day whose communications are more thoroughly replete with originality.... We wish this work all success, and feel assured we will receive the grateful thanks of every reader for directing his attention to this writer and to all his publications."—*Edin. Med. Jour.*
